"As it is difficult to get to the Tributary States and back to Puri under a week, if any work has to be done, it may be imagined that these five visits were a serious impediment to my becoming acquainted with the Puri district itself. Besides the Tributary States and Khurda, I have visited Satpara, Bhubaneswar, and the Jaganath road, but the north-east and south-west corners of the district are unknown to me."

16. The following is taken from the report of the Khurda Subdivisional Officer:—

"For the purposes of the milan khasra work, the subdivision having been divided into three circles, assigned to different officers, including the Subdivisional Officer himself, his tours were necessarily confined to a much more circumscribed area than usual, and the major portion of these tours was devoted to operations directly or indirectly connected with this work.

"Owing to lack of survey instruments, which were not received till January 1894 and not distributed till end of February 1894 and the rains, it was impossible to undertake milan khasra operations during the months from May to August 1893 in more than a few mauzas immediately surrounding the headquarters. In September and October, experiments with a view to revising and improving the milan khasra rules were undertaken in a few mauzas at no great distance from Khurda. As a result of this, the Subdivisional Officer found reason to confirm him in his belief that to pave the way for milan khasra operations it was necessary to make extensive and thorough enquiries into the unauthorized cultivation of waste lands, and to compel the raiyats as a body to apply for registration of all unauthorized changes.

"During November and December 1893 and from January to March 1894 applications for waste lands of 303 villages of zillas Khurda and Dandimal were disposed of by personal enquiries at the spot or from some places very near to the sites. In this way no less than 7,644 applications were disposed of. Simultaneously with this waste land work, the work of mutation of names in respect of raiyati holdings was also vigorously prosecuted.

"From October 1893 to March 1894 inclusive, the total number of petitions received was 28,332 against 4,121 from April to September 1893 inclusive, and the total number for the whole year 1893-94 was 32,453 against 4,737 for the year 1892-93.

"During a short time in the latter end of March 1894, the Subdivisional Officer inspected the progress made in the milan khasra work by a large number of sarbarahkars in the direction of Bolegarh, and found it almost without exception satisfactory. In his opinion the work now being done can be equally well utilized, whether the old milan khasra rules are maintained, or whether the new plan, which has been suggested by Mr. Finucane during his late visit to Khurda, be adopted by Government.

"The very seasonable and plenteous rainfall of 1893-94 obviated the necessity of any considerable portion of the touring season being devoted to relief work or enquiries into failure of crops. The only enquiries made had reference to the standing case of loss of crops, chiefly lying in Balavadrapur and the Mogulbandi zillas, on account of floods in the Daya river, the left bank of which it has been decided to abandon. A number of affected villages in zillas Khurda and Dandimal were visited by the Subdivisional Officer, the enquiries in the other zillas being made by other circle officers. The loss of crops for the present year, though considerable, was less than the average, and there was no reported loss of life or of cattle."

Besides the above, the Subdivisional Officer's tours were utilized in frequently visiting an experiment in potato cultivation which was being made on a portion of flooded area near the point where the Khurda-Puri road crosses the Daya river, and in visiting and inspecting the offices of some of the kanungos, the Khurda and Banpur stations, most of the outposts, and the two estate dispensaries. A number of estates' improvements, agricultural, and sanitary works were also inspected. Enquiries were made as to the progress of vaccination, the sarbarahkars as a body being urged to help to the best of their ability, and the Barunai, Gurujung, Atri, and Khandagiri fairs were visited, and arrangements for the preservation of sanitary conditions were made in the case of larger fairs.

Amongst matters of a miscellaneous nature which engaged the Subdivisional Officer's attention during his tours, were enquiries into local irrigation disputes, investigation of complaints against sarbarahkars, enquiries about *toila* cultivation, visits to the four forest blocks of Dandimal deforested in 1892, a visit to the temple of Bhubaneswar to report on a petition calling on Government to maintain the temple in repair, and a visit to the disputed land in Bargarh mauza claimed by the Bhubaneswar temple.

17. The following table shows the dates when the different district and subdivisional offices and treasuries were inspected by different officers:—

(*d*) Inspections made by—	District Offices.		
	Cuttack.	Balasore.	Puri.
1	2	3	4
(1) Commissioner ...	September 1893	July and August 1893.	May 1893.
(2) Collector ...	„ „	September 1893	August and September 1893.
	March 1894	March 1894	March 1894.

(*e*) Inspections made by—	District Treasuries.		
	Cuttack.	Balasore.	Puri.
1	2	3	4
(1) Commissioner ...	.....	.....	.....
(2) Collector ...	April 1893	September 1893	September 1893.
	September „	March 1894	
	March 1894		

(*f*) Inspections made by—	Subdivisional Offices and Sub-Treasuries.			
	Jajpur.	Kendrapara.	Bhadrak.	Khurda
1	2	3	4	5
(1) Commissioner ...	March 1894	October 1893	August 1893	November 1893.
(2) Collector ...	July 1893	June „	„ „	September „
	December „	February 1894	December „	
			February 1894	

18. In addition to the above, the Banki office and sub-treasury were also inspected twice by the Collector of Cuttack, once in October 1893 and once in January 1894. The Subdivisional Officers also made half-yearly inspections of their respective offices and sub-treasuries.

III.—WEATHER AND CROPS.

19. The necessary statistics under this head are given in appendices I and II as usual. Appendix I shows that during the year under report the rainfall was far more than in the two preceding years and in excess of the average rainfall of each of the districts, which is shown in the Census Report to be as follows:—

Cuttack	...	59·51
Balasore	...	66·38
Puri	...	52·01

the rainfall during the year under report being 72·18, 73·58, and 68·60, respectively, as per appendix I. The rainfall was not only excessive, but was very badly distributed and proved unfavourable to several crops, as will appear from the following. The Collector of Cuttack says:—

"The weather was very abnormal throughout the year, the first half (April to September) being unusually rainy—more like East Bengal or Assam—and the last half, November to March, practically rainless. This abnormal weather prejudicially affected the crops in general."

He says further that on account of heavy and excessive rainfall, floods, and a cyclone in the ploughing and sowing season, a part of the area both of *beali* and *sarad* never dried sufficiently to admit of cultivation. There were, again, high floods in the following September, followed by cessation of rains. The outturn of the above two crops was therefore not more than 9 annas on an average. The *rabi* was similarly affected by excessive rain at the time of sowing, and cessation of rain afterwards. Excessive rainfall and floods are reported to have similarily affected the paddy crop in Balasore, where the outturn is, however, reported to be 15 annas in the Sadar and 12 annas in the Bhadrak subdivision.

In the district of Puri the excessive rain and floods in the early part of the rainy season are reported to have seriously affected the *beali*, *sarad* and sugarcane crops in the Sadar subdivision, where the outturn of the winter rice crops is estimated at 12 annas, taking 16 annas to represent the average crop. The subdivision of Khurda was not, however, so much affected, the undulating character of the soil facilitating the draining off of superfluous water. The outturn there was full 16 annas. The deficiency in the district was made up by the *dalua* crop, which does not depend on rain water, being grown on swampy places. The divisional result was thus not worse than in the preceding year or the year before, taking all the crops into consideration, as will appear from Appendix II.

IV.—PUBLIC HEALTH.

20. The table below shows the details of mortality from various causes which occurred in the several districts of this Division during 1893 as compared with that of 1892:—

District.	Number of deaths from—														Ratio of deaths per mille of population.	
	Cholera.		Small-pox.		Fever.		Bowel-complaints.		Injuries.		Other causes.		Total.			
	In 1892	In 1893.	In 1892.	In 1893.	In 1892.	In 1893.	In 1892.	In 1893.	In 1892.	In 1893.	In 1892.	In 1893.	In 1892.	In 1893.	In 1892	In 1893.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
Cuttack ...	21,289	2,884	4 290	2,135	28,759	22 641	4,674	3,928	1,226	1,281	14,060	14,745	74 208	47,014	39 34	24·26
Balasore .	14,926	1,825	Not given.		14,140	11 290	Not given		Not given		14,307	12,610	43 373	26,725	43·61	25·91
Puri ..	2,997	1,763	2,261	2,415	5,490	7,293	3,152	2,671	464	585	12,276	12,701	33,640	27,428	37·86	29·08
Total ...	40,212	6,472	6,551	4,550	48,389	41,224	7,826	5,909	1,690	1,866	40,643	40,056	151,311	100,167	39·0	25·8

21. The public health during the year, as is evident from the foregoing statistics, was better than that of the preceding year, but worse than the two previous ones, the mortality as compared with that of 1892 being only 25·8 per mille of the population, as against 39 in 1892, 25·0 in 1891, and 22·5 in 1890. There was a decrease in deaths under almost all heads of complaints, that under cholera being the most striking. This disease is reported not to have broken out in an epidemic form in any of the districts, although unusually large numbers of pilgrims passed through the Division on the occasion of the special Naba Kalibar festival in connection with the Rath Jatra. This happy result is attributed to a plentiful supply of water as a consequence of the unusually heavy rains of the year, which also contributed towards keeping the season cool. Towards the close of the year it is reported from Balasore that a short outbreak of cholera occurred in the Bhadrak subdivision, which was almost confined to villages on the banks of the rivers Salandi, Baitarni and Matai. The Collector notices this as a curious fact, it being supposed that some impurity must have been washed down with the water from the Gurjats. The Collector of Puri mentions with

satisfaction the fact that though there was a great increase in the number of pilgrims that visited Puri, cholera in an epidemic form was totally absent. He writes: "The sanitation of the town and the roads leading thereto, where most of the cholera is found, is looked after as far as limited means will allow, but I fear the arrangements, as elsewhere in rural India, are too elementary to have much effect on the death-rate. A shower of rain has probably as much effect in preventing disease as a dozen latrines."

The Subdivisional Officer of Khurda states: "The abundant rainfall confined the ravages of cholera to a few sporadic cases. Khurda subdivision is not traversed by the most important of the pilgrim routes, but in addition to the pilgrims from Central India by the Sambalpur road, it is liable to visit by worshippers of Siva at Bhubaneswar and neighbouring shrines. Fortunately these visits did not bring in their train their usual accompaniments, death and disease."

22. The decrease in the death-rate from cholera in a year of an exceptionally large gathering of pilgrims, and the facts above stated, go to support the theory of Mr. Cornish, noticed in the last year's report, paragraph 11, that cholera is not connected with the influx of pilgrims.

Vaccination.

23. The following table gives the statistics of vaccination:—

District.	Number of vaccinators.	Number of persons vaccinated.	Successful	Unsuccessful and unknown.	Cost of establishment.	Average cost per head.	Average cost per head of successful cases.	Number of cases inspected.	
								Found successful.	Found otherwise.
1	2	3	4	5	6	7	8	9	10
					Rs. A. P.	Rs. A. P.	Rs. A. P.		
Cuttack	87	17,467	16,068	1,399	2,159 12 3	0 1 4	0 1 6	16,068	1,399
Balasore	48	23,852	23,292	460	1,563 0 0	0 1 0	0 0 11	26,754*	566*
Puri	36	18,123	17,314	729	1,654 7 8	0 1 5	0 1 6	16,461	427
Total	164	59,462	56,674	2,588	5,377 3 11	0 1 5	0 1 6	59,243	2,392
Total for 1892-93 ...	96	43,890	42,308	1,582	2,967 1 11	0 0 10	0 0 9	37,554	1,372

* The difference between these and the total number vaccinated is due to the fact that those cases which have been inspected by different inspecting officers have been taken as so many different cases inspected

24. Of the number of licensed vaccinators in Cuttack, seven were apprentices. The Civil Surgeon of Cuttack, who is the Superintendent of Vaccination, inspected only 100 cases, and the rest were inspected by his staff, consisting of one Inspector and three Sub-Inspectors. He offers the following remarks on the vaccination of the district:—"The working of vaccination is very backward. Besides seeing about a hundred vaccinated cases, I have on my visits to dispensaries inspected several roadside villages and found a large number of children unprotected. I am myself very much occupied by the charge of a medical school and a large and increasing number of cases in a large hospital, and am hardly able to devote any time to vaccination. The vaccination is very backward, and requires a special Deputy Superintendent to organise and develop it. An effort was made to introduce and extend calf-vaccination in the district, as it is in full vigour in town. I vaccinated and sent to various parts of the district several calves. The result has not been satisfactory, as the people object and the vesicles dry up before their consent is obtained."

25. The decrease in the number of vaccinators in the Balasore district is said to be due to the system of a security deposit of Rs. 10 having been required from each vaccinator, in consequence of which those who failed to deposit their security withdrew their names from the establishment. It is not known if this system is in force in the other districts of the Division, and if it is, the effect seems to have been otherwise in them. The increase in the number of persons vaccinated in Puri is attributed by the District Officer to the better organization of the Civil Medical Officer, the greater industry of the vaccinators, and the increased popularity of the operations.

26. The following extract is reproduced from the report of the Puri Collector, showing vaccination work in that district:—

"The most noteworthy feature in the year's history of vaccination is the introduction of free vaccination. Hitherto the vaccinators have, I believe, been employed for the larger proportion of their time in collecting their fees, and vaccination has proportionately suffered; but in the year under report the Board

sanctioned an expenditure of Rs. 850 on vaccination, and operations were thereafter performed free of cost. The figures show an increase of operations, but the inspecting staff has been and is so incompetent that I do not think the comparison of figures leads to any trustworthy result. I believe the figures have been far more rigidly tested this year than in previous years, as the change in the position of the vaccinators has necessitated it; but it is a difficult thing to ascertain whether a vaccinator who claims 150 successful operations in a month has really done the work alleged or not. I regret the experiment that has been made, though I admit its success. It seems to me unreasonable that people should expect to be vaccinated gratuitously, and that Rs. 1,000 should be provided annually out of the public money to meet the expectation. Sooner or later it will be necessary to revert to the old system, and then the old opposition will be found to have been multiplied a hundredfold. It has been decided, for reasons which my predecessors and myself have been unable to appreciate, to refrain from making vaccination compulsory. The discontinuance of the experiment of free vaccination probably this very year will, speaking very generally, place before us the alternative of compulsory vaccination or none. As there seems no hope of the adoption of the former alternative, the experiment, however successful, is regrettable. The success, so far as the performance of successful operations go, is undeniable. Little reliance can be placed on the total figures either of this or of past years, but the personal observation of the Civil Medical Officer has shown beyond doubt that a great deal of good work has been done, probably far more than in previous years."

The good work I believe to be as much due to the zeal and interest that Dr. Banks shows in the work, as to the fact that vaccination is free. I lean to Mr. Coxe's view that vaccination should be made obligatory in Puri.

27. Two cases were instituted in Cuttack under Act V (B.C.) of 1880, and two persons sent up for trial were both convicted, against three cases in 1892-93, in which two persons were convicted and one acquitted. There were four cases of practising inoculation under Act IV (B.C.) of 1865, and five persons were sent up. They were all acquitted. In the preceding year 40 persons were sent up in 26 cases, and of these 21 were convicted and 19 acquitted.

28. There was no case, either under Act V (B.C.) of 1880 or Act IV (B.C.) of 1865, during the year in the Balasore district. In the previous year there were two cases only, under Act IV (B.C.) of 1865, of which one was declared false and the other resulted in the conviction of one person The Magistrate of Puri is silent on this point. His attention will be called to it.

V.—MATERIAL CONDITION OF THE PEOPLE.

29. The effect of the unusually heavy rainfall of the year and the consequent floods has already been noticed, the outturn of the staple rice crop being estimated at 9, 13 and 14 annas in the three districts of Cuttack, Balasore and Puri respectively. The condition of the people is reported to have varied in proportion to the outturn; in Cuttack it is reported to have been not satisfactory, in Balasore not bad, and in Puri satisfactory. I cannot think, however, that the condition of the tenantry, except in special cases where crops have entirely failed, is bad anywhere. The landless class, here as elsewhere, are poor, and their poverty has been aggravated by high prices. The following extracts from the district reports describe the condition of the districts severally :—

30. Mr. Stevenson of Cuttack writes: "For the last three years there has not been anything like a bumper crop, and during the year 1893-94 the outturn in many parts of the district was very poor in consequence of the unusual rainfall in spring, especially at the time of the cyclone of May 1893, which was attended with a heavy rainfall. This, besides interfering with cultivation, resulted in a large stock of paddy stored in pits being swamped and destroyed.

"There was also a large export of rice, though owing to bad harvest this was comparatively less than in 1892-93. All these circumstances combined caused the price of rice and of all other food-grains to rule very high—a fact which told very severely upon the agricultural as well as upon the non-agricultural classes of the population, the former having sold off their stocks to satisfy the demands of their mahajans, from whom they had received advances of grain and cash, and the latter more specially, as they, being non-producers of cereals,

had to depend entirely upon the markets, and their incomes did not increase in proportion to the rise in prices."

31. The Collector of Balasore states:—"The excessive rainfall, and the floods in consequence of it, caused the crops to suffer in some parts of pargana Bhgrai in north of the district, and in parganas Kauna, Bhra and Byang in south of the district. The labouring classes of the affected parts are feeling some difficulty, but are not in distress nor in need of any assistance. The relief works in pargana Kamarada, which were opened on account of the loss of crops in the previous year, were closed in November 1893 at the harvest of winter rice crop. The high price of food-grains prevailed in the district during the year under report, but the raiyats could not reap the benefits from it, as the landlord and the mahajan between them took practically all the crops of the year in satisfaction of their demands. It will take more than one good year to improve the condition of the people. In parts of the district, especially towards Chandbali, there is a tendency to over-export during the cold season, with the result that prices rise abnormally in the early month of the rainy season till the new crop is assured. On the whole the condition of the people is not bad in the district."

32. The Subdivisional Officer of Khurda has given much thought to the matter as regards the condition of the people of his subdivision, and his interesting remarks are reproduced below :—

"The population of Khurda is almost entirely agricultural, that is, nearly every person has some more or less direct connection with the tillage of the soil. Nevertheless, for purposes of enquiry into the material condition of the people, it is, I think, possible to divide roughly the population into four classes—

(1) The trading or mahajan class.
(2) Agriculturists proper.
(3) The artisan class.
(4) The class of unskilled labourers.

"The present year has been, I believe, for the first two classes a year of more than average prosperity. It has been a year of excellent harvest, so far as the staple crop is concerned, following on an equally favourable year. Prices have remained at the high level at which they have stood for the last two or three years, and there has been no increased demand in the shape of enhanced rent. The person who owns land and subsists by its cultivation has thus every reason to be satisfied with its present position. The prosperity which has attended the agricultural class during the last two years has been, as a matter of course, reflected on the trading and mahajan classes.

"It remains to consider how the rise in prices has affected the artisan and unskilled labourer. Whatever may be their condition, it is safe to say that, so far as the present year is concerned, they are neither better nor worse off than in the preceding year. There has been no appreciable change in prices either of food or of labour during the last three years; and as there was no falling off in the sources of employment during the year under report, it may be safely presumed that no exceptional hardship has marked their condition during the year under report.

"I am, however, of opinion that no sufficient attention has been paid in the past to the question how far the condition of the third and fourth classes is gradually altering for the better or worse as a general fact. The change from year to year may not be appreciable, and yet a comparison of relatively distant dates may afford very well marked indications of the process of change.

"The enquiries I have made in this matter have not been sufficiently extensive to enable me to state any well-established theory, but they suggest two important considerations which are worthy of further investigation:—

"(1) That while the skilled labourer, *e.g.* the mason, carpenter, blacksmith, &c., has been able to advance the price of his labour with the price of food, the unskilled labourer's wages have been almost stationary for the last 20 years during which there has been a rise in the price of food of not less than 50 per cent.; and

"(2) That there is a rapid increase in the numbers of the landless classes.

"With regard to the first consideration, I have made verbal enquiries of some of the older residents, sarbarahkars and contractors, and verified their statements by reference to the accounts of one of the chief Khurda contractors. The figures thus got have been compared with the price of the staple crop (rice) for the last 25 years as shown by the Khurda kanungo. All whom I have asked are agreed that the present condition of the cooly is one of great hardship, and that the ordinary necessaries of life are with difficulty procurable by him.

"The second of the two considerations affects the first, because the artisan and the unskilled labourers in Khurda, though not at any period supported by the tillage of their own lands, have most of them possessed a few plots whereby they have eked out their earnings. The information available from estate mutation records seems to show that a process is going on whereby these small holdings are being gradually transferred to the hands of mahajans or wealthy raiyats.

"During the last twelve years there have been about 48,000 cases of mutation by sale. In a thousand cases disposed of in the present year, I found that no less than 426 of the vendors were persons whose original holdings were less than one acre, and 283 vendors sold all the land they had. An extension of the percentage found in the selected cases to the whole number of mutations would seem to indicate a transfer of about 13,000 persons from the land-holding to the landless classes during a period of 12 years.

"These notes are given for what they are worth. I am conscious that there is no less reliable source of information than badly prepared statistics, and my only object has been to suggest the direction in which enquiry may be pursued in future. The coming Khurda settlement of 1897, if proper statistical enquiries are made, ought to throw a flood of light on the question how far it is politic to entrust to raiyats a free power of land mortgage and transfer such as was accorded to them in the current settlement.

"Considerable attention, I find, has been paid in the past two years to the concession of *toila* cultivation to aborigines and Uriyas as a means of improving their condition.

"During the year 1893-94, 1,140 acres were granted to 1,175 applicants. Of this amount 459 acres were granted to Uriyas and 681 to 11 aborigines. Applications were refused in 372 cases. While these were the facts as shown on paper, I have no doubt whatever that a much larger amount of land was actually cultivated in *toila*. No check was made of the excess cultivation, as it was not deemed advisable to effect a sudden reversal of the policy pursued by my predecessor. By limiting the amount of grant to three máns per head, and refusing applications in cases where the culturable waste of a village was reported to be only a few acres, I attempted to discourage the practice. I do not think that in a good year, when harvest is abundant and there is no deficiency in the sources of labour employment, we should allow the best part of the grazing lands, fuel, and timber stock to be destroyed by persons who are either thriftless and indolent cultivators, or mere nominees of sarbarahkars and wealthy raiyats. It may be a good thing to allow the cultivation of forest lands, even though to the prejudice of the general community, in years when there is scarcity causing distress amongst the poorer classes, but it is not a policy to be pursued indiscriminately year by year. The amount of *toila* granted last year was 2,520 acres and 1,654 acres to aborigines and Uriyas respectively."

* * * * * * *

VI.—EMIGRATION AND IMMIGRATION.

33. No emigrants or immigrants were registered during the year, either under Act I of 1882 or XXI of 1883; but the marginally-noted free emigrants passed through the cooly depôts in Cuttack and Balasore. Their number compared with the previous year shows an increase.

	Adults.	Children.
Cuttack ...	487	124
Balasore ...	162	7

34. The number of depôts for the accommodation of free emigrants during the year remained the same as in the previous year in Cuttack, viz. three, and increased by one in Balasore, making the number four. These depôts were

regularly inspected by the Magistrates and police officers, their sanitary condition was found good, and no abuses of any sort coming to light.

35. Besides the usual movement of labourers between Calcutta and Chandbali, the Subdivisional Officer of Khurda reports that a number of people belonging to Ganjam and other Madras districts came to Khurda to work on the East Coast Railway, some up-countrymen engaged in the same work having also temporarily settled there.

VII.—PRICES OF FOOD AND LABOUR.

36. Appendices III and IV exhibit the prices of food-grains and wages of labour which prevailed during the year.

37. Owing to comparatively good harvests in Balasore and Puri and to the decrease of exports to the northern part of Balasore, where there was insufficient crop, the prices of the staple food-grain were much easier there than in the two preceding years, being 17 seers 1 chitak in each, as against 16 seers 8 chitaks and 14 seers 15 chitaks in 1892-93, and 13 seers 7 chitaks and 15 seers 4 chitaks in 1891-92 respectively. It was in Cuttack alone that the prices ruled high, the price of common rice having risen from 16 seers 9 chitaks in 1891-92 and 16 seers 3 chitaks in 1892-93 to 14 seers 14 chitaks in the year of report. The causes which contributed to bring about this result are thus set forth by the Collector of Cuttack. He writes: "The outturn of the crop of 1892-93 was below the average, and there were large exports by Bombay merchants; what remained had been stored in pits—as usual in the hot weather, the season of fires—when the unusually heavy rain of May 1893 destroyed a large portion of the stock. This, combined with the low outturn of the year, caused the prices of food-grains to rule higher than usual."

38. The wages of labour remained almost stationary in Cuttack and Puri; Balasore shows some increase, which is attributed partly to a better class of artisans being available, and partly to increased demand for labour.

VIII.—MINES AND MANUFACTURES.

39. There is nothing to add to what I said last year under this head. With regard to the manufacture of salt, the only important industry in the Province, no salt was manufactured in Balasore: the district of Puri is capable of producing salt in two places—(1) the mouth of the Devi, and (2) the Chilka tracts. The Devi tracts were not worked during the year under report. The two factories, Gurbai and Tua, on the Chilka, were worked.

The following is a statement of the quantity of salt manufactured and sold, and the number of malangis employed:—

Year.	Quantity manufactured.	Quantity sold.	Number of pans worked.	Number of malangis employed.
1	2	3	4	5
	Mds.	Mds.		
1892-93 ...	52,962	50,250	145	519
1893-94 ...	15,422	15,103	565	1,695

40. The Madras system was in force during the year. Though larger numbers of malangis were employed and more pans worked, the outturn was far less than in the preceding year, and this is ascribed to the unfavourableness of the season. From the factories at the Devi, 8,860 maunds of the old salt was sold in addition to the above.

IX.—TRADE AND COMMERCE.

41. There has been a decrease of Rs. 30,07,226 or 20·7 per cent. in the aggregate value of the sea-borne trade as compared with the figures of the preceding year. The following table exhibits in detail the value of the imports and exports port by port for the past five years:—

Port.	Year.	Value of imports.	Value of exports.	Total value of trade.
1	2	3	4	5
		Rs.	Rs.	Rs.
Cuttack	1889-90 ...	1,01,652	16,78,647	17,80,299
	1890-91 ...	1,47,122	30,16,554	31,63,676
	1891-92 ...	41,176	41,56,594	41,97,770
	1892-93 ...	1,79,990	32,35,176	34,15,166
	1893-94 ...	1,10,422	23,83,956	24,94,378
Balasore	1889-90 ...	60,50,495	40,84,336	1,01,34,831
	1890-91 ...	57,84,542	46,11,557	1,03,96,099
	1891-92 ...	76,70,184	48,49,255	1,25,19,439
	1892-93 ...	66,16,673	41,30,047	1,07,46,720
	1893-94 ...	50,70,781	36,01,509	86,72,290
Puri	1889-90 ...	2,139	2,21,362	2,23,501
	1890-91 ...	11,031	5,44,457	5,55,488
	1891-92 ...	7,485	6,00,608	6,08,093
	1892-93 ...	160	3,30,232	3,30,392
	1893-94 ...	334	3,18,050	3,18,384

42. The Collector of Cuttack attributes the decrease in the export trade partly to the poor rice harvest during the year and partly to the Bengal-Nagpur Railway, which now carries off the rice from the Sumbulpur side, for which the Mahanadi was formerly the only outlet. The fall in import is explained to be due partly to the trade between Calcutta and Cuttack being carried on *viâ* Chandbali in Balasore, and partly to the reduction of the price of kerosine-oil in America. The Collector of Balasore attributes the decrease in export to the decline of the Malabar coast trade, and that in import to the increase of imports through the Coast Canal. The decrease in export in Puri is explained to be due to the non-exportation of rice to the Indian ports during the year. Properly speaking, there is no import trade in Puri. Occasionally a few Government stores are imported by sea.

43. Inland trade is not registered, and no statistics are available for it. The Collector of Balasore, however, reports that the value of the trade by the Coast Canal amounted to Rs. 4,64,433, and that 386 tons of rice and paddy were exported from his district, against 867 tons in the previous year, by Range No. III of the High Level Canal. The chief articles of trade of the Province are rice, pulses, oilseeds, cocoanuts, cotton twist, yarn, jute, cloths, hides, horn, dried fish, tobacco, spices, betelnuts, timber, salt, lac, nux vomica, resin, kerosine and other oils, copper, lead, gold, silver, ironware, &c.

44. The passenger traffic during the past two years is shown in the following statement:—

Number of passengers arrived and departed in		1892-93	... 290,833
Ditto	ditto	1893-94	... 297,843

It will be seen that there was an increase of 7,010 passengers during the year under report as compared with the figures for the previous year. The increase is attributed to a larger influx of pilgrims to Puri during the last Car festival.

X.—ADMINISTRATIVE CHANGES.

45. The following are the changes worth noticing:—

Cuttack	...	14
Balasore	...	13
Puri	...	11
Total	...	38

1*st*—Abolition of 38 police outposts, as per margin, in the three districts, under Government Resolution No. 1333J., dated 2nd March 1894.

2*nd*—Constitution of a special police-station for the town of Cuttack.

3*rd*—Employment of chaukidars instead of constables in the towns of Cuttack, Jajpur, and Kendrapara.

4*th*—Appointment of an additional Excise Sub-Inspector in the district of Puri to guard against smuggling of exciseable articles from the Tributary States.

5*th*—Conversion of the Khurda Bench into an Independent Bench.

6*th*—Reversion of the permanent kanungos from the settlement work to the regular line in the district of Cuttack.

7*th*—The peshkush or tribute of killa Keonjhar was ordered to be paid into the Balasore instead of the Cuttack treasury.

46. The Magistrates of Cuttack and Puri do not welcome the abolition of so many outposts. The former is afraid that it will encourage bad characters to frequent the Trunk Road, occasion delay in police investigation, and create difficulties in *post-mortem* examination in cases of unnatural death. The latter regrets that the reasonable suggestions of his predecessor have not been taken into consideration, and thinks it most injurious to abolish the outposts of Kakatpur, Brahmagiri, and Kanas.

The Collector of Cuttack says that its benefits have been neutralized by the want of good men in the higher grade, in consequence of which the town sub-inspector has still to be deputed to investigate important cases. Regarding the chaukidars also, the Collector says that their employment is likely to prove a failure in Cuttack town, "where the men enlisted, the best to be obtained, are as a rule a bad lot, and now that they find it is not to be all play and money-making, they are resigning freely." The Collector of Cuttack says that the sadar kanungo and kanungos have come back with no addition to their stock of knowledge, having been employed as ordinary muharrirs in the Settlement Department.

XI.—STATISTICAL ENQUIRIES.

47. With the exception of the usual statistics of rainfall, crops, mortality, prices-current, &c., no statistics of importance were collected during the year under report.

XII.—CIVIL JUSTICE.

48. The statistics for statements VI, VII, and IX have been supplied by the District Judge, and those for statement VIII by the Collectors, as rent suits are tried by the revenue courts in this Division. The number of civil suits disposed of and those pending show an increase in such suits. There has been a noticeable increase in title suits and a decrease in those for money before all the courts. I am not in a position to account for this. It is satisfactory to note the increase in the number of suits disposed of and the decrease in the number of witnesses detained over two days before all the courts, though there is an increase in the total number of witnesses examined. The pending file has somewhat increased in the courts of the Munsifs of Kendrapara and Jajpur.

49. As regards rent suits (statement VIII) all the districts show an increase in the total number of suits, as well as in disposals. The increase is ascribed to the settlement proceedings in Balasore, and to the institution of an unusually large number of suits by the Rani of Puri for recovery of arrears in Puri. The increase in Cuttack is said to be due partly to bad crops for the last two or three years, and partly to the settlement proceedings. The pending file for the Division has increased, though there is an increase in the number of cases disposed of. The result is satisfactory on the whole. The columns 12 to 14 are blank against the officers in Cuttack. To account for this the Collector says that attendance register of witnesses was not opened for want of forms. This is not satisfactory.

XIII.—CRIME.

50. The number of cognizable and non-cognizable cases during the year under report is compared below with those of the preceding year:—

District.	Cognizable cases.				Non-cognizable cases.				Total.			
	1892.	1893.	Increase.	Decrease.	1892.	1893.	Increase.	Decrease.	1892.	1893.	Increase.	Decrease.
1	2	3	4	5	6	7	8	9	10	11	12	13
Cuttack	2,832	3,160	328	...	2,856	2,988	132	...	5,688	6,148	460	.
Balasore	1,944	1,643	302	...	2,346	2,173	...	73	3,490	3,815	325	...
Puri	3,013	3,531	518	..	1,175	1,428	253	..	4,188	4,959	771	
Total ...	7,089	8,333	1,244	.	6,277	6,589	312		13 366	14,922	1,556	

51. The year is criminally the worst since 1889. The increase in each district is accounted for in the following manner:—In Cuttack the increase in cognizable cases is partly in offences against property and partly in offences prosecuted by the town police; and that in non-cognizable cases is partly under class IV, minor offences against the person, and partly under the Indian Salt Act. To account for this the Collector says:—"Settlement operations, as well as the suspension of agricultural operations for a long time, owing to extremely heavy rainfall, contributed greatly to this increase." In Balasore the increase in the cognizable cases is ascribed to the settlement operations, while the decrease in non-cognizable crime is too small to call for any remark. In Puri the increase under both heads is ascribed on the one hand to a large concourse of pilgrims leading to a considerable increase in offences under Act V of 1861 and under the Puri Lodging-house Act, and on the other hand to active prosecutions under the Excise and Forest Law.

52. The following table, however, shows a considerable increase in the total number of cases, both cognizable and non-cognizable, since 1889:—

District.	1889.	1890.	1891.	1892.	1893.
1	2	3	4	5	6
Cuttack	5,004	4,675	4,997	5,688	6,148
Balasore	4,273	4,169	3,296	3,490	3,815
Puri	3,767	3,242	4,031	4,188	4,959
Total ...	13,044	12,086	12,324	13,366	14,922

It has to be seen whether the variations are solely due to such temporary causes as have been assigned from year to year, or to an increasing criminal tendency of the people, or to the activity of the officers in bringing the offenders to justice, or to all these causes combined. The attention of the Magistrates will be invited to this, and they will be requested to deal with the matter specially.

53. It is, however, satisfactory to note that the Division continues to be free from serious crime.

XIV.—POLICE.

54. The following are the changes in the numerical strength of the police during the year under report. In Cuttack the long-felt want of a special sub-inspector for the town was supplied by the addition of one of the third grade to the sanctioned strength. In Balasore ten constables were replaced by the same number of town chaukidars.

55. The police was, moreover, reorganized as noted under heading "Administrative changes." The views of the District Officers of Cuttack and Puri regarding the abolition of some of the outposts have also been noted.

56. In addition to the sanctioned strength, a special police force of 4 head-constables and 100 constables was entertained for 30 days, at the cost of the

Superintendent of the Puri Temple, during the Car festival. Another force of one head-constable and 20 constables was similarly entertained during the Rath Jatra at Bhubaneswar, at the expense of the Temple Committee.

57. Statement X gives the required statistics under this head. It shows a slight improvement in the divisional result. During the year under report, out of 4,485 cases tried, 3,975 or 88·6 per cent. ended in conviction, against 3,170 out of 3,638 cases or 87·1 per cent. in the preceding year. It is difficult to say how much of this is due to the efficiency of the staff, the conduct of the police not having been favourably reported on in two of the districts. The Magistrate of Cuttack says: "Generally speaking, discipline is inclined to be lax among the constables, and the District Superintendent is doing what he can to improve it. Detective ability is at a very low ebb." The Magistrate of Balasore observes thus:—"On the whole the conduct of the police has not been good, especially among the literate head-constables. The constables have not behaved themselves as they did in the previous year. Some of the sub-inspectors have worked satisfactorily." The Collector of Puri has offered no remarks under this head. His attention has been invited to this.

58. There is an increase in the number of punishments over that of the preceding year. In Cuttack the number of officers and men departmentally and judicially punished was 96 against 71, and that in Balasore 74 against 57 in the preceding year. In Puri 45 men were punished both judicially and departmentally. No comparison can be made with the preceding year, as the figures for it have not yet been supplied.

59. No case of torture is reported; but in Cuttack one head-constable was convicted under section 161, Indian Penal Code, for taking an illegal gratification, and in Puri one constable was convicted under section 379, Indian Penal Code, and another was punished for associating with bad characters.

60. As regards the condition of the rural police, the matter is under consideration of the Government in connection with the Provincial settlement. I submitted a special report after the conference held by His Honour the Lieutenant-Governor during His Honour's visit to Cuttack in April last. I do not therefore think it desirable to reproduce the views of the Collector or myself, the unsatisfactory condition of the system, as well as that of the chaukidars, being well known. It may, however, be noted here, with regard to their conduct, that in the district of Cuttack 49 of them were punished judicially and 59 departmentally. Of the former, two are reported to have been convicted of dacoity. The reports of Balasore and Puri are silent on this point.

One case is reported from Puri of a constable having employed a chaukidar on menial duty. The former was duly punished.

XV.—CRIMINAL JUSTICE.

61. Required statistics under this head are given in the statements XI to XVI (both inclusive). Eight thousand four hundred and seventy-two cases were disposed of by the Stipendiary and Honorary Magistrates during the year 1893, against 7,782 in the preceding year.

62. The Stipendiary Magistrates convicted 5,379 out of 8,260 persons brought to trial. One thousand seven hundred and twenty-two persons out of 2,519 tried were convicted by the Honorary Magistrates. The percentage of conviction in the case of the former was 65·1, and that of the latter was 68·3, against 64·9 and 62·7 respectively in the previous year. There has been much improvement in the result of appeals preferred against the decisions of Honorary Magistrates, the ratio per cent. of orders confirmed to those appealed against being 76·78 as compared with 65·8 of the preceding year. In the case of Stipendiary Magistrates the ratio increased from 73·2 to 74·82. The percentages of convictions to persons tried by the several benches were as follows:—

Cuttack Sadar	...	...	41·3
Jajpur ...	...	...	25·3
Kendrapara	...	...	38·8
Balasore ...	...	...	55·5
Bhadrak ...	...	...	37·6
Puri ...	...	...	91·4
Khurda ...	...	...	45·8

The poorest result is noticeable in the Jajpur Bench, where the percentage has fallen from 27·1 in the previous year to what is shown above. Commenting on the working of this Bench, and with reference to my remarks contained in paragraph 33 of the last year's report, Mr. Stevenson, Magistrate of Cuttack, quoting the remarks of the Subdivisional Officer, observes as follows:—

"The members of the Jajpur Bench are all very regular in attendance; but they have still apparently a tendency to acquit unduly. I, as last year reported, requested the Subdivisional Officer, who is on the spot, to inspect the records of the cases tried by the Bench at intervals and in an informal manner (he not being in a position to call for records under section 435, Criminal Procedure Code), to note and indicate to the Bench, also in informal fashion, any apparent error. This he has been doing, and the result of one inspection he gives below: 'I find that out of 12 cases now examined, two only ended in convictions; all the others in acquittals. In these ten cases of acquittals, two were acquitted under section 248, Criminal Procedure Code, two under section 245, Criminal Procedure Code, and six either for want of proof or as civil disputes. Evidently the Bench Magistrates require such strict and reliable proofs that very few cases stand. Comparing the two cases in which conviction was made with the six cases in which acquittals were made, I hardly find any such difference in evidence as would warrant the difference in result. Taken from another point of view, I find the ten cases of acquittals to consist of one police case, two complaint cases in which the accused were summoned, and seven complaint cases in which the complainant was called upon to prove his case.

"In all the last seven cases the Bench Magistrates thought fit to summon the accused, and all ended in acquittals. Now, in my opinion, some of these complaints were so evidently civil disputes as to have been dismissed under section 203, Criminal Procedure Code; but the Bench Magistrates preferred summoning the accused, putting them to unnecessary expense and trouble, and ultimately passing verdict of acquittals.'

"I regret that from the Commissioner's remarks upon my last year's report, the above procedure did not seem to meet with his approval. But where, as at Jajpur, the Bench sits at a distance from head quarters, and I cannot myself see the records, I can devise no better mode of check, and neither the High Court nor Government has found fault with the procedure."

The recent orders of Government (*vide* Circular No. 4116J. of 29th August 1893) condemn the practice referred to.

63. The attendance of Honorary Magistrates was on the whole satisfactory, many gentlemen having attended more than 75 per cent. of the calls; they rendered material help in the disposal of criminal cases, and relieved the Stipendiary Magistrates of an amount of work which formed almost a third of the cases disposed of by them. There is only one Bench, viz. Puri Sadar, which sits daily.

64. No improvement is noticed in the matter of remands during the year under report as compared with the preceding year. Although the number of cases remanded more than six times decreased from 15 in 1892 to 12 in 1893, the ratio per cent. of A cases remanded six times and more to A cases disposed of increased from ·9 to 1·14. The number of A cases disposed of on the first hearing was smaller during the year under review than that of the year preceding, being 1,085 against 1,166 in 1892.

65. The result of sessions trials was almost the same as in the previous year, the percentage of convictions being 73·3 against 74·1 of the preceding year. Much improvement is noticed in Puri, where the percentage rose from 68 to 75.

66 The realization of criminal fines during the year was not satisfactory. The balance at the end of the year amounted to Rs. 21,538 against Rs. 18,473. Cuttack alone shows improvement in this respect, the outstanding balance in that district having decreased from Rs. 8,851 to Rs. 7,403. Nearly half of the divisional balance is outstanding in Puri. The Magistrate of the district submitted a remission statement for Rs. 6,520, but I hesitated to sanction such a wholesale remission, especially as fines imposed at the end of 1893 were included in the list submitted in May 1894. I have informed the Magistrate that I would remit fines up to 1892 if he thinks that all reasonable steps have been taken for their recovery.

XVI.—REGISTRATION OF DOCUMENTS.

67. Appendix XVII shows the required statistics under this head. The number of documents registered rose to 25,501 from 21,676 in the preceding year. All offices except the Bhadrak office show increase more or less. To account for the increase in his district the Registrar of Cuttack says:—"The increase in the number of registrations was chiefly in sales and mortgages, a circumstance which to some extent reflects the condition of the people at large. Survey and settlement operations in progress throughout the district accounted also in part for the increase, as people desired to have the best evidence of title; and an increasing appreciation of the advantages of registration was also to some extent responsible for this." The Collector of Balasore attributes the increase of 30 per cent. only to the provincial settlement. The Collector of Puri says the increase in his district is due partly to appreciation of the value of registration, and partly to the settlement proceedings having opened the eyes of the raiyats to the fact that their holdings are transferable.

68. It is to be noted that both the Collectors of Cuttack and Puri observe that increase is noticeable both in compulsory and optional registrations. In the district of Puri optional registration rose to 2,113 from 1,690 in the preceding year. The figures for the other two districts are not available. Making allowance for the causes assigned by the District Officer in the year under report as well as in the preceding one, I am inclined to attribute the increase in optional registration in some measure to the Full Bench Ruling of the Calcutta High Court in Makhan Lal Pal *versus* Bunku Behari Ghose, page 623, Indian Law Reports, Calcutta, Volume XIX, which in a manner makes optional registration compulsory under the Registration Act. It has, however, to be seen how far this is borne out by facts. The District Officers will be requested to consider the matter from this standpoint.

XVII.—CONDITION OF THE DIVISION AS REGARDS LAND AND LAND REVENUE ADMINISTRATION.

69. The prescribed statements XVIII to XXV give the required statistics under this head. The subject-matter having been dealt with in detail in the Land Revenue Administration Report, a brief review only is given here, as usual.

70. Out of the gross divisional demand, Rs. 18,86,592, the sum of Rs. 18,42,933 was collected, giving a percentage of 97·6 against 97·9 in the preceding year. The slight fall is mainly due in Cuttack to the non-adjustment of the balance due from certain estates sold against their sale proceeds, and in Puri to the fact that disturbances in the Tributary State of Ranpur caused delay in the payment of the tribute, which was not recovered till after close of the year. In Cuttack the accounts could not be adjusted pending decision of the appeals preferred towards the close of the year. This may be easily avoided by holding the sales earlier.

71. The divisional percentages of collection on gross and current demands in temporarily-settled and Government estates are compared below with that of the previous year:—

Class.	Percentage of gross collection on gross demand.		Percentage of gross collection on current demand.	
	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5
II ...	99·6	99·7	99·6	100·1
III ...	92·2	90·8	79·05	96·2

The slight increase in class II and the slight decrease in class III do not call for any special remark. It may, however, be noted that the percentage

of collection was 99 and 96·6 in the Government estates of Banki and Khurda respectively.

Sales of estates for arrears of revenue.

72. There were 24 sales under the Revenue Sale Law against 25 in the preceding year. There is nothing special to notice in this connection.

Survey and Settlement.

73. The provincial survey and settlement works were actively carried on during the year. There were no other minor operations. As the former are dealt with separately as a special subject, statistics are not given here.

Certificate work.

74. The required statistics are given in statement XXI. The number pending at the beginning of, and that filed during, the year was less than in the preceding year. The year under report, however, closed with a heavier file. The Collector of Cuttack says that the increase in his district is due to the facts that the demands of the cess certificates were realized during the last quarter, but satisfaction could not be entered, as the treasury chalans did not reach the certificate offices before the close of the year, and that some miscellaneous certificates were filed during the last quarter.

Land acquisition.

75. Statement XXIII gives the required statistics. It will be seen that there is a decrease in the number of cases disposed of in Cuttack. The Collector attributes this to the small plots of land involved in the cases, and to the petty sums to be disbursed, which led to the unsatisfactory attendance of parties. Acquisitions were mainly made for the distributaries of the Jajpur canal, the drainage of the Taldanda canal, and the East Coast Railway. The department made pretty fair progress.

Partition.

76. Statement XX shows that ten cases were disposed of against 17 in the preceding year. Of the 61 cases pending, 30 cases have been stayed under the Board's orders No. 538, dated 11th December 1891, pending the completion of the provincial settlement, and the proceedings in one case was confirmed after the close of the year. As regards the balance, no special remarks seem to be called for, some of them having been almost completed.

Land Registration.

77. The required statistics are given in statement XXIV. There is a considerable increase in the number of cases instituted, it being especially great in Balasore. This is mainly due to the settlement proceedings in progress. In Puri alone it is said to be partly due to vigorous proceedings taken under section 65 of Act VII (B.C.) of 1876. It is satisfactory to note the increase in the number of cases disposed of and the decrease in those pending.

78. There were certain defects in the initial registration work of the district of Cuttack. After personally inspecting the work and discussing the matter with the Collector, I reported the matter to the Board, who were pleased to sanction a special establishment for the purpose of supplying defects. Satisfactory progress was made during the year, and the special work is expected to be soon finished.

79. Complaints were received of the inconvenience entailed on the public in having to come in to Cuttack to file applications for mutation. Some relief has been afforded by allowing such petitions to be filed at the subdivisions, but it is not found practicable to deal with the cases otherwise than at the district head-quarters.

Irrigation.

80. This is now dealt with separately as a special subject. It may be noted here that there was considerable decrease in the area leased out. In the district of Cuttack the area leased during the year was 86,790 acres against 128,748 acres in the preceding year. The Collector of Balasore has also noticed the decrease in his district, though no figures have been given. In both the districts the decrease is due to non-renewal of the lapsed leases. The Special Deputy Collector is reported to have ascribed it to the fact that there was more or less rain throughout the kharif season. But the Collector of Cuttack gives a different reason. He says thus:—"But I have reason to believe that the raiyats' real complaint is that they are not given water when they want it, and they not unnaturally ask, why should we pay for what is not given as required, but at the sweet will and

pleasure of the canal officers? Especially do they complain that they do not get water to irrigate their lands so as to render them fit for ploughing. They say that the rule is to supply no water till the crop is growing, while in a season like the present, when there has been no rain for some months, water is urgently needed for preliminary cultivation."

The decrease is no doubt due to the change both in the system of supplying water and the collection of the dues, the present arrangement being considered less lenient than its predecessor. The present system has not been long enough in force to admit of criticism.

Road and Public Works Cesses.

81. The divisional percentage of the balance on the gross demand was 11·3 against 8·7 in the preceding year. The districts of Balasore and Puri show a decrease, while Cuttack shows an increase in percentage, which is as follows:—

District.	1892-93.	1893-94.
1	2	3
Cuttack	13·1	17·8
Balasore	6·09	5·8
Puri	2·8	2·1

82. In his cess report the Collector of Cuttack thus accounts for the increase in the balance: "The percentage of collection of the current demand was 81·3 and that of arrears 83·2 as against 87·7 and 60 respectively in 1892-93. That the percentage of current collections is no higher is due chiefly to the difficulty experienced by persons paying cess direct to Government in collecting from their raiyats, another reason being the bad harvests of the year. Payment of the current demand was also affected by the calls upon the payers to make good, all at once, arrears that had been accumulating and were brought to light by the enquiry above noted." The enquiry referred to involved an adjustment of road cess collection accounts for past years. The increase in the percentage of the arrear collection may be taken as a set-off for the fall in the total collection.

XVIII.—WARDS' AND ATTACHED ESTATES.

83. No attached estates were under the management of the revenue authorities of the Division during the year. Killa Patia in the Cuttack district remained under the management of the Civil Court as reported last year.

84. The assessed jama of this estate, including cesses and miscellaneous receipts, amounted to Rs. 9,132 for the year under report. The total expenditure on account of management and other charges, including the allowance of Rs. 2,400 per annum for the maintenance of the proprietor and his family, amounted to Rs. 5,132.

85. The decree-holders were paid Rs. 1,910, and the total amount of debt liquidated up to the end of the year under review was Rs. 52,415, leaving an outstanding balance of Rs. 36,868, of which Rs. 14,230 is principal and Rs. 22,638 interest. The payment of a comparatively small amount to the decree-holders during the year was, it is explained, due to non-realization of rents from most of the tenants, some of whom were unable to pay their rents in consequence of failure of crops for three successive years, while the rest being refractory had to be sued.

86. The statistics for Wards' estates are given in Appendix XXVII.

87. The following Wards' estates were managed by the revenue authorities during the year under report:—

Cuttack	...	1. Kanika. 2. Kujang. 3. Madhupur.
Balasore	...	4. Jamkunda. 5. Shahbanda.
Puri	...	6. Rorang. 7. Malighati.

88. Taking the Division as a whole, the collections in the Wards' estates show some improvement over the results of the previous year, the percentage of total collection on the total demand being 53·4 against 41·51 in 1892-93. But this is not so high as it should be. Taking the estates individually, Kanika shows the best results, as will appear from a comparison of the following percentages as compared with 1892-93, and Kujang the worst:—

	Percentages of total collection on total demand in—	
	1892-93.	1893-94.
Kanika	90·8	107·6
Kujang	21·3	33·3
Madhupur	74·3	62·4
Jamkunda	93·3	94·3
Shahbanda	52·3	61·5
Rorang	85·4	73·5
Malighati	69·9	69·1

89. The following events may be noted in connection with the Wards' estates of this Division:—Rani Sulakhyana Pata Mohadei, the mother and guardian of the late Raja Padmanabh Bhunj, who was a pensioner of Kanika, drawing Rs. 300 per annum, died on 1st May 1893.

On account of strong winds accompanied with heavy rain and high floods, but chiefly owing to the May cyclone, all the Wards' estates of Cuttack suffered more or less during the year, and amongst these the Kanika estate suffered the most. The houses of many tenants fell, there was a loss of cattle and property and considerable loss of paddy stored in pits, the total loss caused to raiyats being estimated at about a lakh of rupees. Besides this, the estate's embankments suffered more or less, the estimated damage under this head being Rs. 30,000. A sum of Rs. 23,718 was sanctioned by the Board for the repairs of these embankments.

In spite of these disasters, it is noteworthy that the financial results of the year's administration of this estate show no deterioration, but on the contrary an improvement.

In the Kujang estate the cutcherry houses were very much damaged by the cyclone of May 1893. No work could be done for several days, and postal communication was interrupted. Houses fell and others had their thatch blown away, while, as in Kanika, paddy stacks suffered. There were successive floods in this estate in July and August 1893; but fortunately these caused no damage to crops, but those of September 1893 injured the *sarad* crop in several villages.

Sugarcane and the ripe *beali* crop in Madhupur were very much damaged by the high winds and heavy rains of 21st to 23rd September 1893.

The chief cause of the short collections in the Shahbanda estate in Balasore is the hostile attitude of the uncle and aunt of the minor, who are instigating the raiyats to withhold their rents. They have brought a civil suit in the Court of the Subordinate Judge of Alipore, claiming $\frac{2}{3}$rds share of the entire property. The case is still pending decision. The raiyats are also reported to have suffered to some extent on account of partial failure of crops owing to the flood of the river Subarnarekha.

The low percentage of collections in the wards' estates of the Puri district is attributed partly to the local kistbundis, according to which six *pans* of the current demand in Rorang and four *pans* in Malighati fell due in the last two months of the year, and hence legal coercive measures could not be concluded within the year. There was also a change in the collection agency in *hastabud* villages.

90. Survey and settlement operations are in progress in the Madhupur estate in Cuttack and in the Jamkunda and Shahbanda estates in Balasore.

91. The education of all the minors is well looked after. The Rorang minor, who has been transferred to Cuttack, is living with the Kanika minor; both are reading at the Ravenshaw Collegiate School. They are making fair

progress in their studies. The Board have sanctioned the removal of the Madhupur minor to Cuttack for studying in the Ravenshaw Collegiate School, and a competent private tutor has been engaged. The Jamkunda minor, who was promoted to the third class of the Balasore zila school and was getting on well with his studies, is reported to have fallen into bad company since the death of his guardian tutor. Proposals are now before the Board for engaging the services of another tutor, pending whose appointment the minor has been sent home to his mother at Jamkunda.

The Shahbanda ward is reported to have somewhat improved in his studies. He is now 20 years old, but is still in the 4th class. Both these minors receive some practical instructions from the managers of their estates, with a view to their acquiring an insight into zamindari matters. The Collector reports that he is arranging for the wards to learn something of the practical working of the Tenancy Act at the attestation camps of the Assistant Settlement Officers engaged in the settlement operations of their estates.

XIX.—EXCISE.

92. The statistics under this head are given in statement XXVIII according to the instructions in paragraph 2 of your No. 2737, dated the 27th November 1893. The result is an increase of the excise revenue throughout the Division, the total figures for the year under report being Rs. 6,10,535 against Rs. 5,60,977 in the previous year. It is to be noted here that the former sum includes the Rs. 19,904 credited into the treasury during the year by the Manager of Dhenkanal State, as reported in paragraph 72 of the last year's report. The result is still satisfactory.

93. Increase is noticeable under all the heads except under license fees for country spirit and tari. In Cuttack the licenses for the sale of distillery liquor were settled under the guaranteed system. They were put up to auction as regards still-head duty only, not as regards license fees, and were settled with those who offered to pay the highest amount of duty. But it has not been explained why the license fees fell to Rs. 10,124 from Rs. 13,888 in the previous year. The Collector's attention will be invited to this. The Collector of Puri has not explained the decrease in his district; the license fees for country spirit being Rs. 2,622 against Rs. 2,988 in 1892-93, though the quantity consumed rose to 3,051 gallons from 2,473 gallons.

94. All the districts show an increase in the quantity of country spirit consumed. In Cuttack it is ascribed to the partial introduction of outstills; in Balasore it is said to be due to the presence of the large number of up-country men in connection with the revenue survey of the district; and in Puri the increase is the result of the tari shops remaining unsettled for a greater portion of the year in consequence of the opposition to the tree-tax system. The decrease in the license fee of tari is confined to the district of Puri, and is due to the said opposition.

95. Ganja and bhang show a decrease in the quantity consumed. As this has been a subject of special discussion, it seems desirable to note here the views of the District Officers. With reference to the fall in the quantity consumed in his district, the Collector of Cuttack says thus:—"The only reason that can be suggested for the fall is that owing to the increase in the retail price consequent on the increase in license fees and duty simultaneously, illicit consumption of Gurjat ganja in places where it is easily procurable has increased, and that in places where it is not easily procurable the poorer consumers have reduced their consumption and taken to the use of other intoxicants perhaps more deleterious." The Collector goes on to say:—"The duty on all kinds of ganja was raised during the year, and having regard to the facility with which Gurjat ganja can be here procured, we have, I think, gone as far as we safely can in this direction." With regard to this, the Collector of Puri says thus:—"The duty is so high that the temptation to smuggle is irresistible. It is believed that the Khurda subdivision is flooded with the drug, and that it can be obtained anywhere very cheaply. In my opinion it should, as regards duty, be placed on the level of bhang or sidhi, to which it is more akin, as regards the mode of consumption, than the

Rajshahi ganja." With reference to my No. 1852P., dated 26th October 1893, from the Political side, the Government has in its No. 2486S.R., dated 19th April 1894, ordered that the matter will remain pending until receipt of the Indian Hemp Drugs Commission's report. The only fact to be noticed now is the resort to more deleterious intoxicants referred to by the Collector, who does not, however, say what these are. His attention will be invited to this with a view to ascertain how far this has led to the increase in the consumption of other exciseable articles.

96. As to opium issued to the vendors in the Gurjat States, it was found selling cheaper in the Gurjats than in Mogalbandi, in consequence of lower rates of license fee in those States. It was decided by the Board that the supply should be issued to each State according to a scale fixed. The Collector of Cuttack says this arrangement has proved salutary.

97. The tree-tax system of tari is reported to have worked well in Balasore.

XX.—STAMPS.

98. The following table exhibits the receipts and charges under this head during the year 1893-94 as compared with the preceding year:—

Year.	District.	Receipts.				Charges.			Net revenue.
		Sale of judicial stamps.	Sale of non-judicial stamps.	Miscellaneous receipts.	Total.	Refund.	Other charges.	Total.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1892-93	Cuttack	1,60,952	43,637	4,032	2,08,621	1,717	3,274	4,991	2,03,630
	Balasore	50,697	17,576	1,979*	70,222	459	1,270	1,729	68,493
	Puri	57,917	32,981	1,947†	92,845	130	1,851	1,980	90,865
	Total ..	2,69,586	94,394	7,958	3,71,688	2,315	6,395	8,710	3,62,978
1893-94	Cuttack	1,81,359	45,757	5,013	2,32,129	631	3,515	4,146	2,27,983
	Balasore	60,654	19,478	2,882	83,014	112	1,478	1,590	81,424
	Puri	70,462	34,962	2,749	1,08,173	128	2,069	2,197	1,05,976
	Total ...	3,12,475	1,00,197	10,644	4,23,316	871	7,062	7,933	4,15,383
	Increase ...	42,939	5,803	2,686	51,428	...	667	...	52,295
	Decrease ...	...	...	...	...	1,444	...	777	..

* This differs from the last year's figures by Rs. 127, duty and penalty levied by Collector not having been included under this head.

† There is a difference of Rs. 16 as compared with the entry made as per last year's report. This is due to subsequent correction of return No. XXXV by the Collector.

There has been an increase of Rs. 51,428 in the sale of judicial and non-judicial stamps and in miscellaneous receipts. The increase is distributed as follows:—

			Rs.
Judicial	...	...	42,939
Non-judicial	...	...	5,803
Miscellaneous	...	...	2,686

99. The sale of court-fee stamps chiefly contributed to the increase which is explained by the Collector of Cuttack to be due to the increase in the number of cases instituted during the year, and to the fact that process fees at a higher rate were levied for serving notices under sections 6, 7 and 10 of Act XI of 1859, under Board's Circular No. 11 of September 1893. In Balasore a large number of mutation cases were instituted during the year on account of settlement operations going on in that district, in consequence of

which there was an increase in the sale of court-fee stamps. The Collector of Puri attributes the increase in his district chiefly to the institution of mutation cases in the Khurda subdivision consequent on the milan khasra operations, and to a larger number of rent suits having been filed during the year than in the preceding year.

100. In explaining the increase under the head non-judicial stamps, the Collector of Cuttack reports that a greater number of documents (sales, mortgages, &c.) were executed during the year on account, probably, of bad times. In Balasore it is attributed to the transfer of properties of higher value during the year under report than in the preceding year. In Puri the increase under this head amounted to Rs. 1,981, for which no explanation has been furnished by the Collector.

101. It is satisfactory to note that although there was increase under receipts, the charges decreased by Rs. 777. The decrease was mainly under the head "Refund of value of stamps purchased." This is due to the refund of the price of stamps of higher values in the previous year than in the year under report. The net revenue shows an increase of Rs. 52,205, which is satisfactory.

102. The table below shows the action taken by Civil Courts and Collectors on unstamped or insufficiently stamped documents, and prosecutions for infringement of stamp laws:—

Year	District.	Action taken by Civil Courts on unstamped or insufficiently stamped documents.		Action taken by Collectors on unstamped or insufficiently stamped documents.		Prosecutions instituted for infringement of the stamp laws.				
		Number of cases.	Duty and penalty levied.	Number of cases.	Duty and penalty levied.	Number of cases.	Persons brought to trial.	Convicted.	Fine imposed.	Reward paid.
1	2	3	4	5	6	7	8	9	10	11
			Rs.		Rs.				Rs.	Rs.
1893-94	Cuttack ...	53	290	19	103	5	5	5	26	...
	Balasore		...	15	126	5	5	5	40	...
	Puri	7	69	13	88	1	1	1	16	...
	Total ..	60	358	47	317	11	11	11	82	
1893-94 ...	Cuttack ...	48	330	19	228	3	4	1	5	15
	Balasore ...	2	11	9	65	5	8	8	63	...
	Puri ...	26	234	15	108	5	7	3	40	
	Total ...	76	575	43	401	13	19	12	108	15
	Increase ...	16	217	...	84	2	8	1	26	15
	Decrease ...	.	...	4	...	...	...	.	...	...

All the districts except Cuttack show increase in the number of cases in which duty and penalty were levied by the civil courts. The amount of duty and penalty realized by these courts also increased from Rs. 358 in 1892-93 to Rs. 575 during the year under report. This is due to the fact that almost all the cases instituted during the previous year were petty ones, and the amount of penalty realized in each amounted to Rs. 5. As regards cases in which action was taken by revenue courts, the amount of penalty and duty levied increased by Rs. 84, although there was a slight falling off in the number of cases. The increase amounted to Rs. 125 in the district of Cuttack, which the Collector attributes to the fact that in the preceding year all the cases were of a petty nature. Balasore shows a decrease of six cases with an amount of Rs. 61, which the Collector reports is probably due to greater carefulness on the part of the people in affixing proper stamps on documents. The result of prosecutions in stamp cases was not satisfactory. Only 63·1 per cent. of persons brought to trial were convicted, against 100 of the preceding year. Cuttack and Puri are responsible for the result. In the former three out of four persons brought to trial were acquitted for want of evidence. In the latter only three

out of seven persons tried were convicted. The Collector of Puri has not furnished any explanation for the large number of acquittals in his district. His attention will be drawn to this.

103. A reward of Rs. 15 was paid to a muharrir of the Banki tahsil office, in the district of Cuttack, for giving information of a case of evasion of the stamp law in respect of three documents. No reward was paid in Balasore or Puri.

XXI.—INCOME-TAX.

104. The required statistics are given in statement XXIX. There is an increase in the net divisional total collection, the figures being Rs. 57,134 during the year under report against Rs. 55,239 in the preceding year. This is due to an increase in Balasore and Puri and a decrease in Cuttack; the latter shows a decrease of 4·5, while the other two show an increase of 6·2 and 14·1 per cent. respectively in the net revenue.

105. There is an increase in the number of assessees in all the districts, though Cuttack shows a decrease in the revenue. Of the 2,701 persons originally assessed, 484 assessees preferred objections. Of these, 63 objections were fully, and 89 partially, successful. The result of objections in each district is as follows:—

District.	Number of objections filed.	Number in which assessees were exempted or the tax reduced.	Percentage of successful objections.
1	2	3	4
Cuttack ...	212	85	40·0
Balasore ...	135	45	33·3
Puri ...	137	22	16·6
Total ...	484	152	.....

It will thus be seen that Balasore shows more careful work and Puri stands next. The same result is to be seen in appeals to the Commissioner, which were as follows:—

District.	Number of appeals.	Number of cases in which reduction or exemptions were made.	Percentage of appeals against the order of the Collector.
1	2	3	4
Cuttack ...	17	3	8·0
Balasore ...	7	2	5·2
Puri ...	13	2	9·5

106. To account for the large proportion of successful objections, the Collector of Cuttack says: "Roughly they are due to the Sadar subdivision, especially the town, being reassessed; to the greater facility people there have for objecting; to their greater proneness to contest everything; and to the difficulties of arriving at a fair estimate of the incomes of large traders who are up to all modes of evasion, and many of whose accounts are kept in foreign languages, as Gujrati and Marwari."

As to the alleged facility in the Sadar subdivision for filing objections, and the tendency of the people to contest everything, these may account for an increase in the number of objections preferred, but they cannot be the cause of the objections being successful. As to the difficulties of arriving at a fair estimate of the incomes of large traders, I believe it is not peculiar to those in Cuttack. The Income-tax Department labours under the same difficulties and disadvantages everywhere. The difficulty arising from the accounts being kept in foreign languages is a genuine one, and it exists, I believe, more in the town of Cuttack than elsewhere.

The assessor should, I think, provide against such difficulty by learning at least the figures of such foreign languages, and the Collector will be desired to take action in this direction.

XXII.—MONETARY ARRANGEMENTS.

107. The following table shows the receipts and issues of currency notes during the year of report as compared with the previous year:—

District.	Receipt.								Issues							
	Received in payment of Government dues.		Received from public in exchange for silver or other notes.		Received from Bank of Bengal or other treasuries		Total.		Issued in payment of Government dues.		Issued in exchange for silver or other notes.		Remitted to other treasuries.		Total.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs	Rs.	Rs	Rs.	Rs.	Rs	Rs	Rs.	Rs	Rs.
Cuttack ...	3,41,635	1,55,220	1,82,560	59,755	1,77,000	1,80,500	7,01,195	4,35,455	3,75 810	4,80,130	1,86,120	88,045	1,20,260	12,490	6,91,990	4,94,545
Balasore	75,450	54,540	27,810	34,275	47,725	68,000	1,50,985	1,56,315	86,075	1,03 445	75,875	70,160	175	4,555	1,62,125	1,78,160
Puri .	81,370	54,700	48,080	61,840	47,510	38,000	1,77,150	1,54,540	89,315	65,905	73,230	33,120	37,955	28,105	1,99,400	1,46,130
Total ...	4,98,455	2,94,270	2,58,450	1,61,870	2,72,235	2,86,500	10,29,330	7,48,340	5,51,100	6,49,370	3,34,225	2,04,325	1,58,390	45,140	10,53,405	8,18,835

There was a marked decrease both in receipts and issues of currency notes during the year in the districts of Cuttack and Puri, which is ascribable to slackness of trade. The increase in Balasore is chiefly attributed to the settlement operations and to the briskness of foreign trade.

108. The following table shows the transactions in the Post Office Savings Bank during the past two years:—

District.	1892-93.			1893-94.		
	Number of deposits.	Amount deposited.	Amount withdrawn	Number of deposits.	Amount deposited.	Amount withdrawn.
1	2	3	4	5	6	7
		Rs	Rs.		Rs.	Rs.
Cuttack	3,961	1,29,612	99,160	3,520	1,11,852	98,564
Balasore	2,177	73,779	53,117	2,034	71,242	53,072
Puri	869	24,693	19,244	1,074	37,251	24,186
Total ...	7,010	2,28,084	1,71,521	6,628	2,20,345	1,75,822

The result of the year shows a decrease in the number and amount of deposits as well as withdrawals for the Division. There was increase only in the district of Puri. The decrease in Cuttack is not very marked, and is attributed to the report that the rate of interest was to be lowered, as has been done from 1st April 1894. That in Balasore is reported to be due to the fact that the limit of deposit in each account in a year has been reduced from Rs. 500 to Rs. 200 only.

109. The following table shows operations in connection with money-orders:—

District.	Issued.											
	Revenue money-orders				Ordinary money-orders.				Total.			
	1892-93		1893-94.		1892-93		1893-94.		1892-93.		1893.

Total ...	13,394	1,51,309	12,966	1,38,309	80,902	17,86,805	83,558	18,71,448	94,296	19,33,114	96,524	20,09,757

District.	Paid.											
	Revenue money-orders.				Ordinary money-orders.				Total.			
	1892-93.		1893-94		1892-93.		1893-94.		1892-93		1893-94.	
1	2	3	4	5	6	7	8	9	10	11	12	13
	No.	Rs	No.	Rs.	No	Rs.	No.	Rs.	No.	Rs.	No.	Rs
Cuttack	8,871	53,078	7,763	61,029	49,484	13,54,776	97,404	14,85,527	58,355	14,38,454	105,167	15,47,156
Balasore	3,769	40,955	3,575	46,781	22,966	3,67.518	26,535	4,21,439	26,735	4,17.473	30,110	4,68,220
Puri	337	2,344	243	2,754	16,502	4,62,424	17.423	5,67,377	16,859	4,64,768	17,666	5,70,131
Total	12,977	1,36,377	11,581	1,11,164	88,952	21,84,718	141,361	24,74,343	1,01,929	23,20,695	152,942	25,85,507

There has been a considerable increase both in issues and payments, the number and value in each being 2,228 with Rs. 71,643 in the former, and 51,013 with Rs. 2,64,812 in the latter. Revenue money-orders, however, show a falling off in all the districts, the reason for which in Balasore is said to be that proprietors seem to think that less risk is incurred by paying in revenue through their agents, as there is no apprehension of mistake in credit; while in Puri the petty zamindars only, whose shares of estates and amount of Government revenue are small, and who live at a great distance from the head-quarters, avail themselves of this system to remit their dues, payments of big zamindars being made through the mukhtars and revenue agents at head-quarters. The decrease in Cuttack is explained as follows by the Collector:—

"This is attributable to the fact that many money-orders being defective or having been received after the kist day in November 1892 and April 1893, the estates concerned were brought on the defaulters' list, and though most were afterwards removed therefrom on the petition of the proprietors, this might have tended to shake their confidence in the system. With defects in the form of land revenue money-orders I have dealt in the Land Revenue Report. Delays in the post-office also prejudice the people against remitting by money-order; but the fault is chiefly their own, as they invariably put off remitting till the last moment. There are also interested persons, revenue agents and others, who profit by an adherence to the old custom of money being paid into the treasury direct. Such lose no opportunity of setting the people against the money-order system, resort to which has affected their incomes. It will doubtless make its way into more general favour in course of time."

XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

110. The East Coast Railway was still under construction during the year under report, though work has again been suspended since the close of the year for want of funds. The progress of the work was, however, much impeded by various causes, and there remains still much to be done. The route to be followed for the last 25 miles to Cuttack has yet to be determined. The earthwork and bridges of the remaining parts of the line are reported to be three-fourths completed; the large bridge over the Mahanadi is not being built.

111. Two branch lines from the East Coast Railway to Puri are under consideration. The one from Chhatipur in the Khurda subdivision was surveyed and plans and estimates were prepared. As an alternative to this, it is proposed

to run a line from Cuttack to Puri along the existing road. Nothing is reported to have been done with regard to this line. A report was submitted as to the route which the proposed line from Sambalpur to Cuttack should follow.

112. The Public Works Department was engaged in extending the distributary system of the Jajpur, Kendrapara, Gobri and Patamundai canals, and the embankments along the right bank of the Baitarni and the left bank of the Bura rivers. These with the minor drainage works are nearly completed.

XXIV.—ROADS AND COMMUNICATIONS.

113. Nothing important took place under this head. The District Boards of Cuttack and Puri constructed seven and five new village roads respectively, and the latter a road from Astrang to Kakatpur. The existing roads were maintained in good condition.

With regard to Mr. Allen's proposal to make over to the District Board the two trunk roads in the district of Puri, mentioned in paragraph 94 of last year's report, the required proposal has not yet been received from the Collector of Puri, though his attention was invited to it. The proposal seems more likely to be well received now than formerly, as an Executive Engineer's division of Puri has been abolished and merged in another division.

XXV.—WORKING OF THE PURI LODGING-HOUSE ACT, IV (B.C.) OF 1871.

114. The subjoined statement gives the necessary information under this head:—

Name of Fund.	Receipts.		Expenditure.		Number of *chutties*.	Number of licensed houses.	Number of lodgers to be accommodated.
	1892-93.	1893-94.	1892-93.	1893-94.			
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Puri Town Lodging-house Fund.	5,526	20,239	7,208	11,273	...	638	17,050
Chandbali Town Lodging-House Fund.	725	671	546	570	1	52	2,475
Amalgamated Jagannath Road and Trunk Road Lodging-house Fund—							
In Cuttack ...	3,275	3,742	1,234	1,037	23	108	3,968
In Balasore ...	2,210	2,249	2,250	2,162	35	149	2,618
In Puri ...	2,314	4,501	3,440	4,561	14	175	4,181
Total ...	14,100	31,402	14,678	19,603	73	1,122	30,292

Except Chandbali, there was an increase in the number of lodging-houses and lodgers in the Puri town and *chutties* along the trunk road during the year under report. The total number of licensed lodging-houses was 1,122 with accommodation for 30,292 lodgers, against 704 houses for 19,833 lodgers in the previous year. The marked increase in the number of lodging-houses and lodgers, and consequent increase in receipts, was chiefly due to the unusual number of pilgrims that visited Puri on the occasion of the late Car festival, and to the great energy shown by Dr. Banks in carrying out the objects of the Act. To the same cause may be attributed the fact that in Puri the receipts under the head of fines also considerably increased, owing to a larger number of prosecutions, which numbered 138 against 27 in the previous year.

115. During the year 11 pucka and 34 kutcha houses with good ventilation were constructed, 175 pucka latrines repaired and constructed, 87 pucka drains

made and improved, 946 windows opened and 1,065 windows enlarged. It is in contemplation to erect at Puri corrugated iron shelters which, while not competing with licensed lodging-houses, will afford protection to numbers of pilgrims who cannot be accommodated in lodging-houses, even had they the means to pay for accommodation. This is a measure strongly called for by the circumstance that the Car festival takes place in the month of July in the height of the rains. Last year there must have been over a hundred thousand pilgrims, and the registered accommodation at Puri itself is for 17,050 only, which cannot suffice even in an ordinary year. The state of things on the roads is, I fear, worse than that in the town of Puri. Allowing for the fact that most pilgrims come by water as far as Cuttack, there is shown to be only accommodation for 4,181 pilgrims in the *chutties* south of the Katjuri, which, even if they suffice for the gradual influx of pilgrims, do not suffice for the rapid efflux at the termination of the festival.

Whatever the sufferings of pilgrims may be—and I conceive that they have suffered for centuries—such sufferings are nothing now compared with what they were in the past, and this is due chiefly to the enterprise of the Steamer Companies, which has made the pilgrimage more rapid and more easy.

116. The *chutties* along the Jaganath Trunk Road are under the District Health Officer, who is reported to have inspected them regularly. The Act was extended to Bhubaneswar towards the latter end of the year, and subsequently to Satyabadi.

The food sold in the *chutties* was regularly examined and, if found unfit for human consumption, was destroyed. In addition to 9 permanent mehters, 11 extra mehters were temporarily employed. The Magistrate thinks the supply of mehters altogether inadequate.

117. In Balasore the lodging-houses were frequently inspected by the Health Officer. The *chutties* and bazars were kept clean and the houses made more commodious and better ventilated. The Magistrate thinks the working of the Act was satisfactory.

118 In Cuttack out of 23 *chutties* lodging-houses, licenses were applied for by residents in 17. No applications were made from the remaining six small *chutties*. Five house-holders were sent up for keeping lodgers without licenses. None of them, though convicted, applied for licenses, as the fines imposed by the trying Magistrate were small and had no deterrent effect. The opposition of the tenants to the Act seems gradually decreasing. A muharrir and a sweeper were added to the strength of the staff during the year under report. The former was appointed to help the Inspector in collection work, and the latter to clean the three *chutties* (Kuakhia, Manipur and Khanditur). Dr. Banks again brought to my notice that the Puri Health Officer had a good deal of his time occupied with collection duties. If these are really found to interfere with his duties as a sanitary officer, it would be well that Puri should follow the example of Cuttack and allow him a muharrir. Extra sweepers were entertained during the pilgrim season at Nayabazar and Jobra near Cuttack.

119. The number of prosecutions was 36 against 32 persons, and that of convictions was 24 against 12 of last year. The Magistrate writes: "I inspected all the chief *chutties* during the year, and found all in good order: on the whole, certainly as well kept as those of Balasore and Puri districts that I have seen."

120. Though the Puri Lodging-house Act was extended to Jajpur town by Government No. 2087 of 15th September 1890, it has not yet been enforced owing to non-receipt to date of sanction to the bye-laws and model rules proposed. The numerous amendments suggested by the Magistrates in the bye-laws and model rules are under consideration, and amended editions will shortly be sent to Government for final sanction.

XXVI.—EDUCATION.

121. The required statistics under this head are given in statement XXX according to the instructions in paragraph 2 of your No. 2737, dated the 27th November 1893. The following is the note furnished by the Officiating Inspector of Schools of Orissa.

122. The following statement summarizes the comparative statistics of educational institutions of all classes:—

Class of Institution.	1892-93.								1893-94.								Average number of pupils.	
	Schools.				Pupils.				Schools				Pupils.					
	Cuttack.	Balasore.	Puri.	Total.	Cuttack.	Balasore.	Puri.	Total.	Cuttack.	Balasore.	Puri.	Total.	Cuttack.	Balasore.	Puri.	Total.	1892-93.	1893-94.

123. There has been a loss of 104 schools and 3,057 pupils under the head of public institutions, and a gain of 114 schools and 658 pupils under the head of private institutions. There was thus a net increase of 10 schools with a net decrease of 2,399 scholars. The palpable loss of schools and pupils in Balasore is ascribed to the high market prices of food-grains which ruled throughout the year in consequence of the agricultural distress caused by the high floods which swept over the northern and southern parts of the district.

124. Of the 106,298 pupils under instruction, 102,014 are Hindus, 3,060 Muhammadans, and 1,021 Christians. Of the remaining 203, 13 are Brahmos and the rest are children of the primitive communities.

125. The total expenditure on all classes of institutions was Rs. 3,66,507, and the expenditure on superintendence, scholarships, buildings, and on other miscellaneous heads amounted to Rs. 57,407. Thus the aggregate expenditure on all accounts was Rs. 4,23,914, of which Government contributed Rs. 66,850, District Boards Rs. 78,991, and Municipal Boards Rs. 4,902.

126. A further improvement is visible in the way of the enforcement of the principle regulating the distribution of the municipal expenditure on education. Of the total outlay of Rs. 4,902 from municipal funds, Rs. 3,498 or 88 per cent. were devoted to primary and female education.

127. The population of the Division amounted by the census of 1891 to 3,877,294, of whom 1,896,725 were males and 1,980,569 females. Reckoned at the usual proportion of 15 per cent., the number of male children of school-going age would be 284,507, and the number of female children 297,085. Of the scholars on our returns, 100,886 are boys and 5,412 girls. It is thus seen that out of every 100 boys that might be at school, only 35 are being educated, the corresponding percentage for girls being as low as 1·8, a figure which, though insignificant by itself, will nevertheless be found favourable in comparison with the general percentage for the whole province.

128. The great disparity between Balasore and Puri as regards the percentage of boys at school and the total number of school-going age, as referred to in paragraph 17 of the Government Resolution No 693T G., dated 2nd November 1893, can, I think, be accounted for otherwise than by resorting to the theory that it is due to differences in the degree of interest taken in education by the local Educational and District Officers. The fact that the disparity has continued to exist, though with some slight variations, ever since the introduction of the primary education scheme, lends no countenance to the above theory.

The only rational explanation of the disparity is afforded by the circumstance that the aggregate numerical strength of the literate castes (*i.e.* Brahmos, Karans, Khandaits, Rajus, etc.) in Balasore is more than double that of Puri. The disparity may also be partly traced to the fact of Balasore being more populous than Puri, as also to the predominance of the Panda class, whose attitude towards education is one of complete indifference.

129. A comparison like the one instituted in the paragraph above referred to between Patna and Orissa, and which is only based on the figures representing the total population and the gross educational expenditure of the two Divisions, would be misleading, as it loses sight of many other important aspects of the question which, if duly considered, would show Orissa in a more favourable light. Patna, with a population more than four times as great as that of Orissa, returned 9,353 schools in 1892-93, the corresponding number returned from Orissa being 7,405. The percentage of pupils to population of school-going age in Patna was 11·1 against 35·9 in Orissa. The percentage of public to the total expenditure on education in Patna was 36·9 and in Orissa 35·5.

When grants were originally made from provincial revenues for purpose of primary education, their distribution was regulated by the respective capability of the several divisions or districts to utilize these grants, as evidenced by the actual number of primary schools then existing in them. Orissa, which had a well-developed primary system of its own, thus succeeded in obtaining a larger grant than it could have secured on the mere basis of population, and the outlay seems to me to be justified by the relatively higher position which it has all along maintained as regards the percentage of boys actually under instruction.

130 As regards the substitution of inspecting pandits for chief gurus, there is no room for reform as far as this Division is concerned, the latter system having long since been in full operation in all these districts. It is also satisfactory to find that the stipendiary pathsalas do not absorb an unduly large share of the primary allotment. Lower primary schools for boys in Orissa are as a rule aided under the system of payment-by-results.

Ravenshaw College.

131. The number of students on the rolls on the 31st March last was 68, the same as in the preceding year. The expenditure for the year was Rs. 21,904, of which the grant from provincial funds amounted to Rs. 15,953. The cost to Government of each student was Rs. 177 against Rs. 180 of the preceding year.

At the B.A. examination held in 1893, 17 candidates appeared, of whom only 2 passed, and out of 40 students who appeared at the F.A. examination, only 5 passed. The one candidate who appeared at the M.A. examination failed.

Two candidates were sent up for the B.L. examination in November 1893. They both failed.

University Entrance and the departmental examinations.

132. Out of 164 students sent up to the University Entrance examination, only 42 have passed successfully, the percentage of success being 40 against 80 of the preceding year. The unfavourable result, however, is not peculiar to Orissa, almost all the schools controlled by the Calcutta University having more or less shared in the general decline.

No marked fluctuations are noticeable in the results of the departmental examinations for the last two years, except the lower primary scholarship examination, the results of which present a marked disparity between Cuttack and Puri on the one hand, and Balasore on the other, in spite of an identical set of question papers framed by the Inspector of Schools for all the districts. The appointment by the Inspector of a Central Board of Examiners selected from all the districts, and paid as at present by District Boards in whose offices the results are tabulated, is an arrangement designed to minimize all chance of diversity in the valuation of answer papers.

Moral training.

133. The importance of influencing the character and manners of the scholars, as well as their intellects, appears to be kept prominently before the schools, and although the advance in this direction may not be easily gauged, it is believed that some good at least is being done. No serious breaches of discipline came to notice during the year under report.

Physical training.

134. Gymnastic and elementary drill are taught in most of the high English schools of this Division. In Balasore, Babu Satyendra Nath De, a leading zamindar of the town, has placed a sum of Rs. 1,100 in the hands of Government, out of the interest of which four prizes of Rs. 5 each are awarded to school-boys who display proficiency in gymnastics. It is to be hoped that this good example will be followed by the public-spirited zamindars in the other districts.

The middle and primary schools of Orissa are too poor to do anything in this direction. It is reported that the Puri District Board intends to introduce simple physical training into the middle schools under its direct management.

The appointment of a special gymnastic master in the Cuttack Training School, which is the chief recruiting ground for vernacular teachers in Orissa, would be a step in the desired direction.

Special institutions.

135. The most important institutions under this head are the Cuttack Training, the Medical and Survey Schools, all of which are resorted to for purposes of training by students from the four districts and the Tributary Mahals. The Cuttack Training School has 43 pupils on its rolls against an equal number in the year next preceding. The great bulk of the teachers of middle vernacular schools in Orissa are ex-students of this useful institution.

There are elementary training schools at Balasore and Puri. In order to make these schools serve any useful purpose, the period of training in them should, I think, be extended from six months to one year.

136. The Cuttack Medical School, under the management of Surgeon-Lieutenant-Colonel J. M. Zorab, M.B., registered 118 pupils, of whom 6 were females. Nineteen hospital assistants were turned out of the institution during the year under report. The school has up to date sent out 187 certificated hospital assistants, 72 of whom are in Government service and 37 in that of Native States.

The variety of operations performed in the attached hospital and the number of patients afford a good field for practical training of the students both as regards dressing and examining cases before the teachers.

Particular care and attention are also given to the teaching of Medical Jurisprudence, both theoretically and practically. A careful watch is always exercised on the morality and discipline of the students in their boarding-house, hospital and school, and breaches of discipline are rarely noticed.

The female class of this institution, though still numerically small, has taken a predominant place in the medical education in Orissa, and has amply fulfilled the favourable anticipations formed of it by its original founder.

137. The roll-number of the Cuttack Survey School, which is under the control of the Principal of the Ravenshaw College, is 42. Out of 18 candidates who appeared from the institution at the last final examination, 16 were successful.

There are two industrial schools at Balasore, in which carpentry and needle-work are taught, and which partake more of the character of bazar workshops than of regular technical institutions.

138. The District Boards of Cuttack, Balasore and Puri have created a few scholarships out of public funds at their disposal, for the purpose of enabling Uriya youths to receive training at the Jobra Workshop, the Calcutta School of Art, and the Sibpur Engineering College.

Female education.

139. There are 101 special girls' schools attended by 2,541 pupils, the total number of girls under instruction, including those attending boys' schools, being 5,412.

The number of special girls' schools in Cuttack has declined considerably, and the loss is attributed to an unavoidable reduction of expenditure following close upon previous excessive outlay on this class of schools by the Local Boards concerned.

A girl belonging to the Cuttack Female Orphanage successfully passed the middle English scholarship examination during the year under notice.

Four girls passed the middle vernacular, 16 the upper primary, and 68 the lower primary scholarship examinations, against 10, 16 and 86 respectively in the preceding year.

Muhammadan education.

140. The total number of Muhammadan pupils under instruction is reported to be 3,060 against 3,114, showing a loss of 54 pupils.

Forty-eight Muhammadan pupils successfully passed the University Entrance and the departmental examinations, against 34 in the previous year.

No school in Orissa has been more successful in promoting the higher education of Muhammadan boys than the high English school of Kendrapara. I agree with the Inspector of Schools in thinking that if any school deserved a grant from the Mohsin Fund, surely it is Kendrapara.

In respect of educational facilities the Muhammadans of Orissa are better off than the other sections of the population. Apart from the advantages which they enjoy in common with the latter, they have special schools, special scholarships, and special free-studentships, and the rules regarding the age of admission are also relaxed in their favour.

Education of aboriginal and backward races.

141. These pupils numbered 190 against 298 in the preceding year. The decline under the head is attributed to the closure of a few Sonthal schools in the wood-land pargana of Fatiabad in Balasore, brought about by a sudden rise in the price of food-grains in that tract. The pupils returned from Balasore are mostly Sonthals, and those from Puri semi-Hinduized Konds.

During the year under review, six Sonthal boys from Balasore successfully passed the lower primary scholarship examination.

There are seven special primary schools for children of low castes in Cuttack and Puri.

Thirty low-caste pupils passed the lower primary scholarship examination during the year under notice, viz., 28 from Balasore and 2 from Puri. None got scholarships.

Indigenous education.

142. Under this head are shown Persian maktabs, Koran schools, Sanskrit tols, and elementary village pathsalas that do not conform to the departmental standards of instruction.

The maktabs numbered 40 with an aggregate roll number of 668. The Bhadrak and Dhamnagar maktabs do really impart instruction of a superior character in Persian classics to the Muhammadan pupils attending them. The others are scarcely worthy of the name of maktabs.

The number of Sanskrit tols has declined from 68 to 62, with a corresponding reduction in their attendance. The defunct tols were for the most part ephemeral institutions opened under the rumoured prospect of obtaining Government aid, and their loss is immaterial from an educational point of view. The two best tols in Orissa are the Puri Sanskrit School established at Puri in 1865 by the Maharaja of Balarampur in Oude, and the Sriram Chandra tol recently established at Balasore by the Chief of Moharbhanj. The financial condition of the former is very satisfactory. It has a capitalized fund of Rs. 13,000 invested in Government four per cents., and it receives a yearly grant of Rs. 1,300 from the Maharaja of Balarampur.

The Sriram Chandra tol at Balasore is a promising institution, and it has been placed on a stable financial footing by an adequate yearly grant sanctioned by its founder out of the revenues of the Moharbhanj State. The young Chief also takes a lively interest in the welfare of this school, which appears to me to be the best outcome of the late movement on the subject of the improvement of Sanskrit learning in Orissa.

A new tol has also been sanctioned for the Kanika Ward's estate, which is expected to commence work from the current session.

143. Associations have been formed at Cuttack, Balasore and Puri, with the object of improving the efficiency of Sanskrit tols by subjecting them to periodical examinations and rewarding them according to the results shown by them. Some of the tols in Cuttack and Puri and the adjacent Tributary States were thus examined and rewarded.

144. Thirty-three tols sent up 107 candidates, of whom 61 were successful, 50 of them belonging to the Puri district alone, and the rest to Cuttack and the Tributary States of Dhenkanal, Hindole and Talchere.

145. The total receipts of the Cuttack and Puri *Samitis* amounted to Rs. 789, and the expenditure to Rs. 553. The difficulty experienced in realizing

subscriptions and donations in this the very first year of the working of these *Samitis* does not augur well for the future success of these movements.

146. The municipalities and the District Boards of Orissa have not as yet contributed anything for the encouragement of Sanskrit tols. The municipality and the District Board of Puri, the traditional seat of Sanskrit learning in Orissa, ought to have moved in the matter long ago.

147. With reference to paragraph 5 of your letter above quoted, referring to paragraph 17 of the Government Resolution, as to education in this and the Patna Divisions, the Officiating Inspector ascribes it to the existence of a larger number of primary schools in Orissa when the Government grant was made for the purpose. The matter is still under my consideration, and a report may be submitted if necessary. I think the problem put by Government can be better solved by the Director of Public Instruction than the Commissioner of either Division, as neither knows the circumstances of the other Division, while the Director of Public Instruction has the advantage of knowing both.

XXVII.—DISPENSARIES AND HOSPITALS.

148. The required statistics under this head are given in statement XXXI. It shows 23 dispensaries against 19 in the preceding year. This increase of four dispensaries is due to opening of two in the Kanika Ward's estate, one at Nayabazar on the Jaganath road, and to the inclusion of the Satpara dispensary in the district of Puri, which the Collector says was not shown last year. The one at Nayabazar is very useful to the pilgrims, being situated at a place where they land from steamers near Cuttack. It is maintained by the District Board. Anantpur dispensary is the same as the one at Tekhri shown in the last year's report, the site of the dispensary having been changed owing to the removal of the office of the Manager of Kujang Ward's estate to Anantpur. Government sanction arrived for a dispensary in the Government estate of Banki, but it could not be opened before the expiry of the year, as no native doctor was deputed to take charge. A separate set of wards for females was added to the Bhadrak dispensary. The building for Srimati's Female Hospital at Balasore was completed during the year, but it could not be opened to patients. Lastly, the management of the Chandbali hospital was transferred to the District Board of Balasore.

149. As in the previous year, there is a considerable increase for the Division in the daily average number of both in and out patients, the figures being 120·36 and 612·98 respectively, against 92·07 and 543·01 in the preceding year. The increase is noticeable in all but a few dispensaries. The slight decrease in the average number of in-patients in Jajpur and out-patients in Dharmasala calls for no remark. But the decrease in the number of out-patients at Khurda, Pipli and Balianta in the district of Puri deserves special notice with reference to paragraph 18 of the Government Resolution on the last year's report. It is to be noted that there was a large influx of pilgrims on account of the special festival at the time of the Rathjatra, and there is a decrease in the average number of daily out-patients in the abovementioned three dispensaries situated within the reach of the pilgrim road. The Collector of Puri says nothing as regards the decrease in Khurda. With regard to the other two dispensaries he says thus:—"The dispensaries at Balianta and Pipli are kept by the Jaganath Road Fund, as they are supposed to be principally intended for pilgrims, though as a matter of fact they are used by residents in the proportion of five to each pilgrim." Further on he says: "I intend to give up the Balianta hospital and only have a temporary building there, as at Jajpur, during the Car festival for the use of the pilgrims, in case the Board does not bear part of the charge of the two dispensaries."

As far as the pilgrims are concerned, temporary dispensaries are calculated better to serve the purpose, as the influx of pilgrims is large only at particular occasions, and that again varies in number from year to year. As regards Satpara dispensary, the Collector's idea is to abolish it as of little use, and to apply the funds thus saved to the dispensaries at Pipli and Balianta as noted above.

There has been a slight increase in the cost of diet in all the dispensaries. The rate of cost and the increase in it in the Jajpur and Dharmasala dispensaries deserve note, and the Collector has been requested to account for both. As regards others, no remarks seem to be called for.

150. On the whole, the dispensaries appear to have worked satisfactorily. The Cuttack General Hospital showed an increase in major and minor operations. In his last visit the Inspector-General of Civil Hospitals is reported to have been satisfied with the variety of major and minor result operations and the practical knowledge of the students of the medical school. The results of the school were also satisfactory. The Committee appointed to enquire as to the advisability of keeping up the institution was satisfied that it was a useful one, and recommended its retention.

151. As regards the Lady Thompson Dispensary, the Collector of Cuttack says:—"The Lady Doctor, Miss Bose, has left, probably not to return. Indeed, as far as I can learn, the finances of the institution could not much longer have permitted of her salary being paid. The appointment of a lady doctor was not the success that was expected. People here are very conservative. This dispensary would be much more practically useful were it made an ordinary dispensary to meet the wants of this end of the town, with a female hospital assistant attached, who could treat women in the cottage hospital in the compound." There is some truth and force in what the Collector says. The Collector will be requested to move the Committee of Management to take his suggestion into consideration.

XXVIII.—LIBRARIES.

152. There is no public library in the Division. The district and subdivisional libraries are reported to be in good order, except that some of the books in Puri require rebinding.

153. In Cuttack the catalogues were revised during the year in terms of Board's circular No. 6 of May 1889. A list of the obsolete and superfluous books was prepared and circulated in other offices at head-quarters and in subdivisions, and a copy was also sent to the District Officer of Angul. Those books that were required by other officers have been sent, and the rest will shortly be sold by public auction, of which notice has issued. The Balasore library, too, was revised during the year. The re-classification and re-cataloguing of the books of the Sadar library in Puri, referred to in the last year's report, have been completed.

154. In Puri there is a very large collection of manuscript copies of Sanskrit works in the Sankaracharjya Math (the monastery founded by the disciples of the Hindu religious reformer Sankaracharjya). The number of volumes is estimated at about one thousand, written in Devanagri, Telugu, Dravidian, Uriya and Bengali characters, on palm-leaf and paper. It is said that the work of cataloguing this library was once undertaken by Government at the instance of Dr. Rajendra Lala Mitra, but it is not known if the task was completed. The library is said to be very valuable.

XXIX.—MUSEUMS.

155. There is no museum in this Division.

XXX.—LOCAL SELF-GOVERNMENT.

156. The number of Local Self-Government institutions during the year under report was the same as in 1892-93, viz.—

District.	*Institutions.*
Cuttack ...	1. The District Board. 2. The Sadar Local Board. 3. The Kendrapara Local Board. 4. The Jajpur ditto. 5. The Cuttack Municipality. 6. The Kendrapara ditto. 7. The Jajpur ditto.
Balasore ...	8. The District Board. 9. The Sadar Local Board. 10. The Bodrak ditto. 11. The Balasore Municipality.
Puri ...	12. The District Board. 13. The Sadar Local Board. 14. The Khurda ditto. 15. The Puri Municipality.

157. The year under report was the seventh since the Bengal Local Self-Government Act, III (B.C.) of 1885, came into operation in this Division. The third general election of the members composing the three District Boards and three municipalities took place during the year under report.

158. The three tables given below show in detail the working of the District and Local Boards and of the Municipalities in this Division :—

District Board.

District.	Number of members.			Number of meetings held in—		Number of meetings adjourned for want of quorum.	Average attendance of members.		Total Receipts.		Total expenditure.	
	Appointed by Government.	Elected by Local Board.	Total.	1892-93.	1893-94.		1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6	7	8	9	10	11	12	13
									Rs.	Rs.	Rs.	Rs.

Total ...	43	32	75	103	81	8	...	...	1,17,727	1,09,160	1,14,153	1,06,426

There is a decrease in the number of meetings held by the three District Boards and several Municipalities, and an increase in the number of meetings held by the several Local Boards.

Mr. Stevenson writes as follows :—

Cuttack.

"The attendance of members was more regular than in 1892-93, and at all meetings the Chairman presided, as desired by Government, when at head-quarters. The Vice-Chairman continued to render valuable assistance.

"The average attendance of members has improved in the Jajpur and Kendrapara Local Boards, and has fallen off in the Sadar Local Board, where, with the exception of a few, the members did not evince much interest in the conduct of business.

"The Chairman of the Local Board attributes this apathy on the part of the members 'partly to the paucity of the work and partly to the petty nature of the charge devolved upon the Board, as very little is left for its functions since the transfer by the District Board to itself of the control of secondary education and sanitation.' There may be something in this, but the District Board took action in terms of paragraph 11 of Government Resolution on Local Self-Government and the working of the District Boards for 1891-92.

"There was no change in the duties of the District Board, which were (1) the charge of pounds, (2) middle and primary education, (3) dispensaries, (4) ferries, (5) district and village roads, (6) water-supply."

Municipality, Cuttack.

159. The majority of the Commissioners in the Cuttack Municipality are reported by the Chairman to have taken a lively interest in municipal affairs. The sanitary condition of the town was on the whole good, and the working of the municipalty was generally satisfactory except as to office supervision.

The fourth general election of Commissioners took place during the year under report. The elections excited but little public interest, the total number of voters who attended being only 541 out of 1,643 persons entitled to vote.

Jajpur.

160. The Municipal Commissioners held 17 meetings as against 26 in 1892-93, of which 2 were adjourned for want of a quorum, against 5 in 1892-93. Roads and conservancy were duly seen to, and two new ferries and six urinals were added. The dispensary was almost entirely maintained by the municipality.

Kendrapara.

161. The sanitary condition of the town was better than in 1892-93, when cholera appeared as an epidemic and 225 deaths occurred. An agitation was set on foot by some residents for the exclusion of certain alleged agricultural and isolated villages from the municipal area. The matter was enquired into and the result reported to Government, who directed that the matter should be kept in abeyance till the passing of the new Municipal Act.

The Magistrate reports that something was done towards clearing jungle in all the municipalities, but not nearly so much as should have been.

Balasore.

162. The District Board had the control and management of the following branches of administration—(1) secondary schools, viz., middle class and middle vernacular, (2) special schools, including madrassas and schools for aborigines, (3) ferries, (4) roadside drains, (5) examination of primary schools, (6) grant of scholarships and rewards.

To two Local Boards were delegated the powers of administering grants for pounds, roads (both village and district), primary schools (both for boys and girls). The Bhadrak Local Board had, in addition to these, been specially entrusted with the management of the Bhadrak and the Chandbali dispensaries, the dâk bungalow at Chandbali, and the supervision of Salundi and Acquapada ferries, as they lie within the jurisdiction and easy reach of that Board. The District Officer remarks that "the powers delegated to the Local Boards have been well exercised. On revision of the delegation of powers to these Boards in order to harmonise with the clear wishes of Government, the Sadar Local Board have been relieved as an experimental measure of the administration of the district roads from the beginning of the current financial year; the Bhadrak Local Board to retain them within its jurisdiction so long as the Sub-divisional Officer is the Chairman."

163. There were three bye-elections held during the year to fill up vacancies caused by removal or transfer of Commissioners. The fourth general election of this Municipality was also held on 15th January 1894, and 12 members were elected. The elections at each centre were attended by about little more than one-fourth the number of qualified voters. The election of Chairman and Vice-Chairman was smoothly carried out. Dr. Williams was elected Chairman and Babu Radha Charan Das Vice-Chairman. The Magistrate remarks:—"I am glad to be able to state that the so-called party feeling amongst the Commissioners did not hinder good and useful work, and I would add that under the new Chairman healthy signs of, if not unity, at least toleration, are being displayed."

Municipality.

164. Mr. Coxe writes:—"The average attendance of the members was 6·57 against 4·6 of the previous year, which shows an improvement. Babu Harish Chandra Ghose, a local pleador, continues to be the Vice-Chairman, and devotes considerable time and pains to the work of his post, in which he takes much interest.

Puri District Board.

The management of the pounds, ferries, and village roads throughout the district, except Khurda sub-division, was made over to the Local Board from 1st April 1893, and from the number of meetings held and the average attendance of the members, it is evident that the Board has taken much more interest in the administration of the services it was entrusted with than before.

165. The condition of the Municipality is improving. The net income of the Municipality was Rs. 35,604, exlcusive of Rs. 5,000 received from Government as loan for the Baradand drainage work.

Puri Municipality.

The main roads of the town were metalled with laterite stone and the lanes with broken pots, as last reported. Cattle straying about the streets are now impounded, and the pilgrims are not allowed to feed them with grass or straw, except at Pejnala and Sargadwar. The construction of the Baradand drainage work is approaching completion. The result of the last audit of the municipal account was on the whole satisfactory, and the irregularities pointed out are now being attended to.

166. I am able to bear testimony to a marked improvement in the District Board and Municipality of Puri over the state of things that existed last year, and I have separately reported to Government with regard to each of them. The great improvement in the Puri Municipality I attribute to the zeal and energy of the Chairman, Dr. Banks, whose devotion to his duties is conspicuous.

167. In the case of the Cuttack Municipality, I was not favourably impressed with the office work. The office appeared to be undermanned and not to have any clerk of the requisite ability to deal with the affairs of a large office. On the other hand, I can compliment the Chairman on the state of the roads and drains and on the manner in which, with the assistance of some of the Uriya Commissioners, he contrives to widen roads without recourse to the Land Acquisition Act.

In the case of the Cuttack District Board, the services rendered by Mr. Das, Vice-Chairman, are again entitled to special acknowledgment.

168. The Balasore Municipality, while maintaining its executive efficiency, has till recently been conspicuous for faction. I think the Commissioners have done wisely to elect as their Chairman an officer entirely beyond the reach of such influences.

XXXI.—EMPLOYMENT OF MUHAMMADANS.

169. In statement XXXII are given the required statistics under this head. There is nothing to add to what I said last year. The Muhammadans appear to have a fair share of employment.

XXXII.—POST-OFFICES AND TELEGRAPHS.

170. No new post-offices were opened during the year. On the contrary, one branch post-office was closed in the district of Cuttack, and the branch office at Kendrapara was made a sub-post office and the sub-post-offices at

Aul and Raghunathpur in the same district were reduced to branch offices. The reason for these changes is not known to me. No new lines of telegraph were constructed. An office was, however, opened at Jellasore in the district of Balasore. There is in the district of Puri a line of telegraph along the East Coast Railway line, which is worked only for the Department. Both the Departments are prospering well.

XXXIII.—ZAMINDARI DÂK.

171. The following table shows the working of the zamindari dâk during the year as compared with the preceding one:—

District.	Number of estates paying cess.		Percentage on sadar jama.		Receipts.		Expenditure.		Number of lines maintained.		Number of runners employed.		Number of overseers employed.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94	1892-93.	1893-94	1892-93.	1893-94.	1892 93	1893-94.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
			Rs. A. P.	Rs. A. P.	Rs.	Rs.	Rs.	Rs.						
Cuttack	1,581	1,593	0 13 3·93	1 0 0	8,101	9,323	7,940	7,905	28	28	78	78	5	5
Balasore	818	818	1 4 6	1 2 0	5 251	4,8 6	4,794	4,998	19	19	51	51	3	4
Puri	364	402	1 13 3	2 0 0	5,210	5,414	4,776	4,655	10	10	29	29	3	3
Total ...	2,763	2,813			18,562	19,603	17,510	17,632	57	57	158	158	11	10

172. During the year under report, the mustajirs or farmers of Government revenue-free estates which are the property of individuals in the district of Puri were assessed with this cess under paragraph 4 of the Board's circular No. 1 of July 1880. This partly accounts for the increase in the receipts in that district. The difference in the rate of assessment partly accounts for the difference in the other districts.

173. No permanent new lines were opened. Three temporary lines were, however, maintained for eight months in the district of Balasore, at the instance of the Postmaster-General, for reasons not reported by the Collector. Nor is it clear whether this will be necessary annually. Further report will be called for and submitted. The other changes noticeable in the above statement call for no special remark.

174. In paragraph 155 of the last year's report it was stated that it might be necessary to revise the rate fixed for Cuttack to meet the charges for carrying the camp dâk of the Magistrate and subdivisional office, which it had been the practice to meet from contract contingencies. The Collector's report shows that a little more than Rs. 48 only was spent for this purpose, though additional temporary runners had to be entertained. It is reported at the same time that nothing was spent for carrying the dâks of the kanungos and outposts. The Collector's report does not state clearly whether chaukidars are still employed. Nor is it clear what is meant by "the rule not being generally known," when it is remembered that, not the public, but a limited number of Government officials only, are concerned. The Collector will be requested to altogether put a stop to the practice of employing chaukidars for carrying such dâks.

The collection work appears to have been done smoothly on the Collector's side.

175. There are said to have been 40 fairs in the district of Cuttack during the year under report, against about 40 in the preceding one. It is not clear whether new ones were started. It is desirable that the District Officers should pay particular attention to the site, water-supply, and other matters of sanitary consideration when new fairs are started. It seems also desirable from this point of view that the sites for new fairs should be reported beforehand to the District Officers, who should decide on their suitability. The attention of all the District Officers will be invited to this. No special arrangements were, however, made or necessary at any of the fairs in this district, except the Baruni

Fairs.

Jatra held in the town of Jajpur, when the municipality provided temporary latrines. No epidemic broke out at any of the fairs, and the police kept proper order.

176. In the district of Balasore a small sum was spent in erecting latrines and digging trenches only at Kawpur fair in the Bhadrak subdivision, and steps were taken to look after sanitary arrangements at other fairs of less importance.

177. In the district of Puri the fairs were the same as reported last year. The Ruth Jatra festival was attended by a larger number of pilgrims than usual. Cholera broke out, but fortunately the number of deaths was insignificant. Sanitary precautions were adopted by the Puri municipal authorities. At the Makar fair in the Khurda subdivision a temporary latrine was constructed and a small staff of sweepers engaged.

178. There were 121 pounds in charge of the District Boards, 56 in Cuttack, 42 in Balasore and 23 in Puri, against 53, 43, and 22 respectively in the previous year.

Pounds.

179. In the district of Cuttack the receipts fell from Rs. 7,168 in 1892-93 to Rs. 6,576 in 1893-94. The Collector says no special reason can be assigned for the decrease; it is, however, alleged that the decrease was noticeable in the pounds near the canal embankments, and is attributed to the leniency of the canal authorities in impounding cattle trespassing on the embankments. This explanation does not seem to be satisfactory. The District Board has, however, farmed all its pounds with advantage for the current year, while it retained direct management of all the pounds during the year under report.

180. In the district of Balasore, 25 pounds were farmed out and 17 retained under direct management. The former show an increase in the receipts on account of competition, while the latter show a decrease which is ascribed to continuous rains and floods, on account of which the cattle could not be let out to graze. It is not clear, however, how the rains and floods affected the receipts of one class of pounds and not those of the other. The Collector will be requested to explain this.

181. There is a decrease in the receipts from pounds in the district of Puri, where the District Board farmed out 22 and retained one under direct management. The decrease is not, however, real, as it is due to a part of the demand remaining unrealized at the close of the year, for reasons not given.

182. With regard to the cows and bulls wandering in the streets of the town of Puri, noticed in paragraph 161 of last year's report, the municipal authorities are reported to have now taken steps for impounding such cattle.

XXXIV.—SOCIAL AND POLITICAL INSTITUTIONS.

183. The following are the Societies in the Division:—

(1) The Orissa Association at Cuttack.
(2) The Landholders' Association at Cuttack.
(3) The National Society at Balasore.
(4) The Orissa Sanskrit Samiti at Cuttack.
(5) The Graduates' and Under-graduates' Association at Cuttack.
(6) The Kayastha Sabha, or the Association of Bengali Kayasthas at Cuttack.
(7) The Utkal Samilani Sabha, or the Association of Uriyas at Cuttack.
(8) The Cuttack Total Abstinence Society at Cuttack.
(9) The Sanatan Dharmarakshini Sabha at Puri.
(10) The Gorakshini Sabha, or the Societies for the Protection of Cows at Cuttack and Puri.
(11) The Puri Temple Repair Committee.

The first, second, and third are political in character, but exist in name only. The fourth and fifth are literary and did something during the year. The Sanskrit Samiti did useful work in taking measures for the organization of the Sanskrit tols and for holding Sanskrit examinations. The Graduates' and Under-graduates' Association appears to have stirred once when the abolition of the Cuttack Medical School was under consideration. The sixth and seventh deal with social matters and do not appear to have done anything during the

year. The eighth and ninth are of little importance. Though the name shows that it is a religious institution, the Sanatan Dharmarakshini Sabha was formed, the Collector of Puri says, to defend some Bairagis at Puri, and the Society is about to cease to exist, as the case of the Bairagis has been judicially decided. The Gorakshini Sabha is a thing of the past, as reported last year. No signs of its vitality have been noticed.

The eleventh is a temporary committee, and did useful work in raising subscriptions and continuing the repairs to the temples at Puri. The repairs of the Bhogamundap and the temple of Bemala were completed. The former was in a dangerous state; iron joists supported by iron pillars were set to support its dome. The floor of the temple of Lakshmi was marbled. Some work was done to the principal temple also. All the works were carried out without any accident. Many works are still in progress. Since the transfer of Babu Bularam Mullick, the Joint-Secretary, Babu Hari Ballab Bose is the principal local authority.

184. The Native Press was represented by the newspapers reported last year. They are—

1. *Utkal Dipika.*
2. *Balasore Sambad-bahika.*
3. *Uriya and Navasambad.*

All the papers were conducted loyally and with moderation. The tone of the Uriya press contrasts favourably with that of the vernacular press of Bengal. The first-named paper is the most widely circulated of the three. It deals generally with questions that concern Orissa, such as the settlement, manufacture of salt, and occasionally with questions of general interest, such as opium, Sanskrit study, cooly law, service rules, and the quarrel between the Hindus and Muhammadans. It deplored the bad feeling that had arisen between Hindus and Muhammadans, without espousing the cause of either section of the community. The other two papers chiefly concerned themselves with questions of local interest.

During the year under report a new periodical was started With regard to this new periodical the Collector of Cuttack says as follows:—"Another paper called *Indradhanu* (Rainbow), a periodical published at irregular intervals, was started during the year by some of the leading educated men of the town and interior. It was originally set on foot to criticise and bring to notice the works of Upendra Bhunja, the first and perhaps most renowned poet of Orissa, and thereby to give him prominence as a writer. There was a move in opposition by another party, which attempted to give precedence to some other and more modern writers. This latter party published a periodical called *Bijuli* (Lightning) at the press of the Raja of Bamra, a Tributary State in the Central Provinces. For some time the two factions waged a paper war in their respective organs; but of late a more pacific feeling has prevailed."

185. As I reported last year, public opinion in Orissa restricts itself to such matters as are intimately connected with the material welfare of the people, such as the settlement now in progress. The public in Orissa less, if possible, than in Bengal concerns itself with politics, and in this respect the public, with its imperfect means of ascertaining the truth, acts wisely.

186. The marked difference between Orissa and Bengal is to be met with among the educated and half-educated classes: these in Orissa maintain the same attitude of trustful reliance on the good faith of the Government that was not unknown in Bengal a quarter of a century ago. They are the upholders of the Government rather than its detractors. There is no indication at present of that ignorant and vindictive censoriousness that too often characterizes the attitude of a small section of the educated and half-educated classes in Bengal, and which, if it did not usually fall on barren soil, might lead to political danger.

XXXV.—SUBORDINATE EXECUTIVE ESTABLISHMENT AND CHARACTER OF OFFICERS.

187. * * * * * * *

XXXVI.—CONDUCT OF ZAMINDARS.

188. A consideable number of the zamindars of Orissa appear to be wanting in aptitude for the management of their own affairs; many are seriously

in debt, and it is a very common incident that they are not at the trouble of ascertaining what is due as revenue to Government on the dates of payment of the half-yearly instalments, and thus fall into difficulties under the Sale Law. I am inclined to think that in this respect they are more indolent than the zamindars of Bengal. I cannot attribute the embarrassments that have come to my notice either to the Land Law, under which they have enjoyed for 60 years the increased value of their properties which arises from a rise of rents in the case of all but *thani* raiyats, and to the extension of cultivation; nor can I attribute it to extravagance except, perhaps, in connection with marriages, sradhs, distribution of alms, and other religious observances. They certainly are not conspicuous for a display of wealth, nor can they be relied on, as a rule, to support liberally any great public objects. Their charity runs in older and I venture to think less desirable channels, namely, the gratuitous support of vagrants of the religious or pseudo-religious class. Under the above circumstances it might be anticipated that we should find them harsh and oppressive landlords, desirous of recovering their fortunes at the expense of the tenantry; whether from the survival of patriarchal relations here more than elsewhere, or from that indolence which is assumed to be characteristic of the Uriya, such does not seem to be the case. The land system of Orissa, moreover, protects a large class of the tenantry from enhancement during the currency of a settlement, which acts as a further check on the landlord. I do not, therefore, think it can be stated that the zamindars of Orissa are oppressive landlords.

189. The Collector of Cuttack says that in his district the conduct of the zamindars was good on the whole. There was a dispute between the Raja of Sukinda and his raiyats. It was, however, settled amicably. It was once reported that killa Aul was in confusion, but nothing has as yet come to light to show that the raiyats there are oppressed. The Collector of Balasore speaks favourably of Raja Baikuntha Nath De Bahadur, Babu Rajnarayan Das, Bhunya Abdus Soban Khan, Kailash Chandra Rai Mahasay, and Rai Govind Ballab Roy Mahasay.

190. There appears no improvement in the relations between the zamindars and raiyats in the district of Puri. The Collector says as follows:—

"The largest zamindar in the district is the Government. The next leading zamindars, as reported last year, are—

"(1) The Raja of Puri. Matters about himself and his estates remain much the same as reported last year by Mr. Walsh. I have never seen the Raja, but the information available to me goes to show that though he may at times have a glimmering of conscientiousness, he is not all that can be desired. He is too much a slave of his attendants ever to make a real attempt to improve himself. The Rani has at last been induced to appoint a competent manager, and it is to be hoped that this appointment will do good.

"(2) The Raja of Parikud seems an excellent landlord as far as I can judge, and to be cursed with unreasonable raiyats over whom he seems to be prevailing.

"(3) The jagirdar of Malud's estate continues to be managed by me as receiver on behalf of his creditors.

"(4) The Chaudhuri of Bhinjarpur. It is understood the Chaudhuris are not at one among themselves. Their estates have fallen into arrears and have been advertised for sale.

"(5) The zamindars of Kothdesh (two brothers) have been much involved in debts of late, and have been very irregular in payment of Government dues. Their estate has at present been advertised for sale, and will, I fancy, be sold next July. It is regrettable that an old and distinguished family should be broken up, but the end is inevitable. They are hopelessly involved, and have not the necessary sense or knowledge to save themselves.

"(6) Of the principal mahants of the several maths at Puri, who hold endowment land, the mahant of Emar is the only person who manages his property well and is the wealthiest. The rest I am informed either mismanage their property or are involved in debt.

"On the whole, there is but little recognition in this district of the principle that property involves any duties beyond ostentation." I may add that I have seen very little evidence of ostentation in Orissa.

XXXVII.—GENERAL REMARKS.

191. The year was rather a favourable one than otherwise for crops, except in the Cuttack district, which appears to be in a normal condition of short crops, and has been so for the last three or four years. Prices have everywhere been high, which cannot, I think, be attributed to a deficient harvest, but rather to the influence of prices ruling elsewhere. So far as the agricultural tenant is concerned, I see no reason to think that his condition is otherwise than prosperous, as he must derive some advantage from high prices. The condition of the day-labourer here as elsewhere is not good; there are no local industries which divert this class from being the servants of the tenantry, nor does it appear that they readily leave such service when the oportunity offers. Relief works, when tried, do not seem to attract labour even at periods of the greatest pressure from high prices.

Yet when it is considered how great is the number of Uriyas who leave Orissa for employment in Calcutta and elsewhere, it cannot be alleged that the Uriya is wanting in the enterprise necessary to take his services to a better market than is to be found locally. This leads me to doubt whether the Uriya day-labourer can be so badly off as would at first sight appear. I have heard it stated by an officer who has good opportunities of observing, that many of this class are not free agents, that they have as a rule taken advances from a cultivator or a contractor and cannot leave such service, and that better wages will not tempt them to do so unless the temptatiom of an advance is added. The same officer says that this position of semi-slavery enables the employer to obtain their services much below the wage that would be paid by another person, and that the labourers are sweated down to the lowest scale that is consistent with their survival. It is possibly here that we must look for the explanation of the fact that wages do not rise in Orissa, as has been pointed out by Mr. McPherson, Subdivisional Officer of Khurda, and others. The only way that we may hope that this bondage will be broken will be by creating a larger demand for unskilled labour. Manufactories are not likely to exist in Orissa, but a railway will doubtless stimulate an increasing number to leave Orissa for places where labour is better remunerated.

The settlement progressed on the whole quietly; less is heard now of the oppression of amins, and the time has not yet come for the raiyats to learn how the settlement will affect them, and they maintain a quiet attitude.

The East Coast Railway has come to a standstill, the decision of the difficult question as to where the Mahanadi bridge is to be built being still under consideration.

The year is remarkable for the large number of pilgrims that visited the Puri temple on the occasion of the Car festival. Ever since Puri has been a place of pilgrimage, pilgrims have visited the temple at considerable personal inconvenience and risk to health and life, and it is a subject of congratulation that in 1893 the abnormally large concourse, which is estimated to have exceeded 100,000 persons, showed an exceptionally low rate of mortality.

The Steamer Companies did yeoman's service in transporting pilgrims to and from Calcutta, and the sufferings experienced were materially lessened thereby. It would be interesting to compare the statistics as to mortality in 1893 with those of a similar occasion before steamer lines existed, and when the whole distance between Calcutta and Puri, over 300 miles, was traversed by road.

The Hemp Drugs Commission visited Orissa, and witnesses were examined at Cuttack and Puri. The Uriya is not in favour of the prohibition of the use of hemp drugs. Similarly, the Uriya witnesses before the Opium Commission were opposed to the prohibition of the use of that drug.

RESOLUTION ON THE REPORT ON EXCISE ADMINISTRATION IN THE LOWER PROVINCES FOR 1893-94.

FINANCIAL DEPARTMENT—SEPARATE REVENUE.

Darjeeling, the 17th October 1894.

RESOLUTION—No. 433T.-F.

READ—

The Report of the Commissioner of Excise for the year 1893-94, with the observations of the Board of Revenue thereon.

There was no administrative change in the management of this Department during the year. Mr. Krishna Govinda Gupta was Commissioner of Excise throughout the year, and he had the direct assistance of three Deputy Collectors, one of whom was his Personal Assistant, and two were peripatetic Inspectors of Excise. In 18 districts the Department was in charge of Special Deputy Collectors whose whole time was, or should have been, given, and whose pay was charged, to the Excise Department, while in the remaining districts excise work was entrusted to a half-time Deputy Collector on the ordinary staff. In all but three of the former districts there are central distilleries, the working of which demands the careful supervision of the Special Deputy Collectors. The distilleries generally are in immediate charge of Sub-Deputy Collectors or of Kanungos, as Superintendents. Their number was reduced during the year by the closing of those at Hooghly and at Maniktola in Calcutta, and since the end of the year the Mymensingh distillery has also been abolished. The number of Sub-Deputy Collectors now employed is 9, and of Kanungos, inclusive of the Deputy Superintendents of certain distilleries, 27. The Commissioner has not reported how far the old excise darogas have been replaced in the subordinate establishment by men of a superior class. This subject should be noticed in the next report.

2. *Inspections.*—The amount of inspection done by the Commissioner and the Inspectors was satisfactory. With regard to Collectors, it is reported that the central distilleries were insufficiently inspected in Birbhum, Murshidabad, and Monghyr, and that excise inspection generally was neglected in Bogra, Rangpur and Tippera The Board should draw the attention of the Collectors, of these districts to the matter, and insist on the inspection work being properly done in future. In paragraph 7 of their report, the Board mention certain districts in which the Special Deputy Collectors are stated to have been employed, more or less, on judicial work in breach of the rule that their whole time should be given to excise work. It appears, however, from the Administration Report of the Commissioners, that in 1893 no judicial work was done by those officers in Mymensingh and Champaran, and that only in Midnapore was the amount excessive. The rule should be strictly carried out in future. It is satisfactory to notice that in 16 out of the 18 districts in which Special Deputy Collectors are employed, the minimum number of days prescribed for inspections in the interior (120) was attained or exceeded. Since the close of the year orders have been issued fixing the minimum number of days for touring by these officers at 150, and directing that they are not to be employed on magisterial duties or placed in charge of treasuries. In the other districts the Deputy Collectors of the ordinary staff supervising excise are not to have charge of the treasury, and are required to spend 90 days on tour. The number of days prescribed for these officers last year was 60, and the Lieutenant-Governor is glad to find that there was a deficiency in the tours in only three districts, excluding the Sonthal Parganas and Darjeeling, the circumstances of which are exceptional. The only serious deficiency (24 days) was in Tippera;

the cause of this should have been explained. A subordinate staff of inspecting and preventive officers is maintained in all districts. The movements of these officers should be closely and constantly watched and controlled by the Deputy Collectors and Collectors.

3. *Financial results of the year.*—The revenue from exciseable articles was, as in previous years, realised from fees on licenses for wholesale and retail sale of spirits or drugs, distillery fees, and duty on the actual quantity of country rum, country spirit prepared in the central distilleries, opium, ganja and bhang passing into consumption. Duty on imported liquors forms part of the Imperial customs revenue. A further enhancement of the duty on ganja, and the substitution of a distillery fee of 2½ annas per gallon, London-proof, for the former fee of one anna per gallon irrespective of strength, were the principal changes made last year in rates. The total receipts of the year, according to the figures returned by the District Officers, amounted to Rs. 1,21,37,096, or Rs. 6,37,096 in excess of the budget estimates. The total charges having been Rs. 6,47,740 against a budget estimate of Rs. 6,96,000, the net receipts were Rs. 1,14,89,356. The Accountant-General's figures show receipts larger by Rs. 28,563, but the discrepancy has to be reconciled. An annual statement of the charges should be obtained from him for comparison with the figures supplied by the Collectors. All exciseable articles show an increase of revenue in the past year, with the exception of madak, chandu and methylated spirits, the largest increase being obtained from the license fees of outstills and the duty on ganja. The incidence of the excise revenue per head of the population amounted to two annas and eight pies, against five annas and five pies and eight annas and four pies respectively in Madras and Bombay, and one anna and nine pies in the North-Western Provinces and Oudh for the year ending the 30th September 1893. The expenditure, on the other hand, decreased by Rs. 6,000; the details of the sub-heads as compared with 1892-93 are given in paragraph 44 of the Commissioner's report. There is an increase of Rs. 9,230 under salaries, with a decrease of Rs. 6,666 under rents and rates, and of Rs. 4,000 under petty construction and repairs. The Commissioner of Excise should furnish details of "petty construction" in future reports, as was done in paragraph 59 of his report for 1892-93.

4. *Relation of growth of consumption to growth of revenue.*—The Board's observation in paragraph 12, that the accepted principle of raising a maximum of revenue from a minimum of consumption, has been carefully kept in view, receives support from the following figures showing the revenue derived from, and the consumption of, the chief articles of excise in the past two years:—

	Revenue		Percentage of difference.	Consumption.		Percentage of difference.
	1892-93.	1893-94.		1892-93.	1893-94.	
1	2	3	4	5	6	7
	Rs.	Rs.		L. P. gallons.	L. P. gallons.	
Distillery liquor ...	24,03,063	24 45,174	+1·8	402,158	416,857	+3·6
Outstill shops ...	26,27,080	28,07,724	.....	.....	.....	.....
Country rum ...	4,19,717	4,35,308	+3·7	80,176	83,554	+4·2
				Mds.	Mds	
Opium ...	20,85,635	21,34,867	+2·4	1,934	1,9.0	+1·8
Ganja ...	23,86,066	25,35,045	+6 2	5,451	5,118	—6·1

The consumption of distillery liquor increased more than the revenue derived therefrom. This occurred mainly in Bihar, and is accounted for by the reduction of the duty in that province, which was intentionally made in order to enable that liquor to compete with the cheap outstill liquor and check illicit dealing in the latter. In other Divisions, where higher rates of duty are levied, consumption fell of. In the case of outstill liquor the returns of consumption obtained from the license-holders' books are too untrustworthy for quotation.

The revenue from country rum would have amounted to Rs. 4,39,600 in the past year if the full duty of Rs. 5 per gallon had been paid in Bengal on 1,073 gallons imported from Shahjehanpur which passed into consumption. If this sum is taken as the true revenue, the increase over the previous year was 4·7 instead of 3·7 per cent, and exceeded the increase in consumption. The increase in revenue from opium and ganja also gives a larger ratio than the increase in consumption. The reduction in the consumption of ganja, accompanied by a large increase in the revenue, is specially remarkable.

5. The gross revenue, the charges, and the net revenue in the past five years are shown in the following statement:—

Year.	Revenue.	Charges.	Net revenue	Percentage of charges.
1	2	3	4	5
	Rs.	Rs.	Rs.	
1889-90	1,04,73,431	5,31,382	99,42,049	5·07
1890-91	1,04,60,932	6,47,112	98,13,820	6·1
1891-92	1,11,29,813	6,67,792	1,04,62,021	6·
1892-94	1,16,00,621*	6,53,715*	1,09,46,906*	5·6
1893-94	1,21,37,096†	6,47,740†	1,14,89,356†	5·3
Difference between the past two years	+5,36,475	—5,975	+5,42,450	—·3

* Revised figures.
† Figures subject to revision by Accountant-General.

Saving a slight fall in 1890-91, the revenue has steadily advanced, the net increase last year over the preceding year being Rs. 5,42,450. The charges at the same time show a gradual decrease in the past three years. Distributed according to the Divisions, the revenue compares thus for the past two years, after exclusion of the advance collections of each year:—

Division.	1892-93.	1893-94.	Difference + or —
1	2	3	4
	Rs.	Rs.	Rs.
Burdwan	11,57,570	11,61,512	+3,942
Presidency	32,14,624	35,64,906	+3,50,282
Rajshahi	8,81,117	9,37,755	+56,638
Dacca	8,12,196	8,11,233	—963
Chittagong	2,68,588	2,65,973	—2,615
Patna	24,28,015	25,85,849	+1,57,834
Bhagalpur	12,09,774	13,08,328	+98,554
Orissa	5,64,242	6,18,447	+54,205
Chota Nagpur	8,37,868	8,75,374	+37,506
Total ...	1,13,73,994	1,21,29,377	+7,55,383

There was thus an increase of over 7½ lakhs last year on comparison of the revenue received in each year on account of the year itself. There were slight decreases in only two divisions, Dacca and Chittagong, while large increases were obtained in the Presidency (including Calcutta), Patna and Bhagalpur Divisions

6. *Revenue under different heads.*—Classified under the different heads, the revenue (without adjustment of advance collections) has been as follows in the past five years:—

Articles of Excise.	Revenue.					1893-94 compared with 1892-93.	
	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.	Increase.	Decrease.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs	Rs.	Rs.	Rs.	Rs.
Country spirits	47,07,132	45,28,262	48,14,448	50,30,143	52,52,898	2,22,755	.
Rum	1,00,659	98,383	2,39,972	4,19,717	4,35,308	15,591	
Imported liquors	2,14,090	2,31,095	2,28,614	2,07,092	2,33,162	26,070	...
Beer	16	71	174	193	224	31	
Tari	8,26,314	8,45,588	9,57,405	9,50,379	10,16,375	65,996	...
Pachwai	2,32,682	2,72,288	3,04,108	3,34,557	3,46,518	11,961	.
Charas	3,553	6,594	7,163	9,097	10,776	1,679	...
Siddhi, sabzi or bhang	43,161	44,847	48,464	53,558	55,752	2,194	...
Majum	2,007	1,910	1,902	1,984	2,069	85	...
Madak	82,825	81,467	86,343	79,089	77,279		1,810
Chandu	35,216	36,247	35,332	31,032	24,476		16,556
Spirits used for arts	143	466	772	1,086	337	...	729
Ganja	22,59,090	23,11,713	22,92,503	23,86,066	25,35,045	1,48,979	
Opium	19,59,491	19,95,812	21,18,825	20,85,635	21,34,867	49,232	..
Miscellaneous	6,450	6,671	7,973	10,413	10,910	497	
Total .	1,04,73,431	1,04,60,932	1,11,29,813	1,16,00,621*	1,21,37,096	5,45,070	8,595
					Net increase	Rs 5,36,475	

* Revised figures, owing mainly to the inclusion of the revenue of the new district of Angul and Khondmals.]

The revenue from country spirits, which fell by nearly 2 lakhs in 1890-91, has steadily advanced since, and in 1893-94 exceeded the receipts in that year by over 7 lakhs. Tari and pachwai show an unbroken advance since 1889-90, and rum, ganja and opium have also made steady progress from the same year save for a falling off in one year in each case. The settlements of licenses for the current year have again been very favourable, and the fees show up to the 31st May an increase of Rs. 4,44,099 over the amount in the past year.

7. *Country spirit.*—No article of excise contributes so largely to the revenue as country spirit. In the past year the receipts from this source amounted to Rs. 52,52,898, or 43·3 per cent. of the total excise revenue, against Rs. 50,30,143, or 43·4 per cent. in 1892-93. Country spirit is manufactured either at central distilleries or at outstills. The central distilleries are maintained by the Government; stills are worked within them by distillers, and the liquor is passed out, after the levy of the distillery fee and the duty, for sale at licensed shops. Except at a few subdivisions, the circumstances of which are exceptional, the distilleries are located at the head-quarters of the districts, the subdivisions being sometimes served by depôts supplied from them, from which the liquor is taken by the retail vendors. The central distillery system is in force throughout the following divisions and districts:—Burdwan, except certain wild tracts of Bankura and Midnapore, where outstills are allowed; the Presidency, Dacca and Orissa, except the jungle tracts of Cuttack along the frontier of the Tributary States, where outstills were re-introduced in the past year; the Giridih subdivision of the Hazaribagh district; and the Sonthal Parganas district. In the Patna Division, and the districts of Monghyr and Bhagalpur, a dual system of central distilleries and outstills is maintained, the areas served by the distilleries being defined, and outstills being placed at such a distance from the boundary as to minimise the risk of smuggling of outstill liquor into those areas. In the Rajshahi and Chittagong Divisions, in the Chota Nagpur Division, except a small portion of Hazaribagh and Manbhum, and in the districts of Purnea and Malda of the Bhagalpur Division, the outstill system only is in force. In all districts the number of distillery or outstill shops, or of both, sanctioned is fixed with due regard to the requirements of the drinking population, as ascertained by careful enquiry renewed from time to time, and to the policy steadily maintained by the Government of affording no undue facilities for procuring liquor; the sites are selected in consultation with the magisterial and other local authorities, changes being made in deference to their views and the opinion of respectable residents; and the licenses are sold by auction, at upset prices fixed with reference to consumption, so far as it can be estimated, and the prices obtained in previous years.

8. *Changes effected or proposed in the management of Sadar Distilleries.*—The modification in the rate of the distillery fee already referred to was a change of some importance made during the year in the rules relating to central distilleries. It is yet too early to judge its effect, but a comparison of columns 19 and 24 in table V shows that the receipts under this head have fallen in the Patna Division, where it was too high before, considering the weakness of the liquor distilled, and have risen elsewhere, where the spirit distilled is stronger. So far, therefore, the object of the change has been achieved. Another change was the introduction of locked receivers for the spirit passing from the stills on distillation, in order to prevent any fraudulent abstraction. The Board (paragraph 27) were not satisfied that the advantages obtained were commensurate with the annoyance caused by the restriction, and prohibited its extension to distilleries where it had not been tried; but Mr. Westmacott is personally of opinion that the principle is sound that distillers should not have access to the receivers without the presence of an excise officer. The extension of the system must depend on the reports received of its working in the places where it is in force. On the question of issuing liquor from the distilleries at fixed strengths obtained by blending liquors distilled at different strengths, referred to in paragraph 25, the Lieutenant-Governor's remark in the Government order of the 9th June 1894, which referred only to compulsory distillation at a certain strength, not to blending, appears to have been misunderstood. In paragraph 15 of the Resolution on the Annual Report for 1891-92, as also in the Government order of the 19th March 1892, the Lieutenant-Governor desired to convey approval of the system, while expressing the opinion that it should be enforced with discretion. He agrees with the Commissioner and the Board that minute differentiation of strength in the issues from the distilleries should not be allowed, and that the fixing of a few standards of strength, conformably to the wishes of the distillers, who know the tastes of the consumers, tends to simplify the accounts and act as a check on the distillery establishments. The Board are, therefore, at liberty to maintain and, if necessary, extend the system. The plan of fixing minimum prices for the retail sale of liquor, whether at distillery shops or at outstills, which involved minute interfence and was never effectual, has been abolished; but the Commissioner now advocates, in paragraph 74 of his Report, that Government should fix the prices to be charged by distillers to the retail vendors, on the ground that the former have practically a monopoly of manufacture in central distillery areas, and that a reduction in the price of distillery liquor will minimise the temptation to smuggle or deal in contraband liquor. The Board (paragraph 30) discourage the proposal as an interference with free trade, and the Lieutenant-Governor agrees with them. The Board observe (in paragraph 32) that it has been considered a desirable policy to encourage the distillers to issue weak instead of strong lipuor, but they do not advocate a policy of interference. The Lieutenant-Governor considers that the interference has been on the part of Government, which, by imposing a heavy still-head duty, has encouraged traders to distil at high strength: and the object of lowering the duty and the distillery fee is to allow things to take their course, and the tastes of the consuming classes to be consulted. In Bihar, where the demand is for a cheap, weak and comparatively innocuous liquor, the distillation of strong spirit had the tendency of encouraging drunkenness, or else of driving consumers to the use of illicit spirit.

9. *Changes in the management of outstills.*—With regard to outstills, effect was given from the beginning of the past year to the order of Government, in paragraph 14 of the Resolution on the Report for 1891-92, directing the withdrawal of the restrictions on the capacities of the stills and the fermenting vats, which were introduced some years since on the recommendation of the Excise Commission, but were found after full trial to be vexatious and ineffectual in practice. The licensees of outstills cannot, however, increase the size of the stills already sanctioned without the approval of the Collectors and the Excise Commissioner. The Lieutenant-Governor anticipates no evil results from the change, but the subject should be noticed in the next report. Mr. Westmacott (paragraph 25) deprecates the abandonment of the system followed by him when Excise Commissioner, of fixing the upset prices for the licenses for outstill shops on the basis of the quantity of liquor sold, a system which was condemned in paragraph 19 of the Resolution quoted above. Seeing that the information

procurable as to the quantity of liquor sold at the outstills is generally untrustworthy, the Lieutenant-Governor is of opinion that the average fees realised at the auctions in the previous three years must be the main guide for the calculation of the upset prices.

10. *Revenue from country spirit.*—Of the total revenue from country spirit, Rs. 24,45,174 were contributed by the central distilleries and the shops dependent on them, and Rs. 28,07,724 by the outstills, there being in the former case an increase of Rs. 42,111 and in the latter of Rs 1,80,644 over the receipts in the previous year. The number of distillery shops settled increased from 1,175 to 1,255, or by 80, and of outstill shops from 2,007 to 2,034, or by 27; but the total number of shops of the two classes was still much below the annual average of the five years 1888—93. The increase in each case in the past year is explained to be partly due to the settlement of a larger number of the sanctioned shops during the past year. For the purpose of ascertaining the number of new shops it is necessary to compare, not the number of shops actually leased, which is always a little below the sanction, but the number of sanctioned shops in each year. This comparison should be made in future reports, and explanation of any increase given. From figures separately supplied by the Excise Commissioner, it appears that for the past year the number of sanctioned distillery shops was 1,292 against 1,243 in 1892-93, and of outstill shops 2,041 against 2,029. The Lieutenant-Governor trusts that the Board and the Commissioner will continue to check carefully all proposals for an addition to the number of existing shops, and to accord their sanction only in cases where the opening of a new shop is found necessary to meet a local demand which might otherwise be supplied by illicit dealing. In the Burdwan Division there was a decline in revenue from country spirit in all districts except Birbhum, but the loss was almost made up by increased receipts from pachwai and tari. It is clear from the figures furnished by the Commissioner that illicit distillation prevails largely in the Jahanabad sub-division of the Hooghly district and in Bankura, and the Lieutenant-Governor will be prepared to consider any proposals which the Board may desire to submit for the entertainment of special police in these tracts. The Presidency Division shows an increase of nearly Rs. 8,000 in the revenue, and a simultaneous decrease of nearly 6,000 gallons in consumption. In the Rajshahi Division, with Purnea and Malda, an increase of Rs. 40,820 was obtained. The Dacca Division shows a slight increase, a heavy falling off in Dacca, and a slight one in Backergunge, being compensated by a large rise in Mymensingh and a smaller one in Faridpur. The decrease in Backergunge is attributed partly to the use of country-made Eau-de-Cologne as a stimulant, which will be noticed further on. In the Chittagong Division the consumption of spirit is very limited. The revenue rose during the year owing chiefly to better settlements of the licenses. The Patna Division, with the addition of the districts of Monghyr and Bhagalpur, yields the largest revenue from country spirit, the amount received in the past year being Rs. 18,09,289 against Rs. 16,85,515 in 1892-93, showing an increase of Rs. 1,23,774, which was obtained in both the distillery and the outstill areas. Even the revenue from distillery liquor, which has long been on the downward grade, has commenced to rise as shown in paragraph 93 of the Commissioner's Report, and this may be the result of the measures lately taken to reduce its costliness. The lower classes of these districts are much addicted to drink, but the liquor consumed is ordinarily weak, and there is also a very large consumption of tari, which is still weaker. An increase of revenue was also obtained in the Sonthal Parganas and the Orissa and Chota Nagpur Divisions, Palamau contributing the largest amount in the latter division, owing to the closer attention paid to excise since its formation into a district.

11. *Reduction in the number of distilleries.*—The suggestion (paragraph 30) that some of the smaller distilleries should be abolished, and their place supplied by depôts furnished from other distilleries, should form the subject of a separate report. The substitution might perhaps be advantageously effected in the Sonthal Parganas, where five central distilleries are now kept up.

12. *Country rum.*—With the view of checking the competition of country rum with country spirit, the substitution of a strong for a weak liquor being undesirable in the interests of the people, the duty on rum was raised from Rs. 4 to Rs. 5 per gallon London-proof in certain districts from the 1st April 1892.

The effect of the change in 1892-93 was a decrease in consumption, but a recovery took place in the past year. The total quantity passing into consumption from the distillery at Sibpur and by importation from Shahjehanpur in the North-Western Provinces and Aska in the Madras Presidency was 83,554 gallons London-proof against 80,176 gallons London-proof in 1892-93, showing an increase of 3,378 gallons London proof. These figures, however, include the exports to Assam. If these exports are excluded, the actual increase in consumption in Bengal itself was, as the Board report, 640 gross gallons. In future reports the quantity exported to Assam and consumed in the districts outside Calcutta should be shown in London-proof gallons. The duty rose during the year from Rs. 4,00,321 in 1892-93 to Rs. 4,13,734. The income from license fees being insignificant, the total revenue from rum rose from Rs. 4,19,717 to Rs. 4,35,308.

13. *Imported liquor.*—The excise revenue from imported liquor is made up entirely of fees for licenses for wholesale vend, and for licenses for retail in shops, at hotels and railway refreshment rooms, and on steamers. The total receipts amounted during the year to Rs. 2,33,162 against Rs. 2,07,092 in the preceding year. The number of hotel, railway refreshment room and steamer licenses increased, but licenses for wholesale and retail shops fell off considerably in Calcutta owing to the enhancement of the fees from Rs. 50 and Rs. 600 to Rs. 300 and Rs. 1,000 respectively. This reduction is satisfactory as it implies the closing of a large number of shops for the sale of cheap imported spirits. Regarding these spirits the Commissioner writes (paragraph 101):

"Most of the cheap and low class foreign spirits imported into Calcutta is made in North Germany from starchy roots, and is shipped here from Hamburg and London. All the varieties of these spirits (brandy, whisky, gin, spirits of wine, and spirits, other sorts), except some consignments of gin, are imported over-proof, in order to save freight. Nearly three-fourths of the total quantity imported is Hamburg spirits of wine, the average strength of which is seldom less than 63° O. P. The greater portion of the imported liquors sold in the native shops is concocted in Calcutta from these spirits of wine. The manipulation begins after they are cleared from the Custom House. The strength is reduced according to requirements, flavouring essenses and colouring matter are added, and the mixture is variously sold as whisky, brandy, gin and even as port and sherry. Gaudy and flaring labels are used, and the number of brands, specially of brandies and whiskies, is enormous, though care is apparently taken to avoid a close imitation of any recognized trade marks or an infraction of the provisions of the Merchandise Marks Act, the Penal Code, or the Sea Customs Act, as amended by Act IV of 1889. These manipulated spirits are sold at an average strength of 40° U.P. The cost price of a dozen bottles is about Rs. 8, and the wholesale price Rs. 10-8 to Rs. 12. The retail price varies from Re. 1-4 to Re. 1-6 a bottle, which leaves a very large margin of profit. The importers of such spirits are known, and they have been warned that if they sell German spirit so labelled as to show it to be French brandy, English gin, Scotch whisky or anything other than what it really is, they will make themselves liable to prosecution."

The Board add—

"A condition has been inserted in all the licenses issued for the current year binding the licensee not to possess or sell any spirituous or fermented liquor other than country rum, unless the bottle bears a label or capsule, or the cork is sealed with a seal showing the name and style of the firm or shop by which, and the place at which, the liquor has been bottled, and the country of manufacture. It is beyond the power of the law to prevent the bottling and concoction of imported liquors so long as the provisions of the Indian Penal Code relating to trade marks are not infringed, and so long as the requirements of the Merchandise Marks Act are satisfied. The measure adopted should go some way towards diminishing the use of liquors locally manipulated, as the purchaser will know that it is not the original article which he is buying."

14. *Tari.*—Tari, or the sap drawn from palmyra and date trees, is an important source of excise revenue, the receipts last year having amounted to Rs. 10,B75 against Rs. 9,50,379 in 1892-93. The liquor is used as a stimulant in fermented state: when fresh and unfermented, it is a pleasant beverage having no intoxicating effect: when fermented, it is said to be nearly the same strength as about weak country liquor, but experiments should be made with a hydrometer to support this assertion. It is not distilled in this Province. Fresh tari is largely used in some districts for the manufacture of molasses, and is in such case exempt from taxation, the exemption extending to the whole of the Dacca Division under a notification issued by

the Government in 1883. In other districts a small fee only is levied, 2,461 licenses granted in the past year having yielded a revenue of only Rs. 7,211. The tari revenue is thus practically derived entirely from the fermented juice. The districts of Bihar contribute by far the largest share, and the proper regulation of tari taxation in those districts is a matter of great importance. A commencement has been made towards the introduction of the Madras system of fixing the license fee according to the number of trees tapped, a schedule of trees being filed by every applicant for a license, and the trees being subsequently marked for identification; but for the full introduction of the system it may be necessary to amend the law. The Board have been requested to submit a report on the subject, furnishing an estimate of the initial cost of registering and marking the trees, and of the future annual cost of the establishment required for maintaining the registers and detecting breaches of the rules, and this report is awaited. If further delay is unavoidable, the Board are requested to report at once on the further question which has been referred to them, whether an officer should be deputed to Madras to study the system on the spot. It is desirable that any information required for the further development of the system should be obtained as early as possible, in order that arrangements may be made before the settlements of the licenses for the ensuing year.

15. *Pachwai.*—This liquor, prepared by the fermentation of rice or marwa (*Eleusine Corocana*) and other grains, is a favourite beverage of the aboriginal or hill tribes who are found mainly in the districts of Burdwan, Birbhum, Bankura, Midnapore, Murshidabad, the Sonthal Parganas and Darjeeling. In other districts licenses are granted where settlements of the aboriginal tribes exist. Besides the licenses for sale, which yielded last year a revenue of Rs. 3,27,827 against Rs 3,17,699 in 1892-93, licenses for home consumption are granted to the headmen of villages at low fees fixed according to number of households. In certain tracts free home-brewing is permitted. These relaxations of the ordinary excise rules are necessary in the interests of the aborigines, to whom pachwai is nutritious as well as stimulating, and who, if subjected to a stricter system, might be driven to the illicit manufacture and use of stronger liquor. The system appears to have worked well in the past year, and it has the Lieutenant-Governor's full approval. An attempt is being made to compel vendors of pachwai to keep accounts of their transactions, and also to ascertain the quantity of material used and the alcoholic strength of the liquor, with the view of obtaining better information for the fixing of the license fees. The attempt should be persevered in for statistical purposes and for general information, but the Lieutenant-Governor does not desire to see any increase in the rate of taxation on this simple and useful beverage.

16. *Ganja.*—The proceedings of the Hemp Drugs Commission, whose report has not yet been received, have attracted special attention to ganja and its congeners during the year. Ganja is grown under close supervision in a compact area, with Naogaon in Rajshahi as its head quarters, and is exported thence to golahs (or bonded storehouses) in the districts, from which it is issued on payment of duty to retail vendors. With a smaller area under cultivation there was a considerable increase in the outturn last year. The total quantity consumed in Bengal during the year, however, shows a satisfactory decline from 5,45[illegible] to 5,116 maunds, while the revenue, owing mainly to the increase in the rates of duty, rose from Rs. 23,86,066 in 1892-93 to Rs. 25,35,045. Bhagalpur, Purnea, Mymensingh, Monghyr, Puri, Gaya and the Sonthal Parganas gave the largest increases in receipts. The figures of consumption in Orissa show that, while the total quantity for the province has fallen from 241½ to 236¼ maunds, the quantity of Garjhat ganja consumed in the district of Puri has increased from 5 maunds 14 seers to 18 maunds. It would thus appear that the enhancement of the duty on this kind of ganja has not checked its licit use in Puri. In Cuttack and Balasore, however, the drug did not come under taxation, although its consumption on the borders of the Tributary States is suspected. The local officers must continue their efforts to check any smuggling. The exports include 145 maunds sent to London, no mention of such exports having been made before: the nature and growth of this trade should be watched.

17. *Production and distribution of ganja.*—A perusal of section XII of the Excise Commissioner's Report leads the Lieutenant-Governor to think that

care should be taken to trace and compare the consumption of ganja year by year. The figures for 1893-94 appear to stand as follows:—

			Mds.
Estimated produce (paragraph 123)			9,755
Exported from Rajshahi (paragraph 125)			7,434
Quantity unaccounted for, and remaining in producers' godowns ...			2,321
Details of quantity exported			7,434
		Mds.	
Consumed in Bengal (paragraph 130)		5,116	
Sent to North-Western Provinces (paragraph 133) ...		463	
„ Nepal (paragraph 134)		234	
„ Mauritius		59	
„ Sikkim		1	
„ Hill Tippera		2	
„ Orissa Tributary States		4	
„ Assam .. ... } Duty free		731	
„ Kuch Bihar ... ... }		76	
„ London .. ...}		145	
Total accounted for ...			6,831
Balance remaining (presumably) in golahs			603

A statement of this kind should be drawn up year by year, and the manner of disposal of the balance unaccounted for should be traced. The actual balance in the golahs at the close of each year should be verified.

18. *Bhang.*—Bhang is a variety of hemp found wild in many districts of Lower Bengal and Bihar. For excise purposes it is stored and retailed in the same way as ganja, but the quantity thus taxed must be a fraction only of what is actually used, and the facility with which it can be procured renders abortive any attempt to suppress its illicit use. The revenue from bhang increased during the year from Rs. 53,058 to Rs. 55,752, with a decline in consumption from 1,034 to 943 maunds. The decrease was marked in Calcutta, where the drug is chiefly consumed, owing to a rise in the retail price caused by enhanced license fees. In Gaya, which is also a large consumer, a greater influx of pilgrims is said to account for a considerable increase in consumption.

19. *Opium.*—Excise opium is supplied to the licensed vendors from the district treasuries at prices varying from Rs. 16 to Rs. 32 per seer. The minimum price is fixed for the districts of the Patna Division, where the poppy is cultivated, with the view of removing the temptation of obtaining the drug illicitly from the cultivators. An enquiry was made during the year into the question whether the low price of excise opium in those districts does not tempt vendors to export it to other districts where the price is higher, but the Government eventually accepted the Board's view that such exportation, if on a large scale, could be easily detected from any abnormal increase in the quantity of the drug taken from the treasuries, while an enhancement of the price would offer greater inducement to the cultivators to keep back a portion of their produce for illicit sale. It was found necessary during the year to regulate the supply of opium to the shops in the Tributary States of Orissa bordering on the districts of Cuttack, Balasore and Puri, so as to equalize taxation on both sides of the border, and prevent the vendors in the Tributary States from underselling those in British territory. The Lieutenant-Governor desires that the retail price of opium per tola in each district may be reported in future and shown in Appendix D of the Report. The total revenue from excise opium rose last year from Rs. 20,85,635 in 1892-93 to Rs. 21,34,867, both license fees and duty contributing to the increase. The quantity of the drug sold also increased from 1,934½ to 1,970 maunds, or by 35½ maunds, but it was lower by nearly 36 maunds than the quantity sold in 1891-92. Increases took place in Calcutta and 19 districts, but were generally slight, except in Calcutta, Cuttack, Balasore, and Manbhum. In Calcutta the increase was due to large consumption by the chandu shops, but was small compared with a heavy decrease in the previous year. The increase in Cuttack was due to the inclusion in the return of the year of a quantity of the drug sold in

1892-93 to the Dhenkanal State. The increase in Manbhum is due to the opium vendors of the Gangpur State having taken their supplies from that district. An increase of 3¼ maunds in Hooghly is attributed to the detection of some important smuggling cases in the previous year, and to a stricter watch being kept on the shops bordering on French Chandernagore, into which opium has long been smuggled from the producing districts. A considerable decrease in the quantity of opium taken from the treasury occurred in Chittagong, and is possibly due to the regulation of the supply to the vendors according to local requirements, and the consequent check on smuggling into Burma. The district of Murshidabad, in which consumption has steadily fallen in the past three years, and smuggling is suspected, appears to require the special attention of the excise authorities.

20. *Madak.*—This is a preparation of opium for smoking. A considerable reduction in the revenue occurred in Calcutta, owing to the prohibition of smoking on the premises of the licensed shops. The reduction of the limit of retail sale and of private possession to one tola, and the fixing of a fee of Rs. 50 for a special license for manufacture for domestic consumption, have also had an effect on the revenue. The Lieutenant-Governor does not regard the decrease in revenue with regret, but it would appear from the very great increase in the number of prosecutions for unlicensed manufacture, and the fact that only one license was taken during the year, that the fee of Rs 50 for a special license is prohibitive and merely encourages illicit practices. The Board should at once submit a proposal for the reduction of the fee to a reasonable rate.

21. *Methylated spirit.*—This spirit is professedly imported for use in the arts, manufactures and chemistry, but evidence exists that much of the foreign imports, received mostly from Germany, is manipulated into Eau-de-Cologne and sold for use as spirit, and it is also suspected that methylated spirit is drunk after dilution with water or used for the adulteration of ordinary spirit. Methylation with caoutchoucine, which is the only substance used at the Custom House, Calcutta, effectually renders spirit unfit for use as liquor, but spirit methylated with wood-naptha, as in the case of most of t he foreign imports, can with the admixture of essences, be manipulated into a potable liquor, and it is this kind which passes into consumption in the form of Eau-de-Cologne. The Collector of Backergunge has drawn attention in his last administration report to the large consumption of the so-called Eau-de-Cologne in his district, and the Lieutenant-Governor learns that the Commissioner of Excise will submit a separate report, with suggestions for suppressing the abuse which has grown up in connection with imports of methylated spirit. Much loss is at present caused to the excise revenue by the competition of this spirit, which pays an *ad-valorem* duty of 5 per cent., and is seldom less than 50° over-proof, with the more heavily taxed ordinary liquor, whether imported or country-made.

22. *Offences against the Opium and Excise Laws.*—While the number of prosecutions of licensees for petty and isolated infractions of the conditions of their licenses shows a satisfactory decline, prosecutions for other offences have increased; the Police, and to a less extent the Excise officers, having exhibited greater vigilance than in the preceding year. The net increase in cases is, however, due to the numerous prosecutions for unlicensed manufacture of madak. The total number of persons prosecuted was 5,138, against 4,634 in 1892-93, and the percentage of convictions also rose from 84·8 to 85·2. A marked increase in the number of prosecutions and convictions for illicit distillation of country spirit occurred in the Sonthal Parganas, and it may be hoped that a check has been given to the offence in that district. Illicit distillation seems to prevail largely also in Bankura, Midnapore, Angul, Singhbhum, and the Jehanabad sub-division of the district of Hooghly. The total amount of fines imposed for breaches of the excise laws and rules was Rs. 89,366, of which Rs. 57,791, or 64·6 per cent., were realised Under both heads there was an increase as compared with the preceding year. Simultaneously with an increase in the number of cases, an advance in the amount paid as rewards is to be expected, and the total sum expended in the past year in payment to Police and Excise officers and informers accordingly rose from Rs. 68,252 in the previous year to Rs. 74,697. The Lieutenant-Governor is glad to learn that the necessity

for prompt payment of rewards, especially to informers, was fully recognized during the year.

23. The thanks of the Government are due to Mr. Krishna Govinda Gupta for his successful administration of the department during the year, and to the Board for their supervision and for the advice which they have given on various matters. The Commissioner expresses his obligation to the Divisional Commissioners and the Collectors generally, and to some officers in particular, and speaks favourably of the work of the Special Deputy Collectors as a body. The names of the officers specially mentioned by him will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

C. W. BOLTON,

Offg. Secretary to the Government of Bengal.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF THE PURI LODGING-HOUSE ACT IN BENGAL DURING 1893-94.

MUNICIPAL DEPARTMENT—MUNICIPAL—No. 480T.—M.

Calcutta, the 15th October 1894.

RESOLUTION.

READ—

The reports from Commissioners of Divisions on the working of the Puri Lodging-house Act [IV (B.C.) of 1871 amended by Act II (B.C.) of 1879] during the year 1893-94 in the various places in their Divisions to which it has been extended.

SINCE 1888 it has been customary not to review these reports separately, but to include in the annual resolution relating to the municipalities in Bengal a short paragraph on the working of the Lodging-house Act in the Province. As, however, the Act has now been extended to several towns and areas, and its operation has assumed greater importance, a separate resolution has been considered desirable.

2. *Extension of the Act.*—The Puri Lodging-house Act IV of 1871, as amended by Acts II of 1879 and I of 1884, is in force in the towns and areas named in the margin. Reports have been received on the working of the Act in the twelve places first named; but although the Act was extended to Jajpur in September 1891, no report has yet been submitted. The Commissioner states that, owing to the bye-laws not having been sanctioned, the machinery of the Act could not be put into motion. This explanation cannot, however, be regarded as adequate, for the regulation, inspection and licensing of lodging-houses, the most important functions of the Act, are provided for in the Act itself and not by bye-laws. The Commissioner should, therefore, issue orders to the Magistrate to take immediate steps to enforce the Act in the town. The bye-laws for all the places in the Orissa Division to which the Act has been extended are now with the Legal Remembrancer for an expression of his opinion, and will be confirmed shortly. The Act was also extended in February 1894 to Bhubaneswar, a sacred place where pilgrims halt on their way to Puri, but it did not come into operation during the year under report.

In the Burdwan Division.
1. Garhbeta.
2. Dantun.
3. Ulubaria.

In the Presidency Division.
4. Nadia.

In the Chittagong Division.
5. Sitakund.

In the Patna Division.
6. Gaya.

In the Bhagalpur Division.
7. Deoghur.

In the Orissa Division.
8. "Chattis" on the Jagannath Road in the district of Cuttack.
9. Chandbali.
10. "Chattis" on the Jagannath Road in the district of Balasore.
11. Puri town.
12. "Chattis" on the Jagannath Road in the district of Puri, and
13. Jajpur.

3. *Income.*—The total income of the year was Rs. 47,361, against Rs. 27,380 in 1892-93; the opening balance was Rs. 16,650, and the closing balance Rs. 31,811. The fees realized for licenses for the reception of pilgrims showed a large increase, from Rs. 18,233 in 1892-93 to Rs. 34,868, and those for the certificates of the Health Officers as to the suitableness of the houses, from Rs. 1,162 to Rs. 1,576. This was mainly due to the year having been an auspicious one for pilgrimage to Jagannath, and accordingly in Puri the realizations under the former head, Rs. 18,070, were nearly four times as great as in the previous year. At Gaya, too, there was a substantial increase of more than Rs. 2,000. In Deoghur the fees produced Rs. 502 more than in the previous year 1892-93, owing to the rate having been raised from 2 to 4 annas per lodger. The rate for lodging-houses on the Jagannath Road in the Puri district was enhanced in the year 1891-92 from one pice to 2 annas, and the revenue increased in the year under report by nearly Rs. 500 without causing any reduction in the amount of licensed accommodation.

The income of the "chattis," or lodging-houses, on the Jagannath Road in the districts of Cuttack, Balasore, and Puri, includes the rents received from

the roadside lands, which were acquired in excess of actual requirements when the road was made. The collection of the rents appears in each case to have been satisfactory.

4. *Expenditure.*—The largest item of expenditure (Rs. 9,295) was under the head of contributions. Of this amount Rs. 4,710 were contributed by the Lodging-house Fund of Puri to the local Municipality. Where a municipality exists it seems generally advisable to entrust to it the expenditure of the allotments from the Lodging-house Fund for conservancy and sanitation, but it is desirable that the reports should show how the contribution has been expended in each case, and this information should be furnished in future. The expenditure under the head Medical is shown to be Rs. 7,719, but besides this Rs. 2,879, which appears in the accounts as a contribution, was really spent on medical requirements. Mr. Coxe, the District Magistrate of Puri, complains of the heavy expenditure on dispensaries incurred by the lodging-house funds belonging to the Jagannath Road in his district. He argues that the permanent residents get much more benefit from the dispensaries than the pilgrims, and thinks that one-sixth of their cost is all that the Lodging-house Fund should be called upon to contribute. Mr. Coxe has since sent up proposals for the re-arrangement of the expenditure of this fund, and these are now under the consideration of Government. The expenditure on construction (Rs. 662) was inadequate, and, as the closing balances were in many cases large (notably in those of Puri and Sitakund, and the "chattis" on the Jagannath Road in Cuttack), there was no reason for any parsimony. Since the close of the year proposals have been submitted to use portions of the balances of the two last-named funds on sanitary works.

5. *Prosecutions.*—The number of persons prosecuted for lodging pilgrims without a license, for lodging more than the licensed number, and for other offences against the Act and the bye-laws, was 265 against 198 in 1892-93, and the number convicted was 215 against 144. The amount of fines realized rose from Rs. 1,378 in 1892-93 to Rs. 2,051. In the town of Puri 138 persons were prosecuted, of whom 112 were convicted, 13 acquitted, and 13 cases remained pending at the close of the year. The Magistrate of Cuttack complains of the difficulty of enforcing the provision for the taking out of licenses for lodging-houses along the roads in his district, owing partly to the abolition of many police outposts. He must do his best with the existing means at his disposal to meet the difficulty. The law was, no doubt, more frequently disregarded in the past year owing to the unusually large influx of pilgrims. The Commissioner should consider the Magistrate's suggestion that where the "chattis" stand on Government land, the taking out of licenses should be made a condition of leasing.

6. *Public health.*—No diseases in an epidemic form broke out in Garhbeta during the year. At Dantun 8 cases of cholera were treated in the hospital, in which 3 died and 5 recovered. Cholera broke out in an epidemic form at Ulubaria when pilgrims were returning from Puri after the car festival: 66 persons were attacked, of whom one-half died and one-half recovered. There was only one case of cholera at Sitakund. No epidemic outbreak of disease occurred in the lodging-houses at Gaya, but the mortality among pilgrims was greater than in the previous year owing to the visit of a larger number of pilgrims to the town. The total number of deaths was 282. Of these, 168 were from fever, 82 from cholera, and 31 from other causes. The number of cholera cases treated in the hospital maintained by the Lodging-house Fund was 107, and of these 88 were pilgrims, the rest being the people of the town. Cholera deaths among pilgrims were 74, most of the patients having been received in a moribund state, due to exhaustion from long journeys, fasting and other hardships. In the dispensaries maintained on the Jagannath Road in the district of Puri, 56 persons treated were for cholera, of whom 21 were cured and 35 died. The reports from the places named in the margin are silent on the subject of the health of the pilgrims during the year. A statement in the following form should, wherever statistics are available, be incorporated in future reports. Where figures are not available, the health of the pilgrims should be commented on generally, and it should

7. A perusal of the reports shows that much good work is being done under the Act in most of the places to which it has been extended. The powers which the Act gives to inspect and regulate the lodging-houses, and to compel the provision of adequate and suitable accommodation for pilgrims, are of the utmost value. Its successful working depends mainly on the interest taken by the individual Magistrate or Health Officer, and the Lieutenant-Governor sees no reason to believe that there has been any shortcoming on the part of these officers during the year. In the Puri district especially much has been, and is being, done for the comfort and convenience of the pilgrims, under the energetic management of Dr. Banks, the Health Officer, supported by the District Magistrate. Lodging-houses to the number of 638 were licensed, with space for 17,050 lodgers, 4,039 inspections were made by the Health Officer and Assistant Health Officer, 11 new pucka and 34 cutcha lodging-houses were erected, and numerous smaller improvements were carried out during the year. In the "chattis" on the Jagannath Road in the Puri district, lodging-houses were frequently inspected to prevent overcrowding, and prosecutions were in some cases instituted. The food in the bazars was examined, and, if found unfit for consumption, was destroyed. The condition of water-supply at Puri, however, is still unsatisfactory, and some of the wells were closed during the year. The Lieutenant-Governor relies on the Magistrate and the Health Officer to continue their efforts, with the help of the Municipal Commissioners, to effect such improvements in the water-supply as may be practicable. The Swetganga tank, which is situated in the heart of the town, is in a very insanitary state, and the owner has not yet given sufficient assistance for its improvement. This question will be dealt with in the Resolution on the administration of Municipalities in the past year. In Gaya the inspection of lodging-houses and the issue of orders to cleanse lodging-houses, drains, &c., appear to have been well attended to, and the lodging-houses are reported to have been in good order. In the other places to which the Act has been extended, the operations are on a smaller scale, and the work of the year needs no particular comment.

Order.—Ordered that a copy of this Resolution be submitted to the Government of India, in the Home Department, and that copies of it be forwarded to the Commissioners of the Burdwan, Presidency, Chittagong, Patna, Bhagalpur, and Orissa Divisions, for information.

Ordered also, that a copy of the Resolution be communicated to the Sanitary Commissioner and to the Sanitary Board, and that it be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

C. W. BOLTON,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR 1893 94.

No. 2298Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

Dated Calcutta, the 18th October 1894.

RESOLUTION.

READ—

The Administration Report of the Port Commissioners of Calcutta for 1893-94.

THE consolidated debt due to Government by the Commissioners which at the beginning of the year stood at Rs. 38,46,346, was reduced by Rs. 1,54,771, and a further sum of Rs. 1,36,000 was invested in their own debentures. The gross debt of the Commissioners on 31st March 1894 amounted, exclusive of advances made by Government for the construction of the Kidderpore Docks, to Rs. 1,14,56,575, and the total investments at credit of the sinking fund have increased from Rs. 10,38,500 to Rs. 11,74,500 at the close of the year.

2. Against this debt the Commissioners hold block to the value of Rs. 2,06,64,074, and reserve funds amounting to Rs. 21,54,194 in addition to the valuable Strand Bank lands extending from Chandpal Ghât to Aheerceotollah, for which however on annual rent of Rs 37,292 is payable to Government.

3. An addition to the block of Rs. 3,51,724 was made during the year, the chief items being a new lightship and a new dredger. On the other hand Rs. 2,90,345 were written off, Rs. 2,35,235 of which was the value of the dredger *Octopus* sunk on the 22nd April 1893.

4. On a representation from the residents of Howrah, objecting to the gradual erection of huts and sheds among the avenue of trees along the wharf, a Committee was appointed to consider and report on the matter, and it was decided, in view of the necessity for providing increased accommodation, to widen the foreshore road by adding a berm of 80 feet along the river side of the wharf. Thirty feet of this width is to be maintained clear of huts and sheds, and the remaining width of 50 feet is to be utilized for business purposes, but no structure is to be allowed within 45 feet of the line of trees. This work was commenced in January 1894, and at the end of the year, two-thirds of the earthwork had been completed.

5. The total amount received from Government on account of the Dock loan up to the close of 1893-94 is Rs. 2,87,70,566, of which the sum of Rs. 7,587 was advanced during the year. Against this advance the expenditure has amounted to Rs. 2,87,39,974, of which Rs. 6,53,611 were spent during the year.

Both the caissons for the lock entrances were finished, and the one adapted for the 60 feet lock entrance has been utilized for locking vessels, which are too long to be admitted between the lock gates in the usual manner. By this means the lock chamber is increased in length by 36 feet, and rendered long enough to take in all vessels visiting the port, except two of the Brocklebank line.

During the year 26 additional hydraulic cranes were imported from England and were erected on the Dock walls. With this additional supply the Dock is now fully equipped with cranes, of which 51 are placed on the Dock walls and 5 at the tidal basin.

6. In regard to the revenue account, the year opened with a balance of Rs. 5,70,255, and the income for 1893-94 amounted to Rs. 43,47,834. The expenditure, including sinking fund renewals and improvements and repayment of loan, amounted to Rs. 43,15,676, leaving a balance of Rs. 6,02,413. The income of the year exceeded the budget estimate by Rs. 2,44,172, the increase being chiefly in the Jetties, including the Petroleum Wharf and Tea Warehouse, and the Harbour Master's Department. In the latter department the large earnings from mooring hire were due to the unusual number of vessels laid up in the port for long periods, and consequently cannot be looked on as altogether satisfactory.

7. The income under the head Jetties amounted to Rs. 13,38,391, showing an increase of Rs. 1,96,920, the chief improvement being under imports. The total

receipts from exports were Rs. 1,33,884, and are the largest since the formation of the Trust. The expenditure amounted to Rs. 7,96,258.

8. The income from the Petroleum Wharf at Budge-Budge continues to improve, the total receipts of the year having amounted to Rs. 2,34,083, or an increase of Rs. 36,972. The quantity of kerosine imported was 49,203,905 gallons, against an import of 32,543,864 gallons during 1892-93.

9. Although there was an increase in the importation of Russian oil in bulk during the year, the total importation from that country, which had risen to nearly 50 per cent. of the total importations for 1892-93, dropped during the year under review to only 16¾ per cent. of the total imported.

10. At the end of the year the total stock of oil at Budge-Budge was 16,365,120 gallons, out of which 12,766,360 gallons had been landed, and 3,598,760 gallons remained afloat. These conditions were unprecedented, and in consequence it has been found necessary to extend the shed so as to raise the storage accommodation to 16 lakhs of cases. A further proposal has been made to increase the accommodation to 20 lakhs of cases by the expedient of raising the roofs of the sheds, and this proposal is under consideration.

11. The total quantity of tea which passed through the Tea Warehouse was 51 million lbs against 45 million lbs during the previous year. The receipts amounted to Rs. 1,16,236, against Rs. 1,07,295 during the previous year.

12. During the year 217 vessels with an aggregate tonnage of 515,477 were berthed at the Jetties, against 214 vessels with a tonnage 485,299 during 1892-93. The average number of days each vessel occupied the Jetties was 10·5.

13. The income of the Harbour Master's Department amounted to Rs. 6,47,281, against Rs. 5,82,707 in 1892-93. The increase, as already explained, was due to higher receipts from mooring hire, in consequence of vessels lying back for freight occupying the moorings for longer periods, and also from the sale-proceeds of the dredger *Octopus*, which was sunk in the early part of the year. The expenditure amounted to Rs. 5,07,417.

14. During the year there were 16 casualties to vessels, against 23 in the preceding year. This gives a percentage of 1·61, calculated on the number of vessels which arrived in the port.

15. Under orders of Government, dated the 2nd of October 1893, the Deputy Conservator of the Port was vested with powers under Act V of 1883, to hold preliminary enquiries into the cause of casualties occuring to vessels in charge of Harbour Masters. Sixteen such enquiries were held, and in no case was a further investigation under the Act, mentioned above, considered to be necessary; two Assistant Harbour Marstors were, however, severely punished by the Commissioners.

16. The work of examining boats while plying was regularly attended to throughout the year by the surveyors. During the year 276 cargo and 87 passenger boats were called in for resurvey, having become unfit for service either through wear and tear or by meeting with accidents.

17. The total receipts under the head Port approaches amounted to Rs. 3,78,072, towards which the port-dues, reimposed from 1st December 1892, contributed Rs. 3,71,104. The expenditure amounted to Rs. 5,23,462. This large expenditure was due to the heavy cyclone of May 1893, repairs having been executed to several light and survey vessels.

18. The several channels in the river, with the exception of the Lower Saugor Roads and the Jellingham channel, have remained fairly steady. At the Lower Saugor Roads the bar has gradually extended to the south-west, necessitating the removal into deeper water of the Long Sand Light-house. The Jellingham channel has been a source of continual anxiety and trouble, the changes being so rapid and variable, entailing the services of one vessel to watch it daily. It was in this channel that the S.S. *Anglia* was lost. The Lieutenant-Governor is glad to see that the dangerous nature of this channel is realized by the Commissioners, and that special measures are being taken to give timely notice of the changes that are daily occurring.

19. This is the first complete year in which the special toll of 4 annas per ton on all imports and exports was in force. This toll was levied under section 108 of Act III of 1890, in order to enable the Trust to meet its liabilities. The toll yielded Rs. 7,95,100, or almost exactly the sum of Rs. 8,00,000, which it was originally estimated to produce.

20. The receipts of the Kidderpore Docks during the year amounted to Rs. 2,26,574 as shown below:—

	Rs.
Receipts from graving Dock	93,926
„ from imports	33,860
„ from exports	80,462
Rent and miscellaneous	12,349
Railway earnings	1,339
Receipts from towing vessels by hopper barges	4,638
Total ...	2,26,574

21. Against this the expenditure has amounted to Rs. 15,04,288, details of which are given below:—

	Rs.
Traffic establishment	52,299
Working expenses	1,86,429
Municipal taxes	1,32,434
Interest on capital	11,33,126
Total ...	15,04,288

22. The total deficit is therefore shown to be Rs. 12,77,714, and this result though anticipated is extremely unfortunate. Apart from the interest charges and municipal taxes, it is observed that the expenditure on Traffic Establishment and Working Expenses exceeded the income by Rs. 12,154. Since the completion of the year, however, the Commissioners have been endeavouring to meet the wishes of the mercantile community by giving additional facilities to the trade, and it is hoped that these measures will induce a larger number of vessels to resort to the Docks.

23. The thanks of the Government are due to the Commissioners for their efficient management of the affairs of the Trust during the year.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Secretary to the Government of Bengal.

REPORT ON THE WINTER RICE CROP IN BENGAL, 1894.

THE following is published for general information.

C. E. BUCKLAND,
Secy. to the Govt of Bengal.

REVENUE DEPT.,
The 18th October 1894.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

First forecast of the winter rice crop in Bengal, 1894 (*to the 15th September*).

1. *Character of the season.*—The rainfall of the monsoon of 1894, month by month, has been as follows:—

In May the rainfall was generally less than the normal. In June the rainfall was deficient in North Bengal, particularly in Rajshahi, Pabna, Bogra, Rangpur, and Jalpaiguri, and somewhat below the normal in parts of Eastern Bengal; it was also deficient in Jessore and Murshidabad, and in Muzaffarpur and Darbhanga, elsewhere abundant rain was received in June. In July the rainfall throughout these provinces was generally above the normal, except in North Bengal and North Bihar. The effect of the short rainfall in July in North Bengal was to retard the transplanting operations, and thus to prevent the full area from being brought under cultivation, as well as to improve the prospects of the crop. In August abundant rain was received everywhere except in Orissa, and in Hooghly, 24-Parganas and Midnapore, where the rainfall was considerably short of the normal. In North Bengal and North Bihar the rainfall of August was in excess of the normal, and thus partly made up the deficiency of rain in the preceding month. The rainfall during the first half of September was generally of a light character, but it appears to have been sufficient for the needs of the crop.

On the whole, the distribution of rainfall has proved to be favourable to the cultivation and growth of the winter rice crop in most districts of Bengal. The failure of the July rainfall in North Bengal and North Bihar was the only unfavourable element in the character of the present season, but it was to a great extent compensated for by the plentiful rainfall in the following month.

Damage by floods has been reported from the Kalna subdivision of Burdwan, from Nadia, Murshidabad, Pabna, Muzaffarpur, Cuttack, and Balasore; it was particularly serious in the Jajpur and Kendrapara sub-divisions of Cuttack. In the Contai sub-division of Midnapore the crop was seriously injured by the heavy rainfall of the 24th July, which also prevented a large area from being brought under cultivation.

2. *Area cultivated.*—The total area estimated to have been cultivated with winter rice in Bengal is 31,229,900 acres, against 31,021,900 acres in 1893, thus showing a small

increase over the area cropped last year. Timely rainfall is reported to have caused an increase in cultivation in many districts of Bengal, notably in the Burdwan, Presidency, and Dacca Divisions; on the other hand, the deficiency of rainfall in July prevented considerable areas from being brought under cultivation in Rangpur, Dinajpur, and Jalpaiguri. The areas sown with winter rice in these districts are estimated by the district officers to have fallen short of the areas cropped last year by 30, 6·5, and 15 per cent. respectively. In the Contai sub-division of Midnapur a large area, amounting to 25,800 acres or nearly 8 per cent. on the area sown in 1893, could not be sown with rice, owing to excessive rainfall at the end of July last.

3. *Character of the crop.*—It will be seen on reference to the district returns that out of the 44 districts from which returns have been received, 21 report a full average (16 annas) or more than a full average crop; 21 others report the crop as varying from 12 to 16 annas; and two districts, namely Jalpaiguri and Cuttack, return the crop to be 11 annas. There are only two sub-divisions where the crop is reported to be less than 8 annas, namely Contai in Midnapore, and Kendrapara in Cuttack, both of which return the crop as 7 annas.

On comparing the district estimates of outturn this year with those for 1893, it will appear that out of the 44 districts, twenty-two report the crop to be better than the crop of 1893, six report the crop to be equal to that of the last year, while 16 report it to be worse than the latter. The prospects of the standing crop appear, therefore, to be slightly better than those of the last year's crop. The outturn of the winter rice crop of 1893 was estimated by this Department at the full average or 16 annas. If the weather prove favourable to the standing crop in October, it may be expected that its outturn will amount to 16½ annas, and thus slightly exceed the average.

B. C. BASU,
Assistant Director.

CALCUTTA,
The 4th October 1894.

Countersigned.
W. C. MACPHERSON,
Director of the Department of Land Records and Agriculture, Bengal.

DARJEELING,
The 6th October 1894.

Preliminary Forecast of the Winter Rice Crop for 1894 *(up to the middle of September).*

1	2	3	4	5	6	7	8	9	10	11
District.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn.	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
							Annas.	Annas.		
Burdwan ..	Sadar	794,880	635,500	434,300	434,300	434,300	16	15	Owing to sufficient rainfall this year, more lands have been cultivated in the Sadar sub-division, and unless there be a failure of autumn rains a good outturn may be expected there. In Kalna sufficient rainfall in the beginning was very favourable to the outturn; but a fourth of the *aman* crop having been submerged by flood water, the outturn is expected to be the same as last year. In Katwa sufficient rainfall during sowing time helped the cultivation of all lands, and is also the reason for the fair outturn.	The Collector remarks that the outturn of the crop in Kalna is expected to be the same as last year, although he returns this year's outturn as 12 annas only against 16 annas last year.
	Kalna	276,480	221,000	128,000	129,000	128,000	16	12		
	Katwa	225,280	169,600	140,800	140,800	140,800	16	16

	District Total .	1,726,080	1,280,800	928,300	928,300	928,300	16	15½		
Birbhum...	Sadar	1,124,023	900,000	654,000	654,000	654,000	18	16	I cannot give the sub-divisional figures, but will endeavour to make some estimate hereafter for future returns.	In previous returns the total cultivated area in the district used to be shown as 439,000 acres, but the Collector, Mr. Growse, thinks that estimate to be too low, and has raised it to 900,000 acres. Owing to this change the estimated area under *aman* rice has been increased from 279,000 acres to 654,000 acres (*vide* Bhadoi Crops Report for 1894).
	Rampurhat ...									
	District Total ...	1,124,023	900,000	654,000	654,000	654,000	18	16		
Bankura ...	Sadar	1,229,440	428,800	364,800	364,800	364,800	16	16	The want of rain in April and May is said to have decreased the area of cultivation in the Vishnupur sub-division to a slight extent.	
	Vishnupur ...	448,000	214,000	185,600	185,000	185,000	16	16

District.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Midnapur	Sadar	2,130,800	1,*29,100	809,900	612,100	756,900	16	16	An increased area has been brought under cultivation this year everywhere, except in Contai sub-division, and the outturn is likely to be better. This is due to the timely and sufficient rainfall at the sowing time. In Contai the heavy rainfall of July 25th proved injurious to paddy cultivation. The raiyats are transplanting their fields again, but it is feared that the crop will in many cases prove a poor one.	The area of river beds ought not to be excluded.
	Tamluk	398,400	279,600	264,300	203,100	239,500	14	15		
	Contai	543,300	456,300	416,000	325,300	299,500	14	7		
	Ghatal	238,080	146,500	131,900	120,000	122,000	14	16		
	District Total ...	3,392,600	2,111,500	1,622,000	1,260,500	1,417,900	15	13½	The figures in column 3 have been corrected according to the latest census figures, excluding the area occupied by river beds.	
Hooghly ...	Sadar	282,880	176,800	141,400	141,400	141,400	20	16	Sufficient rain has done good to *Sadar* and part of Serampore, but want of it has caused damage in Uluberia and Jahanabad. Increase in area is owing to timely rainfall.	
	Serampur	219,520	160,000	109,500	80,400	95,000	12	14		
	Jahanabad ...	220,320	167,700	83,800	79,500	80,000	14	12		
	Howrah	109,440	69,800	69,800	35,400	39,100	12	15		
	Uluberia	195,920	128,000	106,800	61,200	90,000	8	13	A better outturn is expected in Howrah if nothing unforeseen happens.	
	District Total ...	1,026,080	702,300	495,300	397,900	445,500	14	14½		
24-Parganas	Sadar ...	690,506	462,700	332,000	231,100	293,900	14	16	This year's outturn is expected to be better than that of the last year owing to seasonable rainfall.	
	Barasat ...	313,600	189,400	147,200	103,400	103,000	14	14		
	Basirhat ...	339,200	281,600	(a) 213,800	203,800	213,800	16	16	(a) From the further enquiry now made, it appears that the approximate normal area under winter rice crop in the Basirhat sub-division is 213,800 acres, and not 213,100 acres as shown in the previous forecasts.	
	Diamond Harbour	328,320	289,900	285,400	246,100	247,000	12	14		
	District Total ...	1,671,626	1,223,600	1,028,400	784,400	857,700	14	15½		

Nadia ...	Sadar	497,920	362,800	65,200	34,000	65,200	10	12	The increase in the area sown this year is due to the timely and normal rainfall during the ploughing and sowing season. The increase in the expected outturn is also due to the normal rainfall and to the late rise of the rivers. I should have estimated a still larger outturn had not a certain amount of damage been done by floods.
	Kushtia	362,960	278,400	28,000	21,000	28,000	8	12	
	Meherpur	634,880	462,600	24,400	18,000	24,400	8	12	
	Ranaghat	273,280	199,200	12,800	10,600	12,800	16	16	
	District Total ...	1,768,160	1,303,000	130,400	83,000	130,400	9	12½	
Murshidabad.	Sadar	586,240	395,100	82,000	82,200	82,200	16	14	The decrease in the outturn, as compared with that of the last year, is due to the deficiency of rainfall during the time of transplantation and incessant rains in August last, and subsequent high rise of the Bhagirathi.
	Kandi	495,760	279,800	189,900	18 ,900	188,800	16	16	
	Jangipur	390,160	310,600	40,300	42,300	42,300	16	12	
	District Total ...	1,372,160	985,500	312,200	314,400	313,300	17	15	The decrease in area in the Kandi sub-division, as compared with the normal and the last year's area is, simply owing to the deficiency of rainfall during the time of transplantation.
Jessore ...	Sadar	568,960	304 000	166,400	160,000	160,000	8	16	The increase in the area over last year's is attributed to more seasonable rainfall. The area falling below normal is due to some of the *bheels* not drying up.
	Jhenida	304,000	204 800	64,000	64,000	64,000	6	14	
	Magura	272,000	171,500	89,600	65,000	78,000	10	16	
	Narail	311,360	187,500	128,000	128,000	128,000	12	18	
	Bangaon	415,360	240,000	130,600	58,000	100,000	10	14	
	District Total ...	1,872,000	1,116,800	578,600	475,000	530,000	9	16	
Khulna ...	Sadar	1,006,336	293,400	228,600	210,600	215,000	18	17	The increase in outturn and the estimated area as compared with the last year's report is chiefly due to seasonable rainfall this year and to cultivation of certain extra portions of the Sundarbans to some extent. I consider the crop above the average this year, and have put down 17 annas as the outturn per acre.
	Satkhira	614,643	299,500	232,400	200,000	220,000	14	17

	District Total ...	2,231,040	1,602,700	974,000	987,700	691,700	18	12½		
Bogra ...	Whole district ...	929,000	421,000	280,000	290,000	380,000	18	15	The increase in the figure entered in column 7 is due to the fact that owing to late monsoon a larger amount of *aus* land has in addition to the *amas* lands been transplanted this year. Owing to insufficient rainfall transplantation was mostly commenced this year late in the season. A better crop cannot therefore be expected.	
Pabna ...	Sadar	564,460	423,000	225,200	406,000	409,000	16	14	Last year rainfall having commenced earlier than usual, most of the low lying lands which were fit for the cultivation of the winter rice crop were under water when the time for sowing arrived. But the season for sowing the crop this year was a more favourable one in that respect. This explains the cause of increase in the area sown this year over that of the last year. The sudden rise of the rivers before the plants could grow enough to be able to resist the action of flood is the reason why the outturn is estimated at less than the average. The crop in the low lands of Dulai thana has specially suffered from the effects of flood.	The estimate of normal area (column 5) seems to require revision. It is scarcely possible that the areas cropped last and this year should so greatly exceed the normal.
	Sirajganj	612,480	469,500	183,700	218,200	216,200	16	16		
	District Total ..	1,176,960	892,500	408,900	624,200	625,200	17	15		
Dacca ...	Sadar	810,240	495,100	270,100	248,100	213,100	12	14	The high price of paddy last year, and the favourable weather at the time of ploughing and sowing induced the cultivators to extend the cultivation; consequently there has been increase in the area sown this year as compared with 1893. This year's outturn is expected to be better than last year's owing partly to the gradual rise of the rivers, and partly to the timely rainfall.	With such favourable conditions, a full crop should be obtained.

Patna ...	Sadar	294,080	993,500	267,500	109,600	106 100	14½	15	Owing to timely and sufficient rain the area sown this year was larger than that of the last year or the normal area; for the same reason this year's outturn will be better than last year's.	The Collector was requested to return separate figures for each sub-division in columns 4 and 5. The estimate of normal area seems to be very low as compared with the estimates of areas sown this and last year.
	Barh	336,640			75,000	76 300	16	16		
	Bihar	507,520			225,300	23[illegible],500	16	16		
	Dinapore ..	91,520			32,000	33,300	16	16		
	District Total ...	1,336,560	993,500	267,500	442,400	441,200	15½	15½		
Gaya ...	Sadar	1,219,200	917,900	496 000	500,000	496,000	18	16	The area in column 3 has been revised according to the census of 1891. An increase in area sown is due to more seasonable rain this year; for the same reason the outturn is expected to be a little above average. In Nowadah sub-division the rainfall was scanty at the time of transplantation.	
	Nawada	611 200	469,600	366,700	370,000	370,000	18	14		
	Jahanabad ...	387 840	321,900	208,600	210,000	210,000	18	18		
	Aurangabad ...	797,440	478,100	215,000	218,000	225,000	18	18		
Shahabad	District Total ...	3,015,680	2,207,500	1,295 700	1,298,000	1,301 000	18	16		
	Arrah	585 600	487,400	373,200	200,600	200,900	13	14	The figure in column 6 has been corrected from 100,600 to 200,600. The decrease in this year's area in Sadar is due to the fact that a very large area could not be sown owing to the difficulty in obtaining water; prospects very favourable. In Buxar and Bhabua the rainfall has been timely and favourable. In Sasaram owing to sufficient rainfall the whole area under winter rice has been brought under cultivation except in Karghar thana, where more land has been reserved for *rabi* cultivation. The figure in column 6 has been corrected from 393,000 acres to 293,000 acres.	In the final report, it should be explaind why more land has been reserved for *rabi* cultivation in Karghor thana.
	Buxar	419,840	317,900	126,600	128,600	128,600	12	16		
	Sasaram	955,520	382,500	242,500	293,800	241,500	15	15		
	Bhabua	832,640	624,600	312,300	227,700	227,700	15	15		
	District Total ...	2,793,600	1,712,400	1,054,600	850,700	798,700	14	15		

Saran ...	Sadar	638,720	861,500	144,000	138,000	144,000	18	18	The increase in the area in the first two sub-divisions is due to early favourable rains.	
	Siwan	545,926	450,000	170,000	180,000	195,290	18	14		
	Gopalganj	493,440	371,000	117,600	115,000	117,600	16	20		
	District Total ...	1,678,086	1,382,500	431,600	433,000	456,890	17½	16		
Champaran	Sadar	971,520	654,000	229,000	229,000	229,000	15	15		No explanation is given why the outturn should be below the average.
	Bettiah	1,288,320	768,000	448,000	448,000	448,000	16	14		
	District Total ...	2,259,840	1,422,000	677,000	677,000	677,000	15½	14½		
Muzaffarpur.	Sadar	779,520	614,000	272,000	272,000	272,000	8	12	In the *Sadar* and Sitamarhi sub-divisions, owing to absence of rain in the early part of the season, the sowing and transplanting of the crops were retarded for some time, and hence the reduced outturn as compared with the average, but the weather was more favourable this year, and hence the estimated outturn better than in the last year. Owing to excessive rain and flood in Hajipur a greater portion of the crop has been damaged or washed away, and consequently the outturn is expected to be less than the normal and that of the last year.	
	Hajipur	413,440	334,000	130,000	130,000	130,000	14	11		
	Sitamarhi	648,960	498,000	320,000	320,000	320,000	16	14		
	District Total ...	1,921,920	1,446,000	722,000	723,000	722,000	16	13		
Darbhanga	Sadar	782,040	594,000	275,000	250,000	281,300	8	16	The decrease in the area sown this year as compared with the normal area under winter rice is due to insufficient rainfall early in the season. The prospects so far seem to be generally promising, and if the rain continue favourable till the *kathya*, a crop considerably above the average may be expected. The normal area under rice crop at Samastipur has been corrected from 125,800 to 165,800 from fresh enquiry.	Forecasts are prepared on the assumption that the season will prove favourable after the date of the forecasts. The Collector need not, therefore, have been so cautious in preparing the present estimate.
	Samastipur ...	468,960	391,000	165,800	124,000	125,000	8	12		
	Madhubani ...	863,360	654,500	651,700	608,400	608,000	12	16		
	District Total ...	2,134,400	1,639,100	1,192,500	982,400	1,011,300	10	15		
Monghyr ...	Sadar	997,760	696,200	279,000	279,000	279,000	16	16	Owing to want of timely rain 300 acres remained unsown in the Jamui and Begusarai sub-divisions. The season this year is very favourable, and it is expected that there will be a full average crop.	
	Jamui	1,019,520	515,300	364,300	378,200	378,000	16	16		
	Begusarai	492,160	349,300	14,700	14,700	14,600	10	14

Purnea ..	Sadar	1,646,080	790,000	290,000	282,000	282,000	14	14	The decrease in area sown this year is due to the fact that certain portions of the *Aghani* lands were sown with jute in the Kishanganj sub-division as the season was favourable to it. The insufficient rainfall at the sowing season in the Sadar sub-division retarded the growth of the plants, and hence the decreased outturn.	
	Kishanganj ...	857,600	530,000	352,000	242,900	240,900	16	16		
	Araria	668,160	410,000	320,000	320,000	320,000	16	16		
	District Total ...	3,171,840	1,730,000	962,000	844,900	842,900	15½	15½		
Malda ...	Whole district ...	1,216,640	811,500	275,200	277,000	265,000	16	16	The decrease in area as compared with the last or the normal area is due to the insufficient rainfall at the time of transplanting.	
Santhal Parganas	Dumka	914,560	422,200	181,800	181,800	181,800	18	18	For want of timely rainfall transplanting of winter *dhan* was backward in two sub-divisions, but on the whole the outturn is expected to be a good one.	
	Deoghar	610,560	165,100	69,100	69,100	69,100	16	16		
	Godda	618,880	432,900	74,300	73,000	74,300	18	16		
	Jamtara	445,440	124,800	64,000	64,000	64,000	20	20		
	Pakour	437,120	327,000	262,400	262,400	262,400	20	20		
	Rajmahal	473,600	335,200	241,800	243,000	243,000	16	12		
	District Total ...	3,500,160	1,827,200	895,400	893,300	894,600	18	17		

Cuttack ...	Sadar	652,960	293,100	289,400	339,500	338,700	12	14	The weather was generally favourable to the crop from the beginning till the third week of July, after which the high floods considerably injured the crops, especially in the low lands, by which the crop remained submerged under water for days together and were thus destroyed. This unexpected and abnormal cause reduced the outturn to 11 annas.	
	Jajpur	706,560	330,700	288,000	250,000	288,000	9	11		
	Kendrapara ...	911,360	410,200	327,700	300,000	298,000	10	7		
	Banki	75,000	37,200	23,000	23,000	23,000	12	14		
	District Total ...	2,325,910	1,161,200	1,028,100	912,500	967,700	11	11		
Balasore ...	Sadar	741,120	448,000	409,600	357,300	348,500	15	14	The decrease in area and outturn in the sadar sub-division is due to floods. The increase in outturn in the Bhadrak sub-division is due to good crops on high lands compensating for considerable damage by flood to crops in low lands.	
	Bhadrak	561,284	389,100	300,800	300,800	300,800	13	13		
	District Total ...	1,302,404	837,100	710,400	658,000	649,300	13½	12½		
Angul and Khond Mals.	Angul	585,900	128,800	59,600	59,000	60,000	10	16	The increase is due to new cultivations in Angul.	
	Khondmals ...	512,000	217,800	64,000	60,000	64,000	16	16		
	District Total ...	1,097,900	346,300	123,600	119,000	124,000	13	16		
Puri ...	Sadar	979,200	400,800	323,800	320,000	320,000	12	16	The rainfall has been sufficient and well distributed. If the season continues favourable as it now is a 16-anna crop is expected. In some parts there have been losses from flood, but elsewhere the crops are above the average.	
	Khurda	683,720	327,300	161,100	161,100	161,100	16	16

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF SEPTEMBER 1894.

At the close of August the conditions in Bengal were fairly normal for the season, and the changes had been for the last few days of the month small and unimportant. In the Bay, on the other hand, the changes were more important. The monsoon current, which had been blowing rather feebly in the extreme south of the Bay, began during the last week in August to increase in strength very decidedly, as judged by the wind velocities at the Ceylon stations This strong advance gradually passed up the Bay and probably reached the centre of the Bay on about the 30th of August.

Barometric depression of August 30th to September 7th.—In front of this advance of monsoon winds a barometric depression of feeble and diffused nature appeared to form in the centre of the Bay on the 30th of August. This very feeble depression moved slowly towards the North Madras Coast, and on the 1st of September it was lying almost over that coast, and it was giving strong winds and squally weather in the east and south of the Bay. By the indraught towards it the monsoon current was partially prevented from flowing over Bengal, and hence rainfall was rather lighter than usual over the province at the end of August and beginning of September. On the 2nd the feeble low pressure area had moved in a north-westerly direction, and was lying over the eastern districts of the Central Provinces. On the 3rd it had again advanced in a north-westerly direction, and had become rather more definite and somewhat deeper, while its centre was near Pachmarhi. On the 4th it had moved into South-East Rajputana, and then it advanced in a more northerly direction into South-East Panjab, where it moved towards the hills and filled up on the 7th instant.

The depression was too far from Bengal to influence the province to any extent except that while it was off the Madras Coast it partially drew away the monsoon current from Bengal, but after its inland advance a fairly heavy wave of monsoon winds swept over Upper India in connection with the depression, though as Bengal was rather outside the actual indraught towards the storm, the rainfall in Bengal for the first week in September was lighter than usual, and only equalled about 75 per cent. of the normal.

Very feeble barometric depression from September 7th to September 9th.—On September 7th, while the first depression was breaking up in the Panjab, a second barometric depression was forming in the Bay. This, however, never developed to any extent, but merely advanced in a west-north-westerly direction, and filled up over Berar and the southern districts of the Central Provinces on the 9th.

Again this small depression partially drew away the monsoon current from Bengal, and rainfall became much lighter than usual, while at this time also the monsoon blowing in the centre and north of the Bay was feeble, and hence for the second week of September (ending the 15 h) the general rainfall over the province only equalled about 55 per cent. of the normal amount.

In the south of the Bay, however, after a period during which the monsoon current was decidedly feeble, another rather strong advance appeared to take place, and this gradually passed up the Bay until by the 13th or 14th this was probably reaching the northern part of the Bay. In front of this advance the third very feeble barometric depression of the month was formed.

Very feeble barometric depression of September 14th to September 17th.—On the 14th pressure had fallen briskly round the head of the Bay and over the western half of the province, and a feeble low pressure area appeared in the north-west angle of the Bay, which was accompanied by a decided circulation of winds. On the 15th it had advanced inland, and was in the south of Chota Nagpur, probably to the south-east of Chaibassa, and was still accompanied by a distinct cyclonic circulation of winds. It had not, however, increased in depth, for pressure had increased over the whole of Bengal except in the immediate neighbourhood of the depression. With the inland advance of the feeble low pressure area, the monsoon current began to advance more freely over Bengal, and from the 15th fairly general rain was reported over the province. On the 16th the very feeble low pressure area appeared to have advanced into the west of Bihar, where it gave heavy rain to the northern stations, and general moderate rain over the remainder of the province. On the 17th the very shallow depression with its feeble cyclonic circulation still seemed to exist over Bihar and part of Chota Nagpur, but there was no clear evidence of its existence on the 18th instant.

Ordinary monsoon conditions accompanied by general, and in many cases heavy, rain then continued over Bengal up to the 22nd, and for the weeking ending on this day the general rainfall received over the whole province equalled no less than 177 per cent. of the normal. On the 23rd, however, the area of lowest pressure had passed to the north-west angle of the Bay, where also a feeble form of wind circulation was beginning to set up. Rainfall then began to fall off in the interior of the province, and at this period the fourth barometric depression (or feeble cyclonic storm) of the month was formed. This was a more influential storm than either of the preceding three, and it gave squally weather over a large part of the Bay.

Barometric depression or feeble cyclonic storm of September 23rd to October 2nd.—On the 23rd pressure had fallen slowly over the whole province, and was in defect by amounts ranging up to about 0·15″ in the south and south-east of the province, and the lowest pressures were in South-West Bengal. At the head of the Bay and in South Bengal winds were distinctly

cyclonic in direction, but rather light in force, and the depression was giving disturbed weather in South Bengal, though the only general rainfall which was being received was in the north of the province. On the 24th pressure had fallen in Orissa and at some of the south-western and western stations, and the barometric depression on this day was in the north-west angle of the Bay at some little distance from the Orissa coast, where it was attended by a very complete cyclonic circulation of winds. The depression on the 24th was, therefore, rather more clearly pronounced, though it was still very feeble, and it had caused rainfall to recommence over a large part of the province, and the only districts which received no rain were parts of Bihar and Chota Nagpur. On the 25th pressure had risen slowly over the whole province except at Gopalpur, and the feeble barometric depression in the north-west of the Bay remained practically unchanged in character and position, and though the cyclonic circulation of winds attending it was very complete, yet the winds were not strong. On the 26th pressure had fallen briskly in the north-west angle of the Bay, the fall at False Point equalling 0·05″, and it had also fallen slowly elsewhere, except over parts of Bihar and Chota Nagpur. The depression in the north-west angle of the Bay had, therefore, distinctly intensified, but it had remained almost stationary. The perfect cyclonic circulation of winds on this day had extended over the whole province, but still the winds reported at the land stations were only light to moderate in force. On the 27th pressure had again fallen in Orissa and risen elsewhere, the increase being rapid at the eastern stations, and in addition to the depression having again intensified slowly, it had commenced to move in a westerly direction and was close to the coast of Orissa. On this day it was probably a small cyclonic storm, for the cyclonic circulation continued very perfect, and strong monsoon winds were feeding into the small storm from the east and south. During the afternoon of the 27th, the centre of the small storm passed inland, crossing the coast not very far from Puri, and moving with considerably increased rapidity in a west-north-westerly direction, and on the 28th the centre was well inland in the Central Provinces, and was midway between Sambálpur and Raipur. In its advance over Orissa it gave only moderate to rather strong winds, and the rainfall also accompanying it was much lighter than usual, and much lighter than was to be expected by the very considerable depression at its centre. It, however, brought up another advance of monsoon winds over the whole of Bengal, and good general rain was again received. From the 28th to the 29th the storm commenced to recurve, and it began to move in a north-westerly or even north-north-westerly direction at the rate of about ten miles an hour, and on the 29th the centre was between Jubbulpur and Seoni. The storm was fed mainly by the monsoon current blowing from the Bay of Bengal, and this hence was flowing rather freely over Bengal, and on the 29th again fairly general rain was received in practically all districts of the province. On the 30th the storm had advanced about 100 miles in a northerly direction, and its centre was between Saugor and Sutna. It then began to move in a north-easterly direction, and from the 30th of September to the 1st of October it had advanced over 150 miles, and was midway between Sutna and Benares, while on the 2nd it had again advanced in a north-easterly direction and had broken up against the Himalayas.

Hence the storm in the later portion of its path again approached towards Bihar and the north-western and western districts of the province generally, and hence it again brought rather disturbed weather and rainfall to the western and northern parts of the province.

Practically, therefore, the whole of the province was receiving more or less general monsoon rainfall almost up to the end of the month.

Pressure.—For the greater part of the first week of the month pressure was above the normal, and the mean excess averaged from 0·07″ to 0·09″, the excess being largest at the northern stations and smallest in the south-west of the province. This excess to a great extent disappeared in the second week, when pressure was almost normal, while in the third week a decided defect had been established, and pressure was below the normal by from about 0·04″ to 0·05″ at the northern stations to very small amounts in the extreme south of the province.

In the last week of the month, owing to the gradual formation of the small cyclonic storm in the north-west angle of the Bay and its advance through Orissa, and then in a direction varying from north-westerly at first to north-easterly in the end, the mean pressure was considerably below the normal, and the defect was naturally largest in the south-western districts. The mean pressure for that week was in defect by from 0·05 inch at such stations as Dinajpur and Jalpaiguri to 0·126 inch at False Point, and about 0·12 inch at Cuttack and Balasore. The pressure over the whole province was also in defect by about 0·08 inch. In Assam the mean pressure for the work was 0·086 inch below the normal.

The mean pressure for the whole month has varied from about 29·67″ in the extreme west of the province to 29·76″ at Sibsagar, thus giving a very slight gradient only over the province. The variations from the normal at the beginning and end of the month, it will have been seen, were of opposite nature, and hence the mean pressure for the month has been almost normal, and at most stations a defect of about a hundredth of an inch only has been registered.

Temperature.—At the beginning of the month the mean temperature was about half a degree above the normal. In the second week owing to the partial break in the rains, which then occurred, the mean temperature of the province became 0·7° above the normal. In the third week, as the rainfall was still light in the western and south-

western divisions, temperature continued in slight excess, but in the north and east of the Province decidedly low temperatures were recorded, the defects averaging more than a degree and-a-half. Again, in the last week of the month these conditions were almost reversed, and for the whole province there was an excess in the general mean temperature of more than half a degree.

For the whole month the mean temperature has hence not varied much from the normal. Very slight excess temperatures, usually of about half a degree, have been registered in the extreme west, south-west and south of the province, while elsewhere defects of about similar amounts have been recorded. Hence the average mean temperature of the whole of Bengal for September has been almost absolutely normal, the actual variation being only about a twentieth of a degree. In Assam, on the other hand, the average mean temperature has been 1·6° in defect.

In dealing with the day and night temperatures, however, it is found that the day temperatures of Bengal averaged about a degree in defect of the normal, while the night or minimum temperatures were in excess by about similar amounts.

Rainfall.—The actual rainfall in the month has varied from about 40 inches in and near the hills in North Bengal, as represented by such stations as Bhagatpur (Jalpaiguri district), Buxa (Darjeeling district), Dinhatta (Kuch Bihar district), and Matabhanga (Kuch Bihar district),—all of which have received from 40 to 41 inches, to the small fall of about 2 to 4 inches in the south, &c., of Chota Nagpur, as represented by the stations Ghatsila in the Singhbhum district (2·50 inches), Monoharpur, also in the Singhbhum district (3·92 inches), Raghunathpur in the Manbhum district (3·73 inches), Hossanabad in the Palamau district (3·07 inches), Garhwa, also in the Palamau district (3·54 inches), and Gangpur in the Lohardaga district (2·65 inches). Hence the falls, it will be seen, have been heaviest in the north-eastern districts, and lightest in the south-western districts of the province. If a line is drawn from the south-east to the north-west of the province, dividing the province into about two equal sections, on the north of the line roughly the falls vary from 10 up to 40 inches, and to the south of it from about 10 down to 3 inches. In some parts of East Bengal, however, there are some areas of unusually low rainfall, and thus at Manikganj (Dacca district), Atia (Mymensingh district), and Daudkandi (Tippera district), falls of rather less than 4 inches have been received. Another area of exceptionally light rainfall is shown in South-West Bengal, and falls of four inches or less have been registered at Mohesreka (Howrah district), Saugor Island, Jessore and Magura and Bangaon in the Jessore district. Comparing the actual falls with the normal, the southern half of the province has received a largely defective fall, and the northern half generally very considerable excess falls. The areas of largest defect are in the extreme southern and south-eastern parts of Bengal, where the rainfall has been in defect by from seven to eight inches at Chittagong and Cox's Bazar, by nearly six inches at Noakhali, by nearly nine inches at Saugor Island, by nearly seven inches at Contai, by eight inches at Soro (Balasore district), and by about five inches at Tajpur (Cuttack district) and Bhadrak (Balasore district). Other largely defective falls of about four to six inches have been reported from Chuadanga and Kushtia in the Nadia district, at Jessore, Magura and Bangaon in the Jessore district, at Satkhira in the Khulna district, at Nator in the Rajshahi district, at Pabna and Sirajganj in the Pabna district, at Munshiganj and Manikganj in the Dacca district, at Mymensingh and Jamalpur in the Mymensingh district, at Chandpur in the Tippera district, at Motihari in the Champaran district, and at Naya Dumka in the Sonthal Parganas.

On the other hand, a very large area in North Bengal has received from 10 to 20 inches in excess of the normal, and some parts more than 20 inches, and again there is a centre of very heavy rainfall in Bihar, where excess falls of more than 10 inches have been received at such stations as Patna and Dinapore. A similar excess fall is reported at Chanchal in the Malda district.

Indeed, the rainfall in September has been distributed very irregularly, and in the midst of districts receiving excess falls some stations report defects, and thus, while Chanchal, as before stated, has received an excess fall of 10·48 inches, Malda, the sadar station of the district, has reported a defect of 2·65 inches. Or to take another instance of this irregularity, the general fall in Champaran has been 3·2 inches in defect, while the district of Darbhanga has received 4·43 inches in excess, and the district of Patna 7·62 inches in excess.

When, however, the average divisional rainfalls are compared with the normal, it is seen that considerable or large excess falls have been received in North Bengal and Bihar, moderately defective falls in South-West Bengal and Chota Nagpur, and largely defective falls in East Bengal and Orissa.

While, however, only two divisions show excess falls in the month, the number of rainy days, on the other hand, has been decidedly larger than usual in all divisions except East Bengal and Chota Nagpur, and hence the defective rainfall appears to be due rather to the lightness of the falls than to want of actual rainy days.

The comparison of the actual rainfall of the various large divisions of the province during the month is most accurately shown in the form of a percentage. The figures representing the rainfall for the month calculated in this way are included in the following table under the heading of September. This table really gives a condensed summary of the rainfall statistics of the present year up to date for each meteorological division, the first nine columns giving the actual average falls in each division for each month expressed as a percentage of the normal, while the tenth column gives the actual rainfall of the first nine months as a percentage of the normal rainfall for that period:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	Actual rainfall of first nine months of 1894 expressed as a percentage of the normal fall for the period.
South-West Bengal ...	0	55	42	97	58	104	121	89	82	92
North Bengal ...	0	64	16	177	88	77	80	111	136	97
East Bengal ...	0	87	104	79	70	95	118	112	76	97
Bihar ...	3	163	24	98	29	121	108	126	128	112
Orissa ...	30	19	27	128	20	137	154	82	69	100
Chota Nagpur ...	3	110	4	144	31	149	138	126	86	117

For the whole year up to the end of September, it will be noticed, the falls have been almost equal to the normal in South-West, North and East Bengal and in Orissa, while over the remainder of the province the falls have been in excess.

The following table contains full data for the comparison of the actual and normal rainfall of the month of September in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or actual average district rainfall as determined from the rainfall observations of the past fifteen years; the second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district; the third column expresses the ratio of the actual district fall of the past month to the normal rainfall as a percentage, and the fourth column states as a percentage how much the district rainfall for the month varied from the normal:—

Percentage Table for September 1894.

Division.	District.	Normal district rainfall for September.	Actual district rainfall for September 1894.	Percentage of actual to normal rainfall.	Percentage excess (+), deficit (−).
South-West Bengal	Burdwan	7·87	6·12	78	− 22

The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·85
The total fall from 1st January to 20th October 1894	45·05
The average fall of the corresponding period for 24 years, Surveyor-General's Office	62·80

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; t, thunder; ≤, lightning; d, drizzling rain; p, passing temporary showers ⌓, dew; _, fog.

* Mean of 6 days.

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the The *humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The means of the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question stated on in the district reading in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

for the week ending Saturday, the 20th of October 1894.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the 23rd October* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 20TH OF OCTOBER 1894.

At the close of the previous week a diffused low pressure area covered the central and southern districts of Bengal. This probably represented the area of minimum pressure which was making its retreat southwards. The low pressure area was giving disturbed rainy weather over a large part of the province, and it was accompanied by light irregular winds, rather heavily clouded skies, and high humidity. On the 14th instant the general pressure distribution was changing, the area of lowest pressure was retreating southwards and comparatively high pressure was establishing itself in the north of the province. Hence more or less northerly winds were setting in at the north-western and western stations in the province, and these were driving back the more or less easterly and moist winds which had been previously blowing. Weather therefore became fine and almost rainless in Bihar and Chota Nagpur, though local showers were rather numerous in the remaining districts. On the 15th the pressure changes were small, and the lowest pressures were reported in the extreme south of the province, and fine settled weather prevailed over the north-western and western districts, though it remained showery elsewhere. On the 16th pressure had risen slowly over the whole province, the rise being largest in Assam and North-East Bengal, and the highest pressures were reported in the north-east and north of the province, and the lowest in the south of Orissa. Weather was usually fine except at the south-western and western stations, where showers were reported, and in Assam where rainfall was general. A slight increase in the easterly element in the wind directions, however, had taken place on this day, so that conditions had become slightly more favourable for rainfall. On the 17th pressure had risen briskly over practically the whole province, and it had become for the first time for a considerable period in excess of the normal, though the excess amounts were usually small. The area of lowest pressure had again retreated southwards over the Bay. The easterly winds partially retreated from Bengal, and weather became decidedly more settled over the province, though still rather numerous showers were reported in South-West and North Bengal and Orissa. In the centre and south of the Bay, however, conditions had become suspicious, and were favourable for the development of a storm. On the 18th pressure had again risen slowly over the whole province, and hence became moderately above the normal, and weather became fine with passing clouds over all divisions except Orissa, where light general rain had fallen. Light northerly winds also prevailed at most stations. In the south of the Bay, however, the disturbed conditions appeared to have concentrated into a diffused cyclonic storm at a long distance from the Madras coast, and the centre of which was probably a little to the south of the latitude of Madras. On the 19th pressure was usually falling slowly over Bengal, though it still continued above the normal. Light irregular winds generally prevailed, but weather was fine at practically all stations. In the south of the Bay the diffused cyclonic storm appeared to have moved slowly in a west-north-westerly direction, but the centre was still at a considerable distance from the coast. On the 20th pressure had again fallen slowly to moderately over the whole province, and pressure had become almost normal. Winds were rather variable in direction and light in force, and small local storms with rain had become more numerous, so that showers were reported over a large part of the province. In the south of the Bay the diffused cyclonic storm had again advanced slowly towards the Coromandel coast in a west-north-westerly direction. The disturbance was a large one, and it was giving strong winds and squally weather as far north as Coconada, and in connection with these disturbed conditions in the Bay weather in Bengal was becoming a little less settled on the 20th.

Pressure.—The variation of the mean pressure from the normal for the week has been exceedingly small. At the great majority of stations pressure has been above the normal, but the excess has not averaged more than about a hundreth of an inch. The largest excess pressures have been registered in South-East Bengal and Cachar, while on the other hand very slightly defective pressures have been recorded in the extreme west of the province.

In Assam the mean pressure has shown an excess of 0·016 inch.

Temperature has been above the normal almost throughout the week, and the excess in the average mean temperature has equalled 1·4°. In North Bengal and Bihar, indeed, the excess has averaged from two to two and-a-half degrees. In Assam, on the other hand, the average excess in the mean temperature has only equalled 0·9°.

Rainfall.—An average fall of about one inch and-a-half has been recorded in North Bengal and Orissa and of about an inch in South-West and East Bengal, while in Bihar and Chota Nagpur the falls have only averaged about half an inch. The falls have hence been in moderate excess in North Bengal, Bihar and Orissa, and a little below the normal in Chota Nagpur and South-West Bengal, but in East Bengal the defect has been large. In the present week again, however, the number of rainy days has far exceeded the normal number even in the districts which have received defective falls except in Chota Nagpur, and in such divisions as North Bengal, Bihar, and Orissa, the number of rainy days has been about twice as large as usual.

Comparing the actual with the normal falls for the period, and expressing the actual falls as percentage amounts, the falls during the week have equalled the following :—South-West Bengal 89 per cent., North Bengal 138 per cent., East Bengal 71 per cent., Bihar 145 per cent., Orissa 115 per cent., and Chota Nagpur 82 per cent. Taking the various divisions to have an equal value in the calculation, the rainfall of the week may be said to have been equal to 107 per cent. of the normal.

In Assam during the week Silchar has received 0·81 inch of rain, Dhubri 0·22 inch, and Sibsagar 0 85 inch.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 20th of October 1894:—

Meteorological Divisions.	Temperature.						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th October 1894.
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

Subordinate Educational Service.

The 22nd October 1894.—Maulavi Amjad Ali, B.A., third master of the Patna Collegiate School, acted in class V from the 12th March to the 15th May 1894, both days inclusive, *vice* Babu Bhagwan Chandra Datta, promoted.

Maulavi Abdul Hai, fifth master of the Patna Collegiate School, acted in class VI from the 12th March to the 15th May 1894, both days inclusive, *vice* Babu Bihari Lal Chaube, promoted.

A. CROFT,
Director of Public Instruction.

Office Memo.

Rules for appearing at the F.A. and B.A. Examinations for candidates from the Rajshahi and Burdwan Circle, who are not students of any affiliated institution.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools, and *bond fide* Masters of English Schools, who have served as such for the full period of two academical years, or of six months in the case of those only who were admitted to a former examination of the same class, will be admitted to the above-mentioned examinations. The applications of schoolmasters should be accompanied by a certificate of length of service from the Secretaries or Managers of the schools in which they are employed, and should reach this office not later than the 1st January. The application of a schoolmaster for permission to appear at the F.A. or B A. Examination should be signed by him in the *presence* of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to this office for countersignature, and it will be sent back to him (the candidate), who will have to send it, together with the examination fee, to the Registrar of the University *direct*. Schoolmasters are not required to pay any fee for

getting their application for permission to appear at either of the above-mentioned examinations countersigned by this office.

2. Candidates for the B.A. Examination who are schoolmasters must also send in the Registrar's certificates showing that they have passed the F.A. Examination.

3. Candidates should read carefully the form of the certificate which this office is required to sign, and should be careful to supply all information and documents required, including the Registrar's receipt in the case of those schoolmasters who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate.

4. By *bonâ fide* masters of schools are to be understood masters who hold regularly paid appointments in English schools.

C. A. MARTIN,
Inspector of Schools, Rajshahi and Burdwan Circle.

CHINSURA, *the 12th September* 1894

Rajshahi and Burdwan Circle Inspector's Office Memo.

UNIVERSITY ENTRANCE EXAMINATION.

PRIVATE STUDENTS.

1. *Private students* are those who do not appear from any school, or who have been transferred from one school to another *after the 31st August* without the consent of the Inspector. The term private students includes *schoolmasters*.

2. Private students must appear at the test examination of one of the following institutions :—

Those from the	At the test examination of
1	2
Howrah district ...	Howrah Municipal School.
Hooghly ,, ...	Hooghly Collegiate School.
Burdwan ,, ...	Burdwan Raj Collegiate School.
Bankura ,, ...	Bankura Zilla School.
Birbhum ,, ...	Birbhum ditto.
Midnapore ,, ...	Midnapore Collegiate School.
Rajshahi ,, ...	Rajshahi ditto.
Pabna ,, ...	Pabna Zilla School.
Bogra ,,	Bogra ditto.
Rangpur ,, ..	Rangpur ditto.
Dinajpur ,, ...	Dinajpur ditto.
Jalpaiguri ,, ...	Jalpaiguri ditto.
Darjeeling ,, ...	Darjeeling High School.

The examinations will begin on the 3rd of December 1894, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance after payment of expenses (stationery) will go as remuneration to the examiners.

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 10th November with the following information, &c.—

From private candidates proper.

(*a*) The name of the school in which the candidate last studied.

(*b*) The transfer certificate (in original) granted to the candidate from the same ;

or (*c*) (In the case of the candidate who previously appeared at the Entrance examination) the Registrar's receipt (in original) for the fee paid.

(*d*) Age of the candidate.

From schoolmasters.

(*e*) A certificate from the Secretary or proprietor of the school in which the candidate is serving to the effect that he has been a *paid* teacher of the school in which he teaches and has been so ever since the 1st June 1894. In case of a schoolmaster who has served *in more than one school*, he must produce certificates from the several schools in proof of his having been a *bonâ fide paid* teacher all along since the 1st June 1894.

Failing to produce the above certificate or certificates a schoolmaster will be subject to the rules applicable to *bonâ fide* private candidates.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test examination*.

5. The head-master of an institution (one of those named above) should direct private students to appear before him not later that the 15th December with their applications for admission to the Entrance examinations, and in the case of those candidates who have satisfied the test he will cause them to sign their application forms in his presence and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office.*

8. Private students will understand that the test examination of any schools other than those named above will not be accepted by this office.

DATED ON TOUR,
The 18th August 1894.

C. A. MARTIN,
Inspector of Schools, Rajshahi and Burdwan Circle.

NOTICE.

Entrance Examination.

A TEST examination of private students for admission to the ensuing Entrance Examination will be held at the Office of the Inspector of Schools, Presidency Circle, 4, Dalhousie Square, Calcutta, on Friday, the 7th, and Saturday, the 8th, December 1894. Only candidates residing in any of the districts of the Presidency and Chota Nagpur Divisions will be admitted to the examination.

2. Only those candidates who have not studied in any institution since the 1st September 1894, will be recognised as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the last school where they read, or, in the case of those who have not been in any school for more than a year, from some other reliable authorities.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Circle may be admitted to the examination, if they can produce certificates of service and character from their employers or from the Deputy Inspector of the district concerned.

4. Each candidate should submit to this Office, not later than the 27th November 1894, his application for admission to the test examination, stating the following particulars:—

(1) Age; (2) residence; (3) father's name; (4) second language besides English; and (5) whether he appeared at any previous Entrance Examination.

5. The admission-fee for the examination is Rs. 4 for each candidate, and is to be remitted with the application within the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay.

6. Every private candidate must be accompanied for the purpose of identification by some person known to this Office, otherwise he will not be admitted to the test examination.

7. Candidates who are sent up by this Office must appear at the Calcutta Examination Centre.

8. Those that reside at a distance from Calcutta are to present themselves at the test examination held by the head-master of the local zillah school, on condition that they appear at the centre selected by the candidates from that institution.

F. A. and B. A. Examinations.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of recognized English schools, in the Presidency and Chota Nagpur Divisions, who have served as such for full two academical years, or for six months in the case of those who have been admitted to a former examination of the same class, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Their applications must reach this Office on or before the 1st December 1894.

RADHIKA PRASANNA MUKHERJI,
Inspector of Schools, Presidency Circle.

4, DALHOUSIE SQUARE, CALCUTTA,
The 3rd October 1894.

NOTIFICATION.

"Nutan Path," by Babu Chandra Nath Basu, M.A., B L., is substituted for the late Pandit Iswar Chandra Vidyasagar's "Bodhodaya" as the authorised text-book in Bengali for the Lower Primary Scholarship Examination of 1896 and subsequent years until further orders.

A. CROFT,
Director of Public Instruction, Bengal.

Sheriff's Office, the 19th September 1894.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1894 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the 5th day of December next, at 11 o'clock in the forenoon, and so on from day to day, until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

E. TRELAWNY, *Sheriff.*

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 25th November 1893 and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th December 1894 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 1-30 P.M. of Saturday, the 8th December 1894, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 18th December 1894.

By order of the Board of Revenue, L.P.,
N. K. BOSE, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 30th October* 1894.

THE following revised notification should be substituted for the notification of the same date published at page 1021, Part I, of the *Calcutta Gazette* of the 26th September 1894.

N. K. BOSE, *Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 30th October* 1894.

NOTIFICATION.

The 25th September 1894.—In supersession of the rules made under the provisions of section 75 of the Sea Customs Act, VIII of 1878, and published under notification of the 2nd March 1887, at page 149, Part I of the *Calcutta Gazette* of the 9th idem, the following rules are notified under the said section. The fee to be charged under rule 6 has been sanctioned by the Lieutenant-Governor—

Passing of passenger's baggage.

1. Baggage includes all packages imported by a passenger for his own use or that of his family, which are not part of the cargo and are not manifested.

Baggage is not exempt from duty except under the circumstances mentioned below.

2. Baggage is exempt from duty only when it consists of articles free from duty or of *bonâ fide* wearing apparel and other articles of personal use, the property of the person whose baggage is being passed, or of any members of his family such as are in actual use at time of importation, or have been actually in use previously. It is in the discretion of the proper officer of Customs to determine, subject to the above rules, whether any goods shall be treated as baggage exempt from duty, or as goods liable to duty.

3. In Calcutta baggage officers will examine on board only such free baggage, not contained in soldered or nailed-down cases, as the passenger offers for examination; all other baggage will be sent to the baggage shed at the jetties in the case of vessels lying at the jetties; at the close of the day on which the vessel arrives, baggage landed from her will be sent to the Custom House. In the case of other vessels, baggage will be sent direct to the Custom House if unexamined.

4. It is optional with the proper officer of Customs to allow the cases of persons about to proceed up-country immediately to be passed without being opened. This discretion will never be exercised except on personal application of the owner of the baggage, or his or her representative: a detailed statememt of contents and value, signed by the owner, must always accompany the application.

5. The Preventive officer should report at once whenever he detains any dutiable articles in order that a peon may be deputed to convey them to the Custom House.

6. A landing fee of eight annas per package will be charged on goods sent into the Custom House.

7. Preventive officers will, as far as practicable, see baggage put over the ship's side immediately after examination.

8. Preventive officers posted to passenger vessels are directed to land, with as little delay as possible, all baggage intended for the Custom House or import shed.

9. Preventive officers are not authorised to pass passengers' baggage after it has been placed in the jetty shed.

10. Officers are authorised to pass from on board all firearms in reasonable quantities nd other dutiable goods belonging to passengers from a British Indian port, upon signature of the following declaration, reporting the number and nature of the articles so passed:—

"I hereby declare that my baggage includes no firearms or other dutiable articles belonging to a passenger from a foreign port, that is, from a port other than a British Indian port."

Name_____

Address_____

The above order does not apply to ammunition, which Preventive officers are not authorised to pass.

11. They are further authorized to pass from on board ship, reporting having done so, (1) uniform and accoutrements belonging to a public servant for his personal use, (2) arms forming part of the equipment of an officer entitled to wear diplomatic, military or police uniform, &c., upon signature of the following declaration :—

"I hereby declare I am a officer serving in India."

12. Passengers' baggage need not be detained owing to arms and ammunition or other dutiable articles being found in their boxes, unless they have in any way attempted to conceal them: in such cases the articles should not be passed.

13. Shipping bills are not required for the shipment of *bonâ fide* passengers' baggage.

14. Preventive officers should examine baggage brought for shipment to China, the Straits, Mauritius and Ceylon, and should report for orders any case in which they have good reasons to suppose that baggage for other ports contain dutiable or contraband articles.

15. Passengers are allowed to embark and disembark at Diamond Harbour.

(*a*) It will be the duty of the Preventive officer in charge of the station to see that neither opium nor ganja is taken on board of outward-bound vessels.

(*b*) Passengers landing at Diamond Harbour may be allowed to take their open baggage containing free articles only. Passengers desirous of leaving inward-bound vessels with the intention of embarking on board outward-bound ones will not be permitted to take with them any other than personal baggage, which must be examined in the usual way.

(*c*) No nailed-down packages, arms, ammunition, spirits or dutiable articles of any kind will be allowed to be transhipped. Any articles transhipped in defiance of this order will be seized and detained.

By order of the Board of Revenue, L.P.,
N. K. BOSE, *Offg. Secretary.*

ELECTION OF MUNICIPAL COMMISSIONERS.

IT is hereby notified for general information that at the bye-election held in Ward No. I of the Jainagar Municipality, in the district of the 24-Parganas, on the 26th September 1894, Babu Bhupendra Narain Dutta was duly re-elected a Commissioner for that ward.

BANGSI DHUR BANERJEE, *Personl. Asst., for Comr. on tour.*

COMMR'S. OFFICE, PRESY. DIVN., *Calcutta, the 23rd October* 1894.

NOTIFICATION.

IT is hereby notified for general information that at the bye-election held in Ward No. V of the Baduria Municipality in the district of the 24-Parganas, on the 26th September 1894, Babu Chandra Nath Roy, zamindar, was duly elected a Commissioner, *vice* Babu Abani Nath Roy, deceased.

H. C. WILLIAMS, *Offg. Commissioner.*

COMMR.'S OFFICE, PRESY. DIVN., CALCUTTA, *the 27th October* 1894.

The Calcutta Gazette.

WEDNESDAY, OCTOBER 31, 1894.

PART IA.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

THE following order, issued by the Government of India, Home Department, is republished for general information.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

EXAMINATIONS.

The 26th October 1894.

No. 327.—With reference to Rules 5 and 10 of the Rules published with Home Department Resolution No. 2Ex.—188-199, dated 5th June 1894, and to Rules 2 and 6 published with the Resolution of the Government of Bengal, dated 10th instant, it is hereby notified that the examination prescribed for filling up vacancies in the Lower Division of the Secretariat Clerical Service of the Government of India and attached offices, and in the Clerical Establishments of the offices subordinate to the Government of Bengal, will be held at Calcutta, in the Senate House of the Calcutta University, and at Allahabad and Lahore, at the places to be appointed by the Governments of the North-Western Provinces and Oudh and the Punjab, respectively, in January 1895. The exact dates will be notified hereafter. The hours of examination will be from 10 A.M. to 1 P.M., and from 1-30 P.M. to 4-30 P.M daily.

The probable number of vacancies in the Lower Division of the Secretariat Clerical Service of the Government of India and attached offices to be competed for is sixteen. Of these, eight will be reserved for candidates domiciled in the North-Western Provinces and Oudh, the Punjab, the Central Provinces, Rajputana, Central India and Baluchistan, provided that a sufficient number of such candidates, duly qualified, appear for the examination to be held at Allahabad and Lahore. The remaining eight vacancies will be offered for competition among the candidates examined at Calcutta, and such candidates, temporarily resident, but not domiciled in any of the Provinces enumerated above, as may be permitted to present themselves for examination at Allahabad and Lahore.

The probable number of vacancies in the offices subordinate to the Government of Bengal is ten. These will be reserved for candidates examined at Calcutta.

Candidates should pay the prescribed fee (Rs. 10) into the nearest Treasury, and forward the Treasury receipt to the Secretary to the Board of Examiners, Calcutta. Candidates paying their fees in Calcutta should pay them into the Bank of Bengal.

Application for permission to appear at the examination should be made to the Secretary to the Board of Examiners, Calcutta, between the date of this Notification and the 15th December next (inclusive).

The attention of intending candidates is called to Rule 9 of the Rules published with the Home Department Resolution of the 5th June 1894, prescribing the particulars* and documents which should accompany the application for permission to appear at the examination.

J. P. HEWETT,
Offg. Secy. to the Govt. of India.

* (1) Evidence that the candidate at the date of making his application is not less than 18 and not more than 24 years of age. The date of the candidate's birth must be stated

(2) In case the candidate has been educated at a school in which students' good conduct registers are kept, the candidate's register for the last year of his attendance at school when a year has not elapsed since he left school. In other cases, a certificate that the candidate is of good moral character from the head of the institution in which he has last been educated, or from some respectable householder to whom he is well known in private life, and who is himself known to a District or Sub divisional Magistrate or to the head of some Government Office,—this last fact being certified by the countersignature of the officer in question.

The following orders, issued by the Government of India in the Home Department, are published for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 25th October 1894.

No. 579.—Mr. W. E. Ward, C.S.I., on return from privilege leave, resumed charge of the office of Chief Commissioner of Assam from Mr. C. J. Lyall, C.S.I., C.I.E., on the forenoon of the 17th instant.

ECCLESIASTICAL.

The 25th October 1894.

No. 290.—The Reverend W. P. G. Field, a Chaplain on probation, is appointed to be a Junior Chaplain on the Bengal (Calcutta) Ecclesiastical Establishment, with effect from the 21st March 1894.

The 26th October 1894.

No. 296.—In continuation of the Notification of the Government of India in the Home Department, No. 1173, dated the 19th July 1888, the Governor-General in Council is pleased to publish the following rules under section 36(*a*) of the Births, Deaths and Marriages Registration Act No. VI of 1886:

1. The following fees shall be payable under section 35 of the said Act, namely:

	Fees. Rs.	A.	P.
For inspection of the descriptive list of registers or records delivered to the Registrar-General by Commissioners appointed under Chapter V of the said Act ...	1	0	0
For each copy of an entry in any register or record described in the abovementioned descriptive lists	1	0	0

Provided that soldiers and non-commissioned officers of Her Majesty's Regular forces and all seamen shall be exempted from the payment of the foregoing fees, when the same are payable to a Registrar-General or a Government servant who is not a Minister of Religion.

2. When fees payable under the foregoing rule are received by a Registrar-General or any person being a Government servant and not a Minister of Religion, having the custody of any such registers or records as aforesaid, they shall be entered in a register and otherwise treated as if they were fees realized under the rules published under the Notification No. 1173, dated 19th July 1888, above referred to. When such fees are received by any other person, they may be retained by such person.

J. P. HEWETT,
Offg. Secy. to the Govt. of India.

THE following order, issued by the Government of India in the Revenue and Agricultural Department, is republished for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

FORESTS.

Simla, the 19th October 1894.

No. 1048-*F.*—Mr. E. P. Dansey, Conservator of Forests, 2nd Grade, is, on return from furlough, posted to the Punjab in charge of the provincial Forest Circle.

DENZIL IBBETSON,
Offg. Secy. to the Govt. of India.

The following orders, issued by the Government of India in the Military Department, are republished for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

Simla, the 26th October 1894.

JUDICIAL.

No. 980.—In exercise of the powers conferred by section 3 of the Madras and Bombay Armies Act, 1893 (56 and 57 Vic., c. 62), the Governor-General of India in Council is pleased to fix the 1st day of April 1895 as the date on which the said Act shall come into operation.

ORGANIZATION.

No. 981.—In pursuance of the Madras and Bombay Armies Act, 1893 (56 and 57 Vic. c. 62), under which the military control hitherto exercised by the Governors in Council of the Presidencies of Madras and Bombay will cease, the Governor-General in Council hereby announces the changes in the administration and organization of the Army of India, which will be carried out with effect from the 1st April 1895.

2. The Bengal Army will, for purposes of administration, be organized in two portions —the Bengal Command and the Punjab Command.

3. The Army of India will consist of the following Commands:

Punjab.	Madras.
Bengal.	Bombay.

These Commands will be under Lieutenant-Generals who will be styled the Lieutenant-Generals Commanding the Forces, Punjab, Bengal, Madras and Bombay, respectively, and will all be under the direct command of the Commander-in-Chief in India and the control of the Government of India.

4. Each Lieutenant-General Commanding will be invested with the powers detailed in Special India Army Circular of this date, and will be assisted by the Army and Departmental Staff specified in paragraph 9. The business now transacted by the Military Departments of the Governments of Madras and Bombay will be transacted by the Military Department of the Government of India, whenever, under the regulations in Special India Army Circular of this date, it cannot be disposed of by the Lieutenant-General Commanding, or by the Commander-in-Chief in India.

COMMANDS.

5. In accordance with these arrangements, the district commands as now sanctioned with existing staffs will be distributed as follows —

PUNJAB COMMAND.

Head-Quarters—*

1st class Districts.	2nd class Districts.
Lahore.	Peshawar.
Punjab Frontier Force.	Sirhind.

APPOINTMENTS, PROMOTIONS, ETC

10. The appointments to 1st class district commands of officers of the British service will be made under existing rules, these officers being appointed by His Royal Highness the Commander-in-Chief, with the concurrence of the Secretary of State for India.

11. Appointments to 1st class district commands of officers of the Indian service, to all 2nd class district commands, and appointments of Colonels on the Staff, will be made under existing rules by the Governor-General in Council on the nomination of the Commander-in-Chief in India.

12. The Adjutant-General in India and Quartermaster-General in India will be nominated by the Commander-in-Chief in India; these nominations will be forwarded, with the approval of the Governor-General in Council, to the Secretary of State for India for confirmation, and for the concurrence in the case of an officer of the British service, of His Royal Highness the Commander-in-Chief. Officers of all four Commands will be eligible for appointment to the Staff at the Head-Quarters of the Army in India.

13. Staff appointments which are not reserved for any particular branch of the service will, as far as possible, be equally divided between the British and Indian services, and an officer serving in one Command may be appointed to the Staff in any other. All appointments that may carry the rank of substantive Colonel will be made by the Governor-General in Council on the recommendation of the Commander-in-Chief in India, and in the case of officers of the British service, with the approval of His Royal Highness the Commander-in-Chief. Other appointments to the General Staff will, as a rule, be made by the Commander-in-Chief in India on the nomination of Lieutenant-Generals Commanding, subject to the approval of the Government of India. Station and other minor Staff appointments will be made by the Commander-in-Chief in India on the nomination of Lieutenant-Generals Commanding. All regimental promotions of British Officers in Native corps will be made by the Commander-in-Chief in India on the recommendation of the Lieutenant-General to whose Command the corps permanently belongs.

14. First appointments of British officers to native regiments will be made by the Commander-in-Chief in India. The first appointment or promotion of a Native

* For the Madras and Bombay Commands.

commissioned officer will be made on the nomination of the Lieutenant-General, and be subject to the approval of the Commander-in-Chief in India and the Government of India, and will be published in the General Orders of the Government of India.

15. All appointments in the—

Medical Department of the Army,
Judge Advocate-General's Department,
Veterinary Department,
Ordnance Department,
Military Works Department,
Military Accounts Department,
Commissariat-Transport Department,
Clothing Department,
Remount Department,

will be made under existing rules, except where otherwise specified. Departmental promotions will be notified in the *Gazette of India* or *London Gazette* in accordance with existing practice.

16. The Principal Medical Officer, Her Majesty's Forces in India, and the Principal Medical Officers of the several Commands and districts, if of the Army Medical Staff, as well as the Principal Veterinary Officer in India and Inspecting Veterinary Officers, will be appointed as at present by His Royal Highness the Commander-in-Chief with the concurrence of the Secretary of State for India; officers belonging to the Indian Medical Service will be appointed by the Government of India.

FURLOUGH AND LEAVE.

17. Furlough or leave, other than privilege leave, will be granted to Lieutenant-Generals, General Officers Commanding districts, Deputy Adjutants-General of Commands, and officers at the head-quarters of the Army in India by the Commander-in-Chief. In the case of Lieutenant-Generals the approval of the Government of India is necessary. Furlough or leave to other officers will be sanctioned within the regulations by the Lieutenant-General Commanding the Forces with which the applicant is serving. The grant of furlough or leave will be notified in the General Orders of the Government of India, the General Orders of the Commander-in-Chief, or in the orders of the Command, as the case may be. Departmental officers, other than officers of the Military Accounts and Army Remount Departments, will submit their applications through the local head of the Department to the Lieutenant-General, who will grant the leave with the previous concurrence of the head of the department with the Government of India. When the furlough or leave is not provided for by regulations, the application will be referred for the orders of the Commander-in-Chief or Government of India as the case requires. In urgent cases the grant may be made in anticipation of sanction. Details of procedure for the grant of furlough and leave will be found in Appendix I of the General Orders of the Commander-in-Chief in India of this date.

PENSIONS AND RETIREMENTS.

18. Pensions and retirements of commissioned officers of the Staff Corps and Indian Army who may retire in India, will be granted by the Government of India.

DISPOSAL OF BUSINESS NOW PERFORMED BY THE MILITARY DEPARTMENTS OF THE GOVERNMENTS OF MADRAS AND BOMBAY.

19. Questions which have hitherto been referred by the Commanders-in-Chief of the Madras and Bombay Armies to the Military Departments of the Governments of those presidencies will, in future, be decided locally or referred, where necessary through the Commander-in-Chief in India, to the Government of India. Business relating to estates of deceased commissioned and warrant officers, hitherto transacted by the Military Secretaries to the Governments of Madras and Bombay, will in future be conducted by the Secretary to the Government of India, Military Department.

RELATIONS OF THE STAFF AT THE HEAD-QUARTERS OF THE ARMY IN INDIA TO LIEUTENANT-GENERALS AND ADMINISTRATIVE DEPARTMENTS UNDER THE GOVERNMENT OF INDIA.

20. The Adjutant-General in India will issue to the army in India all orders of the Commander-in-Chief relating to the *personnel*, duties, training, discipline, equipment, and general efficiency of the troops. The Quartermaster-General in India will continue to issue circulars and executive orders on matters customarily dealt with in his department. All decisions and instructions of the Government of India and of the Commander-in-Chief will be communicated to Lieutenant-Generals Commanding by the chief officer of the department concerned.

21. In all departmental matters affecting a department exclusively, which may necessitate reference to the Commander-in-Chief, the head of the department concerned will submit the matter to the Commander-in-Chief personally, or by minute paper or office note, and he will communicate the instructions received to the head of the department with the Command concerned, who will, under the orders of the Lieutenant-General, give effect to the same. Papers on which the Commander-in-Chief may have passed decisions will be communicated to the Adjutant-General, Quartermaster-General, or Principal Medical Officer to be noted. All questions involving military as apart from departmental matters should be

discussed with the Adjutant-General, Quartermaster-General, or Principal Medical Officer, as the case may be, in order that military considerations or those affecting general military policy may be fully weighed before submission to the Commander-in-Chief.

22. When the Commander-in-Chief is on tour, heads of departments will forward all papers for submission to His Excellency to the Adjutant-General, or the Quartermaster-General in India, according to the nature of the business, who will communicate the Commander-in-Chief's orders thereon to the head of the department concerned.

23. There will be a Controller of Military Accounts with each Command who will be the financial adviser of the Lieutenant-General Commanding, as well as of the Government of India in the Military Department. The Controller will not be under the orders of the Lieutenant-General as regards his departmental duties, but only in matters of Military discipline.

24. All matters of primary importance, or which affect the Army at large or more than one Command, changes in regulations, in organization, or those in which a principle is involved, will be submitted by Lieutenant-Generals to the Commander-in-Chief in India. Other matters (which will be defined in the subsidiary orders of the Commander-in-Chief) of particular application or of purely local concern, but which may require to be submitted to the Government of India, will be dealt with by Lieutenant-Generals in direct communication with the Government of India.

The procedure here indicated will be adopted in Madras and Bombay as regards original references, which do not concern individual officers, from the 1st March 1895.

25. The Deputy Adjutant-General will be the channel through which all orders of the Lieutenant-General will be issued to the forces under his command. Departmental questions affecting troops in the Command should be discussed with the Deputy Adjutant-General before submission to the Lieutenant-General Commanding. On all purely departmental matters on which local heads of departments have taken their orders direct from the Lieutenant-General, they will issue them to their departments. On questions relating to the troops and departments generally, orders will be issued through the Deputy Adjutant-General.

26. All departmental matters of purely local concern affecting the troops in the Command, that the Lieutenant-General Commanding cannot himself dispose of will, subject to the reservations in paragraph 24 above, be dealt with by the local head of the department under the orders of the Lieutenant-General, in direct communication with the head of the department with the Government of India, who will, if necessary, refer the question to the Government of India.

27. The heads of departments with the Lieutenant-General Commanding will, under regulations detailed in Special India Army Circular of this date, communicate with the heads of their departments with the Government of India, or with the Commander-in-Chief in India, as the case may require.

Officers in charge of departments of military administration with each Command, except Controllers of Military Accounts, will act in regard to their executive duties in subordination to the Lieutenant-General Commanding.

28. Subsidiary instructions relating to the changes introduced by the reorganization of the Army herein announced, are detailed in the Special India Army Circular and the General Orders of the Commander-in-Chief in India of this date.

RESERVE OF OFFICERS.

No. 985.—M. H. C. Sterndale, Gentleman, to be Second-Lieutenant in the Infantry Branch of the Indian Army Reserve.

VOLUNTEER CORPS.

APPOINTMENTS.

No. 1001.—*Calcutta Naval Volunteers*—

Surgeon-Captain Robert Forrest Dedrickson is re-appointed Surgeon, under the provisions of clause 119, India Army Circulars of 1894.

E. H. H. COLLEN,
Secretary to the Govt. of India.

The Calcutta Gazette.

WEDNESDAY, OCTOBER 31, 1894.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 4092½*M.*—*The* 22*nd October* 1894.—It is hereby notified for general information that under section 6, clause (*c*) of the Bengal Ferries Act I of 1885, the Lieutenant-Governor is pleased to establish a public ferry at Santipur over the Subarnarekha river in the district of Balasore.

C. W. Bolton,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5140*M.*—*The* 24*th October* 1894.—Whereas a notification, No. 488M., dated the 2nd February 1894, was published at page 28, Part 1B of the *Calcutta Gazette* of the 7th idem, sanctioning the extension of the provisions of Part IX of the Bengal Municipal Act, III of 1884, to the Wards Nos. II, III, IV, and V of the Kumarkhali Municipality, in the district of Nadia, and whereas the Municipal Commissioners did not take action under section 222 of the Act to bring the provisions of such Part into operation within the said wards of the Municipality within 15 days of the publication of the notification in the *Calcutta Gazette*, it has become necessary to renew the sanction then accorded. It is therefore notified for general information that, in exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Kumarkhali Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the said Part IX of the Municipal Act, as amended by Bengal Act IV of 1894, to the aforesaid wards of the Municipality, and the levy under section 86 (*f*) of fees for the cleansing of all private latrines within those wards.

C. W. Bolton,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5143*M.*—*The* 24*th October* 1894.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, and in accordance with the recommendation of the Commissioners of the Bhagalpur Municipality, made at a meeting, to extend the provisions of Part IX of the said Act to Wards IV, V and VI of the said municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the municipality.

C. W Bolton,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5148*M.*—*The 26th October* 1894.—It is hereby notified that, under section 59 of the Bengal Municipal Act III of 1884, as amended by Acts IV and VI of 1894, the Lieutenant-Governor approves the election by the Commissioners of the Roserah Municipality, in the district of Darbhanga, of Mr. C. J. Robertson to be their Chairman.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5169*M.*—*The 27th October* 1894.—In exercise of the power conferred on the Local Government by section 53, clause 3 of the Calcutta Hackney Carriage Act II of 1891, the Lieutenant-Governor is pleased to confirm the following bye-laws which have been framed by the Commissioners of the Rampur Boalia Municipality under clause I of the said section :—

1. No carriage shall receive a second class or third class license unless it be in a clean and safe condition, have sufficient room to seat four persons, and have stout axles, springs and wheels and two good lamps. Carriages of the description known as *Tom-tom* or Dog-cart shall be registered in the third class, and shall have one light on the right side.

2. When the carriage is drawn by a single pony or a pair of ponies, each pony must be in a fit condition and at least three years old.

3. No animal shall be deemed fit for its work, unless it is so in respect of age, muscle and condition, and equal to the work of drawing the carriage.

4. Fitness of the carriages and animals referred to in the above bye-laws shall be decided by the registering officer.

5. Every place where any hackney carriage, horse or pony is kept shall be open to the inspection of the officer of the Department at any time between sunrise and sunset.

6. The owner, driver or person in charge of a public conveyance in which any person suffering from small-pox or other infectious disease has been carried, shall immediately provide for the disinfection of the same to the satisfaction of the Commissioners.

7. No person who is suffering from small-pox or any other infectious disease shall enter a public conveyance without previously notifying to the owner or driver or person in charge of such conveyance that he is so suffering.

Notwithstanding anything contained in any Act relating to the public conveyance for the time being in force, no owner, driver, or person in charge of a public conveyance shall be bound to carry any person suffering as aforesaid in such conveyance unless the demand made by him for sufficient compensation for the loss and expense he must incur in disinfecting such conveyance is first of all settled.

8. Under section 54 of the Calcutta Hackney Carriage Act of 1891, whoever infringes any of these bye-laws shall be liable to a fine not exceeding Rs. 20.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5181*M.*—*The 30th October* 1894.—It is hereby notified that under section 17 of the Bengal Municipal Act III of 1884, as amended by Acts IV and VI of 1894, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Jhalda Municipality, in the district of Manbhum :—

Babu Kedar Krishna Banerjee.	Babu Bichuk Lal.
„ Ramtarak Ghosh.	„ Puran Marwari.
„ Kali Prasad Kundu.	„ Behari Lal Chowdhury.
„ Jogendra Dutta.	„ Kali Charan Chakravarti.

Babu Banwari Lal Hazra.

C. W. BOLTON,
Offg. Secy. to the Govt of Bengal.

NOTIFICATION.

No. 5183*M.*—*The 30th October* 1894.—It is hereby notified that under section 23 of the Bengal Municipal Act III of 1894, as amended by Acts IV and VI of 1894, the Lieutenant-Governor is pleased to appoint Babu Kedar Krishna Banerjea to be the Chairman of the Jhalda Municipality in the district of Manbhum.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5145*M.*—*The 26th October* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for a public recreation ground, it is hereby declared that for the above purpose pieces of land Nos. 129-4, 129-5, and 129-6, Machooa

Bazar Road, in the town of Calcutta, district 24-Parganas, measuring more or less 3 bighas 10 cottahs and 3 square feet, are required. The boundaries of the land are as follows :—

Plot marked E-1 on plan.—On the North No. 129-3, Machooa Bazar Street; on the South a new road; on the East partly a new public road and partly No. 129-3, Machooa Bazar Road; on the West Machooa Bazar Bye-Lane.

Plot marked F.—On the North, South, and East new public roads; on the West Machooa Bazar Bye-Lane.

Plot marked G on plan.—On the North, South and East new public roads, and on the West Machooa Bazar Bye-Lane.

Plot marked H on plan.—On the North and East new public roads; on the South Machooa Bazar Road; on the West Machooa Bazar Bye-Lane.

A plan and specification of the land to be acquired are filed in the office of the Municipal Commissioners of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5151*Med.*—*The* 27*th October* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Monghyr District Board for a public purpose, viz., for constructing a dispensary building at Jamalpur in the village of Jamalpur, pargana Pharkia, zilla Monghyr, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 15 cottahs and 11 dhoors of standard measurement, is required. The land is bounded on the East by the jote of Chandiprosad, on the South by that of Chabila Dhanook and Chandi Prosad, on the West by Jagir Birj Mohan, and on the North by the District Board road Gogri to Bhatkar.

A plan has been made of the plot in question, and it may be inspected by any one concerned at the Monghyr Collectorate Office.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5176*M.*—*The* 30*th October* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Baidyabati Municipality for a public purpose, viz., for the construction of a road leading from Sheoraphuli to Pearapur (khas mahal) in the village of Sheoraphuli, pargana Boroe, zilla Hooghly, it is hereby declared that for the above purpose a piece of land measuring, more or less, sixteen cottahs and one chitak of standard measurement, is required. The land is bounded on the North by a part of Pearapur road, mal lands of Srimati Patitbabani Dassi, Ekadashi Jele, Adyata Das, lakhraj lands in jote of Kobul Jele and the khas mahal lands of Raghu Nath Jele; on the East by Seoraphuli Municipal road; on the South by lakhraj lands of Sasi Bhusan Mukerjee and others and jote lakhraj of Kobul Jele, mal lands of Adyata Das, Ekadashi Jele, and Srimati Patitbabani Dassi and Khetter Das which are not to be acquired; on the West by jote of Nafar Majee.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

C. W. BOLTON,
Under-Secy. to the Govt. of Bengal.

Puri, the 6th September 1894. H. R. H. COXE, Offg. Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated in the district of Muzaffarpur, will be put up to sale at 10 o'clock on the 1st November 1894 at the Muzaffarpur Collectorate.

The purchasers of the several plots of land will be subject to the following conditions:—

Conditions.

1st.—The amount of bid should not be less than the price shown against each lot. The lots will be sold to the highest bidders with or subject to an annual revenue shown against each lot.

2nd.—One-fourth of the amount of bid must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled (the sum deposited being forfeited to Government), and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

3rd.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale:—

Name of district.	Pargana and estate.	Number of mile.	Number and area of each plot.		Boundary of each sale lot.	Total area of each sale lot in local bighas.	Price of each sale lot.	Annual revenue of each sale lot.

(718—1)

No. 41.

SEALED tenders for the supply to the Madras Commissariat of country-manufactured matured rum at the stations and in the quantity noted in the memorandum at foot will be received by the Commissariat Storekeeper-General at Madras, up to 12 noon on the 11th December 1894, and then and there opened in the presence of all parties who may choose to attend.

2. No tenders will be received except on forms obtainable from the Commissariat Storekeeper-General at Madras, which, as well as any information required regarding the contract, will be given on application to the Commissariat Storekeeper-General at Madras up to 4 o'clock P.M. on the 10th December 1894. No addition or alteration must be made in the tender forms.

3. Seals of tenderers will not be accepted; they should have their marks verified by witnesses.

4. Covers to be superscribed "Tender for the supply of Rum."

5. The tender may be in part or for the whole requirement, but the term of contract must be as noted below, and the rate an average for the whole period. Government shall have the power to accept a tender in whole or in part, or to reject a tender without assigning any cause for so doing; but, in the event of the tender being accepted in part only, and the tenderer failing to take up the contract, the whole earnest-money deposited will be confiscated.

6. Each tender must be accompanied with earnest-money in Government promissory notes or Bank of Bengal or Madras or Treasury receipt* for Rs. 1,285 Tenders without earnest-money will not be attended to.

* The receipt may be for currency notes or cash.

7. Earnest-money will be confiscated if the tenderer withdraws from his tender.

Memorandum of stations and quantities referred to in paragraph 1.

Station.	Estimated quantities.	Remarks.
1	2	3
Madras Commissariat Storekeeper-General.	32,143 Imperial gallons of country manufactured and matured rum at 5° over-proof, being the equivalent of 45,000 Imperial gallons at 25° under-proof.	Delivery to commence from the date of acceptance and to be completed by 28th February 1895.

Commissariat Storekeper-General.

Commissariat Storekeeper-General's Office, Madras, 12th October 1894.

No. 42.

SEALED tenders for the supply to the Madras Commissariat of country-manufactured cotton cloth for barrack and hospital mattresses and pillow-cases for one year, from 1st April 1895 to 31st March 1896, at the stations and in the quantities noted in the memorandum at foot, will be received by the Commissariat Storekeeper-General at Madras, up to 12 noon on the 21st November 1894, and then and there opened in the presence of all parties who may choose to attend.

2. No tenders will be received except on forms obtainable from the Commissariat Storekeeper-General's Office at Madras, which, as well as any information required regarding the contract, will be given on application to the Commissariat Storekeeper General at Madras up to 4 o'clock P.M. on the 20th November 1894. No addition or alteration must be made in the tender forms.

3. Seals of tenderers will not be accepted; they should have their marks verified by witnesses.

4. Covers to be superscribed "Tender for the supply of country manufactured cotton cloth."

5. The tender may be in part or for the whole requirement, but the term of contract must be as noted above and the rate an average for the whole period. The Commissary-General shall have the power to accept a tender in whole or in part or to reject a tender without assigning any cause for so doing, but in the event of the tender being accepted in part only and the tenderer failing to take up the contract, the whole earnest-money deposited will be confiscated.

6. Each tender must be accompanied with earnest-money in Government promissory notes or Bank of Madras or Bengal or Treasury receipt* for an amount equal to 2 per cent. of the value at the tendered rate of one year's supply of the quantity tendered for, but the earnest-money of any one tender need not exceed Rs. 695. Tenders without earnest-money will not be attended to.

* The receipt may be for currency notes or cash.

7. Earnest-money will be confiscated if the tenderer withdraws from his tender.

8. A sample of the cloth to be supplied can be inspected at, or had for inspection on application from, the Commissariat Storekeeper-General at Madras.

Station.	Estimated quantities—		
	For barrack and hospital mattresses, 59" wide, in lengths of 28½ yards each.	For barrack and hospital pillow-cases, large, 30" wide, in lengths of 31 yards each.	For hospital pillow-cases, small, 26" wide, in lengths of 29½ yards each.

Under 7 feet „ 2 „

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Barhamghat Division.

Barhamghat, the 1st April 1886

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16, or, post free, Rs. 16-12.
½ „ „ „ 8, „ „ „ „ 8-8.
¼ „ „ „ 4, „ „ „ „ 4 8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the interior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs* 2, *ans* 8; per eight-ounce tin, *Rs* 5; per pound tin, *Rs* 10. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four ounce tin, *Rs.* 3; per eight ounce tin. *Rs.* 6; per pound tin, *Rs.* 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 *oz.* tin, eight annas per 8*oz* tin, and twelve annas per pound tin, in addition to the foregoing rates.

By order of the Board,
Per pro. Ernsthausen, Limited,
WILLIAM BLEECK, Agents.

Calcutta, 26th October 1894. (719—2)

Kinmond and Company, Limited.

PROCEEDINGS of an Extraordinary General Meeting of the Shareholders of the Company, held at its Registered Office, No. 4, Strand Road, on Wednesday, the 26th day of September 1894, at 4-30 P.M.

PRESENT:

Mr. J. S. Fraser in the Chair.
„ Shirley Tremearne
„ P. Blamey.
Mrs A. M Kinmond, Executrix to the Estate of the late W. O Kinmond.
Mr. C. T. Geddes, by his attorney Mr. C W. Foley.
„ Edward Towie, by his proxy Mr. J. S. Fraser.

The notice convening the meeting having been read—

It was proposed by Mr. Shirley Tremearne,
and seconded by Mr. P Blamey—

"That the following resolution, which was passed at the Extraordinary General Meeting of Shareholders held on 29th August, be and is hereby confirmed as a special resolution:—

'That the Company be wound up voluntarily, and that Messrs. J. S. Fraser and Edward Towie be and they are hereby appointed the Liquidators of the Company at a remuneration of Rs. 250 each with all the powers conferred by the Indian Companies Act, 1882, and that they be at liberty to give Mr. Bonerjee, on completion of the liquidation, such sum as they may think fit as remuneration for the services rendered by him to the Company.'"

Carried unanimously.

(709—1) J. S. FRASER, Chairman.

Estate C. F. Nedham.

HAVING received letter of administration to the above estate, all parties having claims against this estate will send in a notice of their claims before the 20th November 1894, after which date no claims will be entertained.

TRIPURA CHURN CHATTERJEE,
Mangaldai, Assam

(717—3)

Notification.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act (VI of 1878), that on or about 1st July 1894 the following articles were found under ground by Petta Swami and Dara Ammanna while erecting a wall forming the boundary of the sites of Nittala Subbamma and Magapa Muralatshmi in the village of Magam, Amalapur taluk, Godaveri district:—

Berhampore, the 22nd October 1894.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1st.—Bay of Bengal Daily Report, giving meteorological observations taken at 28 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem

2nd.—Bengal Daily Report, containing observations taken at 48 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, i.e., from about May 15th to November 15th, or thereabouts Price Rs. 2-8per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 276 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable, in advance and of the Monthly Summary Rs. 2 per annum payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta Madras ,Bombay, and Allahabad, and comprise four series—one, for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Narainguage), Volumes I and II. Price Rs. 20 for 1893-94. Published at the Calcutta Custom House. Previous years' volumes can also be obtained at the same price.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except for Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK & Co., Government Place, Calcutta.

CAUTION.

Intended publication of a Weekly Summary of Notices to Mariners, by the Board of Trade.

The following Notice to Mariners (No. 375 of 1894), issued by the Board of Trade, is republished for general information :—

A Weekly Summary of Notices to Mariners, containing all the Notices received at the Board of Trade subsequently to the date of publication of the latest Monthly Summary respecting any alterations in Lights, Buoys or Beacons, any newly discovered danger, or any alterations in or additions to the Admiralty charts, will be published by the Board of Trade, on or about the 7th, 14th, 21st, and 28th, of each month.

A Monthly Summary containing all the Notices received at the Board of Trade during the preceding eight months is also published on the first of each month.

Copies of these Summaries are supplied at all the Mercantile Marine Offices in the United Kingdom to Masters of "Foreign-going ships," and at all the Custom Houses, to Masters of "Home Trade" and Coasting Vessels, free of charge.

Copies of the Monthly Summary are also sent to the Government Shipping Offices at each Colonial and Indian Port, and to the British Consulate at each Foreign Port, for the inspection of Mariners who may not be in possession of the latest Summary.

In addition to the above, all the "Notices to Mariners," immediately they are published, are posted at all the Mercantile Marine Offices and Custom Houses in the United Kingdom for the inspection of Mariners and others interested.

If the information contained in these Notices is not made use of by Masters, Owners and Agents of ships, the responsibility rests with the parties who neglect to make use of the information gratuitously offered and abundantly circulated.

H. B. Hooper, *Comdr.*, R.I.M.,
Acting Port Officer of Calcutta.

Published for general information.

CHINA SEA—PHILIPPINE ISLANDS.

(1) *Flashing light on Guimaras island.*

THE British Admiralty has given Notice (No. 505 of 1894) that on 1st October 1894 a light will be exhibited from a light-house recently erected on the south-west extreme of Guimaras island, southern approach to Ilo Ilo:—

Guimaras light is a *group flashing* light, elevated 111 feet above the sea, showing *three white flashes* in quick succession, followed by a *red flash* every fifteen seconds, between the bearings S. 9° W. through south, east, and north and N. 26° W., visible in clear weather from a distance of 16 miles.

The apparatus is catadioptric of the fourth order.

The light-house, 58 feet high, is of iron, cylindrical in shape and painted white and grey.

Approximate position on Admiralty Chart, No. 2578, lat. 10° 28′ 20″ N., long. 122° 28′ W.

(2) *Cabezas shoal off the south point of Luzon.*

Also, that a rocky shoal upon which a least depth of 6 feet was found, lies off the south extreme of Luzon, one-third of a mile N. 20° W. from Kalantes bank. The shoal is circular in shape, and about one-third of a mile in diameter.

Approximate position on Admiralty Chart No. 2577, lat. 12° 30′ 45″ N., long. 124° 3′ 50″ E.

(*Variation* 1° *Easterly in* 1894.)

RESOLUTION ON THE REPORT OF THE COMMITTEE FOR THE MANAGEMENT OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1893-94

REVENUE DEPARTMENT—MISCELLANEOUS No. 903T.—R.

Darjeeling, the 22nd October 1894.

RESOLUTION.

READ—

The Report of the Honorary Committee for the Management of the Zoological Garden, Calcutta, for the year 1893-94.

The total receipts of the Garden, excluding the opening balance of Rs. 5,240, amounted to Rs. 43,193, against Rs. 42,144 in the previous year, and the total expenditure increased from Rs. 41,202 in 1892-93 to Rs. 43,521 during the year under report. The increased receipts were chiefly due to the unusual influx of pilgrims into Calcutta during the year, many of whom also visited the garden. The increase in expenditure was caused by larger sums being spent on repairs of roads and buildings than in the previous year. The closing balance in favour of the Garden decreased from Rs. 5,240 to Rs. 4,912.

2. The number of visitors who were admitted to the Garden on payment of entrance fees was the highest on record since its foundation, being 162,449, against 139,173 in 1892-93, thus showing an increase of 23,276 entrances. In addition, a large number of students and children were admitted free of charge.

3. Altogether 317 additions were made to the collection (including 102 mammals, 89 birds, and 126 reptiles), of which 12 were born in the Garden, 24 were captured, and the rest were obtained either by presentation, or by purchase or exchange. Among the more important acquisitions were a large consignment of valuable animals, consisting of a pair of zebras, one jaguar, a pair of chacma baboons, five crested cranes from Africa, four common rheas, one imperial eagle, one crested screamer, and some other animals, received in exchange from Mr. Carl Hagenbeck of Hamburg; a fine pair of pumas obtained from the Zoological and Acclimatization Society of Melbourne; a Mississipi alligator and a rattle-snake, also acquired by exchange, being the first of their kinds ever seen in India; a rare carnivorous animal *Cynogale bennette* from Borneo acquired by purchase; and a fine specimen of a hunting leopard from Rajputana, presented by His Highness the Maharaja of Jeypur.

4. A series of experiments on the efficacy or otherwise of various alleged remedies for snake-bite was conducted during the year in the Joy Gobind Law Laboratory, and a report of the results was submitted to Government by the President of the Committee, Dr. D. D. Cunningham. A copy of this report has been forwarded to the Government of India for information.

Another series of experiments was undertaken in the same Laboratory at the instance of the "Hemp Drugs Commission." As the enquiry is being continued in the current year, the Committee will deal with the subject in their next report.

5. The Lieutenant-Governor notices with pleasure the liberal donation of Rs. 8,000 made by Maharaja Bahadur Sir Jotendra Mohan Tagore, K.C.S.I., for the construction of a Zoological Library and Lecture-room. This building will shortly be ready for use. The Committee observe that a hall without furniture and books will be useless for the purpose for which it has been intended, and express the hope that public-spirited and enlightened gentlemen and noblemen will come forward to provide funds for the purpose.

6. The Lieutenant-Governor tenders his thanks to the members of the Committee for their efficient management of the Garden during the year.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Honorary Secretary to the Committee for information, and that it be published in the Gazette.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

PROCEDURE FOR THE RENEWAL OF EXPIRED LICENSES UNDER THE INDIAN ARMS ACT, 1878

POLICE.

Dated Darjeeling, the 27th October 1894.

RESOLUTION No. 2086J.D.

READ again—

The Circular of this Government, No. 890J, dated the 13th February 1894, to all Commissioners of Divisions, regarding the provision of facilities for the renewal of expired licenses under the Indian Arms Act.

Read also the following replies:—

Letter from the Commissioner of the Bhagalpur Division, No. 770J., dated the 14th April 1894.

Letter from the Commissioner of the Chittagong Division, No. 264M., dated the 14th April 1894.

Letter from the Commissioner of the Rajshahi Division, No. 1Jct., dated the 19th April 1894.

Letter from the Commissioner of the Presidency Division, No. 39J.G, dated the 21st April 1894.

Letter from the Commissioner of the Burdwan Division, No. 137J.G., dated the 8th May 1894.

Letter from the Commissioner of the Orissa Division, No. 344J., dated the 19th June 1894.

Letter from the Commissioner of the Patna Division, No. 359G, dated the 21st June 1894.

Letter from the Commissioner of the Chota Nagpur Division, No. 337J., dated the 19th July 1894.

Letter from the Commissioner of the Dacca Division, No. 1412J, dated the 28th July 1894.

UNDER rule 13 of the rules under the Arms Act, licenses to possess arms, &c., are granted by the Magistrate of the district, and under rule 19 the currency of a license may be renewed on payment of a second fee by the same authority. It was brought to the Lieutenant-Governor's notice that inconvenience was occasioned to the public by the delay involved under this procedure for the renewal of a license, and it was accordingly suggested to the Government of India that rule 19 of the rules under the Arms Act might be modified so as to empower Subdivisional Officers as well as the authority granting the licenses to grant renewals on the prescribed fee being paid. This proposal was, however, not accepted by the Supreme Government. Commissioners of Divisions were then invited, in the circular of this Government, No. 890J., dated the 13th February 1894, to suggest any other procedure which might appear appropriate for the removal of the difficulties complained of. They were also asked their opinion as to the best existing procedure, and the average delay in having a license renewed. From the replies received it appears that there is a general consensus of opinion in favour of allowing applications for renewals to be made by post, and that the best existing procedure is that in force in the Noakhali district, where applications for renewal are either sent by post or presented personally, together with registration envelopes stamped and ready addressed. The average delay in obtaining a renewal is said to vary from two to three days in the Birbhum district, to three months in the Tippera district.

2. The existing practice in the matter of the renewal of expired licenses appears to be as follows:—Having regard to clause 9 of the conditions under which a license in Form VIII is granted, the license-holder files before the end of the year for which it is issued an application for its renewal on a piece of four-anna stamped paper. The old license is annexed to the application. This application may be made either at the head-quarters of the district, or at a subdivision. In the latter case the Subdivisional Officer transmits it to head-quarters for orders. As a rule the renewal is accorded without objection, and the new form lately prescribed by the Government of India provides for recording a memorandum of renewal on the license. The applicant is then left to call for his license himself and take it away. If he does not call before the lapse of the old license on the 31st December, he renders himself liable to the penalties for holding an unlicensed gun.

3. It seems to the Lieutenant-Governor that the existing procedure, if intelligently and considerately worked, is not open to much objection, but as a fact there is reason to believe that there is often great delay in Magistrates' offices owing to want of method and proper supervision. Sir Charles Elliott therefore desires to prescribe general instructions for the guidance of Magistrates and police officers, which it is hoped may obviate the inconvenience now felt by the public. The following procedure is accordingly laid down in order to ensure this object:—A list of all persons holding licenses under the Arms Act within the area of the thana should be maintained at every police-station. This is prescribed under Rule 72, Chapter XVI, Volume I of the Bengal Police Code, but it is doubtful whether in all cases the rule is complied with The Inspector-General of Police will take measures to ensure that this list is kept, and will issue orders that shall make it incumbent on every officer in charge of a police-station to report to the Magistrate of the district, on or before the 1st December, whether there is any objection to the renewal of any of the licenses within his jurisdiction. As licenses are granted for one year only, and the duration of the license expires on the 31st December, the holder of a license, if he desires to renew it, must apply before the close of the year for renewal. This application he must make on stamped paper of the value of four annas either in person or by agent or through the post, and he may make it either at the police-station or to the Subdivisional Officer in whose jurisdiction he resides, or to the District Magistrate. The permission to apply at the police-station will, it is expected, prove a boon to the public. The application must be accompanied by the current license. If the papers are received by the officer in charge of the police-station or the Subdivisional Officer, he will transmit them without delay to the District Magistrate. The District Magistrate having already received the police reports, will be in a position to decide at once upon the question of renewal, and the simple forms lately prescribed by the Government of India will in all cases of renewal enable him to give effect to the orders passed in each case without any waste of time. Within a week's time the license, with the order of renewal recorded on it, should be ready for return to the holder. In cases where enquiry is found to be necessary, some delay must be unavoidable, but such cases are the exception. The holder of the renewed license will then gain possession of it either by applying for it personally or by agent at the thana, or subdivisional or sadar office wherever the application was filed, or, if he prefers, he can attach a registered and stamped envelope bearing his own address to his application, and the renewed license will then be sent to him by post from the Magistrate's office.

4. His Honour apprehends that there is no other way of insisting upon the renewal of licenses than by the institution of prosecutions. It should, therefore, be made the duty of some clerk in the Magistrate's office to report, immediately after the 1st January of each year, what licenses have not been presented for renewal. It is desirable to prosecute for neglect to apply for a renewal, not with rigor, but firmly, in order that it may be clearly understood that the provisions of the law will be enforced.

5. In conclusion the Lieutenant-Governor takes this opportunity of drawing the attention of District Magistrates to the necessity of numbering and marking guns for which a license is given. It is feared that this precaution, which is obviously necessary for purposes of identification, has been generally neglected in Bengal districts His Honour will not go so far as to insist that the gun itself should be produced and identified on every occasion when the license for it is renewed, although this may be found necessary in some localities where the misuse of gun licenses is shown to exist: but it must be laid down as an invariable rule of practice that guns should always be marked and numbered before an original license is granted for their possession, and that the number should be entered on the license when it is originally granted.

ORDER,—Ordered that copies of the above Resolution be forwarded to all Commissioners of Divisions and to the Inspector-General of Police, for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Chief Secretary to the Govt. of Bengal.

DISTRICT ROAD FUND.

No. 4963R.C.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

Road Cess.

Dated Calcutta, the 22nd October 1894.

RESOLUTION.

READ—

Letter from the Accountant-General, Bengal, No. 600L.F., dated 28th September 1894, submitting an abstract of receipts and expenditure of the several District Road Committees in Bengal for the quarter ending 30th June 1894.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the several District Road Committees in Bengal for the 1st quarter of the year 1894-95 be published in the *Calcutta Gazette* and circulated to the officers concerned.

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the Supplement to the *Calcutta Gazette*.

Ordered also that a copy of this Resolution, and of the abstract referred to, be forwarded to the Commissioners of the Rajshahi, Chittagong, Bhagalpur and Chota Nagpur Divisions, to the Superintending Engineers of the Northern and Western Circles, to the Inspector of Works, Eastern Circle, and to the Financial Department of this Government, for information.

By order of the Lieutenant-Governor of Bengal,

F. J. JOHNSTONE,

Secretary.

RAJSHAHI DIVN.			
12	Rajshahi Oct. 27, '94	2·09	Weather—first part of the week rainy; latter portion dry and seasonable Condition of *aman* rice is excellent, the rain of the week having done immense good. No more rain is wanted. Lands are being prepared for *rabi* cultivation, and rain would do harm in this direction. There is no cattle-disease. Fodder and water-supply ample. Price of rice varies from 11 to 14 seers per rupee.
	Nator ...	2·61	
	Naugaon ...	2·92	
13	Dinajpur „ 27, '94	3·10	Weather—mornings and evenings cool and hot during day with occasional rain. *Aman* progressing. Cultivation of *rabi* crops going on. Fodder and drinking water sufficient. Common rice selling from 11 to 12 seers per rupee.
	Thakurgaon ...	5·45	
14	Jalpaiguri „ 27, '94	5·81	Weather—very wet and quite unseasonable for this season of the year, very cloudy still and getting cold. The rain has benefited the winter rice crop which is expected to yield a full crop, but it has thrown back to some extent the sowing of the *rabi* crops. Price of common rice varies from 10 to 13 seers per rupee. Cattle-disease is pretty prevalent everywhere.
15	Darjeeling „ 27, '94	2·22	Weather—rainy; cold weather setting in. *In the Hills*:—*Aghani dhan*, *bara marua* and *kalai* coming to perfection. Potatoes and *phaphar* progressing favourably. *In the Terai*:—Prospects of *aghani dhan* favourable. Paddy in ear. Land being ploughed for mustard and *kalai*. Prices of coarse rice:—
	Siliguri ...	3·31	
			Srs.
			Hills ... ... 9 to 10 } per rupee.
			Terai ... ... 10 to 12 }
16	Rangpur „ 27, '94	5·30	Heavy rain during the week. Jute steeping continues. *Aman* rice doing well. Lands under preparation for tobacco, &c. The late rain will not be beneficial. Common rice 8 to 13 seers per rupee.
	Gaibandha ...	3·33	
	Kurigram ...	3·60	
	Nilphamari ...	6·97	
17	Bogra „ 27, '94	2·05	Weather—seasonable. Prospects of *aman* favourable; an outturn of 16 annas expected. Price of common rice stationary (12 seers for the rupee). Fodder and water sufficient.
	Sherpur ...	5·40	
	Naukhila ...	1·54	
18	Pabna „ 27, '94	1·70	Weather—variable. Prospects of *aman* good. Sowing of *rabi* crops in progress. Common rice selling at 12 seers per rupee and jute at Rs. 4 to 5 a maund. Fodder and water-supply sufficient.
DACCA DIVN.			
19	Dacca ...	...	Report not received.
20	Mymensingh „ 27, '94	3·69	Weather—cloudy with occasional heavy showers. State and prospects of standing crops good. Common rice sells at 11½ seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.
21	Faridpur „ 27, '94	0·59	Weather—hot. Prospects of crops good. *Aman* harvest commenced in Goalundo. Rice 11½ to 12½ seers per rupee.
	Goalundo ...	Nil	
	Madaripur ...	Not reported.	
22	Backergunge „ 27, '94	0·86	Weather—seasonable. Prospects of crops good. Common rice sells from 9 to 13 seers per rupee. Fodder and water sufficient.

BIHAR.			
PATNA DIVISION.			
26	Patna Oct. 27, '94	5·42	Weather—very cloudy and rainy. Prospects of rice up to now very good, but the continued rain will injure it hereafter. The present wet weather is retarding *rabi* sowings which have been already delayed. Prices continue normal. Common rice selling at—
	Barh ..	3·28	
	Bihar ...	2·94	
	Dinapur ...	3·14	
			Srs.
			Sadar ... ... 16 }
			Barh ... ... 12½ } per rupee.
			Bihar ... ... 15½ }
			Dinapur ... ... 11 to 14½ }
27	Gaya „ 27, '94	2·36	Weather—rainy and unsettled. The rain has done considerable damage to the winter rice crop, and unduly retarded *rabi* sowings, which means a poor harvest in the spring. Sugarcane pressing has begun in parts. Prices unaltered and about normal. Supply of fodder and water ample.
	Aurangabad ...	2·88	
	Nawada ...	2 49	
	Jahanabad ...	2·12	
28	Shahabad „ 27, '94	3·57	Weather—rainy and cloudy. Prospect of paddy good; but if the rain continues, the crop will suffer. *Rabi* sowings being retarded owing to rain.
	Buxar ..	2·70	
	Bhabua ...	0·85	
29	Saran „ 27, '94	3·88	Weather—colder and seasonable. The rainfall has injured the paddy crop to some extent. The sowing of the *rabi* crop is being retarded. Fodder and water abundant. Prices of common rice:—
	Siwan ...	3·77	
	Gopalganj ...	2·51	
			Srs. c.
			Chapra ... ... 15 0 }
			Siwan ... ... 14 8 } per rupee.
			Gopalganj ... ... 15 6 }
30	Champaran „ 27, '94	3·01	Weather—cloudy. *Aghani* rice in fair condition. *Rabi* sowings progressing. Common rice selling at 16 seers per rupee. Fodder and water sufficient.
31	Muzaffarpur „ 27, '94	2·05	Weather—cloudy during latter part of the week. The sowing of the *rabi* crops, which was already backward, has been still further retarded by the recent rainfall, which will also slightly damage the paddy crop in blossom. No cattle-disease. Fodder and water plentiful. Common rice selling at 13 seers and the new *gadar* (*aus*) rice at 16 seers in the rupee.
	Hajipur ...	1·48	
	Sitamarhi ...	3·44	
32	Darbhanga . 27, '94	2·32	Weather—cloudy with heavy showers on 25th. *Aghani* rice is doing well, but the rain of this week has been somewhat injurious to paddy in blossom as also to *rabi* sowings. A break in the rains is very necessary for *rabi* cultivation. Fodder for cattle sufficient. Prices normal and stationary.
BHAGALPUR DIVISION.			
33	Monghyr „ 27, '94	2·80	Weather—rainy and cloudy. The rain which has recently fallen has retarded the *rabi* sowings and has also done some injury to the paddy crop. It has also washed out the *urid*, *kalai* and *kurthi* sown on the flooded areas. Otherwise prospects good. Fodder sufficient. Prices of common rice:—
	Begusarai ...	5·31	
	Jamui ...	Not reported.	
			Srs. c.
			Sadar ... ... 11 to 14 0 }
			Begusarai ... ... 13 4 } per rupee.
			Jamui ... ... 15 12 }
34	Bhagalpur „ 27, '94	1·34	Sky continues overcast and there has been a good deal of rain on some days. It is cooler. The rain has done some harm to *aghani* paddy and to *kalai* and *kurthi*, and has delayed sowing of some *rabi* crops. Prospects, however, continue to be good. Prices normal and practically stationary. Price of common rice 12½ to 15½ seers per rupee for old rice and 20 seers for new *bhadoi* rice. Fodder and water sufficient.
	Banka ...	2 82	
	Madhipura ..	2·65	
	Supaul ...	3·10	
35	Purnea „ 27, '94	4·20	Weather—cloudy but cool. The recent rain has probably done some damage to paddy in the car and in the Kishanganj subdivision to potatoes, and will retard *rabi* sowings. Average price of rice 15 seers per rupee.
	Kishanganj ...	3·78	
	Araria ...	3·66	

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHAR—*concld.*			
Bhagalpur Div.—*concld.* 36	Malda Oct. 27, '94	9·42	Weather—hot and cloudy with some heavy rain. Winter paddy coming into ear and promising well. *Kulai* pulse thriving. Lands are being prepared for wheat and other winter crops. Coarse rice selling at from 12 to 18½ seers per rupee. Fodder and water sufficient.
	Chanchal ...	1·85	
	Shibganj ...	4·28	
	Gazole ...	1·91	
37	Santhal Parganas „ 27, '94	3·64	Weather—too wet for the time of year. Rice crop excellent; the heavy rain has done a very little harm and is delaying sowings of winter crops to some extent.
	Deoghur ...	2·30	
	Godda ...	2·89	
	Jamtara ...	4·18	
	Pakour ...	2·42	
	Rajmahal ...	2·07	
ORISSA.			
Orissa Div. 38	Cuttack „ 27, '94	0·07	Weather—warm. Harvesting of *beali* nearly over. *Laghu sarad* attaining maturity. *Guru sarad* in ear. Prospects good. *Rabi* crops being sown. Condition of cattle good. Fodder-supply sufficient. Prices of common rice :— Sadar ... ... 10 8 to 14 7; Jajpur ... ... 10 8 to 15 12; Kendrapara ... ... 12 13 to 17 1; Banki ... ... 14 7 (per rupee).
39	Balasore „ 27, '94	0·47	Weather—seasonable. *Beali* rice is being harvested. *Sarad* rice doing well. The rain which has fallen during the week has done much good. Some cattle-disease reported from the Sadar subdivision. Prices of rice :— Balasore ... ... 18; Bhadrak ... ... 18; Dhamnagar ... ... 14; Chaudbali ... ... 16 (per rupee).
40	Puri „ 25, '94	4·20	Weather—cloudy with occasional showers of rain. Harvesting of *beali* still continues. *Sarad* is in ear. *Laghu sarad* is ripening. State of miscellaneous crops good. Rice sells from 11 to 17 seers 11 chitaks per rupee.
	Khurda ...	0·62	
	CHOTA NAGPUR.		
	South-West Frontier Agency.		
Chota Nagpur Div. 41	Hazaribagh Oct. 27, 9	1·50	Weather—unsettled. Rice and other crops continue to do well. *Rabi* sowings are being retarded by rain. Fodder-supply plentiful. Common rice selling at from 12 to 16 seers per rupee.
42	Lohardaga „ 27, '94	0·99	Weather—cloudy. Prospect of winter paddy continues good; sixteen annas outturn expected. Sowing of mustard finished. Potatoes being sown. Common rice is selling at 16 seers per rupee. Fodder and water sufficient.
43	Palamau „ 25, '94	3·10	Weather—very unsettled. Heavy local storms which are most unusual at this time of year. Prospects of crops good, but cessation of the rains would be very beneficial. *Rabi* crops being sown. Rice selling at 13 to 22½ seers per rupee.
44	Manbhum „ 27, '94	0·53	Weather—stormy early in the week. Now seasonable. Prospects of *aman* rice continue excellent. Price of common rice 12 to 20 seers per rupee.
45	Singhbhum „ 27, '94	1·08	It rained day before yesterday (25th); sky still not free from clouds. Prospects of standing crops not affected by the rain; but more rain may cause harm. Cutting of paddy going on. Rice selling from 18 to 22 seers per rupee.

Published for general information.

* Mean of 6 days.

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the *The humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The means of the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question stated on in the district sending in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

for the week ending Saturday, the 27th of October 1894.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th October 1894. Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the* 30*th October* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 27TH OF OCTOBER 1894.

DURING the previous week a diffused but rather large cyclonic storm had formed in the south of the Bay, which had advanced slowly in a west-north westerly direction, and on the 20th, or the last day of that week, was lying off the Coromandel coast with a centre probably in about the latitude of Madras. The diffused storm continued its advance, and the centre passed inland a little to the north of Madras, and probably between that station and Nellore, in the early morning of the 21st, or the first day of the week under review. The disturbance was of feeble strength near its centre, but at considerable distances from it, it was accompanied by very strong winds, specially to the north of the centre, and at such stations as Coconada, Masulipatam, and even in Ceylon at Galle, very strong winds, and at certain times a severe gale of wind, were reported. Decidedly heavy rain was also brought up to the Madras coast during the approach and passage of the depression over the land. The diffused storm apparently either broke up on striking the coast, or it may perhaps have passed across the peninsula in a feeble form, and have afterwards developed into a storm which advanced up the Bombay coast, and filled up in Guzerat on the 27th. At all events, in so far as the weather in the Bay of Bengal is concerned, on the 22nd it had practically ceased to exist. It had, however, brought up with it a moderately heavy wave of monsoon winds, and when the depression had passed away this wave began to spread northwards along the west coast of the Bay. On the 22nd moderate general rain was received in Orissa. On the 23rd, south-westerly or more or less monsoon winds set in over Bengal, and winds became moderate in force at the head of the Bay. Pressure also began to fall on the 23rd. The fall of pressure continued on the 24th, and the fairly steady south-westerly wind current affected practically the whole province, while rainfall, which had been more or less local up to this date, except in Assam and Orissa, began to increase in amount, and became more general, and in Bihar in particular on the 24th the falls were heavy. On the 25th, a rapid fall of pressure took place over the northern half of the province, the fall equalling 0·07″ over parts of Bihar, and a very distinct barometric depression had formed over this area, the defect ranging up to 0·14″ at Bhagalpur, round which as a centre there was a distinct, though rather irregular, cyclonic circulation of winds. With the formation of the depression very heavy general rain fell over the whole of the northern half of the province, and lighter and also rather general rain over the southern half. On the 26th pressure had fallen rather rapidly at the extreme northern, eastern, and southern stations, and pressure had become in defect by amounts ranging up to 0·234″ at Sibsagar, 0·212″ at Jalpaiguri, and 0·207″ at Darjeeling. A strong westerly element in the wind direction, however, began to set in over the greater part of the province on this day, and hence, though the depression in the north of the province was still very prominent, it had become more diffused, and the cyclonic circulation of winds in connection with it had disappeared. Fairly general rain had again fallen in connection with the depression, but the amounts were only heavy at the eastern stations on the 26th. On the 27th a moderate to rapid increase of pressure occurred, the increase ranging from 0·17″ at Sibsagar to 0·04″ in South Bengal. Hence the barometric depression was rapidly filling up, though pressure was still in defect and winds had become westerly at the great majority of stations, and in some cases north-westerly and northerly. Hence weather was becoming much more settled, and on the 27th only a few unimportant showers were reported in the south of the province.

Pressure.—Owing apparently to the effects of the storm in the Bay, and the subsequent advance of monsoon winds over Bengal, and to the development of another depression in the north of the province, the mean pressure has been very considerably below the normal, and the defects have usually ranged from about 0·04″ at the southern stations up to about 0·08″ at the extreme north of the province. In Assam the defect has averaged 0·064″.

Temperature has been decidedly high almost throughout the week, and the general excess has averaged 1·1°. The largest excess has been recorded in Orissa, where it has equalled 2°.

In Assam, on the other hand, temperature has been in defect and the average defect has equalled 1·7°.

Rainfall has been unusually heavy and frequent during the week. The falls in North Bengal and Bihar have averaged no less than between three and four inches, and Chota Nagpur and East Bengal have received about two and-a-half inches. The smallest falls have been received in South-West Bengal and Orissa, but even these districts have received falls which have averaged about an inch. In all cases, except in Orissa and South-West Bengal, the falls have been largely above the normal. The number of rainy days has also been exceptionally large, and in all divisions they have largely exceeded the normal.

Comparing the actual with the normal falls for the period, and expressing the actual falls as percentage amounts, the falls during the week have equalled the following:—South-West Bengal 105 per cent., North Bengal 641 per cent., East Bengal 225 per cent., Bihar 583 per cent., Orissa 75 per cent., and Chota Nagpur 486 per cent. Taking the various divisions to have an equal value in the calculation, the rainfall of the week may be said to have been equal to 353 per cent. of the normal.

In Assam during the week Silchar has received 12·12 inches of rain, Dhubri 4·35 inches, and Sibsagar 3·67 inches.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 27th of October 1894:—

Meteorological Divisions	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th October 1894

The total fall from 1st January to 27th October 1894		45·30
The average fall of the corresponding period for 24 years, Surveyor-General's Office		64·45

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; ≏, dew.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Calcutta, the 29th October 1894.

J. H. GILLILAND,
For Meteorological Reporter to the Govt. of India.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5167A.

The 6th November 1894.—The following rules for the examination for admission to the Executive branch of the Provincial Civil Service and to the Subordinate Civil Service, to be held in 1895, are published for general information :—

1. An examination of candidates for appointment as Deputy Collectors and Magistrates and as Sub-Deputy Collectors will be held in Calcutta in March 1895 on dates to be notified hereafter.

2. All candidates for examination shall apply in writing to the Under-Secretary in the Appointment Department not later than the 1st of February 1895. The application shall be accompanied by a fee of Rs. 20 and by certificates to the following effect :—

(1) That on the date fixed for the examination the candidate's age will not exceed 25 years. This certificate should be supported by the candidate's horoscope, or if the horoscope cannot for sufficient reason be produced, by other sufficient evidence, such as the sworn affidavit of a near relation. This condition of age may be relaxed on sufficient grounds being shown in favour of persons already in the Government service, who may be considered suitable candidates for these appointments.

(2) That he is of good moral character.

(3) That he has passed the B.A. examination of the Calcutta University, or that he has received an education not below the standard of such examination.

(4) That he is of sound health and good physique, and capable of bearing fatigue and exposure. This certificate must be signed either by the Civil Surgeon of the district in which the candidate resides, or if in Calcutta by the Resident Physician or the Resident Surgeon of the Calcutta Medical College Hospital. The fee for medical examination will in all cases be Rs. 4.

(5) That he is of active habits and able to ride. The certificate must be signed by a District Officer (or in his absence from head-quarters by the Joint-Magistrate in charge), or by the Commissioner or Deputy Commissioner of Police, Calcutta.

Each candidate shall also submit a statement showing the landed property owned by him, or in which he may have any interest, or which may be held by and managed by his wife or by any other member of his family, living with or in any way dependent on him.

The Lieutenant-Governor may, at his discretion, call for such additional proof as he may think fit in reference to any of the above points.

3. No candidate, who is already serving under another Government, will be allowed to compete, unless he obtains the previous permission of that Government.

4. The subjects of examination and the marks to be awarded will, until further orders, be as follows :—

(*a*) *English.*—The examination will be so arranged as to test a candidate's ability to write correct and idiomatic English, and will include precis-writing and letter-drafting. In awarding marks in these papers, great weight will be attached to good and legible handwriting.

(*b*) *Vernacular.*—Candidates will be examined in one of the following languages at their option :—Bengali, Urdu, Hindi and Uriya. The examination will include—

(1) Translation into English of proceedings, petitions, reports, &c., written in manuscript.

(2) Translation from English into the vernacular selected.

(*c*) *Law*—

(1) Regulation I of 1793 and Field's Introduction to the Regulations, Act VIII of 1885; Regulation VII of 1822; Act I of 1894.

(2) The Penal Code; the Code of Criminal Procedure; the Code of Civil Procedure; the Evidence Act.

(*d*) *Surveying.*—Survey and mensuration.

The marks will be given on the following scale :—

English	...	...	...	300
Vernacular	...	...	...	100
Law	...	...	...	300
Surveying	...	...	...	100
		Total	...	800

5. It is at present proposed to select seven candidates for Deputy Collectorships and seven for Sub-Deputy Collectorships. These will at first be appointed as probationers, on a subsistence allowance of Rs. 50 and Rs. 30 a month, respectively. Four of the probationers for Deputy Collectorships will be appointed from the first four candidates on the list in order of merit; and three will be selected by the Lieutenant-Governor from among those who have obtained a minimum of one-third of the total marks. From the remainder of those qualified by obtaining one-third of the marks, the Lieutenant-Governor will select seven more candidates as probationers for Sub-Deputy Collectorships.

6. No probationer will be appointed to officiate as a Deputy Collector and Magistrate or as a Sub-Deputy Collector unless he has given satisfactory proof, during his period of probation, of physical and mental capacity and of general good conduct. He must before appointment afford such further evidence of his ability to ride as may be required.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT—(FORESTS.)

NOTIFICATION—No. 4844 For.

The 2nd November 1894.—The Lieutenant-Governor is pleased, under section 28 of the Indian Forest Act (VII of 1878 as amended by Act V of 1890), to declare "Protected Forest" in the meaning of the said Act, and from the date of this Notification, all lands the property of Government in the district of the Sonthal Parganas, excepting such lands as were settled under Regulation III of 1872 with cultivators or others, or which may hereafter be so settled.

The nature and extent of the rights of Government and of private persons in or over the forest land and waste land referred to in this notification, with the exception of the forest land and waste land comprised in the tract of country known locally as the Saoria country (of which the boundaries are given below), have been enquired into and recorded in a manner which the Local Government thinks sufficient. As regards the Saoria country, the Local Government thinks that such enquiry and record are necessary, but that they will occupy such length of time that the rights of Government will in the meantime be endangered. In respect of this tract therefore this Notification is issued (pending such enquiry and record) subject to all existing rights of individuals or communities.

Boundaries of the Saoria country.

North.—The boundary of the Damin-i-Koh.

South.—All the unsettled hills lying within the boundaries of the Government Estate Damin-i-Koh to the north of the Torai river, Katni hill, and the Gargor river.

East and West.—The boundary of the Damin-i-Koh.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4845 For.

The 2nd November 1894.—The Lieutenant-Governor is pleased, under section 29 of the Indian Forest Act (VII of 1878)—

(i)—To declare the following species of trees in the "Protected Forest" in the district of the Sonthal Parganas in the Bhagalpur Division to be reserved from the date of this Notification, namely:—

1. Sal (*Shorea robusta*).
2. Satsal (*Dalbergia latifolia*).
3. Kusum or Baru (*Schleichera trijuga*).
4. Kohwa (*Terminalia arjuna.*)
5. Gamhar Kasmar (*Gmelina arborea*).
6. Murga (*Pterocarpus marsupium*).
7. Neem (*Melia indica*).
8. Mango, am, orul (*Mangifera indica*).
9. Tamarind, tetul or jogo (*Tamarindus indica*).
10. Jam or Kod (*Eugonia jambolana*).
11. Ebony, Kendh, or tirel (*Diospyros-malanoxylon*).
12. Mahoon, mothom (*Bassia latifolia*).
13. Hog-plum, umra or amra (*Spondias mangifera*).
14. Rola (*Terminalia chebula*).
15. The Jack-tree, kanthal or kathal (*Artocarpus integrifolia*).
16. Asan (*Terminalia tomentosa*).

(ii)—To prohibit in the said Forest from the date of this notification, and subject to the rules made under section 31 of the Act—

1. The quarrying of stone.
2. The burning of lime and charcoal.
3. The collection or subjection to any manufacturing process, or removal of any forest produce.
4. The breaking up or clearing for cultivation, for building, for herding cattle, or for any other purpose, any land.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4846For.

The 2nd November 1894.—In exercise of the power conferred by section 31 of the Indian Forest Act (VII of 1878), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to make, with effect from the date of this notification, the following rules for the Protected Forest in the district of the Sonthal Parganas in the Bhagalpur Division:

1.—All *bonâ fide* cultivators of Government land in the district may, free of charge, fell, convert and remove to their homes for their own private use only—

(*i*) all trees and timber of the species not reserved, and all other forest produce whatsoever; and

(*ii*) on prepayment of a royalty equivalent to half the amount prescribed as payable at hâts under rule 4 for like timber, and with the previous written permission of the Forest Officer, trees and timber of the reserved species, provided such timber is available in the working circle, whence such cultivators would in the ordinary course be supplied.

2.—Paharia raiyats and such other persons as the Deputy Commissioner may from time to time authorize in this behalf in writing, may fell, convert and remove for the purpose of sale or barter any trees, timber or other forest produce, subject to the following conditions:—

(*a*) green trees and timber of the reserved species shall not be felled, converted or removed, except with the previous written permission of the Forest Officer;

(*b*) if the Deputy Commissioner, being of opinion that the supply of any kind of forest produce is not more than sufficient to meet local requirements, shall, by order in writing, prohibit the removal of such forest produce beyond the limits of any specified locality, such forest produce shall not be removed beyond such locality; and

(*c*) all timber and other forest produce felled, converted or collected under this rule shall, in the first instance, be conveyed to the nearest authorized hât for such produce, whence it shall not be removed except with the written permission of the Forest Officer and after prepayment to him of the royalty due thereon.

3.—No person shall—

(*a*) cut the stem of any standing tree at a height exceeding twelve inches from the ground;

(*b*) cut up into fuel or fencing material, or otherwise damage the value of any wood of the reserved species which could be more profitably used;

(*c*) injure any tree of the reserved species;

(*d*) manufacture charcoal, except in localities previously approved by the Forest Officer;

(*e*) hunt, shoot or fish in contravention of the rules on this subject for the time being in force in the Protected Forests of Bengal.

4.—The number and location of the authorized hâts, as well as the scale of royalties which shall be there levied for forest produce, shall be fixed from time to time by the Deputy Commissioner, in consultation with the Conservator of Forests, under such rules as the Local Government may lay down.

5.—*Bonâ fide* cultivators of Government lands in the district may graze, free of charge, the cattle kept by them for their own household and agricultural requirements, or any forest land within the limits of the villages of which they are the raiyats; the grazing of all other cattle shall be prohibited.

The pasturing of goats and sheep shall be permitted only in areas set apart for that purpose: provided that when, in any locality, it is found impracticable, for want of a sufficiency of waste land, to set apart a particular area for this purpose, the Deputy Commissioner may, after consultation with the Forest Officer, permit such pasturing generally in such locality, except such parts, if any, thereof as it may be considered essential to maintain clothed with trees or bushes.

6.—"Karao" may continue to be practised by all Paharia raiyats of Government lands in the district, who are, at the time of this notification, lawfully practising this method of cultivation, subject nevertheless to the following restrictions:—

(*a*) The Deputy Commissioner may except from this method of cultivation any specified area if more suitable provision for the people can be obtained elsewhere, and in such case "karao" shall cease to be practised on such excepted land, and shall thenceforth be restricted to the substituted land;

(*b*) "Karao" shall not be practised on slopes exceeding twelve degrees of gradient; and

(*c*) wood cut in the process of "karao" shall not be sold or bartered, except after compliance with condition (*c*) of rule 2.

Explanation.—The term "karao" as used in this rule means the system of cultivation which consists in felling the forest on a selected area, burning the cut material, and sowing one or two crops in the ashes, and then, after reaping, leaving the area to lie fallow for a number of years before recultivation.

7.—Any land may be cleared or broken up for a public work, or for permanent cultivation, with the written permission in each case of the Deputy Commissioner.

8.—These rules are made subject to the provisions and conditions of any settlement made, or hereafter to be made, under the Sonthal Parganas Settlement Regulation (III of 1872) or any other law for the settlement of land for the time being in force in the Sonthal Parganas.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4809For.

The 1st November 1894.—Babu Kedar Nath Mozumdar, Extra Assistant Conservator of Forests, Angul Forest Division, is granted privilege leave for three months, under article 299 of the Civil Service Regulations, from the date on which he may be relieved.

Babu Gurudas Chatterji, Ranger in charge of the Palamau Forest Division, is posted, on being relieved by Mr. F. Trafford, Assistant Conservator of Forests, to the Angul Forest Division, to be in charge of it during the absence of Babu Kedar Nath Mozumdar on leave, or until further orders.

Mr. F. Trafford, Assistant Conservator of Forests, Tista Forest Division, is posted to the Palamau Forest Division on being relieved by Mr. H. D. D. French, Deputy Conservator of Forests, on return from privilege leave.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4843For.

The 3rd November 1894.—Notification No. 2291For., dated the 17th May 1893, published at page 459 of the *Calcutta Gazette* of the 24th idem, regarding the constitution, under section 4 of the Indian Forest Act, of certain land in the Sadar sub-division of Darjeeling as a Reserved Forest, is hereby cancelled.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT,—(OPIUM).

NOTIFICATION—No. 4806-O.

The 31st October 1894.—Mr. W. H. T. Howey, Assistant Sub-Deputy Opium Agent, is appointed to officiate as Sub-Deputy Opium Agent of Fyzabad, during the absence, on leave, of Mr. A. W. Osborne, or until further orders.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4840-O.

The 2nd November 1894.—Mr. Albert Datta, Assistant Sub-Deputy Opium Agent, Benares Agency, is granted privilege leave for one month and seven days, with effect from the 18th November 1894, or any subsequent date on which he may avail himself of it.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4878-O.

The 6th November 1894.—In continuation of Government Notification No. 4608-O., dated the 12th September 1894, Mr. J. O. D. Murray, Assistant Sub-Deputy Opium Agent, is appointed to officiate as Sub-Deputy Opium Agent of Lucknow, with effect from the forenoon of the 11th October 1894, during the absence, on leave, of Mr. H. Osborne, or until further orders.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT—(LAND REVENUE).

NOTIFICATION—No. 4866L.R.

The 6th November 1894.—Under section 4 of Act V (B.C.) of 1875, Lieutenant R. T. Crichton is appointed to be a Superintendent of Survey, and Lieutenants C. W. H. Symonds and G. T. Hall to be Assistant Superintendents of Survey, for the purpose of carrying out the survey of the Government estates and tenures in the district of Gaya, ordered in Notification No. 650 L.R., dated the 6th October 1894.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4867L.R.

The 1st November 1894.—Under the authority vested in him by section 189 of the Bengal Tenancy Act, VIII of 1885, the Lieutenant-Governor is pleased to declare that the following Rules be substituted for Chapter VI of the Rules under the said Act, published by Notification, dated the 21st December 1885, at page 1255, Part I of the *Calcutta Gazette* of the 23rd idem, as modified by Notification, dated the 2nd July 1889, published at page 560, Part I of the *Calcutta Gazette* of the 3rd July 1889. They are accordingly, under sub-section 5, section 190 of the said Act, published for general information.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

CHAPTER VI.

Rules under section 189 *of the Bengal Tenancy Act as to the procedure to be followed by Revenue Officers in regard to the Record of Rights and Settlement of Rents.*

1. (*a*) Every Revenue officer appointed under the designation of "Settlement Officer" or "Assistant Settlement Officer" for the purpose of making surveys, record of rights, settlement of rents, determination of proprietors' private lands, and such like proceedings, or any one or more of them under the Tenancy Act, is hereby vested with all the powers exercised by a Civil Court in the trial of suits, and with the powers mentioned in section 189 (1) (*b*) and (*c*) of the Tenancy Act VIII of 1885.

(*b*) A Revenue officer who, under the designation of a Settlement Officer, has been appointed for the purpose of making a survey and record of rights and settlement of rents under Chapter X of the Bengal Tenancy Act, VIII of 1885, shall have power to make over applications for settlement of fair rents made under section 104, or objections preferred under section 105 of the Act, or dispute cases instituted under section 106 of the Act to the officers subordinate to him, who have been duly empowered under the designation of Assistant Settlement Officers to act as Revenue officers under the provisions of the same Chapter of the same Act.

(*c*) On the application of either party, after giving notice to the other party interested and hearing objections preferred, if any, or of his own motion without giving such notice, a Revenue officer so appointed under the designation of Settlement Officer shall have power to withdraw from the file of any Revenue officer (designated Assistant Settlement Officer) who is subordinate to him any such applications made under section 104 or objections preferred under section 105 or dispute cases instituted under section 106 of the Bengal Tenancy Act, and to dispose of such applications, objections, or dispute cases himself, or to transfer them for disposal to another officer similarly subordinate to him, who is duly empowered to act as a Revenue officer.

2. Deputy Superintendents of Survey and Assistant Superintendents of Survey employed in operations under these Rules are hereby declared to be Revenue officers for the purpose of performing any duty imposed upon them by these Rules, or by instructions consistent with these Rules, issued by the Board of Revenue. They are hereby vested with the powers specified in section 189 (1) (*b*), provided that an Assistant Superintendent shall not exercise the powers vested in a Superintendent under the Bengal Survey Act.

PROCEDURE FOR CADASTRAL SURVEY, RECORD OF RIGHTS, AND SETTLEMENT OF RENTS.

3. The following processes will ordinarily be comprised in a cadastral survey, record of rights, and settlement of rents :—

I.—Demarcation of boundaries.
II.—Measurement.
III.—Khanapuri, *i.e.*, preliminary preparation of the record.
IV.—Attestation of the record.
V.—Settlement of fair rents under section 104 of the Bengal Tenancy Act.
VI.—Draft publication of the record of rights.
VII.—Disposal of objections, and trial of disputes, under sections 105 and 106 of the Tenancy Act.
VIII.—Final publication of the record of rights.

I.—DEMARCATION OF BOUNDARIES.

4. (*a*) In the demarcation of village boundaries care shall be taken to preserve as far as possible, for the unit of survey and record, the area contained within the exterior boundaries of the village maps of the revenue survey.

(*b*) Where there is no dispute the boundary of the village according to possession should be followed, and, where that boundary does not differ substantially from the boundary of the Revenue Survey, the latter need not be separately shown in the map.

(*c*) Where there is considerable difference between the boundary according to the revenue survey map and the existing boundary of the village as ascertained by the Revenue officer, the latter should be followed for the purposes of map and record; but the boundary of the Revenue Survey map should also be marked on the new village map.

(*d*) Where there is dispute as to village boundaries, the Revenue officer shall decide the dispute under the Bengal Survey Act, V (B.C.) of 1875.

5. Boundary pillars of a permanent nature shall be erected at every point where the boundaries of three or more villages meet, and may be erected wherever the Revenue officer considers it necessary to define by pillars the boundaries of estates or tenures, or of lands which have been the subject of dispute.

II.—MEASUREMENT.

6. A field map of every village shall be prepared. It shall show the boundaries of every field separately assessed to rent, or of such plot of land as the instructions of the Board of Revenue for giving effect to these Rules may lay down.

III.—KHANAPURI, *i.e.*, PRELIMINARY PREPARATION OF THE RECORD.

7. Settlement records made under Chapter X of the Tenancy Act shall be prepared in such manner as the Board of Revenue may prescribe, and shall consist of the following principal documents :—

Village map;		Khewat;
Khasra, *i.e.*, field index;		Khatian;
	Tirij;	

and any other papers which the Board of Revenue may prescribe.

8. The record of rights, which shall be published under section 105 of the Tenancy Act, shall be contained in the khewat and the khatian.

9. (*a*) The proprietary khewat shall show the character and extent of proprietary interests; and, when there are large tenure-holders, the character and extent of whose interests may, in the opinion of the Revenue officer, require it, such interests shall be recorded in a similar form in addition to being recorded in the khatian.

(*b*) The khewat of proprietary interests shall first be drawn up in accordance with the registers maintained by the Collector under the provisions of the Land Registration Act, VII (B.C.) of 1876. As the record-writing proceeds, the proprietary khewat shall be corrected in accordance with the facts of possession.

10. (*a*) The khatian shall show in detail for all the lands of the village, estate by estate, landlord by landlord, and occupant by occupant, the lands included in each estate, owned by each landlord and occupied by each tenant, with particulars of rent and of the incidents of each tenancy.

(*b*) Lands cultivated or otherwise held direct by the proprietor shall be shown in detail in the khatian, and shall be entered either as proprietor's private land, or as land held by the proprietor but not private land, in accordance with the provisions of Chapter XI of the Tenancy Act.

IV.—ATTESTATION OF THE RECORD.

11. (*a*) When the map, khasra, khewat, and khatian for a village have been prepared in such manner as the Board of Revenue may prescribe, the Revenue officer shall issue a notification in such form as may be approved by the Board, fixing a day, which shall be not less than a week from the date of issue of the notification, on which he will be present at some place to be specified, at or near the village, for the purpose of attesting and completing the record of rights.

(*b*) The notification shall further state that on the day so fixed, or on any other day to which the proceedings may be adjourned, the Revenue officer will proceed to record rents when the circumstances are such as are specified in section 104(1), and to receive applications for the settlement of fair rents; and it shall require all parties interested in the subject-matter of the enquiry to attend at the time and place specified with such evidence as they have to offer in connection with the proceedings.

(*c*) Such notification shall be published by proclamation and beat of drum, and fixed up in the presence of not less than two persons in some conspicuous place in the village to which it refers.

12. The Revenue officer may also, if he deem fit, take such additional measures under the powers conferred on him by Rule 1 of this Chapter as may be desirable to procure the attendance, at the place specified in the notification to be issued under the last preceding rule, of the under-raiyats, raiyats, tenure-holders, landlords and proprietors, or their authorized agents.

13. On the date specified in the notification to be issued under Rule 11, or on any other date to which the proceedings may be adjourned, the entries which have been made in the khewat and in each tenant's khatian shall be read out in the presence of such of the interested parties as are in attendance. If the correctness of any entry is disputed, the Revenue officer shall settle the dispute after local enquiry or otherwise; provided that if the correctness of the measurement is called in question, and a fresh measurement be demanded, the Revenue officer may require the costs of the remeasurement to be deposited. If the remeasurement show the original measurement to have been inaccurate, the amount deposited shall be refunded to the objector.

14. The Revenue officer shall ascertain what raiyats claim the right to hold at fixed rates or fixed rents, explaining, as far as may be necessary, the provisions of the Act in this

respect. If the right claimed is disputed by the landlord, the Revenue officer shall call on the claimants for proof of such right.

15. The Revenue officer shall ascertain which of the raiyats are settled raiyats or occupancy raiyats, as the case may be, and shall record them as such, having regard to the presumption of section 20(7) of the Tenancy Act in favour of the settled status.

16. The Revenue officer shall ascertain what raiyats are non-occupancy, and to this end he shall be entitled to call upon the landlord or his agent to produce a statement showing the names of the raiyats alleged by him to be non-occupancy raiyats. On production of such statement, the Revenue officer shall explain to the raiyats whose names are entered in the statement, and who have not already been recorded as occupancy or settled raiyats, the nature of the presumption raised by section 20(7) of the Act. If, after such explanation, a raiyat admits himself to be a non-occupancy raiyat, he shall be recorded as such. If he does not admit himself to be a non-occupancy raiyat, the Revenue officer shall call on the landlord to prove the allegation made by him in regard to such raiyat.

17. Abwabs shall not be recorded. Cesses which are authorized by law shall be recorded separately from the rent in the khatian.

18. The Revenue officer shall summarily ascertain the tenant's present rent, and record it in the appropriate column of the khatian as the rent payable in respect of the land held by the tenant.

19. When the record of rights and of existing rents has been prepared and attested in the manner prescribed in rules 11 to 18 above, and when the record shall have been arranged and corrected in accordance with the orders which the Revenue officer may have passed, he shall record a proceeding in which he shall state that attestation of the records of the village has been completed; and shall publish a notification in the village stating that a period, not less than one month, is allowed during which applications for the settlement of fair rents may be filed. But in special cases the Revenue officer may exercise his discretion as to receiving such applications on a date outside of this limit up to the time of draft publication.

V.—SETTLEMENT OF FAIR RENTS UNDER SECTION 104 OF THE TENANCY ACT.

20. When the landlord or tenant applies for the settlement of a fair rent, he shall be considered as plaintiff and the opposite party as defendant, and the Revenue officer shall proceed as is directed in rules 24 to 28 following.

21. If it appears on legal evidence adduced before the Court that a tenant is holding land in excess of, or less than, that for which he is paying rent, the Revenue officer shall proceed to fix a fair and equitable rent for the holding under section 104(2) and (3).

22. When the estate or tenure belongs to, or is managed by, the Government or the Court of Wards, the procedure laid down in these rules for recording or settling rents shall be followed, the Government or the Manager of the estate or the tenure respectively, as the case may be, being regarded as the landlord.

23. (*a*) When, in accordance with section 104 (2) read with section 101 (2)(*d*) of the Tenancy Act, a settlement of land revenue is being made in respect of any lands, it shall be the duty of the Revenue officer to record a proceeding for each village in such form as may be approved by the Board of Revenue, setting forth that on a date named and at a place named he will settle fair rents in respect of all estates, tenures or holdings, and for unsettled lands included in such village.

(*b*) A schedule may be appended to the proceeding, giving the names and numbers of all estates, tenures and holdings, paying revenue or rent to Government, and particulars of unsettled lands for which rent will be settled.

(*c*) Such proceeding shall be sufficient authority for making a settlement of all rents within such estates, tenures or holdings, and it shall not be necessary to state that Government or the Secretary of State is plaintiff, or to join any landlord as co-plaintiff, or to draw up any plaint or application.

(*d*) It shall not be necessary to register such proceeding as a plaint under section 58 of the Code of Civil Procedure, but applications made by landlords or tenants for settlement of fair rents shall be so registered.

24. When (1) a landlord or tenant applies for the settlement of a fair rent, or (2) in any case in which a Revenue officer engaged in the settlement of the land revenue proposes to alter an existing rent, notice shall be given in the following manner to persons interested:—

Notices.

(1) In the case of an application made by the landlord or tenant, notice shall be served on every person interested in the application, together with a copy of the application or extract therefrom or summary thereof so far as the application concerns such person.

(2) In the case of a settlement of the land revenue, a copy of the proceeding prescribed in rule 23 shall be served by proclamation and beat of drum, and by posting it in the presence of not less than two persons in some conspicuous place in the village comprising the lands under settlement. Proof of service of such notice at least one week previous to the date fixed for settlement of fair rents shall be sufficient notice to all persons concerned.

25. With the consent of the Revenue officer, any number of tenants occupying land under the same landlord in the same village may make a joint application for the settlement of rents, or may be joined as defendants in the same proceeding on a similar application by the landlord; or when settlement of the land revenue is being made under section 101(2) (*d*),

the Revenue officer may of his own motion join all landlords and tenants in a village in one proceeding; provided that if at any time it shall appear to the Revenue officer that the question between any two of the parties of whom one is so joined with others cannot conveniently be so jointly tried, he may order a separate trial to be held of that question, or he may pass such other order, in accordance with the Civil Procedure Code, for the joint or separate disposal of the application as he may think fit.

26. (*i*) On the date fixed for settlement of fair rents other than those connected with settlements of the land revenue, or on any subsequent date to which the proceeding may be adjourned, the Revenue officer shall proceed to read, or cause to be read, aloud the name of each tenant whose rent has to be settled, the area of his tenancy, the existing rent, the rent applied for, if any, the ground stated for enhancement or reduction, and shall ask the landlord and tenant, if they are present, whether the new rent applied for is accepted.

(*ii*) In the case of settlement of rents in connection with a settlement of the land revenue on the date fixed, or on any subsequent date to which the proceeding may be adjourned, the Revenue officer shall proceed to read, or cause to be read, aloud the name of each tenant whose rent has to be settled, the area of his tenancy, and the existing rent, and shall propose a rent for the acceptance of the landlord and tenant concerned, and shall ask them, if they are present, whether the new rent proposed is accepted.

(*iii*) In cases under both (*i*) and (*ii*)—

(*a*) if the landlord and tenant be present, and if both accept, in case (*i*) the rent applied for, in case (*ii*) the rent proposed, the Revenue officer shall record their acceptance, and if in his opinion that rent be fair and equitable and in accordance with the provisions of the Tenancy Act, he shall settle it accordingly. If the Revenue officer does not consider the rent fair and equitable, he shall proceed to fix a fair and equitable rent;

(*b*) where landlord or tenant does not attend after due service of notice has been proved, the procedure will be *ex parte*;

(*c*) where a landlord or tenant appears and does not accept, in case (*i*) the rent applied for, in case (*ii*) the rent proposed, the Revenue officer shall record evidence in the manner prescribed in clause (*f*) of section 148 of the Bengal Tenancy Act for trial of rent suits, and shall settle a fair and equitable rent according to law; provided that in important cases the Revenue officer may in his discretion record evidence at length.

(*iv*) Provided that when, in connection with a settlement of the land revenue, a Revenue officer proposes to alter an existing rent, and the parties have not attended in compliance with the general notice prescribed in rule 24(2), the Revenue officer shall serve each person interested with a special notice, and the *ex parte* proceeding, referred to in sub-rule (*iii*) (*b*), shall not be held until after due service of such special notice has been proved.

27. It shall not be necessary for a Revenue officer to draw up a separate decree with regard to the fair rent settled; but the entry made in his decision or schedule attached thereto with regard to the fair rent settled shall be held to be a decree.

28. When a fair and equitable rent has been fixed under the preceding rules, it shall be entered in the khatian as the rent payable in respect of the holding.

VI.—Draft Publication of the Record of Rights.

29. (*a*) When the period prescribed by the notification issued under rule 19 has elapsed, and when all proceedings for settlement of fair rents have been completed in the manner laid down in rules 20 to 28, a notice shall be posted up at the landlord's office in the village or in the presence of not less than two persons, in some conspicuous place in the village, stating that the draft of the record will be published in the village on a day to be specified, not less than a week from the date of such notice, and calling on all persons interested to attend on the date so specified.

(*b*) On the date fixed for draft publication, the Revenue officer shall either proceed to the village himself, and read the contents of the record in the presence of the parties who attend, or he shall depute an officer, not below the rank of kanungo, who shall read out the contents of the record in the presence of so many of the parties as attend, and the Revenue officer or officer deputed by him, as the case may be, shall at the same time inform the parties who attend that the draft record will be open for inspection for not less than one month in the office of the Revenue officer, or in such other convenient place as the Revenue officer may determine. The Revenue officer shall receive and consider any objection which may be made to any entry during the period named.

VII.—Disposal of objections and trial of disputes under Sections 105 and 106 of the Tenancy Act.

30. (*a*) When an objection is made before the expiry of the period of publication of the draft record prescribed under rule 29(*b*) above, regarding the correctness of an entry or as to the propriety of any omission, notice of the objection shall be served on all persons whose interests may, in the opinion of the Revenue officer, be affected thereby, and they shall be called upon to attend at such time and place as the Revenue officer may fix for the disposal of the objection. If no person attends to contest the objection, the record may be amended

accordingly, or the person who made the objection may, if the Revenue officer thinks fit, be called upon to produce evidence in support of his objection, which shall in that case be dealt with summarily.

(*b*) When a dispute arises before the final publication of the draft record as to the correctness of an entry (not being an entry of a rent settled under section 104 of the Act), or as to the propriety of an omission, the proceeding shall be dealt with as a suit between the parties under section 106 of the Tenancy Act, in which the person objecting to the entry or to the omission which the Revenue officer has made or proposes to make or to maintain shall be plaintiff and the other parties defendants.

VIII.—FINAL PUBLICATION.

31. When all applications for settling a fair rent have been disposed of, and all objections and disputes of the nature mentioned in rule 30 have been decided by the Revenue officer, he shall make in the appropriate columns of the khewat or khatian such corrections and additions as are required to carry out the orders passed in regard to those applications, objections and disputes. He shall then finally frame the record and cause it to be published by notifying that its contents will be read out in the village on a date to be specified not less than a week from the date of such notice, and by reading it out himself or causing it to be read in the village on the date so specified, in the manner prescribed in rule 29(*b*), in the presence of the parties or of so many of them as attend.

Provided that it shall be open to the Revenue officer in his discretion to publish finally such part of the record as is not affected by any dispute, the remainder of the record being published when the disputes have been disposed of.

SUPPLY OF COPIES OF THE RECORD OF RIGHTS TO PARTIES INTERESTED.

32. (*a*) The Revenue officer having completed the record shall cause copies of it to be made, one of which, or extracts from which, will be made over to the landlord concerned or, where there are more landlords than one, to their common agent or common manager, as the case may be, and one to the Collector of the district.

(*b*) An extract from the khatian relating to his tenancy shall be given to every tenant under the seal of the Revenue officer and under the signature of an officer duly authorized by the Revenue officer to give copies.

(*c*) Copies of records supplied to landlords and tenants under this rule shall be given free or on payment according as in the case of each local area the Local Government may direct. When payment is required, the sums so recovered shall be adjusted against the expenses incurred on account of survey and settlement.

FINAL REPORTS.

33. The Local Government may, if it thinks fit, direct that a final report be written in English for each village and each local area under survey. The report for the village will show—

(*a*) The number of tenants of each class with the area held and rental paid by them.
(*b*) The area and classification of the village lands.
(*c*) The rental before settlement and according to settlement, and the number of fair rents settled judicially, with explanation of increase or decrease.
(*d*) When settlement of land revenue is being made, the amount of Government revenue, before and after resettlement, grounds of assessment, and comparison of gross assets with new assessment.
(*e*) The rates of rent prevailing.
(*f*) Proximity to markets, and facilities for irrigation.
(*g*) Village customs, including customs as to payment of village officials.
(*h*) Arrangements made for maintenance of records.
(*i*) Other matters deserving of notice which have been excluded from the record of rights.

The report for the whole area under survey will contain the following particulars :—

I.—General description of the tract.
II.—Its fiscal history.
III.—Statistical results.
IV.—Comparison of condition of the tract as regards rentals before and after survey.
V.—Financial results, including approximate division of expenses under the heads—
(*a*) Survey.
(*b*) Record of rights.
(*c*) Preparation and distribution of records.

APPLICATIONS UNDER SECTION 103 FOR SURVEY AND RECORD OF RIGHTS.

34. These applications shall be made to the Collector of the district.

35. The application shall specify—

(*a*) The status of the applicant, viz., whether he is a proprietor or a tenure-holder, and the particulars in respect of which the application is made.

(*b*) The number of tenants (so far as the applicant is able to state it) occupying the estate or tenure, or part thereof in respect of which the application is made, the total rent payable by them at the time, and the estimated area covered by the application.

36. If the application is made by a proprietor, it shall not be admitted unless the name of the applicant and the extent of his interest are registered under Act VII (B.C.) of 1876.

37. On receipt of the application, the Collector shall forward it to the Commissioner with any remarks which he may think necessary.

38. The Commissioner may call for further information, or may require the application to be amended.

39. If the Commissioner considers that the application cannot be granted with advantage to the interests of all persons concerned, he may reject it. If he approves it he shall forward the application with an expression of his opinion for the orders of the Board of Revenue.

40. A Commissioner rejecting an application shall record his reasons for doing so, and the applicant, if dissatisfied with the order, may appeal within one month to the Board of Revenue.

41. When an application is referred to the Board under rule 39, or an appeal preferred under rule 40, the Board shall pass such orders as it may think fit for allowing or rejecting the application.

42. The Board, when allowing an application, shall report to Government with a view to the deputation of an officer and the conferment of the necessary powers upon him.

43. As soon as an application is allowed, the Collector shall call upon the applicant to deposit eight annas per acre of the estimated extent of the estate or tenure or part thereof in respect of which the application has been allowed. If the Collector is unable to estimate the area, he shall require a deposit at the rate of Rs. 2 for each tenant. If the amount does not exceed Rs. 500, the applicant must deposit the whole amount in advance. If it exceeds Rs. 500, the applicant shall deposit the sum of Rs. 500, and shall give such security as the Collector may require for the payment of the balance of the deposit in such instalments as the Collector may from time to time demand.

If the amount deposited as above proves more than sufficient to cover the cost of the proceedings, the unexpended balance will be refunded on their termination.

If the amount deposited proves insufficient to cover the cost, the applicant shall, when required by the Collector, deposit from time to time such further sums as the Collector may think necessary for the completion of the proceedings. If he shall fail to do so, the proceedings may be stopped and the order allowing the application cancelled.

44. In conducting the operations, the Revenue officer shall proceed in accordance with the rules for the guidance of officers acting under orders made under section 101.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 4875L.R.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

DECLARATION—No. 4807L.R.

The 20th October 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a Rifle Range in the village of kismut Majholi, pargana Katihar, zilla Purnea, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 acres and 36·61 poles of standard measurement, bounded on the north by the mal land of Mr. Shillingford of Kolasi, district Purnea; on the east by the mal land of Mr. Shillingford of Kolasi, district Purnea, and of Babu Dino Nath Misser, zamindar of Katihar, district Purnea; on the south by the mal land of Babu Dino Nath Misser, zamindar of Katihar, district Purnea; on the west by the Railway line, is required for permanent occupation within the aforesaid village of kismut Majheli.

This declaration is made under the provisions of section 6 of Act I of 1894 to all whom it may concern.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT.

NOTIFICATION—No. 3642.

The 5th November 1894.—Under clause 2 of section 14 of the Indian Emigration Act (XXI of 1883), and with reference to Notification No. 2887, dated the 10th July 1894, the Lieutenant-Governor approves the resumption, by Mr. R. W. S. Mitchell, of the office of Emigration Agent at Calcutta for British Guiana and Natal.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3643.

The 5th November 1894.—Under clause 2 of section 14 of the Indian Emigration Act (XXI of 1883), the Lieutenant-Governor approves the appointment of Mr. R. W. S. Mitchell, Emigration Agent for British Guiana and Natal, to act as Emigration Agent for Trinidad, during the absence, on leave, of Mr. O. W. Warner.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

FINANCIAL DEPARTMENT.

NOTIFICATION—No. 5702Mis.

The 3rd November 1894.—Surgeon-Captain D. Prain, M.B., Curator of the Herbarium Royal Botanical Garden, Calcutta, has been granted by Her Majesty's Secretary of State for India an extension of furlough for six months up to 30th June 1895.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5779S.R.

The 3rd November 1894.—Babu Grish Chunder Nag, Deputy Collector, is appointed Deputy Collector of Income-tax in the district of Malda, with retrospective effect from the 27th September 1894, *vice* Babu Purna Chundra Chaudhuri, transferred, and under section 40 of Act II of 1886 is vested with the powers of a Collector under the Act.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5807M.A.

The 6th November 1894.—The following Rules for regulating the employment of Apprentices in the Secretariat Clerical Establishment of the Government of Bengal and attached offices, having been approved by the Lieutenant-Governor, are published for general information in supersession of the notification No. 2113Mis., dated the 31st May 1892, published in Part I, page 610 of the *Calcutta Gazette* of the 8th June 1892.

1. Apprentices may be appointed up to a number not exceeding 10 per cent. on the number of permanent employés, that number being taken for the purpose of this calculation as the multiple of ten nearest to the actual number.

2. In the Government Secretariat, and in other offices mentioned in paragraph 5 of Financial Department Resolution No. 364T.F., dated the 10th October 1894, persons who have successfully passed the examination prescribed by the rules for the regulation of appointments in the Secretariat Clerical Service, will have the first claim to a vacancy on the list of apprentices.

3. If any vacancies remain after the claims of successful examinees have been satisfied, other candidates may be appointed, subject to the following conditions:—

(*a*) If pure natives of India, they must have passed the F.A. examination. If Europeans or Eurasians, they must possess certificates of education equivalent to the above standard.

(*b*) They must be under 25 years of age.

(*c*) They must produce satisfactory evidence that they are of good moral character.

(*d*) They must produce a certificate from a Government medical officer of or above the rank of Surgeon, to the effect that they are in good health and of sound constitution.

4. Apprentices who enter under rule 2 will have a preferential claim to officiating appointments over those who enter under rule 3.

5. The names of apprentices will be removed from the list when they have served for three years, or have attained the age of 25, whichever happens first.

6. Apprentices will receive appointments, whether officiating or substantive, in accordance with rule 10 of the rules published with the Resolution No. 364T.F., dated the 10th October 1894. Passed candidates who have served as apprentices will have a preferential claim to appointments reserved for successful candidates in the clerkship examination.

7. Apprentices will receive a subsistence allowance of Rs. 10, when they are not filling officiating vacancies.

8. Service as an apprentice qualifies for employment not only in the office in which it is rendered, but also in any other office to which these rules apply. An apprentice, however, having once taken officiating employment in another office, has no claim to re-admission as an apprentice into the office in which his service as apprentice began.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

MEDICAL DEPARTMENT.

No. 5245*Med.*—*The* 1*st November* 1894.—Under article 354(*a*) of the Civil Service Regulations, the period from the 17th to the 26th November 1893 of the furlough granted to Surgeon-Captain G. REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

The 6th November 1894.

No. 330.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B. C) of 1876, the Hon'ble the Lieutenant-Governor proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa canals. These rules and rates will supersede those now in force.

C. W. ODLING,
Secy. to the Govt. of Bengal.

1. The Divisional Canal Officer is responsible for maintaining the canal in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Collector is responsible, except so far as is otherwise expressly provided, for the assessment and collection of water-rates accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee or to a person in whose favour a provisional license under rule 15 has been issued. Such Application may be made verbally or in writing to any subordinate in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Collector or one of his subordinates verbally, he shall be directed to address himself to an irrigation officer or subordinate. If he makes such an application in writing, his petition shall be forwarded to the Sub-divisional Canal Officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The Divisional Canal Officer shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determine that the whole block shall be irrigable from one outlet or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Divisional and Sub-divisional Canal Officers. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than seven years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 13, for definite parts of a block, under the following conditions:—

I.—Ordinarily the whole irrigable area of any village, so far as situated within the block, must be included in the lease.

II.—When a village is divided by drainage channels into distinct blocks, each block shall be recognized as a separate village for the purpose of this and all other rules under the Irrigation Act.

III.—All leases within one block shall be granted, so that they shall expire on the same date.

IV.—No permit shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which in the opinion of the Subdivisional Canal Officer will deliver water without waste across the unleased area.

8. The rates to be charged for water supplied on a long term lease between the 16th of June and the 30th November, whether by flow or lift, to lessees on application shall be—

I.—For a term of seven years—Re. 1-8 per *man* for each season.

II.—For water supplied on a provisional license for which a permit for a term of years is not subsequently issued, Rs. 3 per *man*.

III.—Provided that the leases, whether new or renewals, required for shorter terms than seven years in order to develop the system of blocks as explained above, Rule 7-III, shall be charged Re. 1-8 per *man* only.

IV.—*Rabi* lands included in a long lease are not exempted from assessment, but no charge will be made for water supplied to them in the *rabi* season. No special arrangements to supply water will, however, be made.

V.—Lowlying lands forming part of the rice cultivated area of a village which do not ordinarily benefit by canal water, though requiring irrigation in years of drought, will be charged at one-third of the usual rate, *i.e.*, at eight annas per *man* for each season. Lands which never under any circumstances require water will be altogether excluded from the lease.

9. The rates for water supplied otherwise than on a lease for a term of years are those detailed in schedule I.

10. For the unauthorized use of canal water a rate of Rs. 5 per *man* or such less rate as may be sanctioned by the Divisional Canal Officer, shall be charged.

11. Application for water-leases under section 74 of the Act shall be presented to the Subdivisional Canal Officer of the division in which the applicant's land lies.

12. Every application for a permit for a term of years shall be in the form Appendix I to these rules, provided that a provisional license may be granted, where water is urgently required, on an application in the form Appendix II. Application for a season lease shall be in the form Appendix III.

13. A separate application must be presented for each village, but *tehsilalaida* or other lands lying within the village boundary at the time of survey may be included.

14. Before a permit for a term of years is granted, the written consent of the Divisional Canal Officer shall be obtained, but permits for one year only and provisional licenses may be issued with the written assent of the Subdivisional Canal Officer. Subject to the above conditions permits may be issued by *silladars* under the orders of the Deputy Collector. A copy of the permit shall on the day of issue be forwarded to the Deputy Collector for transmission to the Divisional Canal Officer.

Existing leases may, with the written consent of the Divisional Canal Officer, be extended for not more three years, without enquiry or re-measurement, payments being made in accordance with the existing assessment, modified if necessary in accordance with rules 8, 4, and 5.

15. When a water-lease is granted, a permit shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act. Pending the completion of a lease, the zilladar may, with the written consent of the Subdivisional Canal Officer, issue a provisional license for the supply of water to an area covered by an application.

16. The Subdivisional Canal Officer is authorized to supply water for seed beds in a long term lease before the 20th June, if a supply of water is available in the canal.

17. When it comes to the knowledge of the Subdivisional Canal Officer, that canal water has been taken without authority, he shall hold a local investigation and transmit the record thereof to the Divisional Canal Officer. Separate proceedings shall be taken in the case of each village irrigated without authority.

18. On receipt of the record mentioned in Rule 17, and after hearing any objection which may be raised, the Divisional Canal Officer shall determine whether water-rates can be legally charged, and if so, he shall proceed to assess, at the rate provided in rule 10, the land irrigated without authority.

19. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and signature of the Deputy Collector in such form as shall from time to time be sanctioned by the Lieutenant-Governor. Persons charged under rule 10 or 18 shall be served, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 91 of the Act, if they desire to do so.

20. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer, with the concurrence of the Collector, to direct that the lease shall be cancelled with effect from the 1st of June next following.

21. The rates for water supplied from June to November shall in each season fall due and shall be paid on the 1st February following, but the Subdivisional Canal Officer may require one-half of the rates due on applications filed after the 1st of September to be paid in advance, and may refuse to issue a permit for more than one year. The rates for water supplied at other times shall be paid on the dates mentioned in schedule I.

22. Water-rates imposed under rule 10 or 18 shall fall due as soon as the assessment is made, and shall be realized at once.

23. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Deputy Collector to—

I.—Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates

due are paid up, and also, if specially so ordered, unless half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any five years lease if on the 1st of June of any year water rates to the extent of half the demand for one year are in arrears.

24. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Deputy Collector for—

I.—Errors in the assessment of rates,

and by the Divisional Canal Officer for—

II.—Injury to the crop on a leased area caused by deficient supply of water, provided a written application for remission has been made 15 days at least before the crop is cut.

25. The Divisional Canal Officer may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

26. The Divisional Canal Officer may commute rates charged under rules 10 and 18 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question

27. Remissions on other grounds than the above require the sanction of Government.

28. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

29. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

30. The chowkidar of any village in which lands are leased for a term of years shall be entitled to a remission of water-rates included in his *jaghir* provided he gives efficient and willing assistance to the canal officers in respect to the following matters—

I.—In the preparation of applications for leases.

II.—In the measurements of irrigated lands.

III.—In giving the names of the occupiers of the various fields.

IV.—In receiving demand statements and informing the cultivators of the demands against them.

V.—In receiving *tappas* from the zilladars and distributing them.

VI.—In being present when complaints are investigated by Canal Officers and giving information regarding the matters under investigation.

VII.—In reporting to the zilladars any mutations in holdings of persons who have signed a lease for a term of years.

31. Tanks may be filled with canal water without charge wherever water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle.

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage, or is liable to overflow from the accumulation of water from natural causes

IV.—No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of the above rules.

32. No person shall without the permission in writing of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass on or across any of the works, banks or channels of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

33. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

34. Except as provided in the Act and in these rules no appeal shall lie from any order passed by a Canal Officer; but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers

35. In appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 19, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings in the case.

SCHEDULE I.

Rates to be charged for water supplied from the Orissa Canals on leases otherwise than on a lease for a term of years.

		Rate, flow or lift, per *man*. Rs. A. P.
I.	For water supplied for the irrigation of rice between the 16th of June and the 30th November ...	3 0 0
II.	For water supplied for the irrigation of *dalua* rice ...	1 8 0
III.	For water supplied for the irrigation of cotton, tobacco, *huldi*, ginger, wheat, vegetables, indigo, and garden produce	1 8 0
IV.	For water supplied for the irrigation of linseed, oil-seed, and all pulses	1 0 0
V.	For water supplied for the irrigation of sugarcane ...	5 0 0
VI.	The charge for filling tanks or for water used for manufacturing purposes is Re. 1 per 10,000 cubic feet of water supplied, and the same charge will be made if water is taken into a tank without authority or if used in an unauthorized manner.	

NOTE I.—Fractions of a goont will in all cases be charged as a *goont*

NOTE II.—Water-rates due under item I shall be paid on or before the 1st of February, under items II and IV on or before the 1st of June, under items III and IV on or before the 1st of April, and under item VI one moiety before the water is supplied, and the other moiety within 15 days of the water being supplied.

APPENDIX I.

Application for a long term lease. Rate per man Re. 1-8, *Dhoya lands per man As.* 8. *Water to be supplied each year from the 16th June to the 30th November only, fractions of a goont to be charged as a goont.*

WE the undermentioned cultivators of mauza , pargana , submit this application for the supply of water from the distributary of the canal for a term of years, commencing on the 16th of June 18 , and ending on the 30th November 18 . We agree to pay water rates as may be determined by the Canal Officer at the rates mentioned above on all rice lands which may, on enquiry, be found to be irrigable in mauza . The amount thus assessed will be paid to the Deputy Collector, according to demand statements which may be issued in our names, on or before the 1st of February each year. We appoint , of mauza , pargana , to collect and pay the water-rate assessed on us. We agree to be bound by all rules which are passed by the Lieutenant-Governor of Bengal under the Irrigation Act, and to keep in proper order the ridges on our lands, so that no water may pass into unleased areas.

Name and residence of applicants.			Area of land according to applicant's statement.			Signature of applicants.	Quantity of land as found on measurement.						Amount assessed.			Situation and size of outlets.
							Full rate.			Dhoya.						
Serial number.	Name.	Residence.	Mans.	Goonts.	Biswas.		Mans.	Goonts.	Biswas.	Mans.	Goonts.	Biswas.	Rs.	A.	P.

APPENDIX II.

Application for granting water prior to issue of permit.

WE, the principal cultivators of mauza pargana , on our own behalf and that of the other cultivators of the mauza, hereby certify that we have presented an application for the execution of a seven-year lease of all the irrigable land in mauza in area about *mans*.

To enable us to obtain water before the regular permit is issued, we severally and jointly bind ourselves to pay water rates for the whole area which on measurement shall be found to included in the block. The water-rate will be Re. 1-8 per *man*, but in the event of a seven-year lease not being concluded, Rs. 3 per *man* will be charged and paid by us on or before the 1st February next.

In token of our obligation in this agreement we have annexed our signatures below.

Dated 18

APPENDIX III.

Application for a season lease, kharif, rabi or sugarcane.

1. WE, whose names are attached, cultivators of mauza , pargana , apply for water to be supplied from the distributary of the canal, for the irrigation of the areas named below.

2. The approximate areas to be irrigated by each cultivator is stated in the schedule following, but each of us agree to pay water-rates at the rate of Rs.———per *mán* on the area found to be in his occupation by measurement, with the proviso that only areas actually irrigated will be charged, fractions of a *goont* being charged as a *goont*.

3. We agree to prevent water being wasted or used in an unauthorized manner, and to abide by all the rules passed by the Lieutenant-Governor of Bengal under the Irrigation Act.

4. We agree to pay the water-rates due on this application on the———of———

NAME OF CULTIVATOR.	Description of crop.	Area more or less to be irrigated in máns and goonts.	Signature of cultivator.	AREA FOUND ON MEASUREMENT.		
				Máns.	Goonts.	Biswas.

The 26th October 1894.—The leave of absence for three months, which was under the orders of the 12th July 1894 granted to Babu Parma Nand, Second Master of the Patna Training School (class V), and the officiating arrangements that were sanctioned under those orders, will take effect from the 1st November 1894.

A. CROFT,
Director of Public Instruction.

NOTICE.

Entrance Examination.

A TEST examination of private students for admission to the ensuing Entrance Examination will be held at the Office of the Inspector of Schools, Presidency Circle, 4, Dalhousie Square, Calcutta, on Friday, the 7th, and Saturday, the 8th, December 1894. Only candidates residing in any of the districts of the Presidency and Chota Nagpur Divisions will be admitted to the examination.

2. Only those candidates who have not studied in any institution since the 1st September 1894, will be recognized as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the last school where they read, or, in the case of those who have not been in any school for more than a year, from some other reliable authorities.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Circle may be admitted to the examination, if they can produce certificates of service and character from their employers or from the Deputy Inspector of the district concerned.

4. Each candidate should submit to this Office, not later than the 27th November 1894, his application for admission to the test examination, stating the following particulars:—

(1) Age; (2) residence; (3) father's name; (4) second language besides English; and (5) whether he appeared at any previous Entrance Examination.

5. The admission-fee for the examination is Rs. 4 for each candidate, and is to be remitted with the application within the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay.

6. Every private candidate must be accompanied for the purpose of identification by some person known to this Office, otherwise he will not be admitted to the test examination.

7. Candidates who are sent up by this Office must appear at the Calcutta Examination Centre.

8. Those that reside at a distance from Calcutta are to present themselves at the test examination held by the head-master of the local zillah school, on condition that they appear at the centre selected by the candidates from that institution.

F. A. and B. A. Examinations.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of recognized English schools, in the Presidency and Chota Nagpur Divisions, who have served as such for full two academical years, or for six months in the case of those who have been admitted to a former examination of the same class, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Their applications must reach this Office on or before the 1st December 1894.

RADHIKA PRASANNA MUKHERJI,
Inspector of Schools, Presidency Circle.

4, DALHOUSIE SQUARE, CALCUTTA,
The 3rd October 1894.

NOTIFICATION.

"Nutan Path," by Babu Chandra Nath Basu, M.A., B.L., is substituted for the late Pandit Iswar Chandra Vidyasagar's "Bodhodaya" as the authorised text-book in Bengali for the Lower Primary Scholarship Examination of 1896 and subsequent years until further orders.

A. CROFT,
Director of Public Instruction, Bengal.

CIVIL MEDICAL DEPARTMENT, BENGAL.

No. 9472, *dated* 1*st November* 1894.—Assistant Surgeon Bepin Vihari Gupta is re-appointed to the Dumraon Dispensary in the Shahabad district.

No. 9474, *dated* 1*st November* 1894.—Assistant Surgeon Durga Nunda Sen, of the Dumraon Dispensary, is appointed to the Buxar sub-division and Central Jail, *vice* Assistant Surgeon Bepin Vihari Gupta.

ROBERT HARVEY, M.D., *Surgeon-Col.*,
Inspr.-General of Civil Hospitals, Bengal.

HIGH COURT NOTICE.

NOTIFICATION.

THE following Circular Order, amending the rules for the arrangement, preservation and destruction of records of criminal proceedings, having been framed by the High Court of Judicature at Fort William in Bengal under the powers vested in it by section 3 of the Destruction of Records Act III of 1879, confirmed by the Local Governments of Bengal and Assam, and sanctioned by the Governor-General in Council as required by section 5 of the said Act, is published for general information.

By order of the High Cout,
H. W. C. CARNDUFF, *Registrar.*

HIGH COURT, CALCUTTA, *the 31st October* 1894.

CRIMINAL.

No. , *dated the* 1894.

After Rule I, Sub-Rule 1(A), Chapter IV, page 162 of the Court's General Rules and Circular Orders (Criminal), *insert* the following :—

1. (*B*) It shall not be necessary to prepare a title page, table of contents, or order-sheet in the case of complaints dismissed under section 203 of the Code of Criminal Procedure in respect of which no enquiry is made under section 202 *ibid;* but such complaints (with the order passed thereon) shall be formed into weekly, monthly or quarterly bundles, as may be most convenient, and each such bundle shall constitute one record, to which shall be attached a title page and table of contents. Of each bundle or record thus formed, a single entry shall be made in the list which accompanies all records sent to the District record-room. These bundles shall be preserved for one year from the date of the latest order in each bundle.

Issued by authority of the High Court of Judicature at Fort William in Bengal.

(CIVIL.)

Rule No. 6, *dated the 27th September* 1894.

AFTER clause (*c*) of Rule 27, Chapter I, page 37 of the General Rules and Circular Orders (Civil) *insert* the following :—

27A. [*Section* 316, *C. P. C.—Sale-certificates—Rule No.* 6 *of 27th September* 1894].—As soon as a sale is made absolute, a draft of the sale-certificate shall be prepared in the prescribed printed form before the record of the case is transmitted to the district record-room. Such drafts shall be kept in the Court's office in bundles of a convenient size in the custody of the Serishtadar. When a certificate is applied for and the application is entertained, the original certificate shall be prepared from the draft, which shall then be filed with the record of the case to which it belongs. If the record has been despatched to the district record-room under the High Court's rules for the periodical transmission of records, the draft shall also, after the preparation of the original certificate, be forwarded to the record-room to be filed with it. Draft certificates relating to cases in which no certificate is applied for within six years from the date of confirmation of the sales to which they relate, may after the expiry of that time be destroyed. Should an application for a certificate be made after the lapse of six years, and after the draft has been destroyed, the original record of the case should be called for from the district record-room for the purpose of preparing the certificate. This latter course should also be followed when any doubt or difficulty arises in connection with any application for the grant of a certificate.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1991B.

NOTICE is hereby given that the Twelfth Sale of Opium, the Provision of 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 3rd December 1894, at 11 A.M., and will comprise 3,105 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory	1,510
Ditto ditto at the Ghazipur Factory	1,595
Total ...	3,105

2nd.—The general conditions of the sale now advertized will be the same as usual. They may be ascertained by reference to the Notification issued on the 25th November 1893 and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th December 1894 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 1-30 P.M. of Saturday, the 8th December 1894, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 18th December 1894.

By order of the Board of Revenue, L.P.,
N. K. BOSE, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 30th October* 1894.

THE following revised notification should be substituted for the notification of the same date published at page 1021, Part I, of the *Calcutta Gazette* of the 26th September 1894.

N. K. BOSE, *Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 30th October* 1894.

NOTIFICATION.

The 25th September 1894.—In supersession of the rules made under the provisions of section 75 of the Sea Customs Act, VIII of 1878, and published under notification of the 2nd March 1887, at page 149, Part I of the *Calcutta Gazette* of the 9th idem, the following rules are notified under the said section. The fee to be charged under rule 6 has been sanctioned by the Lieutenant-Governor—

Passing of passenger's baggage.

1. Baggage includes all packages imported by a passenger for his own use or that of his family, which are not part of the cargo and are not manifested.

Baggage is not exempt from duty except under the circumstances mentioned below.

2. Baggage is exempt from duty only when it consists of articles free from duty or of *bonâ fide* wearing apparel and other articles of personal use, the property of the person whose baggage is being passed, or of any members of his family such as are in actual use at time of importation, or have been actually in use previously. It is in the discretion of the proper officer of Customs to determine, subject to the above rules, whether any goods shall be treated as baggage exempt from duty, or as goods liable to duty.

3. In Calcutta baggage officers will examine on board only such free baggage, not contained in soldered or nailed-down cases, as the passenger offers for examination; all other baggage will be sent to the baggage shed at the jetties in the case of vessels lying at the jetties; at the close of the day on which the vessel arrives, baggage landed from her will be sent to the Custom House. In the case of other vessels, baggage will be sent direct to the Custom House if unexamined.

4. It is optional with the proper officer of Customs to allow the cases of persons about to proceed up-country immediately to be passed without being opened. This discretion will never be exercised except on personal application of the owner of the baggage, or his or her representative: a detailed statememt of contents and value, signed by the owner, must always accompany the application.

5. The Preventive officer should report at once whenever he detains any dutiable articles in order that a peon may be deputed toconvey them to the Custom House.

6. A landing fee of eight annas per pack ge will be charged on goods sent into the Custom House.

7. Preventive officers will, as far as practicable, see baggage put over the ship's side immediately after examination.

8. Preventive officers posted to passenger vessels are directed to land, with as little delay as possible, all baggage intended for the Custom House or import shed.

9. Preventive officers are not authorised to pass passengers' baggage after it has been placed in the jetty shed.

10. Officers are authorised to pass from on board all firearms in reasonable quantities and other dutiable goods belonging to passengers from a British Indian port, upon signature of the following declaration, reporting the number and nature of the articles so passed:—

"I hereby declare that my baggage includes no firearms or other dutiable articles belonging to a passenger from a foreign port, that is, from a port other than a British Indian port."

Name_____

Address_____

The above order does not apply to ammunition, which Preventive officers are not authorised to pass.

11. They are further authorised to pass from on board ship, reporting having done so, (1) uniform and accoutrements belonging to a public servant for his personal use, (2) arms forming part of the equipment of an officer entitled to wear diplomatic, military or police uniform, &c., upon signature of the following declaration:—

"I hereby declare I am a officer serving in India."

12. Passengers' baggage need not be detained owing to arms and ammunition or other dutiable articles being found in their boxes, unless they have in any way attempted to conceal them: in such cases the articles should not be passed.

13. Shipping bills are not required for the shipment of *bonâ fide* passengers' baggage.

14. Preventive officers should examine baggage brought for shipment to China, the Straits, Mauritius and Ceylon, and should report for orders any case in which they have good reasons to suppose that baggage for other ports contain dutiable or contraband articles.

15. Passengers are allowed to embark and disembark at Diamond Harbour.

(*a*) It will be the duty of the Preventive officer in charge of the station to see that neither opium nor ganja is taken on board of outward-bound vessels.

(*b*) Passengers landing at Diamond Harbour may be allowed to take their open baggage containing free articles only. Passengers desirous of leaving inward-bound vessels with the intention of embarking on board outward-bound ones will not be permitted to take with them any other than personal baggage, which must be examined in the usual way.

(*c*) No nailed-down packages, arms, ammunition, spirits or dutiable articles of any kind will be allowed to be transhipped. Any articles transhipped in defiance of this order will be seized and detained.

By order of the Board of Revenue, L.P.,
N. K. BOSE, *Offg. Secretary.*

ELECTION OF MUNICIPAL COMMISSIONERS.

NOTIFICATION.

UNDER rule 21 of the Revised Rules for the election of Municipal Commissioners under Act III (B.C.) of 1884, as amended by Act IV of 1894, it is hereby notified for general information that a bye-election of a Commissioner for Ward No. III of the Chatra Municipality in Hazaribagh will be held on the 9th December 1894, *vice* Babu Bakhtour Mall Marwari, deceased.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 518*T.M.*—*The* 31*st October* 1894.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, and in accordance with the recommendation of the Commissioners of the Monghyr Municipality, made at a special meeting, to extend the provisions of Part IX of the said Act, as amended by Bengal Act IV of 1894, to the six mahallas of the Municipality named in the margin, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

1. Fort.
2. Basdevpur.
3. Kasimbazar.
4. Maksuspur.
5. Soudalpur.
6. Mirzapur.

C. W. Bolton,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5207*L. S.-G.*—*The* 2*nd November* 1894.—It is hereby notified that, under section 19 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to appoint Munshi Syed Imamuddin Mir to be a member of the Netrakona Local Board in the district of Mymensingh, *vice* Maulvi Haji Muhammad Kanu Bepari, resigned.

C. W. Bolton,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5218*M.*—*The* 2*nd November* 1894.—It is hereby notified that under section 27 of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, the Lieutenant-Governor is pleased to appoint Munshi Tuffuzul Hossain to be a Commissioner of the Basirhat Municipality in the district of the 24-Parganas, *vice* Munshi Fuzle Mowla, deceased.

C. W. Bolton,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5220*M.*—*The* 2*nd November* 1894.—Whereas a notification, dated the 9*th* May 1894, was published at page 151, Part IB of the *Calcutta Gazette* of the 16th idem, declaring the intention of the Lieutenant-Governor to extend the provisions of Bengal Act II

of 1891 (an Act to consolidate and amend the law relating to hackney carriages and palanquins in Calcutta) to the Cuttack Municipality, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 1, clause 3 of the Act, and in accordance with the recommendation of the Commissioners of the Cuttack Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the said Act to the above Municipality with effect from the date of this notification.

2. Under section 61, clause 1 of the Act, the Lieutenant-Governor appoints the Commissioners of the Cuttack Municipality and their Chairman to perform the duties imposed, and exercise the powers conferred by the Act, on the Commissioners and the Chairman of the Corporation of Calcutta.

3. The Lieutenant-Governor prescribes that for the purposes of sections 32(1), 45(2) and 49 of the Act, the languages referred to in section 61(2) should be English and Uriya.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5222*M.*—*The 2nd November* 1894.—It is hereby notified for general information that, in the exercise of the power conferred on the Local Government by section 221 of the Bengal Municipal Act III of 1884, and on the recommendation of the Commissioners of the Daltonganj Municipality, in the district of Palamau, made at a meeting, the Lieutenant-Governor intends to extend to that Municipality the provisions of Part VI of the said Act, as amended by Bengal Act IV of 1894, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5249*M.*—*The 5th November* 1894.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, and in accordance with the recommendation of the Commissioners of the Jangipur Municipality in the district of Murshidabad, made at a meeting, to extend the provisions of Part IX of the said Act, as amended by Bengal Act IV of 1894, to Wards Nos. I, II and III of the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5260*L.S.-G.*—*The 5th November* 1894.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Tippera to be the Chairman of the District Board of Tippera.

C. W. BOLTON,

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION

No. 5272*M.*—*The 6th November* 1894.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, and on the recommendation of the Commissioners of the Bhagalpur Municipality, made at a meeting, to extend the provisions of Part VII of the said Act, as amended by Bengal Act IV of 1894, to

Wards IV, V and VI of the municipality as defined below, which are situated within a quarter of a mile from the nearest hydrant, unless good reasons be shown to the contrary within one month from the date of the publication of the notification within the municipality.

Wards IV and V are bounded on the North by diara land; on the South by the railway line; on the East by the western boundary of the Cleveland House, by the public garden road, the Nathnagar road, and the Racket Court Road; and on the West by the river Jamuniya.

Ward VI is bounded on the North by the Railway line from the under bridge at Tewari Talao tank to railway gumti at Ishak chuk.

From the north-westerly point of the limit of Ward VI, the boundary runs south from Tewari Talao under the bridge along the Tewari Talao tank road, thence along the Shahjangi road up to its junction with the Gaura Chauki Road, thence along the eastern edge of the Gaura Chauki Road up to its junction with the Gangti Road, thence along a ditch below the Gangti Road up to its junction with the Bansi pucca road, thence the boundary line takes a winding course along the existing southern boundary of the municipality till it meets the south-easterly point of the eastern boundary of the municipality at Baberganj, then passing along the outskirts of Rasulganj, Warisbaliganj and Lallu chuk meets the railway line at the Ishak chuk gumti.

C. W. BOLTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5277*L. S.-G.—The 6th November* 1894.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Burdwan to be the Chairman of the Burdwan District Board.

C. W. BOLTON,

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Barhamghat Division.

Barhamghat, the 1st April 1886.

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8, ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4, ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloiks Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs.* 2, *ans.* 8; per eight-ounce tin, *Rs.* 5; per pound tin, *Rs.* 10. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs.* 3; per eight-ounce tin. *Rs.* 6; per pound tin, *Rs.* 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 *oz.* tin, eight annas per 8*oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

Calcutta, 26th October 1894. (719—2)

Notice

IS hereby given that a treasure consisting of 293 gold fanams valued at Rs. 293 was found in Kunnath Illam parumba in Koyakkat Desam, naduvannur Amsam Kurumbranad Taluq, by one Venkiteswaran *alias* Appu Patter in November or December 1893.

All persons claiming the said treasure or any part thereof are requested to appear personally or by Agent before the Collector in his Office at Calicut on the 20th March 1895 in order to the matter being enquired into and determined in accordance with the provisions of the Act.

H. MONRELY, Acting Collector.

Malabar Collector's Office, Calicut, 23rd October 1894.

Treasure Trove.

IT is hereby notified, under section 5 of Act VI of 1878, that on the evening of the 31st August 1894 a copper idol (amman), weighing about 69½ seers (of 24 tolas weight), and supposed to be worth Rs. 20, was found buried in a tank bund in survey No. 24, of Valkai village, Nannilam taluq, measured as Anjanar temple.

2. All persons claiming the said treasure, or part thereof, are hereby required to appear personally or by Agent before the Collector of Tanjore, at his office on the 4th of March 1895, in view to the matter being enquired into and determined according to law.

J. THOMSON, Acting Collector.

Tanjore Collector's Office, Camp, the 21st October 1894.

Notice of Tenders.

SEALED tenders are invited, in Public Works Department Form No. K2, for executing part of the drainage scheme in the Jalpaiguri Municipality to the extent of Rs. 18,000.

The tenders will be received by the undersigned up to 20th November 1894.

The Chairman does not bind himself to accept the lowest or any tender.

Particulars of the work will be found in the Chairman's office, Jalpaiguri.

R. H. RENNY, Chairman, Jalpaiguri Municipality.

Municipal Office, Jalpaiguri, the 29th October 1894.

(721—2)

In the matter of the Standard Balers, Limited.

THE Creditors of the above named Company are required, on or before the 15th December 1894, to send their names and addresses and particulars of their debts or claims, and the names and addresses of their solicitors (if any), to the undersigned, the Liquidator of the said Company, at his office, No. 25, Mangoe Lane, Calcutta, and if so required by notice in writing from the said Liquidator, are to come in and prove their said debts or claims at such time as shall be specified in such notice, or in default thereof they will be excluded from the benefit of any distribution made before such debts are proved.

A. S. LOVELOCK, Liquidator,

Dated this 2nd day of November 1894, Calcutta, 25 Mangoe Lane. (723—1)

The Standard Balers, Limited.

MINUTES of the Proceedings of an Extraordinary General Meeting of Shareholders of the Standard Balers, Limited, held at the Registered Office of the Company, No. 1, Clive Row, Calcutta, on Friday, the 6th October 1894:

Present:

Jas. J. Sinclair in the Chair.
Jas. B. Crichton, Esq.
Babu K. L. Seal.

The Notice convening the Meeting having been read—
It was proposed by Jas. J. Sinclair, Esq.,
Seconded by Babu K. L. Seal—

That the subjoined Resolution, which was passed at the Extraordinary General Meeting of the Company, held on the 4th October 1894, be and is hereby confirmed as a special Resolution:—

Resolution.

That the Company be wound up voluntarily under the provisions of the Companies Acts, 1882 and 1887, and that Arthur Samuel Lovelock, of the firm of Messrs Lovelock and Lewes, Chartered Accountants, be, and he is hereby appointed Liquidator for the purpose of such winding up.

Carried.

(722—1) JAS. J. SINCLAIR, Chairman.

R. Scott Thomson & Co., Limited.

THE Sixty-third Half-yearly Ordinary General Meeting of Shareholders will be held at the Registered Office of the Company, 15, Government Place, on Monday the 26th instant, at noon, for the purpose of declaring an *ad-interim* dividend for the half-year which ended on the 30th September last.

By order of the Directors,

(725—3) ROBERT J. CARBERY, Secy. & Accts.

PURSUANT to a decree of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction, made in suit No. 608 of 1881, wherein Shekh Palk Jan, then an infant, by his next friend, was the plaintiff, and Ahmad Hussen and others were the defendants, the creditors of Shekh Omed Ali Ostagur, late of the Simla Road Manicktolla in the suburbs of Calcutta, who died on or about the 6th day of August 1879, are on or before the 24th day of November next to send to the Office of the Registrar of this Court, in its Original Side, the full particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them, or in default thereof they will be peremptorily excluded from the benefit of the said decree.

Every creditor holding any security may produce or transmit the same to the Registrar with the particulars of his claims, or shall produce the same before the Court on Saturday, the 8th of December next, at 11 o'clock in the forenoon, being the time appointed for adjudicating on the claims.

R. BELCHAMBERS, Registrar.

C. G. Lewis, Attorney for the plaintiff.
No. 4, Hastings Street, Calcutta.
High Court, Original Jurisdiction, the 3rd Sept. 1894.

Presidency Postmaster, Calcutta.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed:

1st.—Bay of Bengal Daily Report, giving meteorological observations taken at 28 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report, containing observations taken at 48 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, i.e., from about May 15th to November 15th, or thereabouts Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 276 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable, in advance and of the Monthly Summary Rs. 2 per annum payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER.
Meteorological Reporter to the Govt. of Bengal.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly ports, published as soon as possible after the first of each month at Calcutta Madra ,Bombay, and Allahabad, and comprive four series—one, for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.			With postage.		
	Rs.	A.	P.	Rs.	A.	P.
For the Calcutta Series	10	0	0	12		0
,, each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....			2	0	0
,, part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	.....			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied of subscribers when required in place of copies lost in transit:—

	For town.			For mofussil.		
	Rs.	A.	P.	Rs.	A.	P.
For the Calcutta Series, per copy ...	0	8	9	0	10	3
,, each of the Madras, Bombay, and Allahabad Series, per copy ..	0	5	3	0	5	9
,, the Calcutta Series. For the year	7	2	6	8	6	3
,, each of the Madras, Bombay and Allahabad Series. For the year	4	4	6	4	11	3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1894 *should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.*

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	,, 36	,, 24

Bengal Secretariat Press, 10, Lyon's Range, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Superintendent of Government Printing in Bengal, 10, Lyon's Range, Calcutta.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

Catalogue of Books Printed at Thomason College Press, and procurable from Thomason College Book Depôt.

Application to be made to Curator. Cash must accompany order. Articles will be sent by Value-payable Post to persons in Government employment only. It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage and other incidental charges (except commission for value payable supplies), and are for all purchasers other than resident College Students.

REVENUE DEPARTMENT.

Horse Surra, Report on, Vol. I. by ALFRED LINGARD, M.B., M.S., Durham. Super royal 4 to. Rs. 10 (Re. 1-4.)

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India.
BY DR. GEO. WATT, C.I.E.,
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made); packing and postage, in India, 8 annas per volume; for England, Rs 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G, Vol IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI, which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year; but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

Indian Wheat Trade, Parts I, II and III, combined. Royal 8vo., limp cover. Re. 1-8 (4*s*.)

Manual of the Land Revenue Systems of India By B. H BADEN-POWELL. Revised Edition, in 3 Volumes—Royal 8vo., cloth.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 201.

[First Publication.]

CHINA—YANG TSE KIANG.

Shaweishan channel obstructed by torpedoes.

THE British Admiralty has given notice (No. 516 of 1894) that torpedoes have been laid down in Shaweishan or North channel, also north of Tsung ming, in the entrance to Yang tse Kiang.

Seamen are warned to use only the South channel.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 202.

[First Publication.]

JAPAN—GULF OF TOKIO OR YEDO.

Portion of the gulf obstructed by torpedoes.

THE British Admiralty has given notice (No. 518 of 1894) that the undermentioned area in the gulf of Tokio would be obstructed by torpedoes:—

The area is comprised westward of an imaginary line drawn from Hasiri mizu point (Rubicon point) to Honmoku (Treaty point) buoy, and southward of a line joining Oshiba saki (Fillmore point) with Hitomi-yama.

This area will be marked by two buoys on the line joining Honmoku buoy and Hasiri mizu point, and a *red* light on the point.

Vessels must pass eastward of the above-mentioned area, giving it a wide berth.

Approximate position of Rubicon point, lat. 35° 16′ N., long. 139° 43′ E.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

[First Publication.]

AUSTRALIA, SOUTH COAST.

PORT PHILLIP, WEST CHANNEL.

Intended withdrawal of Swanspit light-vessel, and establishment of gas buoys, &c.

THE British Admiralty has given notice (No. 523 of 1894) that on and after the 10th of October 1894, Swanspit light-vessel will be removed and replaced by a gas buoy painted black, showing a *red occulting* light, giving *six* to *eight flashes and eclipses every minute.*

No. 2 (Royal George Shoal) red perch buoy will be withdrawn and replaced by a gas buoy painted *red*, showing a *white* occulting light, giving *six* to *eight flashes and eclipses every minute.*

No. 8 red buoy will be shifted to a position N. 21° E. 5¼ cables from the position it now occupies.

No. 10 red buoy will be withdrawn, and not replaced until further notice.

No. 12 gas buoy will be shifted to a position S. 42° W. 4¾ cables from the position it now occupies.

No. 14 red buoy will be shifted to a position S. 55° W. 3¼ cables from the position it now occupies.

(*Variation* 8° *Easterly in* 1894.)

Approximate position, Swanspit buoy, lat. 38° 15¼′ S., long. 144° 42¼ E.

CHINA SEA—SINGAPORE STRAIT—SALAT SINKI.

Intended light on Sultan shoal.

WITH reference to Notice to Mariners No. 481, dated 28th October 1893, issued by this office, the British Admiralty has given further notice (No. 529 of 1894), that the construction of a lighthouse on Sultan shoal, in Salat Sinki, or western approach to new harbour, Singapore strait, is about to commence.

The beacon now on the shoal will be removed as the work progresses.

A hulk painted yellow, having one mast, will be moored alongside the shoal during the construction.

Further notice will be given as may be necessary.

Approximate position, lat. 1° 14′ 30″ N., long. 103° 39′ 25″ E.

CHINA.

Hongkong—Pescadores islands—Yung river approaches, &c.

THE following information received from the British Admiralty (No. 530 of 1894) is republished :—

(1) *Hongkong—Shoal in Stonecutter's anchorage.*

The British steamship *Trocas* grounded on a patch of rock having 3 fathoms over it, situated 3 cables N. by E. (N. 11° E.) from the eastern extreme of Stonecutter's island Hongkong harbour.

A conical white buoy has been temporarily moored in 4½ fathoms close southward of the patch.

Approximate position, lat. 22° 19′ 40″ N., long. 114° 8′ 55″ E.

(2) *Pescadores islands—Caution when approaching.*

Also, that all vessels, whether ships of war or otherwise, approaching the Pescadores islands, should fly their national flags during the day, or sound the whistle and exibit lights at night. Signals made from the shore must be answered in order to prevent errors.

(3) *Yung river approaches—Temporary discontinuance of lights, beacons, and buoys.*

Also, that the lights respectively on Tse le (Square island) and Tiger island have been temporarily discontinued.

The beacons on Blonde rock and Tiger's tail, also the buoys on Nemesis rock, Siau yu spit, and Sesostris rock have been temporarily removed.

Torpedoes have been laid down at the entrance to Yung river, and vessels should not enter without a torpedo pilot, nor anchor inside Tiger island. It is dangerous to approach Chinhai forts at night.

(4) *Approaches to Liau Ho and Newchwang.*

Also, that vessels should not enter Newchwang by night, and must show flags or lights when approaching the port.

(*Variation*, 0° 40′ *Easterly in* 1894.)

[First Publication.]

JAPAN—YATSUSHIRO SEA—OGASAWARA (BONIN ISLANDS).

(1) *Sunken reef in Zozo no-seto.*

THE British Admiralty has given notice (No. 536 of 1894) that a sunken rock lies in Zozo no-seto, in Yatsushiro sea.

This rock, having a depth of about 6 feet over it at low water, lies approximately in lat. 32° 34′ 40″ N., long. 130° 28′ 55″ E.

(2) *Sunken reef in Matsuzaki-Wan, Hachiman seto.*

Also, that a rock with 2 fathoms over it at low water lies approximately in lat. 32° 13′ 45″ N., long. 130° 4′ 40″ E.

OGASAWARA (BONIN ISLANDS).

(3) *Sunken reefs off Futami Kau (Port Lloyd), and leading mark into the harbour.*

Also, that the undermentioned rocks lie off Minami jima, Ogasawara (Bonin islands) :—

A rock with 5 fathoms over it lies approximately in lat. 27° 3′ N., long. 142° 8′ 50″ E.; and another rock with 6 feet over it lies about 4 cables E N.E. from the above.

A triangular white beacon stands 3½ cables East of Kaname iwa (Castle rock), which, kept in line with a white patch on Kaname iwa, leads into port Lloyd.

NOTICE TO MARINERS—No. 208.

[First Publication.]

KOREA, WEST COAST—Conference group.

Amended position of doubtful reef and existence of a new reef.

The British Admiralty has given notice (No. 538 of 1894) of the undermentioned amended position of a doubtful reef in Palos harbour, Conference group; and the existence of reef near Pinnacle rock:—

The reef charted in the position 1½ cables westward of East point, Palos harbour, does not exist, but a rock which dries 7 feet at low water lies 50 yards W. by N. from East point.

A sunken reef consisting of three rocks lie near Pinnacle rock, with the east extreme of Guerin island bearing North, and the west entrance point to Palos harbour, N.W. ¼ W.

Approximate position of West point, Palos harbour, lat. 36° 7′ N., long. 125° 59′ E.

[First Publication]

KOREA, EAST COAST—Fusan harbour.

Existence of sunken reefs in the fairway.

The British Admiralty has given notice (No. 540 of 1894) of the existence of the undermentioned sunken reefs in the fairway of Fusan harbour:—

A rock upon which a depth of 3¼ fathoms was obtained, but upon which there is probably less water, lies, with Uno se (Channel rock) bearing North and the Observation Spot W. by S. ¼ S., (S. 76° W.) distant 5¾ cables.

Another rock with 2¾ fathoms over it lies between the above-mentioned rock, and the islet 8 feet high, south-westward of it, but its position is doubtful.

Approximate position of Observation Spot, lat. 35° 6′ 5″ N., long. 129° 3′ 20″ E.

(*Variation 4½° Westerly in* 1894.)

[First Publication.]

CHINA—Gulf of Pe Chili.

Pei ho—Temporary discontinuance of lights and buoys at the river entrance.

The British Admiralty has given notice (No. 541 of 1894) that all the lights, beacons and buoys outside Taku forts, at the entrance to Pei ho, have been removed, and the entrance to the river is closed to all shipping at night until further notice.

Ships must not come within the range of the forts until daylight, and must approach the bar with the greatest care, on account of torpedoes and other obstructions which have been placed there.

Approximate position: Taku bar, lat. 38° 55′ N., long. 117° 50′ E.

B. P. Creagh, *Comdr.*, R.I.M.,

JAPAN—GULF OF TOKYO OR YEDO.

1. *Light and buoys marking area obstructed by torpedoes.*

WITH reference to Notice to Mariners No. 202, dated the 27th October last, issued by this office, the British Admiralty has given further notice (No. 543 of 1894) that the undermentioned light and buoys are placed to mark the area obstructed by torpedoes in Tokyo gulf:—

Hashirimidzu (Hasiri mizu) point light is *fixed red*, showing over an arc of 5°, or between the bearings S. 12° E. and S. 17° E., elevated 91 feet above the sea, and visible in clear weather from a distance of 6 miles.

The lighthouse is a square framework 15 feet high and painted white.

Approximate position on Admiralty chart No. 2657, lat. 35° 15′ 55″ N., long. 139° 43′ 10″ E.

A conical buoy, with black and white horizontal stripes, and surmounted by a globe, is moored in 28 fathoms, 1½ miles N. 12° W. from Hashirimidzu light.

A conical buoy painted red, and surmounted by a globe, is moored in 28 fathoms, 5 miles, N. 12° W., from Hashirimidzu light.

The area obstructed is westward of a line drawn from the above light and the red buoy, and southward of a line drawn from the red buoy to Fillmore point.

2. *Light-buoy altered in position.*

Also, that the light-buoy in Uraga channel has been moved 9½ cables S. 14° W., and now lies in 37 fathoms, 4½ cables N. 33° E., from Hashirimidzu light above mentioned.

3. *Regulations.*

Vessels are not permitted to enter or leave the gulf of Tokyo without the conduct of a Pilot vessel having on board an officer of the Imperial Japanese Navy, and no vessel will be permitted to enter or leave between sunset and sunrise.

Vessels arriving from distant places will be informed of these regulations by the Pilot vessel referred to.

Variation 4° Westerly in 1894.

AUSTRALIA.—MORETON BAY, NORTH CHANNEL.

Extension westward of the East Bank.

THE Port Master, Brisbane, has given notice (No. 17 of 1894) that in consequence of a growth to the westward, the East Bank nearly touches the line of Tangaluma and Cowan Cowan leading lights.

Vessels entering at night must therefore open the abovenamed lights to the westward, a distance equal to the difference of their heights before hauling up, and then proceed keeping them in that position until the Yellow Patch Light is obscured, when proceed as before.

Vessels entering by day should pass one and a half cables to the westward of the black buoy on the north-west extreme of the East bank before hauling up, then proceed as before.

CAUTION.

Intended publication of a Weekly Summary of Notices to Mariners, by the Board of Trade.

The following Notice to Mariners (No. 375 of 1894), issued by the Board of Trade is republished for general information :—

A Weekly Summary of Notices to Mariners, containing all the Notices received at the Board of Trade subsequently to the date of publication of the latest Monthly Summary respecting any alterations in Lights, Buoys or Beacons, any newly discovered danger, or any alterations in or additions to the Admiralty charts, will be published by the Board of Trade, on or about the 7th, 14th, 21st, and 28th, of each month.

A Monthly Summary containing all the Notices received at the Board of Trade during the preceding eight months is also published on the first of each month.

Copies of these Summaries are supplied at all the Mercantile Marine Offices in the United Kingdom to Masters of "Foreign-going ships," and at all the Custom Houses, to Masters of "Home Trade" and Coasting Vessels, free of charge.

Copies of the Monthly Summary are also sent to the Government Shipping Offices at each Colonial and Indian Port, and to the British Consulate at each Foreign Port, for the inspection of Mariners who may not be in possession of the latest Summary.

In addition to the above, all the "Notices to Mariners," immediately they are published, are posted at all the Mercantile Marine Offices and Custom Houses in the United Kingdom for the inspection of Mariners and others interested.

If the information contained in these Notices is not made use of by Masters, Owners and Agents of ships, the responsibility rests with the parties who neglect to make use of the information gratuitously offered and abundantly circulated.

CHINA SEA—Philippine Islands.

(1) *Flashing light on Guimaras island.*

The British Admiralty has given Notice (No. 505 of 1894) that on 1st October 1894 a light will be exhibited from a light-house recently erected on the south-west extreme of Guimaras island, southern approach to Ilo Ilo:—

Guimaras light is a *group flashing* light, elevated 111 feet above the sea, showing *three white flashes* in quick succession, followed by a *red flash* every fifteen seconds, between the bearings S. 9° W. through south, east, and north and N. 26° W., visible in clear weather from a distance of 16 miles.

The apparatus is catadioptric of the fourth order.

The light-house, 58 feet high, is of iron, cylindrical in shape and painted white and grey.

Approximate position on Admiralty Chart, No. 2578, lat. 10° 28′ 20″ N., long. 122° 28′ W.

(2) *Cabezas shoal off the south point of Luzon.*

Also, that a rocky shoal upon which a least depth of 6 feet was found, lies off the south extreme of Luzon, one-third of a mile N. 20° W. from Kalantes bank. The shoal is circular in shape, and about one-third of a mile in diameter.

Approximate position on Admiralty Chart No. 2577, lat. 12° 30′ 45″ N., long. 124° 3′ 50″ E.

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR THE YEAR 1893-94.

GENERAL DEPARTMENT—EDUCATION.

Darjeeling, the 29th October 1894.

RESOLUTION—No. 468T.—G.

READ—

The Report on Public Instruction in Bengal for the year 1893-94.

Preliminary.

The Annual Report for 1893-94 has been submitted by Sir Alfred Croft, K.C.I.E., who resumed charge of the Department on 7th December 1893, after long furlough from 5th April 1892. During the earlier part of the year Dr. C. A. Martin officiated as Director of Public Instruction. The Report is longer by 35 pages than its predecessor for 1892-93, and by 23 pages than that for 1891-92, but it is full of most valuable and interesting matter, and the Lieutenant-Governor cannot point to any portion of it which could with advantage be much shortened. The punctuality practically achieved in the submission of the Report is commendable.

Number under instruction.

2. The number of pupils under instruction continues to increase, though there is no great advance to record this year. In public institutions the number has risen by 13,670, from 1,400,067 to 1,413,737, and in private institutions by 541 pupils,

from 134,989 to 135,530: taken together there has been a total gain of 14,211 pupils. The institutions have also increased in number: public, from 53,131 to 53,615; private or indigenous, from 13,473 to 13,602; total increase 613. The gain has been obtained in nearly all classes of institutions. Among the schools classified as "public institutions" which adopt departmental standards, the number supported or aided by public funds has risen from 41,697 to 41,981, and the number of unaided schools has also increased from 11,434 to 11,634. Taking University and secondary education together, the pupils under instruction have slightly risen from 207,192 to 208,453. The increase in the attendance in primary schools is larger, viz., from 1,123,225 to 1,130,551, the development being apparent in both upper and lower primaries, but more especially in the latter. The figures for the lower primary schools are given below for the last five years:—

	Schools.	Pupils.
1889-90	44,146	960,914
1890-91	43,998	942,244
1891-92	44,920	987,948
1892-93	43,829	983 271
1893-94	44,020	988,745

Female schools have advanced remarkably in the last four years, as shown by the following figures:—

	Schools.	Pupils.
1890-91	2,270	49,638
1891-92	2,743	57,801
1892-93	2,856	60,249
1893-94	3,042	65,011

Arabic and Persian schools are almost stationary, but Sanskrit education shows 120 more schools and 700 more pupils.

Ratio to population.

3. In the population to which the educational returns apply, there are, at the usual rate of 15 per cent., 5,461,912 male children and 5,494,642 female children of school-going age. The returns show 1,444,421 boys and 104,846 girls at school. Thus of all boys of a school-going age 26·4 per cent., and of all girls of a school-going age 1·9 per cent., are at school. In the previous year the percentages were 26·2 and 1·9 respectively; they do not change materially from year to year. The proportion of boys actually at school in the different districts, compared with the number of boys of school-going age, taken at the usual rate of 15 per cent. of the male population, varies from nearly 60 per cent. in Hooghly and Noakhali, and nearly 54 per cent. in Howrah and Chittagong, to less than 10 per cent. in Palamau and to 6·3 in the Chittagong Hill Tracts. The order of the districts *inter se* remains remarkably constant, with but few fluctuations.

Financial results.

4. The income of the Department, which was Rs. 5,65,567 in 1892-93, fell to about Rs. 5,53,000 in 1893-94, the reduction being mainly in contributions from private persons. The expenditure charged in the accounts to the Department was about Rs. 25,72,000, against Rs. 25,37,481 in the preceding year. The net expenditure from Provincial revenues on education was therefore Rs. 20,24,000 against Rs. 19,71,914, an increase of Rs. 52,000. On the other hand, the expenditure on school buildings, which is charged in the accounts to the head of the Public Works Department, fell from Rs. 2,85,854 to Rs. 1,93,404, the chief difference being that the Calcutta School of Art was completed in 1892-93. Taking the departmental accounts, as distinguished from those of the Financial Department, the total net expenditure on education in Bengal, including all disbursements from public and private sources, after deducting the fees and contributions paid to the University and in all public schools and colleges, amounted to Rs. 95,75,457 as compared with Rs. 96,45,408 in the preceding year—a decrease of Rs. 69,951. The net expenditure from all public sources, including District and Municipal funds, increased from Rs. 34,66,457 to Rs. 34,69,664, or by Rs. 3,207, while expenditure from private sources fell off from Rs. 61,78,951 to Rs. 61,05,793, or by Rs. 73,158. No less than Rs. 69,403 of this sum are due to the diminished income of the University, the figures in the preceding year having represented the accounts for

15 months owing to an alteration in the financial year. Collegiate education cost more by Rs. 23,575, and secondary education by Rs. 60,321, chiefly from private sources: primary education expenditure increased by Rs. 50,380. Female education cost less by Rs. 58,248, in spite of higher contributions from public funds. It was noticed last year that municipalities spent 50 per cent. more on secondary than on primary education: this year a comparison shows very different results, viz., Rs. 29,970 spent on secondary and Rs. 41,419 on primary education.

Inspection tours.

5. Dr. Martin made tours extending over 53 days, and visited 71 institutions in 11 districts, besides the Chota Nagpur Division. Sir Alfred Croft, after his return from furlough and performing his duties as Vice-Chancellor of the University in connection with the Convocation and otherwise, spent 32 days in inspecting 43 institutions in six districts. The time spent on inspections by the inspecting staff of the Province, throughout the year, is exhibited in the following statement and compared with last year:—

	1892-93.		1893-94.	
	Number of officers.	Average number of days.	Number of officers.	Average number of days.
1	2	3	4	5
Inspectors	5	168	5	172
Assistant and Joint-Inspectors ...	9	131	9	152
Inspectors of European Schools ..	2	67	2	95
Deputy Inspectors	44	161	44	182
Sub-Inspectors	198	219	200	212

In every class but the last there is an improvement. Mr. M. Prothero and Mr. Reuther did specially good work in their circles; they were 228 and 208 days respectively on tour away from their head-quarters. Mr. Prothero's 228 out of 271 days on duty is, as the Director remarks, an unexampled record of activity. Rai Radhika Prosanna Mukerjee Bahadur spent 155 days on tour, and visited 279 schools: Babu Dinanath Sen, Officiating Inspector in the Eastern Circle, was out for 145 days and visited 174 schools. Mr. G. A. Stack in Bihar inspected 130 schools in 166 days. Mr. LeFeuvre was inspecting for 180 days out of 249 on duty as Assistant Inspector. Babu Chandra Mohun Mazumdar, Assistant Inspector of the Presidency Division, was on tour for only 16 days in six months, and pleads ill-health. He should be required to take long leave or do his duty properly. Babu Beni Madhub De, Assistant Inspector of the Burdwan Division, only toured for 61 days in nine months, and has been previously warned. He has now taken two years' furlough, and will, it is hoped, show more activity on his return. Babu Brajendra Kumar Guha was censured last year for his inadequate touring, and has done only slightly better this year. Maulvi Abdul Karim, Assistant Inspector of Muhammadan Education, should have done more than 141 days, as he has very little office work: the same remarks apply to Maulvi Muhammad Ibrahim, employed on similar duty in Bihar. The Director's orders, that all Inspectors and Assistant Inspectors should distribute their work so as to go through half of the districts in their circles each year, and to pay shorter visits to the other half, are approved. Among the Deputy Inspectors only five officers failed to attain the prescribed minimum of the rate of 150 days' touring in the year. The Lieutenant-Governor trusts that this year will see better inspection work of secondary schools done in Midnapore and Jessore. The Sub-Inspectors have on an average exceeded the prescribed minimum of 200 days' touring in all the divisions, but the minimum of 400 visits to schools was not attained in the Rajshahi, Dacca, Chittagong, and Bhagalpur Divisions. Sir Alfred Croft expresses the opinion

that 400 visits to schools is too high a minimum to fix, and on the other hand a record of 500 visits to schools implies that the work must have been perfunctorily done. The Lieutenant-Governor accepts the Director's views in these respects, and is fully satisfied that both by personal example and by precept he is doing all he can to inculcate the importance of activity in inspection, and also the necessity of the tours being wisely planned and the visits of inspection searching and instructive. Last year 750 chief gurus and inspecting pandits paid 248,008 visits to schools; average 331. This year 484 of them paid 239,835 visits; average 495. The diminution in number from 750 to 484 is accounted for by the general substitution of inspecting pandits for chief gurus; the latter, it is considered, are too fully occupied with their own pathsalas to be able to give proper attention to others. The new system which is approved by the Director should be extended to the 24-Parganas.

District Boards.

6. The Lieutenant-Governor has heard with much pleasure that the District and Local Boards have worked in harmony, except in one district, with the officers of the Department, and that the advice of the Deputy Inspector of Schools is generally both asked for and followed, or at any rate fully considered. In the more advanced districts the Boards are beginning to work on their own lines. This is specially marked in the Presidency and Burdwan Divisions, which show a growing tendency to independent action, not leading to friction, but said to be not always conducive to the interests of education. In some instances, chiefly in the Burdwan, Rajshahi, and Orissa Divisions, complaints are still made of delay in the payment of school grants. The arrears fall over into the next year, and become chargeable to the allotment of the year, without any separate provision being made for them in the budget. The savings thus effected are by no means invariably re-allotted to education in the following year; and thus not only the school teachers suffer from the delay, but the progress of education itself is impeded. In one district an arrear educational grant paid by Government was wholly allotted to public works. This should not have been allowed. The Director writes:—"While the general work of administration was carried on under orders of the Chairman or Vice-Chairman in consultation with the Deputy Inspector, all important matters, such as the appointment of inspecting pandits, sanctioning grants to primary or secondary schools, passing rules for the grant of rewards and prizes, framing budget estimates, the consideration of proposals coming from the Department or from local inspecting officers, the promotion of technical education, the creation of special, technical or female scholarships, and similar subjects, were dealt with at the meetings of the District Boards. The Education Sub-Committee in most cases prepared papers for the consideration of the Board, and occasionally disposed of ordinary business transferred to them by the Chairman." In some districts Local Boards have been given power over secondary as well as primary education; in others they have no educational functions at all; in others their powers over primary education are subject to revision by the District Boards. The Director considers that the utmost that can yet be safely entrusted to Local Boards is the control of primary education, including the payment of teachers on the authority of the Sub-Inspector; the appointment or confirmation of the appointment of teachers; and the selection of backward schools for stipends. In these views the Lieutenant-Governor is disposed to concur, and he will deal more fully with the subject in the annual Resolution on Local Self-Government.

University education.

7. The number of Colleges has increased from 33 to 36, divided into Government 11, municipal 1, aided 8, and unaided 16. The Martinière College for girls has been transferred from the unaided to the aided list; while Bishops' College, Doveton College and Loretto House have now furnished returns of their College Departments. The students on the roll at the end of the year were 6,240 instead of 5,443 last year, an increase of 797 students, nineteen of these being females. This large increase is explained by the high percentage of successful candidates at the Entrance Examination of 1893. The increase in the pupils of Government colleges was 196, in aided colleges 195, and in unaided colleges 406. The Presidency College has 573 on its rolls, the largest number in its history: at Dacca the numbers have declined in two years from 313 to 190. Out of

the total number of 6,240 College students, 3,892 are reading in 18 Colleges in Calcutta and 2,348 in 18 mufassal Colleges. The variations in the numbers of the successful candidates at the University examinations during the last six calendar years are shown in the following statement:—

	1889.	1890.	1891.	1892	1893.	1894.
1	2	3	4	5	6	7
Entrance	1,153	2,156	1 710	1,643	2,915	1,863

Percentage of success ...	50	45	36	46	44	.....

* The examination is held in November.

These figures illustrate what the Lieutenant-Governor has before remarked as to the inequality of the test to which candidates are subjected in different years, and he regrets that the University have not been able as yet to secure greater uniformity in the severity of the questions put and the system of marking. It is a serious detriment to the solid progress of education when so large an element of uncertainty enters into the prospect of University success.

Success in University examinations.

8. A comparison of the tables shows that, out of 4,775 youths reading in the first and second-year classes on the 31st December 1893 for the F.A. examination, 2,179 attended the examination. The percentage of successful candidates slightly rose from 37 to 38. In Government Colleges the percentage was 39, in aided Colleges 47, and in unaided Colleges 36. The Government Colleges were less successful than usual, especially those at Patna, Cuttack, and Chittagong, and it behoves the Professors of these Colleges to exert themselves to recover for them the high position they formerly held, and have lost. Among aided Colleges, the Uttarpara College was most successful, passing 64 per cent. of its candidates: among the unaided, the Bangabasi College at Calcutta passed 23 out of 41 candidates, while the two Barisal Colleges passed 60 out of 107.

Among the candidates for the B.A. degree, the percentage of success recovered considerably from 25 to 36, though it did not attain the high figure of 40 per cent. achieved in 1890. Comparing the groups of Colleges, the ratio of success appears to be as follows:—

	A Course.	B Course.	Total percentage.
Government	39	46	41
Aided	45	23	39
Unaided	32	28	31
Total ...	37	34	36

The close approximation of the ratio of success in the A and B courses is welcomed as showing that at last the two examinations are of nearly equal severity. Hitherto it has been held that the examination in the B course was unduly easy, and that to this cause the higher ratio of success and the comparative popularity of the course were due, rather than to the natural inclination

of the Bengali mind towards physical science. The figures of preceding years have been—

	A Course.	B Course.	Total percentage.
1889	33	39	34
1890	39	49	40
1891	26	33	29
1892	20	47	24
1893	21	45	25
1894	37	34	36

The Director quotes also the percentages of success attained by the Presidency College, viz., 70 per cent. in the A course and 66 per cent. in the B course, which support the conclusion, not only that the instruction is equally efficient in both departments, but also that the University standards are, or at the last examination were, of equal difficulty in both courses. The City College in Calcutta continues to be remarkably successful in the B course: and the steady progress of instruction in physical science among the aided and unaided Colleges of Bengal affords much ground for satisfaction, while the success attained is gradually approaching that of the Government Colleges. The number of candidates who took up the A or Literature course has risen this year from 987 to 992; while the number of students of the B or Science course has risen from 182 in 1892 to 355 in 1894, having nearly doubled in two years.

Of the 129 candidates for Mastership of Arts, 57 passed, as compared with 54 out of 118 in the preceding year, but no degrees were taken in Arabic, Persian or History, all of which were represented in 1892. The literary subjects, English, Sanskrit and Philosophy, had 34 successful students, while 23 passed in Mathematics, Chemistry and Physical Sciences.

Cost of the Colleges.

9. The total expenditure upon collegiate education has increased from Rs. 6,95,839 to Rs. 7,19,354, or by Rs. 23,515: the expenditure from Provincial revenues has increased by Rs. 8,099, and the fee-receipts are larger by Rs. 33,416, while the receipts from subscriptions and endowments show a decline of Rs. 17,698. The charge on Provincial revenues is nearly 40 per cent. of the total expenditure, and amounts to nearly twice the Government outlay on primary education. The annual cost of each student in a Government College during the year decreased from Rs. 238-11-8 to Rs. 236-14-5, and the cost of his education to Government from Rs. 145-11-1 to Rs. 142-15. The cost of collegiate education generally has fallen from Rs. 124-0-11 per head to Rs. 114-7-7. The cost of the whole number of collegiate students for the past five years may be exhibited as follows, in a constantly descending scale of expense:—

	1890.	1891.	1892.	1893.	1894.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Average cost of each student in a College in Bengal ...	138	129	127	124	114
The Government share thereof ...	55	52	52	50	46

This decrease of cost has been effected in spite of new charges for exchange compensation allowances and increased municipal taxation.

Athletic pursuits.

10. The Lieutenant-Governor cannot leave the subject of collegiate education without recording his approval of the efforts which are being made to encourage manly games among the students of the Colleges. He has perused with great interest the accounts given in the College reports in paragraph 68 of the various measures which have been taken to provide for the physical exercise which is as necessary for Bengali as for English youths, and he desires to express his thanks to Sir A. Croft, and to those officers of the Department who have personally

encouraged athletic pursuits and joined with the students in their games. He notices also with high commendation the manner in which in many districts the Collectors and other high officials have associated themselves with this movement.

Secondary education.

11. The main statistics relating to secondary schools for the last five years are contained in the following statement which is taken from paragraph 72 of the Report:—

	Number of schools.	Number of pupils.	Public funds.	Private funds.	Total.
1	2	3	4	5	6
			Rs.	Rs.	Rs.
1889-90 ...	2,366	201,452	6,08,294	20,11,672	26,19,966
1890-91 ...	2,393	199,105	6,11,046	20,62,859	26,73,905
1891-92 ...	2,285	194,178	5,94,846	20,87,904	26,82,750
1892-93 ...	2,326	198,270	5,90,493	20,92,642	26,83,135
1893-94 ...	2,373	198,736	5,94,328	21,33,751	27,28,079

Secondary schools of all classes taken together have increased from 2,326 to 2,373, or by 2 per cent.; and their pupils from 198,270 to 198,736, or by ·23 per cent. The total expenditure has risen this year by Rs. 44,944, of which Rs. 41,109 have been contributed by private funds and Rs. 3,835 from public sources (Provincial revenues and Municipal and District Funds). The expenditure from Provincial revenues has increased by Rs. 14,390, while that from District Funds has diminished by Rs. 3,721 and from Municipal funds by Rs. 6,834. This result may be attributed to the larger recognition by Municipalities of the claims of primary education within their limits

High schools.

12. The number of Government and aided high schools remained unaltered; the number of unaided high schools increased by 6, the total being 361 against 355 in 1892-93. The number of pupils fell from 76,458 to 75,682, a decrease of 776, or 1 per cent. At the University Entrance Examination, 1,863 boys passed out of 4,268 candidates, against 2,915 successful out of 4,365 candidates in 1892-93. The percentage of successful candidates in the preceding five years has been 25, 50, 43, 40, 67. The figure for this year (44 per cent.) is more like the normal proportion of success; last year it was unusually high, the examination being an exceptionally easy one. Government schools passed nearly 60 per cent. of their candidates; while schools under private management, both aided and unaided, were successful to the extent of between 38 and 39 per cent. In the competition for scholarships, the schools of the different divisions show a remarkable equality in success, the general percentage being 43·6; Rajshahi heads the list with 71 per cent. of its candidates successful. The merit marks allotted to the different schools in paragraphs 78 to 81 are based solely on the number of candidates who passed at the Entrance Examination in the different Divisions. To be a satisfactory test of merit, some deduction should be made for unsuccessful candidates, and some value should be given to the proportion between the number in the Entrance class and the total number of pupils in the school. The Dacca, Hare, and Hooghly collegiate schools, the Barisal, Faridpur, and Noakhali high schools, distinguished themselves by the number of candidates they passed.

Middle class schools.

13. The middle English schools increased from 841 with 58,414 pupils to 869 with 60,250 pupils. In the middle scholarship examination, where the standard required is the full middle vernacular test, together with English language and composition as taught in the middle classes of high English schools, 1,738 were successful out of 2,993 candidates, the percentage of success among the candidates being 58·1 against 65·9 last year. An important reform was introduced by the adoption of a common standard for all Bengal proper, a common set of questions having been issued to all examination centres in the

past year, instead of separate question papers for each circle, as in previous years. The middle Vernacular schools, on the other hand, though more numerous by 1,143 to 1,130, have fewer pupils, 62,804 instead of 63,398. In the examination, which is the same as the preceding with the omission of the papers in the English language, the percentage of success was 58·5 against 60 in the previous year, 1,800 out of 3,073 candidates being successful.

Drawing.

14. Some progress has been made in the teaching of drawing. Last year 13 candidates from 9 Government high schools took up drawing as a subject for the Entrance Examination, and two passed. This year out of 40 candidates from 12 Government high schools 19 passed the test. But the Director states that the subject is still unpopular, as it takes up time, and carries no value either in the University examinations or (as yet) in the award of junior scholarships. The evidence afforded by the training schools where drawing is compulsory shows that there is no inherent incapacity for the subject in the Bengali student: but the motive is wanting. At the examination of students at training schools for certificates this year, 250 of the students passed in drawing, and 25 of them were awarded special certificates as qualified to teach drawing. The Lieutenant-Governor agrees with Sir Alfred Croft in thinking that the time has now arrived when the supply of qualified teachers is sufficient to justify the rule that the marks obtained in drawing shall count in the award of junior scholarships. It may be expected that the attractions of the Government scholarships will induce a majority of the high schools in Bengal to take up the subject as a necessary part of the course for the Entrance Examination. In the course of time it may be hoped that drawing will become a subject for the middle scholarships also.

Discipline and moral training.

15. The Lieutenant-Governor has frequently inculcated the importance of improvement in the discipline of schools and the *morale* of the students: and he is glad to read in the Report (paragraph 94) that there were not many breaches of discipline and offences against morality, and that few of these were serious. Last year some unpleasant occurrences in connection with the Noakhali Zilla School were reported, and apparently the warning given was neglected, as this year again a grave case of repeated unruliness in the same school has been brought to light. The students implicated have been properly punished, and if such misconduct recurs, it will possibly be necessary to enforce the threat contained in the Resolution No. 507 of 26th October 1891, when the Lieutenant-Governor stated his readiness, if any bad case of lawlessness were proved and warnings neglected, to close any school or college where such a punishment is required. Sir Alfred Croft rightly draws attention to the difficulty of clearing the moral atmosphere if parents and guardians not only do not co-operate with Government in checking lawlessness, but even try to protect the delinquents against punishment by having recourse to the law courts. A curious instance of this tendency occurred in Orissa:—

> "A boy of the third class was fined for playing truant in the pandit's hour. A day or two after, the pandit had an interview with the boy's father, an educated man holding a respectable post in the Collector's office, who did not scruple to threaten the pandit with newspaper agitation against him, for having got his boy punished for something that was no offence in his opinion. Of course no heed is paid to such threats by the head-master or his assistants in the discharge of their legitimate duties."

Three years ago the Lieutenant-Governor recorded his expectation of assistance from parents and guardians, and he trusts that the instances of their opposition brought to his notice are only isolated cases. The misconduct of teachers themselves is much more reprehensible than the wrongdoings of youths, but Sir Alfred Croft says "it is chiefly confined to the primary schools, the teachers of which are for the most part poor and ill-educated." The Lieutenant-Governor trusts to the Director of Public Instruction to have every case reported to him, and to ensure the infliction of adequate punishment. It is satisfactory to hear that the transfer rules have greatly safeguarded the interests of discipline: any dilatoriness on the part of the school authorities in granting transfers to boys who are really in need of a transfer should be defeated by such measures as (see paragraph 97) have been adopted in the Presidency Circle.

Boarding-houses.

16. The provision of boarding-houses for non-resident students has always been regarded by Government as being intimately connected with the question of discipline. Almost all the Government schools in the mufassal have attached boarding-houses, and, where there are none, efforts are being made to remove the want. The number and nature of boarding-houses in connection with institutions under private management have been specially reported upon during the year, and the Lieutenant-Governor is glad to see that so much is being done in the Province to provide respectable accommodation for students under supervision. Two years ago, the Lieutenant-Governor commented on the want of boarding-houses or of decent lodging-houses for the 4,000 (or so) students in Calcutta, and expressed a trust that something would be done by the action of the gentlemen who form the Society for the Higher Training of Young Men. This Society has no doubt been useful in visiting the boys in their messes and private quarters, but the special report indicates that very little has been done towards providing better accommodation, joined to some degree of discipline, in Calcutta. A student's boarding-house has been located by a few private gentlemen in some fine buildings on the Harrison Road, and another has been opened under the auspices of the Oxford Mission. It is to be hoped that these examples may be followed by others. The private institutions which have hostels attached are, with only two exceptions, all under missionary management.

Physical training.

17. The development of out-door games among the schoolboys in Bengal during the last few years has been remarkable. It is not surprising that cricket and foot-ball are more favourite pastimes, and evoke greater enthusiasm in high and middle schools, than gymnastic exercises, even where there is a regular gymnasium with a special instructor and all necessary apparatus. The Lieutenant-Governor desires to acknowledge the interest exhibited by the officers mentioned in paragraph 99 of Sir Alfred Croft's report, as having offered encouragement to physical exercise among native boys, either by way of example or by advice and the gift of prizes. It is an excellent thing that friendly intercourse should be stimulated between the residents of a station and the schoolboys in their games, so that he has heard with much pleasure of such events as the cricket matches at Mymensingh, and of the annual athletic sports at some district head-quarters under the patronage of European officers and the leaders of native society. The District Boards have also begun to take steps to create and spread a taste for physical training. The want of a suitable playground in the heart of Calcutta will be remedied by the enlargement and levelling of Marcus Square, to which Government have offered to contribute half a lakh of rupees.

Primary education.

18. The following figures taken from paragraph 102 of the report represent the numerical fluctuations of primary education for native boys during the last five years :—

	Upper Primary.		Lower Primary.	
	Number of schools.	Pupils.	Number of schools.	Pupils.
1	2	3	4	5
1889-90 ...	3,337	124,568	44,145	960,865
1890-91 ...	3,537	128,537	43,997	942,211
1891-92 ...	3,661	135,371	44,918	987,876
1892-93 ...	3,697	139,726	43,828	983,204
1893-94 ...	3,763	141,483	44,020	988,745

The number of schools in both divisions has increased by 258, and their pupils by 7,298. Upper primaries and their pupils show a continuous increase; the lower primaries, on the other hand, fluctuate curiously in numbers, but,

comparing a series of years, the numbers of their pupils show a sustained increase. The variations in the number of these schools are attributed, as usual, to local causes, such as a rise in the price of food, the general unhealthiness of the year, floods, scarcity, a cyclone, and outbreaks of cholera.

Cost of primary schools to Government.

19. The expenditure incurred from the primary allotment by the Department and by District Boards on account of schools for native boys and girls, and of the subsidiary agency, is compared for the last two years in the following table taken from paragraph 103 of the Report:—

Description of schools and expenditure	From Provincial Revenues.		From District Funds.		Total.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Stipendiary schools	1,06,741	1,03,701	1,64,003	1,56,003	2,70,744	2,59,704
Non-stipendiary schools	30,474	24,129	2,62,557	3,11,375	2,93,031	3,35,504
Schools abolished before the close of the year	2,557	4,375	8,900	9,216	11,757	13,591
Chief gurus and inspecting pandits	14,167	13,281	78,265	80,483	92,432	93,764
Examination charges	1,147	1,150	11,080	12,455	12,227	13,605
Scholarships and prizes	9,652	7,039	27,762	31,584	37,414	38,623
Grants for buildings and furniture	7,644	5,598	1,787	1,956	9,331	7,554
Other payments	8,715	9,304	21,609	23,932	30,324	33,236
Total	1,81,317	1,68,627	5,76,563	6,27,004	7,57,880	7,95,631
Allotment	1,87,372	1,77,661	6,22,351	6,51,380	8,00,723	8,26,040
Savings	6,055	6,033	45,788	24,376	51,843	31,009

Though the departmental budget grant for primary schools was Rs. 2,10,038, against Rs. 2,01,360 in the preceding year, these figures show rather a smaller expenditure on primary schools by Government, and a considerably larger expenditure from District Funds, the total being an increase of nearly Rs. 38,000. The allotments also were more fully spent. The increased contributions made by Municipalities to primary schools for boys effected not only a decrease in the provincial expenditure, but large savings in the allotments originally made. These savings were still further increased by the fact that a considerable sum remained in hand unallotted to meet future demands, which owing to the same causes were not made. Eventually a sum of Rs. 31,000 was regranted during 1894-95 from the savings of 1893-94, for the purpose of increasing the allotments of those districts which needed it most. This is the feature of the year, that the policy of Government in requiring Municipalities and District Boards to defray to a greater extent the cost of primary education has been more largely carried out. The Municipal expenditure on primary schools was Rs. 51,630, against Rs. 32,916 in the previous year, a very satisfactory increase. This policy has been further developed during the year now current. The small allotment made by the Calcutta Corporation for education, apparently Rs. 3,000 only, has been previously commented upon. The Inspector of Schools, Presidency Circle, writes:—"The question of making better provision for the advancement of primary education was more than once pressed upon the Corporation by the Local Government, but, from a communication recently received from the Secretary to the Corporation, it appears that for the current year at least the Commissioners have resolved neither to increase the allotment nor to alter the mode of its administration. The Bombay Corporation spent on education during 1892-93 Rs. 55,220, against Rs. 51,300 in the preceding year." Moreover, a portion of the allotment in Calcutta was spent on secondary schools, a proceeding which appears to be contrary to the intention of the Calcutta Municipal Act.

System of payments of grants to primary schools.

20. Of the three systems under which payments to primary schools are regulated, viz., by stipends, by rewards for passed pupils, and by a mixed system of small stipends supplemented by rewards, the Government and the Director recommend the last in preference to the other two, and discourage the spread of the first. This year the sum spent in rewards has risen from Rs. 3,07,072 to Rs. 3,49,634, while the expenditure on stipends has declined from Rs. 2,56,869 to Rs. 2,46,473. Stipends are now being more and more rigorously confined (*a*) to lower primary schools in backward localities, where they are most needed, and (*b*) to

upper primary schools: to the former as an aid to stability, to the latter in recognition of their success. The system of giving small stipends, the amount of which is eventually deducted from the reward which the school is expected to earn, is in partial operation in several districts, but has not been introduced to any large extent, and it is almost or quite unknown in the Bhagalpur, Orissa, and Chota Nagpur Divisions. The system has met with very varying success, as was anticipated. Its trial on a large scale is attended with some risk except in the case of schools of ascertained stability and efficiency; and that for the following reasons. The average earnings of a lower primary school are a little over a rupee a month, and the weaker schools fall short of this amount. The advance system is designed for the latter schools, which lack the element of stability. The plan is to offer such schools advance payments at the rate of Re. 1 or Re. 1-8 a month, in the hope that this will ensure better results, even though they have not succeeded in earning these amounts in the past. Sometimes they fail to do so even with this encouragement, but in general the result is successful. The principle of the system, if worked with care, appears to be quite sound; and the Lieutenant-Governor would be glad to see it more extensively followed subject to the considerations laid down in paragraph 110 of the Report.

Comparison of cost of upper and lower primaries.

21. The apportionment of the primary grant between upper and lower primary schools, and the relative cost in these classes, are shown in the following table, Division by Division:—

Primary Schools.

Division.	Allotment.	Expenditure.		Number of schools.		Number of pupils.		Cost per school.		Cost per pupil.	
		Upper.	Lower.	Upper.	Lower.	Upper.	Lower.	Upper.	Lower.	Upper.	Lower.
1	2	3	4	5	6	7	8	9	10	11	12
	Rs.	Rs.	Rs.					Rs.	Rs.	As.	As.
Presidency ...	86,720	17,886	54,406	401	3,402	15,467	97,226	44·6	15·9	18·5	8·7
Calcutta ...	9,172	880	7,418	10	186	567	8,842	59·6	39·8	16·5	15·4
Burdwan ...	1,14,859	29,110	71,060	606	7,908	20,047	190,760	41·7	8·9	17·8	5·7
Rajshahi ...	77,364	21,367	45,028	433	2,238	15,200	56,027	49·4	20·1	22·5	12·8
Dacca ...	87,658	24,180	41,209	667	4,397	23,131	113,587	36·3	9·3	16·	6·9
Chittagong ...	68,086	20,581	43,540	446	4,145	17,517	94,320	45·9	10·	18·7	7·3
Patna ...	1,07,403	16,638	55,676	175	4,305	8,502	102,690	95,	12·9	31·3	8·6
Bhagalpur ...	68,111	12,350	34,850	202	2,104	6,421	46,173	62·1	16·5	23·8	11·5
Chota Nagpur ...	61 103	6,604	46,668	105	1,698	4,855	48,136	62·8	26·8	21·7	14·3
Orissa ...	82,970	11,533	27,612	231	3,544	6,341	54,615	49·9	7·7	29·1	8·
Total ...	7,36,729	1,61,049	4,34,462	3,370	34,721	125,792	820,575	47·7	12·5	20·4	8·4
Total for 1892 ...	7,21,647	1,64,308	3,98,564	3,285	34,552	123,927	823,907	50·	11·4	21·2	7·7

While the number of upper primaries increased, the total payments made to them decreased, so that the average receipts of each school fell from Rs. 50 to Rs. 47-7. On the other hand, while the number of lower primaries fell slightly, payments on a larger scale were made to them, and the average earnings of a lower primary rose accordingly from Rs. 11-4 to Rs. 12-5. The average cost of the two classes of primary schools throughout Bengal is roughly Rs. 4 a month for a upper and Re. 1 a month for a lower primary. It varies District by District and Division by Division: the higher rate of expenditure does not necessarily indicate superior efficiency, but rather a higher market value for efficient teachers, a higher cost of living, or the necessity of supplementing local fees by higher payments in backward parts.

Relative position of Divisions.

22. The Director has furnished an interesting table to show the number of pupils in each district in the different stages of primary education, and to compare the relative positions of the districts. He assigns a merit mark of 5, 3, 1 respectively to pupils in the three stages, (1) upper primary, (2) lower primary reading printed books, (3) lower primary not reading printed books. The Divisional figures are shown in the margin. As might be expected, the Burdwan Division (in which there has been an indigenous system of education from time immemorial) shows the best percentage of merit marks on population of school-going age, with Hooghly as the best district, and Howrah, Bankura, and Midnapore close up. Palamau, Shahabad, and Muzaffarpur are the least successful districts. The percentage of merit is necessarily

Division.	Boys only.	Boys and girls together.
Burdwan ...	122	63·6
Chitagong ...	103·6	55·6
Presidency ...	72	38 9
Orissa ...	72·5	37 3
Dacca ...	65·6	35·8
Rajshahi ...	44·6	23·7
Chota Nagpur...	39·2	20 9
Patna ...	28	14·4
Bhagalpur ...	28	14

much affected not only by the amount of the primary grant, but also by the degree of efficiency with which it is administered. It is evident from the Director's remarks that the District Boards have profited by their experiences, and are generally willing to learn; though they in some cases fall into mistakes in their experiments, they have the departmental officers at hand to guide them in the right direction.

Primary scholarships.

23. The results of the upper primary scholarship examination for boys, including candidates from upper primary schools and private students, for the last five years, are shown in the following statement:—

Year.	Number of competing schools.	Number of successful schools.	Number of candidates.	Number of successful candidates.	Percentage of successful schools.	Percentage of successful candidates.
1	2	3	4	5	6	7
1889-90 ...	2,258	1,660	5,484	3,053	73·7	55·7
1890-91 ...	2,449	1,654	5,910	2,847	67·5	48·2
1891-92 ..	2,381	1,493	5,681	2,491	62 7	43·8
1892-93 ..	2,460	1,694	5,615	2,895	68·8	51·5
1893-94 ...	2,532	1,858	6,068	3,297	73·3	54·8

More schools and candidates competed and were successful than in any year of this quinquenniel period, but the percentage of success was not quite so high as in 1889-90. The results of the corresponding lower primary scholarship examination show that the number of competing schools decreased from 10,597 to 10,498, but that of successful schools increased from 6,923 to 6,931. Their percentage of success has therefore risen from 65 to 66. The number of examinees has decreased from 34,754 to 33,444, and of successful candidates from 17,069 to 16,864; so that the percentage of success has increased from 49·1 to 50·4. The falling off in the number of candidates is ascribed to floods in Eastern Bengal and high prices. The Lieutenant-Governor concurs in the views expressed in the following quotation from the Director's report as being in the direction of the policy laid down in 1891-92, that measures should be adopted to secure uniformity in the standard of examination in all the districts of the same Division, even if it is unattainable throughout the Province. Sir Alfred Croft writes (paragraph 126):—"During the year under report an important step was taken towards equalising the value of the pass certificate in the different districts of the same Division, by means of a common set of question papers prepared by a Board of Examiners under the supervision of the Circle Inspector. The answer papers, however, continue to be valued by the local Examiners in each district. It would be preferable, on the whole, to have the same set of examiners for all the districts comprised in a common examination; but there are advantages in associating the District Boards with the conduct of the examination, since they have to pay the cost."

The Lieutenant-Governor has perused with much interest Sir Alfred Croft's account of the co-operation of village schoolmasters with the Postal Department in working post-offices with money-order and Savings Bank powers, in village deliveries, and in the diffusion of the rudiments of postal information by instructing the scholars how to address letters.

Training schools.

24. The number of training schools for masters, mistresses, and gurus decreased from 267 to 247, and the pupils from 2,382 to 2,032. The expenditure from Provincial Revenues increased from Rs. 84,597 to Rs. 86,444, while the total expenditure rose from Rs. 1,13,380 to Rs. 1,17,803. The number of pupils in the 15 Government schools for masters sank from 638 to 599, while it rose in the five aided schools from 231 to 303: in the six aided schools for mistresses the number fell from 300 to 190. The average cost to Government of the education of each pupil in a training school varied from Rs. 79 at Hooghly and Rs. 101 at Rangpur to Rs. 153 at Calcutta, Rs. 164 at Cuttack, and Rs. 193 at Patna. The results

of the Vernacular Mastership Examination for pupils of first grade training schools, excluding private candidates (of whom 22 were successful), show 276 as having passed out of 483 candidates; in the previous year 444 (including private candidates) passed out of 621. Only 66 men have been granted first grade certificates (as compared with 110 and 142 in the last two years) after the three years' course. The number who passed in drawing was 250, of whom 25 gained special certificates of efficiency.

Degree of success attained by training schools.

25. Two years ago Sir Charles Elliott desired that the whole system of training schools should be carefully reviewed by the Inspectors. Some attention was paid to the subject last year, but Sir Alfred Croft's return from furlough and his views on the question were awaited. He points out that training schools have been regarded, on the one hand, as costly, on the other as superfluous. It may be admitted that they are exceptionally costly because they require at their head men of exceptional ability and experience, and also because it is essential to make provision for housing the students and giving them stipends to meet the cost of living. On the other point, Sir A. Croft's report may be quoted *in extenso* :—

"The other objection, as to the schools being no longer necessary, was based on the belief that trained and certificated teachers often failed to get employment. This, as we have seen, was true of Dacca, but not generally true elsewhere; and even the Dacca school is now finding its level and equating its admissions to the normal demand. Other general causes too, as I have explained, are tending to reduce the number of candidates for employment; and thus, I believe, the last vestiges of the complaint will disappear. But even had the complaint been generally true, the argument would have been inconclusive. While middle schools exist, there is necessarily a demand for trained pandits; and if the schools do their work so well that the supply exceeds the demand, this furnishes no very good ground for their abolition. I say there is a demand for trained pandits; and not only so, but the supply is of such a quality as very effectually to meet that demand. This is conclusively shown by the popularity and success of the middle school system, which depends for its very existence on the training schools, since there is no other source from which the teachers can be supplied. There are more than 2,000 middle schools (English and vernacular taken together, for in both the full vernacular course is taught), and only 207 of these are under public management. Is it possible to suppose that the public throughout Bengal would have set up, and would continue to maintain, 1,800 schools of this class, unless they were satisfied with the instruction given in these schools, and with the pandits who teach them? To abolish or weaken the training schools would be to pull down or undermine the whole middle school system, upon which the middle classes of Bengal rely for that vernacular education which so largely meets their requirements, especially in rural districts. Nor is it only within the walls of the middle school that the influence of the training schools is felt. The head pandits are a well-educated, shrewd body of men, who come to the front in their villages, and often take an active part in municipal or other public affairs."

The Lieutenant-Governor never had any doubt that these schools ought to be maintained, but he felt that the existing schools are unduly costly, and he doubted their efficiency. He is glad to receive this assurance that the supply of trained pandits turned out is at all events equal to the demand.

Guru-training classes.

26. Similarly the question of the utility of the guru-training classes, which has been attacked in many quarters, is discussed in connection with primary education. The system is thus described (paragraph 144):—

"To selected middle schools in each district a class is attached for the training of primary school teachers in the neighbourhood, who attend morning or evening and on Sundays and holidays for this purpose, without relinquishing charge of their own schools. After a certain period of training the gurus are encouraged to go up for one or other of the different departmental examinations, and rewards on a fixed scale are given to those who pass. When all the teachers in one locality have been trained, the class is moved to another middle school. The head pandit receives one rupee a month for each man under training so long as the class is attached to his school. If teachers are brought in from such a distance that they have to give up their own schools which are placed for the time under other teachers, they receive small allowances from the District Board, under Rule 50 of the Rules under the Local Self-Government Act."

In 1892-93, out of 1,171 gurus under this training, 91 gained certificates of different kinds at a cost of Rs. 6,473, or about Rs. 70 each. In 1893-94, out of 907, only 86 gained certificates (none higher than the Middle Vernacular

Examination) at a cost of Rs. 7,086, or over Rs 80 each. Thus only about one guru in ten affords any evidence that the money has been usefully spent. The system has been worked vigorously in the Presidency Circle only, and there has met with some success: elsewhere it is generally condemned. Sir Alfred Croft, after quoting at length the opinion of Inspectors and Assistant Inspectors, sums up the discussion as follows (paragraph 155):—

"While these classes in the beginning were undoubtedly useful—and were specially so when the superior inspecting officers had faith in their utility—the time has now come when the system should be abandoned or largely reduced; and that for two reasons. In the first place, the system has been at work for so many years that all or most of the primary school teachers in the neighbourhood of middle schools who required it have come under training. The rest are either too far off to be brought in, or too firmly wedded to their ancient ways to be capable of improvement. In the second place, owing to the lapse of years, the indigenous gurus of the original stamp have largely disappeared, and have been replaced by passed pupils from middle and upper primary schools, who are found after a time of probation to make very efficient teachers, and to bring up their pupils with success to the departmental examinations. Nor must we lose sight of the entirely new conditions that have been introduced by the appointment of inspecting pandits, who have everywhere displaced the old 'chief gurus.' Many of these pandits are passed pupils of first grade training schools, and as such have received systematic instruction in the art of teaching. As they go round to the pathsalas, their business is to teach the gurus how to do their work; and consequently they serve in a manner as peripatetic training schools In the more remote and backward parts of the country they are the only possible agency, since the gurus will not come in to be trained. We cannot, unless they are stipendiaries, force the gurus to come in; because they are either self-appointed or the nominees of the village, and are not therefore under the orders of the inspecting officers. Indeed, it is chiefly in these very backward places that we are brought face to face with the difficulties arising from the limited amount of the funds available for primary education. In these villages pupils are few, fees and other customary gifts to the gurus are small, and not much can be gained at the examination for rewards. Small emoluments will not attract competent teachers, and we are glad to get almost any one who offers. He comes, but it is hardly worth his while to stay, and he goes off to try his fortune elsewhere. So the schools in these less favoured parts suffer continually from the change of teachers. These are not the conditions under which we can insist on the teachers being trained; we must take whom we can get, and try to keep them as long as we can by not imposing on them terms that they dislike. The District Boards are generally fully alive to this difficulty, and are seeking to overcome it by attaching stipends, not merely to the most advanced schools, but also to the most backward, so as to offer a decent livelihood to the teachers and secure the appointment of competent men. More advanced villages, with plenty of pupils and a considerable and assured income from fees and rewards, can take care of themselves pretty well in this respect. The villagers are awake to their own interests, and if they are not satisfied that the teacher is up to the mark, they can generally find a way to get rid of him. After the lapse of a few more years the old gurus will have mostly disappeared, giving place to a more promising class of teachers."

The Lieutenant-Governor accepts the Director's proposals that the guru-training classes may be generally closed at the end of the present year, except in the Presidency Division and Sonthal Parganas, where the Inspectors wish with some modifications to retain them. He agrees also to the devotion of the money thus saved to the benefit of primary education, by increasing the number of primary scholarships, and in backward districts by increasing the number of middle vernacular schools, so as to facilitate the supply of primary school teachers; the number of inspecting pandits may also be increased. The seven third grade training schools maintained by Government in backward districts should also be dealt with, closed or modified, as suggested.

Qualifications of teachers in middle and upper primary schools.

27. The statistics contained in paragraph 161 of the Report show the nature of the previous training received by head-masters and teachers in the schools of this class. In 649 middle English schools, out of 2,761 teachers, 701 had passed the Entrance or some higher standard of the University, 635 the Vernacular Mastership examination, 256 the Middle English, and 392 the Middle Vernacular test. Out of 2,800 teachers in Middle Vernacular schools, 116 had passed the University Entrance or higher examanation, 971 the Vernacular Mastership test, 911 the Middle Vernacular. In 3,728 upper primary schools, there are 5,017 teachers, of whom nearly half had passed the Middle Vernacular test, and only 1,183 had passed no test at all. Of these the Director writes that "the great majority are indigenous teachers of the old class, the best of whom have long been famous for their natural capacity, their familiarity with

the whole range of pathsala learning, and their aptitude as teachers." These results are interesting and on the whole satisfactory, and it will be useful to trace in after years the upward tendency which ought to exist in the qualifications of this class of teachers. The Lieutenant-Governor will also be glad if in future reports the same information is given regarding the teachers of Government Colleges and High Schools.

Other schools of special instruction.

28. The statistics of the numbers and cost of all institutions and departments of institutions teaching Law, Medicine, or Engineering, the Calcutta School of Art, Industrial Schools, and other schools of a special character, are exhibited in the following form:—

	Number of institutions.	Number of pupils on the rolls on the 31st March 1894.	Average monthly roll, &c.	Expenditure. From public funds. From Provincial Revenues.	From District Funds.	From Municipal Funds.	Expenditure. From private funds. From fees and fines.	From other sources.	Total.	Average annual cost of educating each pupil. Cost to public funds.	Total cost.

V.—Other Schools of Special Instruction.											
Government Schools	1	43	33	369	...	85	...	...	445	11 4 0	13 14 6
Aided Schools	11	343	337	1,023	72	111	356	4,097	6,549	3 0 6	19 6 0
Unaided Schools	5	200	171	...	...	...	236	1,201	1,436	...	8 5 6
Total ..	17	586	541	1,392	72	196	591	5,298	8,430	2 8 10	15 9 9

The variations in the numbers of the students of the several professions are of interest, as follows:—

Year.	Law.	Medicine.	Engineering.	Arts and Industry.	Other Special Schools.	Total.
1	2	3	4	5	6	7
1889-90 ...	912	1,016	652	795	611	3,986
1890-91 ...	1,025	1,184	703	753	550	4,215
1891-92 ...	563	1,290	661	853	559	3,926
1892-93 ...	488	1,545	764	915	447	4,159
1893-94 ...	509	1,747	933	1,034	586	4,809

These statistics are very gratifying, as showing a great development in every other profession except that of Law, a profession which is generally thought to be overstocked. During the last three years 1,560 students have taken to the Bar: during the previous three years, 2,872 chose the legal profession. In the previous year, 148 candidates out of 315 passed the University Examination for the degree of Bachelor in Law: this year only 64 passed out of 304. The difficulty of the test was slightly enhanced, but it is apprehended that the standard of attainments among the candidates was lower than usual. At a supplementary examination allowed by the Senate, 35 candidates out of 61 passed.

Medical schools.

29. There has been a rise in the number of students of all classes of Medical schools in the province. The Medical College, Calcutta, is fuller than it has ever been, and the want of accommodation in the lecture rooms, which is an old complaint, has been more keenly felt than ever. The four Government Medical schools have also increased in strength, and all but one of them receive female students: the Lieutenant-Governor hopes that arrangements will be made at once to open a female class at Dacca also. The information given as to the subsequent employment of the female students who have passed out from the Medical College or Schools is valuable and should be kept up in future: the Lieutenant-Governor notices with satisfaction that a large number of them have received employment under the Dufferin Fund throughout India. His Honour is surprised to learn that only four of the passed students of the Campbell Medical School have received appointments as Civil Hospital Assistants during the last four years; it is not clear whether the small number appointed is due to disinclination on their part, or to the absence of vacancies, or to the filling up of vacancies in other ways. The attention of the Inspector-General of Civil Hospitals should be drawn to this subject. The numbers who entered Government service from the Patna and Cuttack schools have been much larger.

Sibpur College.

30. Engineering and surveying continue to make progress at the Sibpur Civil Engineering College, and at the Dacca, Patna and Cuttack Survey Schools. The Sibpur College consists of two departments, the Engineer Department affiliated to the University with 116 students, and the Apprentice or Foreman Mechanic Department, with 215 students; total strength 331, against 278 in the previous year. The attention of the Eurasian community was drawn to the opening offered by this College in the Resolution on the Pauperism Committee, and it is strange that more youths of this class have not entered. In the Engineer Class there are only 2 Europeans or Eurasians and 36 in the Apprentice Class. Muhammadans are even more backward; their numbers are 2 and 2 respectively in the above-named classes; but it is hoped that more will be attracted by making separate arrangements for their residence and messing within the College precincts. Under the orders of Government, the workshops attached to the College have recently been transferred from the charge of the Public Works Department, and are to be under the exclusive control of the Principal: they are to be employed solely for the mechanical training of the students and for the manufacture of machines for the workshops and for subordinate institutions. This change is in course of execution, and will cost Rs. 50,000 for the erection of new buildings, the refitting of old ones, and the removal and re-erection of plant and machinery. The number of candidates having grown to be unmanageable, the admissions to the Engineer Department are to be limited to 40 annually, and to 60 in the Apprentice Department, and the standard of admission has been raised in each case. Only 5 out of 16 candidates passed the University Examination for the B.E. at the end of the 4th year, which is a poor result. The demand for passed apprentices still continues, and not one of those who have passed out is now unemployed. Rules for the affiliation of technical schools in other parts of Bengal to the Sibpur College are under consideration, and ten visits have been paid by the Principal to mufassal schools of this class. An artisan class is about to be established. It is intended for youths, whether European or Native, whose education is not up to the required standard for foreman mechanics, but who are capable of learning a trade. The conduct of the students and their discipline have been good: much attention is paid to athletic sports, and the College Volunteers have done well.

In all respects the College is making good progress as the centre of technical education in Bengal. The cost, apart from the workshops, rose from Rs. 62,742 to Rs. 70,384, of which Rs. 12,965 were raised from fees and fines.

Survey schools.

31. The utility of the three Government Survey schools has been considered during the year, and special reports have been submitted regarding them. It has been alleged that they have failed to supply surveyors for the work of the Survey Department. The explanation offered is that they teach to a much higher standard than is required by that Department, which only offers a rate of pay corresponding to its requirements, and that in other departments and in private service the passed students of the schools find abundant employment at remunerative rates. The students of the Dacca school are reported to have completed a cadastral map of a tract of about 50 square miles containing about 100 villages. It would be well if the students of the other schools could be employed in a similar manner on a permanently useful surveys, and the area could be continuously extended. The scholarships attached to the Patna and Cuttack schools have been limited for the future to natives of Bihar and Orissa respectively. A useful rule has been passed by the Director, requiring greater knowledge of English from the students admitted to these schools to fit them for employment in Government service.

School of Art.

32. The Government School of Art in Chowringhi is the recognised centre of artistic and decorative industry in Bengal, as Sibpur is of instruction in mechanical and manufacturing industries. The number of students has risen from 181 in 1892, and 198 in 1893, to 269 in March 1894. The Superintendent states that the general character of the work done in the school will compare favourably with that of any Art School in the United Kingdom; and outside evidence has testified to the high class character of the students' performances, in illustrations of zoology, in modelling, wood-engraving, lithography, and illustrations of the Annals of the Royal Botanic Garden. The total expenditure on the institution was Rs. 81,058, of which Rs. 6,461 were paid from fees and fines.

Industrial schools.

33. The number of industrial schools has advanced from 21 to 26 by the addition of three schools under the management of District Boards, one aided and one unaided school: and the pupils have increased from 717 to 765. These 26 schools are divided into (*a*) three Government schools with 33 pupils, (*b*) nine Board schools with 283 pupils, (*c*) eight aided schools with 236 pupils, (*d*) six unaided schools with 213 pupils. Speaking generally, the object of them all is to teach such subjects as carpentry, blacksmith's work, mensuration, engineering, estimating, drawing, surveying by chain and compass, trigonometry and the plane-table; together with engraving, electro-plating, tinsmithy, clock-making, embroidery, or *bidri* work; not all in one school, but some in one and some in another. The Director's remarks and criticisms on the conditions and prospects of these schools (paragraphs 193 to 215 of the Report) are full of instruction and should be read with the utmost care by those who are concerned in their management, and by all who are convinced that the encouragement of diversity of occupations is the greatest educational want of the present time. The subject is one of extreme importance, and Government is most anxious to encourage the development of occupations other than literary careers for the youth of Bengal, and to supply the great and increasing demand for all kinds of scientific labour throughout the country. It is inevitable that, through want of experience and of definiteness of aim, mistakes will be made before success can be achieved. The difficulty of the situation is fully perceived by the Director, who writes as follows (paragraph 215):—

"They seem to want finality and a definite outlook for the future. They are at work, and pupils attend them; but they are evidently in a crude and inchoate state, and the prospects of the pupils, after completing their training, are as yet by no means clear. They will have acquired a certain amount of manual training under instructors of a much higher degree of skill than is to be found in the ordinary workman of the bazar; and they will have received some useful instruction in 'practical' subjects, including drawing. But, then, what is to become of them? To what market are they to carry their acquirements? The answer seems to me to lie, as Mr. Slater has so often pointed out, in the affiliation of all these schools that are worth retaining to the 'Central Technical College' at Sibpur. They will receive teachers from Sibpur; they will send up the best of their pupils to Sibpur for further training: Sibpur will gradually supply them with a stock of tools suitable to their

varying needs and ambitions; and the tie will be strengthened by the occasional visits of inspection which they will receive from the Sibpur Principal. The pupils sent for training will, like other Sibpur apprentices, readily find employment; and every instance of this will act upon the local pupils as an encouragement and an incentive. Men possessing these qualifications are, in a state of advancing civilisation, required in every district; and District Boards will be quick to recognise how greatly their local industries will be promoted by having a supply of such men at their doors, and will be ready to provide stipends to Sibpur for all promising pupils. As time goes on, as the teachers gain greater experience, as pupils become more numerous and more confident,—above all as the school, always secure of the interest and support of the District Board and the local Municipality, becomes gradually equipped with a full stock of tools and the necessary appliances of a workshop,—it will finally cease to be dependent upon Sibpur, and will complete the training of its pupils from its own local resources. In this, as in other similar cases, it will be found that supply will promote demand, and that with trained mechanics always to be had, new industries will arise, and new opportunities will be found for employing them. I use the language of prophecy; for I hold that in a country like India, now entering with rapid strides upon the path of material progress, it is impossible to doubt that technical skill, of the generally useful kind that these schools impart, will sooner or later find an abundant market. I am convinced that we should go on, with absolute assurance and confidence, in the way we have begun, undeterred by difficulty or failure. The hope of their early success lies in the rapidity with which the Sibpur College can be developed to such a point as will enable it to meet all their requirements. They are clamouring for tools and machines; but it is only in a few instances as yet that Sibpur has been able to supply them. With the workshops under the direct control of the Principal, it will be in a much better position to do this; for the manufacture of machine-tools will not only supply the requirements of the schools, but will afford the best possible training to the pupils who make them."

Among the technical schools which are at present in this experimental stage, is the Bihar Industrial School, which was opened last year. It cost Rs. 10,026 during the year, and has a capital fund of Rs. 2,50,532. There were 47 pupils, half and half Hindus and Muhammadans (against 32 in the preceding year), 46 being in the enjoyment of stipends. Some local difficulties have been encountered, which have militated against the award of all the stipends provided by the districts in Bihar, and in some quarters the existence of the Government Survey School in the same compound is regarded as an obstacle to the success of the Bihar Industrial School. The prospects of obtaining employment through the former are more secure than in the latter case, as the Survey School is of older standing; but Sir Alfred Croft anticipates, and the Lieutenant-Governor sees no reason to doubt his views, that students of the Industrial School will find remunerative employment in Bihar as the Sibpur apprentices have found it in Bengal, especially when the school is fully equipped with machinery and appliances from Sibpur, when the instruction is settled on a systematic basis and when provision is made for the further training of the students at Sibpur. With the development of railways and in other ways, a hundred different lines will be found along which the trained Bihari mechanic may find employment. The real requirement of these schools, including the Bihar Industrial School, seems to be the introduction of machinery and appliances, with supervision from, and communication with, a central institution at Sibpur.

34. The main statistics of female education are shown in the following table taken from paragraph 221 of the Report:—

Female education.

Class of Schools.	Number of schools.	Number of pupils on the rolls 31st March 1894.	Average number on the rolls monthly.	Average daily attendance.	Expenditure. From public funds. Provincial Revenues.	District Funds.	Municipal Funds.	From private funds. Fees.	Other sources.	Total.
1	2	3	4	5	6	7	8	9	10	11
					Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Managed by Government	2	253	220	188	22,178	...	120	6,103	563	29,064
Ditto by District Board or Municipal Board ...	3	171	166	96	215	...	1,088	27	...	1,380
Aided by Government or by District or Municipal Boards	2,613	53,986	49,585	30,808	74,6 3	31,628	10,244	23,607	1,02,900	3 32,752
Unaided	381	6,625	6 007	4,654	...	...	. .	6,476	16,877	23,353
Total for 1893 94 ...	2,999	61,034	56,047	41,748	96,706	31,628	11,452	36,213	2,10,340	3,86,489
						1,39,786			2,46,703	
1892-93	2,821	16,579	...	..	95,960	29,220	10,522	30,731	1,85,396	3,51,735
						1,15,704			2,16,027	
1891-92	2,708	54 109	..	..		1,31,003			2,23,976	3,55,089
1890-91	2,538	40,443	...	.		1,25,520			2,25,567	3,51,087
1889-90	2,183	48,690	...	..		1,20,171			2,0-,788	3,40,959

In four years the number of girls' schools has increased from 2,153 to 2,999, and of pupils from 45,690 to 61,034, besides 33,686 girls in boys' schools. The net result of the year is a gain of 178 schools and 3,941 pupils. The total expenditure increased during the year from Rs. 3,51,735 to Rs. 3,86,489; of this increase Rs. 30,700 were from private funds and the remaining Rs. 4,000 from public funds. The only two purely Government institutions are the Bethune Collegiate School in Calcutta and the Eden Female School at Dacca. The Bethune School sent up seven candidates to the last Entrance Examination, of whom six were successful and one took the degree of B.A., with honours in literature. From the Eden Female School two girls appeared at the Entrance examination, but were unsuccessful. There are three other high schools for girls, all in Calcutta, with 219 pupils; one middle English school at Chinsura with only 8 pupils, which is not well reported of; and 26 middle vernacular schools distributed over eight of the nine Divisions in Bengal. The upper primary schools for girls are 201 and the lower primary 2,766, against 177 and 2,678 respectively in the preceding year. Much attention has been paid to the girls' schools in Calcutta, which affords, as Sir Alfred Croft remarks (paragraph 231), the best field for the promotion of female education, and changes have been made in the system of grants-in-aid and in the standards of examination: but it is too early yet to anticipate results. About Rs. 3,000 a month are granted for 6,468 pupils. Mrs. Wheeler, the Inspectress of Schools, examined *in situ* in Calcutta, 52 schools with 4,172 pupils, besides 82 zananas, and out of Calcutta 68 schools with 2,683 pupils, besides two zananas: total 120 schools with 6,859 pupils. Out of 2,946 pupils examined by her, 2,509 passed, or 85 per cent. In Calcutta there were 151 primary girls' schools with 5,932 pupils, against 150 schools and 5,872 pupils last year. In the examinations in the special standards for girls' schools, originally prescribed for Calcutta and the neighbourhood and subsequently extended to Murshidabad, 265 students out of 546 were successful, as compared with 236 out of 276 last year, the examination being stricter and the test somewhat higher. Sir Alfred Croft calls attention to the inconvenience arising from the multiplicity of the standards for examinations and scholarships now in force for girls' schools in different parts of the country. It is to be hoped that the Calcutta standards will be adopted without change, or with such small changes as will be acceptable to school managers in the mufassal. With the provision of girls' scholarships in all other parts of Bengal to be awarded on the new standards, it is anticipated that female education would make a fresh start.

Education of Europeans.

35. The statistics of European education show a steady increase over a long series of years. The following table for ten years is of interest:—

Year.	1885.	1886.	1887.	1888.	1889.	1890.	1891.	1892.	1893.	1894.
1	2	3	4	5	6	7	8	9	10	11
Number of pupils	6,369	6,096	6,391	6,841	6,663	6,710	6,829	7,096	7,444	7,777

The number of schools has increased from 67 to 72. There are 146 more boys and 187 more girls under instruction than in 1893. Of the 7,777 children under education, 4,083 were under Roman Catholic management at 27 schools, while 17 Church of England schools afforded education for 1,908 children, the remaining 1,786 belonging to different denominations. The total cost of European education in Bengal rose from Rs. 10,84,680 to Rs. 11,14,962, of which Government paid Rs. 1,82,906. There are 14 aided and 7 unaided high schools, 4 of which are at Darjeeling and the rest in the plains; the number of pupils were 2,191 boys and 1,267 girls, against 2,127 boys and 1,237 girls in 1893. They sent up 38 candidates (10 boys and 28 girls) to the High School examination, of whom 17 passed (3 boys and 14 girls). In the previous year 7 passed out of 18 candidates. For the University Entrance Examination (which is more popular and is considered easier) the number of candidates decreased from 141 (excluding St. Mary's Convent at Chandernagore) to 113,

and the number of successful candidates from 114 to 73. The percentage of successful candidates fell from 81·8 to 64·6. The number of middle schools is 36, containing 1,720 boys and 1,897 girls, against 1,688 boys and 1,798 girls in 1892-93: only two of these schools are in the hills. There is one Government school at Kurseong with 103 boys. Twenty-six are aided and 9 unaided schools. Twenty schools competed for the Middle Scholarship Examination, sending up 178 candidates, of whom 126, or 72 per cent., were successful: the numbers in 1893 were less, but the percentage of success, 86·4, was better. There are 16 primary schools, 15 aided and 1 unaided, with 353 boys and 349 girls, against 303 boys and 291 girls in the preceding year. The candidates for primary scholarships were 330 against 249 last year, and the successful ones 265 against 183.

Grants-in-aid rules.

36. The new rules for grants-in-aid proposed by Mr. Bamford were introduced during the year, viz., that all the aided schools in Bengal should receive grants dependent upon the average attendance of scholars instead of upon examination results, and that frequent supervision by the Inspector should supersede the annual examination. An interesting account is furnished in paragraphs 252 and 256 of the working of these rules. They involved no change for the five schools (the Catholic Male Orphanage, St. John's Parochial School, the boys' and girls' schools composing the Free School, and St. Paul's School at Darjeeling) on the special list, which had previously drawn fixed grants and had been examined in 1892-93 on the collective system, the classes as a whole being tested instead of each individual pupil. For the remaining schools more time is required for results to be attained. It is not easy all at once to eradicate the idea that every effort must be concentrated on passing a single examination test, everything that may possibly interfere with the preparation for it being regarded as positively injurious. Under the new system, teachers are expected to work with broader views, and can now afford to work slowly and thoroughly, securing each step before attempting the next. They have, as Mr. Bamford says, "to aim not so much at bringing their pupils to acquire a knowledge of certain particular facts and processes, as at training them to observe carefully whatever comes before them, and to reason about what they see and learn. With this wider purpose added to their work, teachers cannot be expected to cover the same extent of ground as before in all cases, even though in some the more sound teaching quickly recovers that which was apparently lost at the outset in making a sure foundation." A better classification of pupils has to be adopted, old ideas of promotion have to be abandoned, and the influence of parents to be properly directed, before entirely satisfactory progress can be effected with the new rules.

Muhammadan education.

37. The total number of Muhammadan pupils has varied during recent years as follows: 433,653, 415,428, 448,847, 447,485, and this year stands at 446,130: so that there has been a further loss of 1,355 pupils shared by both public and private institutions: and their ratio to the total number of youths under instruction has fallen from 29·1 to 28·8 per cent. The number of Muhammadans in Bengal being to the entire population as 33 to 100, the total percentage of Muhammadan pupils does not fall much below this ratio; but there is a marked disparity with the rest of the population in the higher branches of the educational system. There was an increase in the number of Muhammadan pupils in the arts and professional colleges, in middle vernacular and upper primary schools, in private institutions of an advanced character, and in Koran schools: in all other institutions there was a decline. The Director attributes the net decrease in the number of pupils to the prevailing high prices and distress; and the fall in Tippera alone (7,727), where the floods were severe, more than accounts for the decrease in the numbers in the whole Province. On the other hand, there was an increase of 6,254 pupils in Chittagong, which is credited to the special encouragement given to Muhammadan education by the District Magistrate and Board and the Deputy Inspector. The actual expenditure from the Mohsin Fund exceeded the estimates by Rs. 2,285. The number of Muhammadan candidates successful at the University Examinations for the last five years is shown as follows:—

	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
Entrance ...	125	110	85	172	134
Firts Arts ...	57	16	47	35	31
Bachelors of Arts ...	21	19	14	23	26
Masters of Arts ...	3	2	2	2	0

The total number of Muhammadans who passed any examination down to the lower primary rose from 3,847 to 4,854. Though there was no Muhammadan M.A. during the year, the proportion at the other University Examinations compared not unfavourably with the number under instruction, and there has been a marked improvement in the numbers passing at the middle and primary examinations. In the general results of the common examination of madrasas for the last two years (for which the papers were set by a Central Board), 162 out of 217 candidates passed this year, as compared with 169 out of 313 last year: the Calcutta, Chittagong, and Tippera Madrasas all did much better. The 1,609 pupils at the seven madrasas under Government management (of which three are maintained from Provincial revenues and the rest from the Mohsin Fund) cost Government Rs. 30,035 out of a total expenditure of Rs. 62,060. At the Calcutta Madrasa, the number of pupils in the Arabic Department declined from 500 to 360 on account of the institution of a test examination for all candidates at the Central Examination of Madrasas, a test which many students wished to avoid, as they are content to learn a certain amount of Arabic, but object to repeated examinations. The athletic club, aided by Government, is compulsory on the boys in the upper classes, and had 214 members. Physical training is also cultivated at the Murshidabad Nawab's Madrasa. Besides the seven principal madrasas, there are a good many institutions bearing the name in different parts of Bengal, intended primarily for the benefit of Muhammadans: but most of them do not attempt to teach Arabic or Persian up to a high standard. Special graduate, senior and junior scholarships have been created of late years for the benefit of Muhammadans desirous of pursuing a collegiate course of instruction, and provision has been made for the award to Muhammadan pupils of a number of free studentships in middle and high schools under public management. Several District Boards also have taken further steps to promote Muhammadan education. Since the close of the year, also, a report from Dr. Martin, pointing out how far Muhammadans are employed as Deputy and Sub-Inspectors, has been dealt with, and orders issued that their claims should receive full consideration.

Education of aborigines and indigenous education.

38. As has been before explained, in the term aboriginal population are included the Santhals and Kols, Dhangars, Uraons, Paharias, Indo-Tibetans, Indo-Chinese, Indo-Burmese, besides the tribes on the Assam, Chittagong, and Tippera frontiers. The number of pupils of these aboriginal races under tuition increased from 31,712 to 35,572, an increase of 3,860 pupils, the Christians having advanced by 271, and the non-Christians by 3,589. Of these aborigines 21,026 are returned as under tuition in Chota Nagpur, 3,564 being Christians, and 17,462 non-Christians. In the Bhagalpur Division there are 6,197, in Burdwan 3,585, and in the Orissa Tributary Mahals 1,518 pupils of aboriginal races. There was a large increase of 2,737 pupils in Singhbhum, attributed to the abundant harvest in Dalbhum, where numerous Santhal schools sprang up. The five missions in Chota Nagpur maintained 163 schools against 136 in 1892-93, with 4,729 pupils as against 3,920. The total expenditure on these schools decreased from Rs. 42,063 to Rs. 40,578, while the Government share of it rose from Rs. 9,282 to Rs. 9,338. The elementary schools for the children of labourers employed in the coal mines at and about Giridhi under the wise supervision of Dr. Saise advanced from 21 to 32, and their pupils from 1,072 to 1,500. The aboriginal schools passed two candidates at the Entrance Examination and 460 at the other departmental examinations in the year, as compared with 534 in the previous year.

Indigenous education.

39. The indigenous schools are private institutions which do not conform to any particular departmental standard, but adhere to the indigenous modes of teaching handed down by tradition. The figures for the last five years are as follows:—

	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
Schools ...	13,867	13,387	13,868	13,473	13,602
Pupils ...	139,603	132,057	139,564	134,989	135,530

Many of these schools will eventually give way to the extending operations of the department, so that the fact that the number of schools and pupils are lower than they were in 1889-90 is rather a matter for congratulation than otherwise. As compared with last year, the schools increased by 129 and the pupils by 541.

Sanskrit.

40. The encouragement recently given to Sanskrit education shows its results in the further increase (after a rise of 102 last year) of 120 Sanskrit tols and 700 pupils over 1892-93. These institutions are now being sought out with great care. In February 1893, new rules were sanctioned by Government for the award of stipends to pupils and teachers, to the amount of Rs. 12,240 a year, on the results of examination in two standards. The total outlay was Rs. 10,629. These examinations are conducted by certain recognised private Associations, and the stipends are awarded on the recommendation of the Principal of the Sanskrit College, to whom the results are submitted.

Endowment of Sanskrit learning.

41. A munificent trust of Rs. 1,60,000, producing an income of Rs. 8,000 a year, was created during the year by the late Babu Bhudeb Mukherjea, C.I.E., for the encouragement of Sanskrit learning. Before the donor died in May last, he was able to award a number of stipends of the value of Rs. 50 each per annum to some of the deserving pundits of the country. It was also proposed in the trust deed that, in the event of failure of the trustees, the Local Government should take possession of the trust fund and carry out the conditions of the trust.

Arabic and Persian.

42. The advanced schools for teaching Arabic or Persian were more numerous by eight, but their pupils were fewer by 134. These schools, generally known as *maktabs*, differ from ordinary Koran schools only in this respect that, in addition to learning the Koran by rote, the pupils read a little Arabic or Persian prose and poetry, and sometimes grammar.

Koran schools.

43. Out of the 5,251 Koran schools, as many as 4,662 exist in the Dacca and Chittagong Divisions. They are comparatively unimportant from an educational point of view, as no secular education is given in most of them. The Assistant Inspector, Chittagong Division, writes: "The Muhammadans think it a respectable thing to keep a *mianji* in their houses, who teaches the children of the family and of their neighbours to learn to say their prayers. These institutions have been kept on in the returns in the hope of their introducing Bengali and arithmetic."

The Cental Text-Book Committee.

44. The late Babu Bhudeb Mukherjea, C.I.E., mentioned in paragraph 41, was also President of the Central Text-Book Committee, and connected with it for nearly 20 years, during which time his great experience, judgment and scholarship afforded valuable aid to its deliberations. He has been succeeded as President of the Committee by the Hon'ble Mr. Justice Guru Das Banerjee, M.A., D.L. Other vacancies on the Committee caused by the death of Nawab Abdul Latif Bahadur, C.I.E., and Rai Bankim Chandra Chatterjee Bhadur, C.I.E., have been suitably filled up. The Committee dealt with 225 books during the

year, approving 94 and rejecting 131. The chief work in hand is the revision of the authorised list of books for middle schools. When that is finished, authorized lists of text-books for high and primary schools will be drawn up.

Sir A. Croft's Report.

45. It is impossible to rise from a perusal of this Report without feeling impressed by its remarkable merits, not only on the score of literary skill and grasp of the subject, but also for the marks it bears of wise reflection, large experience, and administrative ability. There is literally no branch of the subject, however small, which Sir Alfred Croft has not illuminated by his penetrating and instructive remarks, and the Lieutenant-Governor commends its perusal to all those who are interested in the growth and direction of public instruction.

Conclusion

46. The Lieutenant-Governor desires to acknowledge the good work done by Dr. Martin while in charge of the Department of Public Instruction between the dates of Mr. Tawney's retirement and the return from leave of the permanent Director. The thanks of Government are also due to the officers who are favourably mentioned in Chapter II, or elsewhere in the Report.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE CALCUTTA MUNICIPAL CORPORATION FOR THE YEAR 1893-94.

MUNICIPAL DEPARTMENT.—MUNICIPAL.

Darjeeling, the 1st November 1894.

RESOLUTION No. 5230M.

READ—

The Administration Report of the Calcutta Municipal Corporation for the year 1893-94.

Read again—

The report for 1892-93, and the Resolution recorded by the Government thereon.

The present report is in the same form as the last, but much delay has occurred in its submission, notwithstanding the comments of the Government in the Resolutions on the previous Reports. It should have reached the Government by the 1st August, but was not received until the 21st September, or seven weeks later. It appears that the draft came before the Committee appointed to consider it so late as the 29th August, but was not detained by them beyond the 5th September. The preparation of the draft should be greatly expedited in future, and the Lieutenant-Governor trusts that the delays which have occurred in the submission of the report to Government in past years will be avoided.

2. Mr. Ritchie officiated as Chairman throughout the year, in the absence of Mr. Lee on furlough. There were only two changes among the Commissioners. Nawab Abdul Latif, C.I.E., who had long been a member of the Corporation, died in July, and the Commissioners recorded a resolution expressing the regret with which the intelligence of his death had been received by them, and their appreciation of his services as a Commissioner. Mr. John Cowie, who had for many years held the post of Secretary to the Commissioners, also died during the year, and the appointment was conferred on Mr. W. R. Macdonald.

3. *Meetings and attendance of Commissioners.*—The Commissioners of Calcutta are 75 in number, of whom 50 are elected by the rate-payers and 25 nominated by the Government, the Port Commissioners, the Trades' Association, and the Chambers of Commerce. The attendance at the various general, special and committee meetings during the year maintained the high standard reached in previous years. The Commissioners met in general meeting 26 times, while of the nine standing Committees, which deal in the first instance with details of business, the General Committee met 51 and the others 61 times. There were also 26 meetings of Special Committees and 35 of Sub-Committees, the total number of meetings of all kinds being thus 199. Nineteen Commissioners attended 50 times or more at the meetings, four of them, Babu Priya Nath Mullik (116), Babu Nobin Bihari Sircar (116), Rai Durgagati Banerjee, Bahadur (106), and Babu Lal Bihari Baisakh (104) having been present at over 100 meetings. The general percentage of attendance was 58·5 against 57·2 in 1892-93. The percentage was not so good among the nominated as among the elected Commissioners.

4. *Proceedings of meetings.*—Among the important matters discussed in general meeting were a scheme for the surface drainage of the portion of the suburban area east of the Russa Road, the provision of a site for a new hospital at Bhowanipur, the revision of the building bye-laws, the statutory obligation of the Commissioners to spend three lakhs annually on suburban improvement, and the grant to the Calcutta Public Library. The scheme for the surface drainage of a portion of the Suburbs has been many years under preparation, but as the whole question of the drainage of the Suburbs has now been reported on by Mr. A. J. Hughes on the special invitation of the Commissioners, there is a prospect of the matter at length assuming a final shape at an early date. It will be further referred to below. The Commissioners expressed their willingness during the year to provide a site for the new hospital at Bhowanipur, and this site has since been selected. Their offer of an annual contribution towards the maintenance of the institution is now under the consideration of Government. A Special Committee has been appointed for the revision of the building bye-laws. The matter is of great importance from a sanitary point of view, and it may be hoped that the Committee will

be able to submit recommendations which will meet, as far as possible, the views of the Health Officer. The subject was referred to at some length in the Resolution on the Report for 1892-93, and the Lieutenant-Governor desired to see a draft of the revised bye-laws at an early date. There has already been some delay, and it is of importance that the Committee should proceed expeditiously with its work. In the Resolution on the Report for 1892-93, the Lieutenant-Governor referred to the discussion which had for years been going on in regard to the expenditure which should annually be incurred on improvements in the amalgamated suburban area, and was hopeful that the matter would be soon decided, and that the Commissioners would adjust their accounts, and in future comply year by year with the requirements of the law. It is disappointing, therefore, to find that the opinion of the counsel consulted by the Commissioners was not accepted and acted upon, and that a Sub-Committee was appointed to draw up a fresh case for counsel. This vexed question, which has impeded the carrying out of improvements in the Suburbs, should obviously be speedily disposed of, and past accounts finally adjusted, in order that the liability of the Commissioners may be placed beyond further discussion, and that proper provision may be made for the future expenditure on Suburban improvements, with reference to both the unexpended balance of passed years and the regular annual allotment prescribed by the law. The grant to the Calcutta Public Library is another question regarding which there has been prolonged discussion. The Lieutenant-Governor has learnt with satisfaction that since the close of the year the Commissioners and the proprietors have agreed on conditions which will ensure the restoration of the full annual grant of Rs. 8,000 in perpetuity.

5. *Loans.*—The liability of the Corporation on account of loans raised for works was as follows at the commencement of the year:—

	Rs.	A.	P.
Unpaid balance of 6 per cent. debenture loan of 1866	5,000	0	0
5 per cent. debenture loans	1,44,01,900	0	0
4½ per cent. ditto	30,48,300	0	0
	1,74,55,200	0	0
Balance of consolidated loans from Government ...	53,50,910	9	5
Loan from Port Commissioners	2,00,000	0	0
Total ...	2,30,06,110	9	5

The balance of the consolidated loans taken from the Government having been reduced to Rs. 51,11,493-7-7 during the year by a repayment of Rs. 2,39,417-1-10, the loan liability of the Corporation at the close of the year stood at Rs. 2.27,66,693-7-7. Against this liability the Commissioners had in their Reserve Funds and in the Special Funds for the repayment of the loan of 1866 a total sum of Rs. 10,82,193-14-3. The Corporation were fortunately under no necessity to raise fresh loans during the year.

6. *Income and Expenditure.*—The receipts and expenditure of the Municipality in the past two years compare thus:—

Receipts.	1892-93.	1893-94.
	Rs.	Rs.
General-rate at 9½ per cent.	16,14,107	16,55,787
Sewage-rate at 2 per cent.	3,39,651	3,48,395
Water-rate at 6 per cent.	10,18,672	10,45,207
Lighting-rate at 2 per cent.	3,39,560	3,48,403
Total of consolidated taxation at 19½ per cent. ...	33,11,990	33,97,792
Taxes on trades and professions, carriages and animals, &c.	5,36,614	5,42,242
Municipal market receipts	1,27,221	1,32,311
Receipts from the sale of water	98,347	1,00,770
Conservancy receipts	65,565	64,430
Road Department receipts	28,010	78,585
Slaughter-house receipts	39,281	37,639
All other receipts	93,403	1,09,726
Total ...	43,00,431	44,63,795

EXPENDITURE.

	1892-93.	1893-94.
	Rs.	Rs.
Interest on loans	4,54,351	5,40,262
Contributions for repayment of loans	2,02,807	2,06,233
General establishment	4,03,580	3,86,046
General office expenditure	97,543	97,001
Road Department	4,35,580	3,66,133
Street watering	91,944	90,801
Gowkhana	2,06,869	1,78,670
Conservancy	1,59,805	1,50,621
Bustee cleaning	1,07,817	1,02,431
Sewer cleaning and relaying charges	70,855	60,968
Hospital and vaccination charges	56,299	56,147
Suburban improvements	52,762	1,34,950
All other expenditure from the General Fund ...	2,65,694	2,31,662
Sewage-rate charges	2,67,404	2,62,723
Water-rate charges	11,11,942	10,68,586
Lighting-rate charges	3,78,386	3,90,496
Total ...	43,63,638	43,24,030

The total receipts thus amounted to Rs. 44,63,795 in the past year against Rs. 43,00,431 in 1892-93. The income under the four rates shows an improvement, and all the other heads detailed above, except the conservancy and slaughter-house receipts, also contributed to the increase of Rs. 1,63,364 in the revenue of the year. The expenditure, on the other hand, declined from Rs. 43,63,638 in 1892-93 to Rs. 43,24,030, making a reduction of Rs. 39,608, and a net financial improvement of Rs. 2,02,972.

7. *Financial position.*—The main ordinary income of the Corporation is derived from the four (general, sewage, water and lighting) rates, which form the consolidated rate, levied for some years past at 19½ per cent. on the annual value of houses and lands situated within the Town and the Suburbs. Any enhancement of the annual valuation of the Municipality necessarily increases the receipts on account of the consolidated rate, and to this the favourable financial results of the past year are partly attributable. As the revaluation of the Town under the present law has now been almost completed, only moderate increases in the annual valuation, and, therefore, in the receipts from the consolidated rate, can be expected after the current year. With these increases, however, and progressive growth in other sources of income, there is no reason to apprehend that the financial position of the Corporation in the future will not be such as to admit of the execution of large works of improvement, such as the drainage of the Suburban area, which are so essential for the proper sanitation of the town. At the same time, the duty of economy in expenditure, so far as it can be curtailed without loss of efficiency, should not be lost sight of. The Commissioners started the year with a cash balance of Rs. 1,79,530 in the Revenue Funds, and of Rs. 2,33,057 in the Capital Funds for works, and had at its close cash balances of 3¼ lakhs and Rs. 3,45,162 in the revenue and the Capital Funds respectively.

8. *Assessment and collection of the consolidated rate.*—The assessment of the houses, lands and bustees, on the basis of their annual value, is made in the Assessor's Department, and objections are heard by the Vice-Chairman. The total increase in valuation in the past year was Rs. 7,14,287. The number of objections against assessments for disposal was 4,953, and of these 2,860 were disposed of against 1,166 in the previous year. This shows a marked improvement in work, but the number of pending objections was still large at the close of the year. The Government had to comment, in the Resolutions on the two last reports, on the practice of the Commissioners in deferring the service of notices of demand for the rates until after the close of the quarter to which they refer. The law clearly contemplates the issue of these notices without undue delay after the failure of the assessees to pay within seven days of the presentation of the bills at the commencement of each quarter. The course followed by the Commissioners results in the postponement

for an entire quarter of the realization of much of the demand, and tends to encourage default on the part of numerous assessees who could pay with punctuality. The Commissioners have at length agreed to a departure from their practice by sanctioning the issue of notices of demand for the last quarter of the year in the manner contemplated by the law. The change effected an improvement in collections towards the close of the past year, and it would be still more to the advantage of the Corporation to allow the same system to be followed throughout each quarter of the year. The total demand of the consolidated rate for the past year was Rs. 36,87,491 against Rs. 35,44,144 in 1892-93, showing an increase of Rs. 1,43,347, due to the revision of the assessments. The incidence of this rate per head of the population in the past year was Rs. 5-3-8 against Rs. 5-1-7 in 1892-93, and that of the total municipal taxation Rs. 6-2-6 against Rs. 5-14-9.

9. The collection of the rates is made in the first instance by the Collector for the Town and by the Joint-Collector for the Suburban area. The bills which cannot be collected by these officers are made over to the Warrant Department for the adoption of coercive process, unless payment is voluntarily made. The following statement shows the demand and collections in the past year:—

Rates.	Arrear demand at the beginning of the year.	Current demand of the year.	Total demand.	Collections	Remissions.	Balance at the end of the year.
1	2	3	4	5	6	7
General rate at 9¼ per cent. ... ... Sewage rate at 2 per cent. ... ... Water-rate at 6 per cent. ... ... Lighting rate at 2 per cent.	Rs. 3,00,293	Rs. 36,87,491	Rs. 40,47,784	Rs. 33,97,491	Rs. 87,339	Rs. 5,62,554

The reports should furnish a statement in this form in future, and it should be explained what portions of the balance at the close of the year are in the hands of the Assessor for enquiry, and of the Collector, the Joint-Collector and the Warrant Department respectively for recovery. The collections of the arrears of past years made by each of the collecting offices and the balance of such arrears remaining at the close of the year, should also be stated. The large balance of Rs. 5,62,554 at the end of the past year is a very unsatisfactory symptom.

10. The total amount which the Collector had to realize in the past year was Rs. 30,61,598, and of this sum he collected Rs. 25,85,340 or 84·45 per cent. If allowance is made for bills which could not be served, for bills withdrawn by the assessor, for bills received from him too late for any action to be taken on them, and for bills cancelled by the Vice-Chairman on remission of the assessment, the percentage of collection attained by the Collector is 88·79 against 89·17 in the previous year. In neither year could the result be deemed satisfactory. The Joint-Collector's work was still less satisfactory than the Collector's. He had to collect Rs. 7,07,308, and actually realised only Rs. 5,87,449. After allowance for bills which could not be acted on, as in the case of the Collector, his collections amounted to a percentage of 87·09 on the demand, against 87·01 in the previous year. The Lieutenant-Governor had occasion in the Resolution on the Report for 1892-93 to notice an improvement in the working of the Warrant Department, which had previously been far from satisfactory; but the present report shows that further improvement is needed, and that the Department ought to be rendered more efficient. The percentage of rate bills disposed of fell off during the year from 63·7 in 1892-93 to 58·4, and that of miscellaneous bills from 75·6 to 43·2. The recoveries on account of rate bills amounted to 40·1 per cent. of the demand only, against 41·7 in 1892-93, and the balance for realization at close of the year was Rs. 1,66,110 out of a total demand of Rs. 5,60,013 during the year. The recovery of the large sum outstanding under decrees of the Courts of Small Causes, only a small portion of which was credited to the Municipality during the year, demands special attention.

11. *License and Registration Department.*—The following taxes, fees and fines were realised in this Department during the past two years :—

	1892-93.			1893-94.		
	Rs.	A.	P.	Rs.	A.	P.
I.—Tax on trades and professions ...	3,42,318	12	4	3,46,839	7	3
II.—Tax on carriages and animals ...	1,42,510	5	6	1,43,338	12	6
III.—Cart registration fees ...	71,750	0	0	72,027	8	0
IV.—Fees for the removal of trade refuse	62,044	14	0	60,741	0	0
V.—License fees for cowsheds, &c. ...	43	0	0	37	0	0
VI—Registration fees for hackney carriages, &c.	17,337	0	0	17,864	4	6
VII—Miscellaneous receipts ...	474	14	0	719	14	0
VIII.—Fines under section 90 of the Municipal Act	8,269	0	6	8,405	8	6
IX.—Fines under section 80 of the Municipal Act	1,085	8	0	966	0	0
Total ...	96,45,833	6	4	6,50,939	6	9

The improvements in the receipts under the principal heads, except that of fees for the removal of trade refuse, and in the total income, is satisfactory The taxes on trades and professions and carriages and animals have shown a progressive increase since 1890-91, and the fees for cart registration exhibit similar progress except in one year. The fines recovered under sections 80 and 90 of the Act for omission to take out licenses for carriages or animals and for exercising a trade or profession, have at the same time fallen off considerably. The figures indicate, the Commissioners observe, that there is less necessity for resorting to the Magistrate for enforcement of the law. Constant vigilance on the part of the Inspectors is, however, essential to ensure that the taxes and fees are paid in all cases in which they are leviable by law. The total number of carriages taxed last year increased from 5,042 in 1892-93 to 5,212, and that of horses and ponies from 6,672 to 6,778. The number of hackney carriages registered rose from 3,337 to 3,452, there being an increase in first and second class, as was anticipated from the revision of the law in 1891, against a decrease in third class carriages.

12. The income from the Municipal Market increased from Rs. 1,26,416 to Rs. 1,28,311, or by Rs. 1,895, the profit to the Commissioners after payment of all charges being Rs. 1,07,815 against Rs. 1,00,954 in the previous year. The Lieutenant-Governor is glad to notice the favourable remarks of the Commissioners regarding the working of their Printing Department, which invited such strong criticism in the previous year.

13. *Sale of surplus lands.*—Among the matters on which the Surveyor's Department was engaged during the year was the disposal of the surplus lands of the Lansdowne and Harrison Roads, both very important thoroughfares recently opened. The plots were sold at rates which indicate the keenest demand for land in the Town and Suburbs, and a readiness on the part of some to pay fancy prices for its acquisition. In the Barabazar section of the Harrison Road, from Rs. 7,500 to Rs. 22,000 per cottah were paid for small building plots, while narrow strips lying in front of houses, a few feet from the side of the road, were purchased at from Rs. 25,000 to Rs. 80,000 per cottah by the owners of the adjacent properties, for the purpose of obtaining a better frontage. The amount realized during the year from the sales of the surplus lands of this road was Rs. 7,00,441, the total receipts up to the close of the year being Rs. 23,95,381. The money thus received is credited to the Capital Account and not to the current year's revenue.

14. *Expenditure.*—The increase or decrease in expenditure under the various heads, as compared with 1892-93, is explained in detail in the Report. The savings in many cases appear to have been due to economical working, but the reduction of the grant for road works was ill-advised, involving larger expendture at a later date. The Lieutenant-Governor observes also that the provision for the removal of road scrapings in the budget for the current year was rejected by the Commissioners. This also was an unwise economy, and the consequent inefficiency of the establishment for the cleansing of the streets has, it is understood, given rise to much complaint on the part of the public.

15. *Litigation.*—The Commissioners have found themselves constrained to have increasing recourse to the Civil Court for the recovery of rates and miscellaneous dues, in consequence of the difficulty experienced by their officers in effecting summary distraint, through the removal of goods by defaulters into their inner apartments. The number of suits in which the Corporation was plaintiff in the past year was 122, one being in the High Court and the rest in the Courts of Small Causes. The Commissioners were very successful in this litigation, none of their suits having been dismissed out of 92 disposed of. The civil suits in which the Corporation was defendant were only five in number, and three were finally decided. The arbitrators in the suit of Rajendor Dutt appear to have been very dilatory. The suit was referred to them three or four years ago, and they had not submitted their award when this report was forwarded to Government. The other pending suit is the important land acquisition claim in respect of 54 Clive Street, which was taken up for the Harrison Road. The owners demanded Rs. 21,24,640, against a tender of Rs. 2,27,925 by the Collector, and the Judge awarded Rs. 6,57,089, exclusive of the 15 per cent. statutory allowance. Both the claimants and the Corporation have appealed to the High Court against this decision, and the appeals have been pending for two years. In the meanwhile interest on the sum which may ultimately be awarded accumulates. The amount at stake is very large, and the Commissioners should make every effort to get the appeals speedily heard. Steps might apparently have been taken earlier to have the "paper-book" printed, the delay in the hearing of the appeals being attributed to the fact that this had not been done. Regarding prosecutions by the Corporation in the Magistrates' Courts, the Report notices a large reduction in cases for street obstructions, and questions the explanation of the Road Department that it is due to the deterrent effect already produced by constant prosecutions. It rests with the executive of the Corporation to remedy any laxity which has arisen in this matter.

16. *Education.*—The Government has repeatedly drawn the attention of the Commissioners to the insufficiency of their contribution towards primary education within their jurisdiction, and has suggested that an annual allotment of Rs. 10,000 should be made in lieu of their present expenditure of less than Rs. 3,000. This suggestion the Commissioners have not adopted, and they observe that, looking to the large projects of town improvement on which they have embarked, and to the huge demands on them for expenditure on sanitation which are imminent, they feel that their financial position is not such as to enable them to meet the wishes of Government at the present moment. The Lieutenant-Governor is, however, unable to admit that the Commissioners are not in a position to provide for the small annual grant of Rs. 10,000. The Bombay Corporation spent in 1892-93 no less than Rs. 55,220 on education, whereas even out of the almost nominal sum of Rs. 3,000 which the Commissioners agree to allot in Calcutta, only Rs. 2,047 were paid to the schools during the past year.

17. *Bustee improvement.*—In the Resolution on the Report for 1892-93 the Government quoted the remarks of the Commissioners explaining their procedure in regard to bustee improvement, and drew their attention to the provisions of the law, which empower them to levy the cost of such improvements from the bustee owners instead of meeting it out of their general income, as they now do. The question is not again discussed in the present Report, and it appears that the Commissioners desire to adhere to the course which they have hitherto observed. They anticipate opposition which would seriously impede progress if the bustee owners were required to pay the full cost of improvements, and are satisfied with the contribution which the owners make in giving up land free for the roads opened out through the bustees. It may be advisable to forego recovery of the cost where the owners are people of small means who are unable to meet the expenditure, but the same concession should not be extended to owners who are well able to pay and whose income from the bustees is greatly enhanced by the improvements effected. It is unfortunate that several projects begun under Act IV (B.C.) of 1876 had to be abandoned during the year in consequence of a ruling of the High Court that proceedings should have been taken *de novo* under the present Act. The Commissioners

should consider whether fresh proceedings should not be taken in respect of these projects. The total amount spent by the Corporation on bustee improvement up to the close of the past year was very nearly 9 lakhs. The Lieutenant-Governor hopes that the improvements at Hastings will be completed in the current year.

18. *Engineer's Department.*—The duties of this Department embrace the charge of the water-works, the drainage, the roads, the sewers, the Municipal railway, and the Municipal workshops, and, no doubt, furnish full employment for the Engineer and his subordinate staff. Through the completion of two new tanks, the settling tanks at the Palta head works have now a united working capacity of 105 millions of gallons, or five times the requisite daily supply of filtered water in the Municipality. This supply has risen from 16¾ millions of gallons in 1889-90 to nearly 20¼ millions of gallons in the past year, giving a present daily consumption per head of the population of 36·66 gallons for the Town proper, and of 19·55 gallons for the Suburban area. The distribution pipes were extended 16 36 miles in the past year, and their total length is now 302·09 miles, the number of premises connected being 24,315. The expenditure of the year amounted to Rs. 10,00,781, the cost for supplying every 1,000 gallons having been thus 2·18 annas. The fittings of 36,780 premises were inspected during the year, and nearly 5,000 notices to repair were served. Nevertheless, it is remarked that the use of water is still distinguished by the utmost lavishness. The reduction of pressure resulting from this waste affects the efficient working of the water-supply throughout the Town, and it is desirable that further efforts should be made by the Commissioners, by inviting the co-operation of the house-holders, by more frequent inspections, or, if these measures fail, by the introduction of some mechanical contrivance, to secure proper economy in the use of the water. The Commissioners have acted wisely in arranging for the supply of a new pair of pumping engines for the Talia pumping station, as a stand-bye to the existing machinery. In addition to the filtered water, over 4¼ millions of gallons of unfiltered water are supplied daily in the Town and Suburbs, through an aggregate of 72·46 miles of pipes, for watering the roads, through ground hydrants, for use at the public bathing platforms, for flushing the sewers, and for conservancy purposes generally. The Lieutenant-Governor notices with pleasure that 12 cast-iron cattle drinking troughs were presented to the town last year by private individuals, to whom the Commissioners express their thanks.

19. *Drainage.*—For the drainage of the town proper a regular system of underground sewerage has long been in operation, and the ordinary duties of the Engineer's Department in this branch are to maintain the system in proper working order, and to effect such improvements, and extend the house-connections to such an extent, as may be possible from year to year. In the past year 25 flushing chambers were constructed, their total number being raised to 383, and various repairs were carried out. The present total length of the sewers is nearly 204 miles, and the number of premises connected with them is 27,997, 437 new premises having had connections made last year. The extension of the sewerage system to the Entally block of the Suburban area, which is approaching completion, is an important work, and the Lieutenant-Governor is glad to learn that it is proposed to take in hand sewerage works for the fringe area between the Circular Road and the Canal. The most important project which lies before the Commissioners, however, is the drainage of the whole Suburban area, south and south-east of the Town proper. One of the chief objects of the amalgamation of the Town and Suburbs, and of the relief of the Corporation from police charges, was to secure the execution of this great improvement. The extension of the filtered water-supply has done much for the Suburbs, but until an efficient system of drainage is established the sanitation of that portion of the Municipality cannot be considered satisfactory. The drainage project has been reported on by Mr. A. J. Hughes, C.I.E., and will now be forwarded for the final opinion of Mr. Baldwin Latham, who investigated the whole question on the spot on his visit to Calcutta some years since. The Lieutenant-Governor has not seen Mr. Hughes' report, but he has perused with interest the lecture delivered by that gentlemen at a meeting of the Commissioners at the Town

Hall, in which the scheme recommended by him, which agrees generally with that suggested by Mr. Baldwin Latham himself, and meets with the concurrence of the Engineer and the Health Officer to the Corporation, is explained. It appears that Mr. Hughes proposes to divide the Suburbs into two sections for drainage purposes. In the outer section, which is mainly rural in character, he would have a system of efficient surface drains only, for carrying off rain-water to a safe outfall, the sewage being disposed of through pail depôts so arranged that house drainage can be carried direct to them by sweepers. For the inner, or urban area, within which fall Kidderpore, Bhowanipur and Ballygunge, he would provide a main sewer running through the entire length of the tract from west to east, and discharging itself into the Salt Lakes, with which branch sewers and houses would be connected, as in the Town proper. The rain water would be carried away in surface drains. In the matter of cost, Mr. Hughes' proposals have special importance, as, after careful estimates, he has been able to show that the expenditure involved will fall far below that which was previously assumed. The cost of the main sewer he estimates at 14 lakhs of rupees, and that of the branches at 16 lakhs, the total outlay on the urban section being thus 30 lakhs of rupees. For the surface drainage of this section as well as the rural area he would spend for the present 7 lakhs of rupees only. The capital of 37 lakhs required for the works could be raised by loan, while the annual charge for interest and working expenses, amounting to Rs. 2,24,000, might be met partly by reductions in establishment, which would be practicable on the completion of the drainage system, and partly from the sum of three lakhs which should be spent annually on the improvement of the Suburbs. The scheme is doubtless one of great magnitude, but its financial aspects do not, in the opinion of the Lieutenant-Governor, present difficulties which should deter the Commissioners from taking it up in earnest, after the receipt of Mr. Baldwin Latham's advice, and making arrangements for its early inception. Mr. Hughes has suggested that, pending the completion of the scheme, certain works should be undertaken for the purpose especially of getting rid of the difficulty connected with the Goragacha trenching-ground. His proposals deserve the early consideration of the Commissioners.

20. *Health Department.*—In addition to the registration of vital statistics, vaccination, enquiries into disease, and the inspection of the municipal dispensaries, the Health Department has charge of the gowkhanas, or depôts at which the municipal ponies and cattle are kept, the conservancy arrangements, and the municipal slaughter-house. The calendar year 1893 was one of heavy rainfall and high prices of food. The number of births recorded was higher than in any of the previous four years, the ratio per mille being 19·7 against 18·6 in 1892-93. The increase was mainly due to improvement in registration in the Suburban area, although in the Town also registration was more efficient. The mortality shows a small decrease as compared with that of the preceding year, and was also lower than in 1891 and 1890. The ratio for the entire Municipality was 29·5 against 29·6 in 1892, 31·5 in 1891, and 29·8 in 1890. The improvement occurred entirely in the Town, the Suburbs showing a considerable increase of mortality. The decline in the death-rate in the Town is explained by an exceptionally low mortality from cholera and small-pox, the deaths from the former (596) having been the lowest on record. In the Suburban area the increase was due to greater mortality from fever and other causes.

Vital statistics.

21. *Fever.*—The deaths from fever in 1893 were more numerous than in any year since the amalgamation of the Suburbs with the Town, the ratio reached being 10·1 for the Town, 15·5 for the Suburbs, and 11·8 for the entire Municipality, against 9·9, 13·8 and 11·1 respectively in 1892. The Heath Officer draws attention to the increasing mortality from fever in the Town proper, which he attributes to defects in the drainage system, and urges alterations in the direction indicated by Mr. Baldwin Latham. In view, however, of the more pressing necessity of a drainage system in the Suburban area, it is hardly possible at present to undertake any great and costly changes in the Town itself. The large fever mortality in the Suburbs is attributed by the Health Officer to the exceptional rains of the year, the effects of which

were intensified by the absence of proper surface drainage. The past year thus affords strong evidence of the urgent need of a drainage system in the Suburbs.

22. *Cholera.*—For the comparative freedom from cholera during the year, which was shared by both the Town and the Suburban area, no local cause can be assigned. In the Suburbs the improvement in health with respect to cholera, as compared with previous years, is doubtless partly due to the introduction of the filtered water-supply.

23. The appointment of a new Superintendent with veterinary experience for the pony and cattle depôts of the Corporation has led to much improvement in the management of the depôts and the condition of the animals, and much reduction in both sickness and mortality is already observed. It would appear from the observations of the Commissioners in regard to the marked reduction in the number of sheep and goats brought to the municipal slaughter-house that the unlicensed slaughtering at so-called Kalisthans, to which reference was made in the Resolution on the Report for 1892-93, continues unabated. The attention of the Commissioners is again invited to the necessity for prompt and thorough measures to check the irregularities which have grown up. They recognize the importance of the matter, and it rests with them to deal with it in an effective manner. As regards the light penalties which are said to be inflicted when prosecutions for unlicensed slaughtering are instituted, it does not appear that the wide prevalence of the offence and the consequent necessity for more severe punishments, have been brought to the notice of the Magistrates.

24. The thanks of the Government are due to the Commissioners for the interest which they have displayed throughout the year in the administration of the Corporation, and the time and trouble which they have bestowed on the large questions as well as matters of detail brought under their consideration. Mr. Ritchie has filled with efficiency the office of Chairman, and the Heads of Departments and the Secretary have rendered useful service, which is cordially acknowledged by the Commissioners.

By order of the Lieutenant-Governor of Bengal,

C. W. BOLTON.

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE FINAL REPORT OF THE SURVEY-SETTLEMENT OF THE SRINAGAR-BANAILI ESTATES.

REVENUE DEPARTMENT, LAND REVENUE.

Darjeeling the 2nd November 1894.

RESOLUTION—No. 4863.

READ—

(1) A letter No. 233A., dated 9th March 1893, from the Board of Revenue, with enclosures, submitting the Settlement Officer's final report of the survey-settlement of the Srinagar-Banaili estates; together with a supplementary report by Assistant Settlement Officer, Babu Barhamdeo Narain.

(2) The Board's letter No. 1052A., dated the 25th August 1894, submitting the final report of Deputy Collector, Babu Barhamdeo Narain, on the correction of errors in the settlement records.

Read also—

(3) A letter, dated the 15th February 1894, from M. Finucane, Esq., on special duty submitting a note on the maintenance of the settlement records in the Srinagar-Banaili estates.

Reasons for undertaking the survey and settlement

These estates are situated in the districts of Malda, Purnea, Bhagalpur, Monghyr, and Darbhanga, and are owned jointly by Kumar Nityanand Singh, Kumar Kamalanand Singh, and Kumar Kalkanand Singh, of Srinagar, and Raja Padmanand Singh, of Banaili. The Court of Wards took charge of the Srinagar portion of the estates in October 1882, the three proprietors of that portion being then minors. No trustworthy rent-roll had been left by the late proprietor, the father of the minors; and the rent demand was never collected in full. The arrear demand when the Court of Wards entered upon the management of the property was Rs. 14,68,440. In 1884 it was found necessary to remit arrears to the amount of Rs. 10,15,036, and in 1886-87 the collections of rent and cesses were only 63 and 55 per cent., respectively, the arrears amounting to seven lakhs. It was therefore resolved that the property should be surveyed and a record of rights prepared under the Bengal Tenancy Act, in order to effect an adjustment of the rent demand and to secure system and punctuality in the collections. With this object an application was made by the Court of Wards under section 101 of the Bengal Tenancy Act, in which Raja Padmanand Singh, the co-sharer in the greater part of the property, joined. Under the orders of 1887, the proceedings were to embrace lands in estates which were the exclusive property of the Srinagar minors, and in those which were the joint property of the minors and the Banaili Raj. The proceedings were subsequently extended to three villages in the Khubkhund pargana of Bhagalpur, in which a 4-anna share was held by other proprietors, and to the villages in Purnea held by the Srinagar estate in patni and darpatni. It may be mentioned here that the Srinagar estate was released from the management of the Court of Wards in July 1891.

2. The following extract from Mr. Collin's report (paragraph 74) gives an account of the principal causes of confusion in the rent-roll which made it incumbent on the Court of Wards to prepare a new and accurate record through the machinery of a survey and settlement under Chapter X of the Tenancy Act:—

"74. It has been explained that the chief reason for the survey was to clear up confusion in the landlords' rent-rolls. The following were the principal causes of the confusion:—

(1) Abatements and remissions on account of absconded raiyats, or raiyats who had died without heirs, had not been noted in the rent-rolls. In the Daphar pargana the rent-roll of the Srinagar estate had not been corrected for over 30 years, with the result that large unrealizable balances were shown. Another result was that abandoned holdings were resettled with new raiyats, while also retained in the former tenant's name, and thus appeared twice in the rent-roll.

(2) Changes of tenants by transfer or succession had not been noted in the rent-rolls, and thus the landlords' papers were obsolete. In the village of Bishunpur-Gonesham, the patwari papers showed 86 raiyats, of whom 41 were not traceable. The landlords at first claimed to have the names of raiyats entered in the records, though they had ceased to have any connection with

the village, as they feared that otherwise they would have no power of collecting the arrears of rent from them. This led to many disputes as to the name of the tenant to be entered.

(3) The patwari papers often did not show the true name of the cultivator. Raiyats were entered by fictitious names. In the villages of Dharampur and Hempur the patwaris' paper contained 54 names of fictitious or 'furzi' raiyats. In one village of 196 acres, the names of 47 fictitious raiyats were found to be entered. It was found that this practice prevailed in 38 out of 108 villages in the Khubkhand and Uttarkhand parganas. It was stated that the object was to distinguish between holdings held at money rental and those held on halhasili or jaidadi tenures. It was, however, a matter of great difficulty to find out the name of the real tenant. The same practice prevailed to a modified extent in Purnea, where raiyats held a number of holdings under many names and discarded or retained the tenancies, as they thought fit.

(4) The rent-rolls were not checked by the landlords' agents. Thus in Belwa-Sukhasan village, 54 new tenants were discovered. In Nirmalli 300 bighas of land unassessed to rent were found, which were entered as taufir in the patwaris' papers, but were found to be held by raiyats.

(5) Numerous disputes as to rates existed. Many of the villages were formerly leased out, and the lessees tried to raise the rates by the simple expedient of entering higher rates in their rent-rolls. The rates were also in many villages raised by the lessees on the condition that no measurement was made. The enhancements were looked upon by the raiyats as special cesses, but the landlords treated them as real, and tried to retain them after measuring the villages. Thus in Mysurho the rates were raised, in 1274F., from Re. 1-10-6 to Re. 1-14 on the understanding that there should be no measurement. In 1278 the village was measured, and all lands held by raiyats were assessed at the higher rate, though the raiyats did not accept the enhancement. Disputes of this character were frequent in the Khubkhand and Uttarkhand parganas of Bhagalpur; and in several villages of Monghyr there were instances of disputed rates on account of illegal enhancements. The difficulty was accentuated when the new form of rent-receipt introduced by the Tenancy Act came into force. The landlords then would only give receipts with the new rentals, and the raiyats would not accept them until the rents were entered at the old recognized rates. In some villages in Bhagalpur, such as the Shahpur taluka, Darhar, Agwanpur and others, there was confusion as to areas of holdings. The rates had been increased by a lump sum on the understanding that raiyats should be allowed to extend their holdings without measurement. In some cases the landlords had broken through this understanding, and had measured the villages and assessed the newly cultivated lands. The majority of the raiyats would refuse to accept the assessment, but a few would submit, and hence the dispute was kept alive. In cases where no measurement was made, the enhanced rental was calculated on the area of the old holding. When the new form of rent-receipt introduced by the Tenancy Act came into force, a difficulty arose as to what area should be entered. The landlords wished to enter the recorded area and the enhanced rental. The raiyats objected, as this would be evidence of their acceptance of the higher rate. In some villages they were prepared to measure the holdings on the condition that the old rate was preserved, but they would not pay rent, or take the new forms of receipt if they were to show the former areas at the enhanced rentals. Nothing was done to clear up the disputes, and thus arrears of rent accumulated.

(6) In nearly every village disputes arose as to the rates payable by head raiyats or privileged tenants. There were a large number of such privileged raiyats who had rendered services to the proprietors or lessees. The landlords' papers used to show the full village rate against such tenants, but a deduction was made at time of payment of rent. When the new form of rent receipt came into force, the landlords wished to show the rental at full rates on the receipts, while the raiyats would not accept them unless they showed the special rates. In Bhagalpur, out of 14,291 raiyats, rents were disputed in 5,075 cases. In Monghyr 8 per cent. of the rentals were disputed.

(7) In Purnea the system of accumulative holdings was a fruitful source of confusion. If any raiyat died without heirs, or abandoned his holding, the patwari would assume that his next-of-kin took possession of it without procuring any formal agreement. The holding would be continued in the name of the former raiyat, and certificates for arrears of rent would be issued in his name. It frequently happened that the new tenant did not take up the holding, or if he did, he added it to his original holding, and then repudiated the addition of rent As there were no measurement papers or other trustworthy records of areas, it was very difficult to decide such disputes.

(8) There was much confusion in the demarcation of village boundaries in Monghyr and Malda. The situation of some villages, as Mahamedpur Bhelwa in

Monghyr, and of a number of scattered villages in Malda, could with great difficulty be discovered. In several cases of boundary disputes in Monghyr there was evidence that the patwaris had entered the names of raiyats as cultivating disputed lands who could not be identified; and an instance recently came to light in the decision of a boundary dispute between Kosla and Birbhas villages, where the papers produced by the representatives of the estates are declared by the Assistant Settlement Officer to be forged.

Progress of the operations.

3. The survey was carried out chiefly by a professional party under Mr. G. B. Scott, Deputy Superintendent of the Survey of India Department. It was begun in November 1887, and all the records were made over to the Settlement Department by the end of October 1889. Mr. E. W. Collin, C.S., was appointed Settlement Officer. The bulk of the work was accomplished by him, and he submitted the final report of the settlement on the 7th July 1891. What remained to be done was entrusted to Babu Barhamdeo Narain, Assistant Settlement Officer, who took over charge on the 11th May 1891, and submitted a supplementary report on the 26th March 1892. Extracts from Mr. Collin's report were published in a Resolution, dated the 10th December 1891, recorded on the results of surveys and records of rights in certain wards' estates; but the present review of the settlement was postponed pending the result of a further enquiry which was rendered necessary by the discovery of errors in the settlement records after the operations had been closed and the records had been deposited in the Collectorates of the five districts concerned. Babu Barhamdeo Narain was deputed, in January 1893, to correct any errors which might be brought to light—a duty which occupied him for about one year. The report now forwarded by the Board shows that there were altogether 1,597 errors in the original records and 625 mistakes of copying in the khatian, khasra and tirij. The former, which alone need be taken into account, were due to the following causes:—

Correction of errors in the settlement records.

(1) Mistakes made by patwaris in stating the former areas and rents of holdings.
(2) Mistakes made in transcribing figures from one paper to another.
(3) Arithmetical mistakes of calculation.
(4) Mistakes arising from misunderstanding of judgments and orders by the muharrirs.
(5) Mistakes arising from omission to carry out orders in all papers.
(6) Unaccountable mistakes, which were rare.

It may be stated that the number of tenancies entered in the khatian amounted to 67,141, that two-thirds of the mistakes relating to the amount of rent payable affected that amount to the extent of less than one rupee, and that the result of the revision was that it increased the rent-roll by Rs. 1,511-2-3, and diminished it by Rs. 1,298. Corrections have been made in red ink, both in words and figures, in the Collector's copies of the khatians, as well as in the copies supplied to the landlords, and in every case previous notice was given to the party adversely affected. The raiyats' copies have been corrected where produced, but where they were not produced, a remark has been recorded on the Collector's copy to the effect that, as far as the raiyat's copy differs from the Collector's, to that extent the former is wrong. The total cost of this revision amounts to Rs. 8,354-9-10.

4. It is gratifying to find that the amount of error which has been discovered in the settlement records is far less than was anticipated, and the Lieutenant-Governor thinks that it may safely be said that it is not greater than is likely to creep into a work involving such multiplicity of details, and carried out by an inexperienced staff, however careful the supervision of the superior officers may be. Sir Charles Elliott has little doubt that an equal number of mistakes in copying, in calculating rents, and in entering the results of contested cases, might have been found in any of the settlements with which he himself was connected in the North-Western and Central Provinces, had they been subjected to a similar test, and His Honour wishes emphatically to state that, in his opinion, the discovery of these errors involves no discredit to Mr. Collin or his Assistant, Babu Barhamdeo Narain. It is, however, highly satisfactory and advantageous to all parties that the errors have been discovered and corrected even at the cost of so much expenditure and delay.

Areas surveyed and settled.

5. The total area surveyed was 447,662 acres, or about 699½ square miles; but the total area settled was only 426,265 acres, or about 666 square miles, the remainder having been excluded from settlement on account of lands belonging to other proprietors having been found interlaced with the surveyed area and for other reasons. The total area surveyed by the professional party was 617 square miles, while 81 square miles in pargana Daphar in Bhagalpur were surveyed by the Settlement Department. The whole property comprises 64 revenue-paying estates, 3 revenue-free estates, and 77 villages held under patni leases. The revenue-free estates and fifteen of the revenue-paying estates belong solely to the Srinagar share. The remainder are the joint property of Banaili and Srinagar, while in two estates in Bhagalpur other proprietors also hold shares, the area of which amounts to 1,733 acres. Of the patni estates, two in Purnea are held jointly by Srinagar and Banaili, while the rest of the patni villages belong solely to Srinagar. Of the total area settled, 83 per cent. is held jointly, and 17 per cent. is held solely, by the Srinagar estate. The total Government revenue payable by the estates is Rs. 1,13,138-12-7½. The estates are distributed in five districts and 24 parganas, as follows: the villages in Bhagalpur and Monghyr lying in comparatively compact blocks, while those in the three other districts are much scattered:—

Districts.		Pargana.			Number of villages.
Bhagalpur	1.	Daphar	...	...	94
	2.	Harawat	...	...	1
	3.	Khubkhand	...	...	81
	4.	Uttarkhand	...	...	25
	5.	Nirsingpur	...	...	8
	6.	Chai	...	...	7
Monghyr	7.	Farkya	...	...	124
	8.	Balia	...	...	1
Purnea	9.	Haveli	...	...	42
	10.	Shahpur	...	...	
	11.	Dharampur	...	...	11
	12.	Kadwa	...	...	15
	13.	Tirakhurdah	...	...	26
	14.	Sujanagar	...	...	60

	21.	Bhatiya	...	...	30
	22.	Kotwali	...	...	20
	23.	Mahinagar	...	...	67
	24.	Sujanagar	...	...	4
			Total	...	696

Method of settlement.

6. Two methods of settlement were employed. In the Daphar pargana of Bhagalpur, an entire revision of the rent-roll was made, the land held by each tenant being classified in accordance with a system which had become customary in that pargana. Under the second method, which was adopted for the rest of the tract under settlement, rents were altered under section 52 of the Tenancy Act, according to the increase or decrease of the areas of holdings, an allowance of two cottahs in the bigha being generally made on account of the roughness of the old measurement; enhancement of rent being demanded only when the excess over the old area exceeded this proportion. The settlement in the case of excess areas was largely the result of compromise, but in 22 out of the 29 villages of pargana Akbarabad disputes regarding the length of the *laggi* (or measuring rod) arose. The Settlement Officer held that the *laggi* was one of five cubits, each cubit being of 18 inches, and on appeal this decision was confirmed by the Special Judge. Even then the settlement of these twenty-two villages had generally to be made *ex parte* in the absence of the raiyats, the majority of whom resisted every effort made to induce them to attend.

Increase of rental.

7. The result of the settlement and the subsequent revision is that the total demand as shown in the fictitious rent-roll kept up before the settlement, has been lowered from

Rs. 4,88,715 to Rs. 4,88,532, or by Rs. 183. But this decrease is apparent only, being due not to any actual reduction of rent, but to the settlement of disputes as to existing rates, the effect of which has been to replace a fictitious by a real demand. The net result of the settlement has been a real increase of Rs. 23,850 in the total rental, which is equal to nearly 8 per cent. on the total outlay, including the cost of revision.

The Lieutenant-Governor, however, agrees with the Board in doubting whether the proprietors have received all the increase which they might reasonably have expected, in view of the excess cultivation brought to light, and the fact that the rents now settled will not be liable to enhancement for 15 years

Cost of operations.

8. Government has borne the cost of the traverse survey, which amounts to Rs. 7,220. The net expenditure on cadastral survey and settlement chargeable to the parties according to the final adjustment of accounts accepted by the Accountant-General is Rs. 2,93,897-3-1, which gives an average of annas 10·7 per acre on the area surveyed, and of annas 11·2 per acre on the area settled. It was decided that the raiyats should pay two annas an acre on the area of their holdings, and that the landlords should pay the balance of the costs according to their several interests.

As stated in paragraph 3 of this Resolution, the total cost of the correction of errors by Babu Barhamdeo Narain amounts to Rs. 8,354-9 10. The Lieutenant-Governor is satisfied that in the course of the settlement proceedings every facility was afforded to the Managers of the Srinagar and Banaili estates to bring mistakes to notice and to have them corrected. They did not sufficiently avail themselves of such opportunities, and although there was an interval of upwards of a year between the delivery of the bulk of the records to the landlords' agents and the closing of the settlement office, and a similar interval between the latter and the deputation of Babu Barhamdeo Narain to bring mistakes to light, still the agents were not ready with complete lists of mistakes when the Deputy Collector began the work of revision, and repeated extensions of time had to be granted to them for their preparation, with the result that Babu Barhamdeo Narain's proceedings were unduly prolonged. The Lieutenant-Governor has therefore accepted the Board's recommendation that half the cost of correcting errors should be borne by the two estates, the amount being equally divided between them, as hardly any mistakes have been found in the records of villages belonging exclusively to the Srinagar estate. The other half will be borne by Government.

Realisation of the outstanding balance of cost.

9. When Babu Barhamdeo Narain submitted his supplementary report of 26th March 1892, a sum of Rs. 50,986-5-6 was still outstanding, of which Rs 15,719-14-1 was due from the Srinagar estate, Rs. 34,978-7 from the tenants, and Rs. 288-0-5 from the outside shareholders. In February last Mr. Finucane visited Bhagalpur for the purpose of ascertaining what arrangements had been made by the two estates to maintain the settlement records, and he found then that the amount outstanding against the tenants was still unpaid, and that there was some confusion of accounts between the two estates, one of which had paid too much and the other too little. In accordance with Mr. Finucane's recommendation, Babu Barhamdeo Narain was at once posted to Bhagalpur in the regular line, and ordered to realise the outstanding balances with the aid of the certificate procedure, an establishment of six muharrirs for four months being sanctioned for his assistance. His Honour hopes that the accounts have now been adjusted, and awaits a report from the Board on the subject.

Causes of high cost.

10. The causes which have rendered the settlement expensive and protracted are reported to be—

(1) the scattered nature of the estates;
(2) disputes as to the standards of measurement and as to existing rents;
(3) the large number of objection petitions filed;
(4) the necessity of making a fresh copy of the records for the proprietors;
(5) the remand during 1890 of 14 boundary disputes for retrial; and
(6) the recusancy of the raiyats of pargana Akbarabad, which caused much waste of time in attempts to conciliate them and necessitated the issue of a large number of processes.

Case-work.

11. The principal classes of work under this head were:—

(1) Applications for settlement of fair rents under section 104 of the Tenancy Act 632
(2) Civil suits for decision of claims, under section 106 2,852

Of the fair rent suits five were brought by raiyats for reduction of rent, of which four were successful; the rest were brought by the landlords, and 473 were decided in their favour after contest. The amount of enhanced rent decreed in these cases is not reported. Of the civil suits under section 106, about half were brought by the landlords and half by raiyats, but the information on the subject is scanty. A set of tables was promised by the Settlement Officer shewing the result of these trials, but it has not been sent in. In about 12 per cent. of the contested cases appeals were laid before the Special Judge, and in rather more than half these cases the decisions of the lower Court were upheld.

Classification of settled area and tenants.

12. The total rent-paying area of the estates is 312,981 acres, of which 250,694 acres are cultivated and 62,287 are uncultivated. The area on which no rent is paid amounts to 113,283 acres. The total number of rent-free tenures is 2,445 with an area of 14,421 acres, or nearly 6 acres for each tenure. The tenants of the estates were classified as follows:—

Cultivating tenure-holders	113
Raiyats	60,895
Under-raiyats	11,128
Raiyats holding under cultivating tenure-holders—	
Settled raiyats	1,045
Non-occupancy raiyats	459
Service tenure	1
Total ...	73,641

The 60,895 raiyats are classified as follows:—

Class of Raiyats.	No.	Area.	Average size of holding.	Area for which rent is given in the tabular statement annexed to the Report.*	Rent.	Rate of rent per acre.
1	2	3	4	5	6	7
(1) *Raiyats at fixed rates.*		Acres.	Acres.	Acres.	Rs.	Rs. A. P.
Resident	189	1,271	6·72	.....	...	...
Non-resident ...	149	962	6·44	.....	...	...
Total ...	338	2,233	6·60	2,155	2,176	1 0 1
(2) *Settled raiyats.*						
Resident	31,669	183,020	5·76	.....	...	...
Non-resident ...	21,693	93,824	4 32	.....	...	...
Total ...	53,362	276,844	5·18	275,898	424,654	1 8 7
(3) *Occupancy, but not settled raiyats.*						
Resident	419	2,454	5·85	.....	...	...
Non-resident ...	573	3,618	6·31	.....	...	...
Total ...	992	6,072	6·12	6,060	9,090	1 8 0
(4) *Non-occupancy raiyats.*						
Resident	2,813	5,832	2·10	.....	...	...
Non-resident ...	3,390	8,541	2·51	.....	...	...
Total ...	6,203	14,373	2·31	14,366	20,289	1 6 7

* Rent figures have not been given for pargana Bhoor and Fakrabad in Darbhanga.

About 90 per cent. of the raiyats holding 95·2 per cent. of the raiyati area have occupancy rights. Those holding at fixed rates pay much lower rates of rent than the rest, but there is little difference between the rates paid by the settled and the occupancy raiyats, and the non-occupancy raiyats pay at a lower rate than either of these classes. Transfers of portions of holdings are very common, and are accepted by the landlords. The under-raiyats pay their rents in kind, and are generally liable to ejectment at any time, being little more than the field labourers of wealthy raiyats. The total area held on produce rents is 5,090 acres, or 1·6 of the total rent-paying area.

Size of holdings and rates of rent.

13. Sir Charles Elliott tested the survey and settlement work in two villages near Purnea and inspected some of Mr. Collin's settlement records in April 1891, and was generally pleased with the way in which the latter had been prepared. His Honour expressed some regret that more had not been done in the way of collecting and recording facts and observations illustrating the economic and agricultural conditions under which the tenants lived with whom Mr. Collin had been occupied. He found that Mr. Collin had prepared a brief English report on each village, showing its past history, prevailing tenures, etc., but in addition to this His Honour desired that the final report should deal intelligently and comprehensively with such data as could be extracted from the settlement records. Mr. Collin accordingly gives an interesting analysis of the average size of the holdings and the average rates of rent among the different classes of raiyats in each district in which operations were carried on. The following summary may be quoted from the Report:—

"Taking the general results of this comparison of holdings and rates of rent, it will be seen that the holdings are as a rule large, and that, where the average size of the holding is less than 5 acres, as in the Khubkhand pargana of Bhagalpur, and the Mahinagar pargana of Malda, the condition of the raiyats is not entirely prosperous: but where there are large holdings and low rates, as in Daphar and Tirakhurdah parganas, the raiyats are well to do. The facility with which the raiyats of the Daphar pargana tided over the bad year of 1888, compared with the distress felt in the northern tracts of Darbhanga and Muzaffarpur, confirms this fact. Compared with the results obtained in the Muzaffarpur settlement, the position of raiyats in the estates under settlement is more prosperous than in that district, where the average rate of rent is Rs. 3-12 per acre and the average size of the holding only 3 acres. It is seen also that where soil-rates exist, the average rate of rent is higher than where there are consolidated rents—a fact which follows from the theory that the latter form of rental only exists in tracts where the soil is unfertile, cultivation backward, and the competition for land slight."

The average rate of rents varies in the different districts as follows:—

	Rs.	A.	P.	
Bhagalpur	1	10	2	per acre.
Monghyr	2	3	7	„
Purnea	1	1	2	„
Darbhanga	2	8	1	„
Malda	1	4	8	„

Mr. Collin writes—

"The average rate of rent ascertained in the Muzaffarpur settlement was Rs. 3-12 per acre, while in the Sunkerpur estate of the Dinajpur district the rate is Re. 1-9-3 per acre. It will be seen that the rent rates in the estates are very moderate, and there is no sign of rack-renting. In fact the conditions of the estates are such that it would have been impossible to force up rents in the same way as has been done in Muzaffarpur. The raiyats are, as a rule, aware of their rights, and singularly tenacious of them. They are not subject, as in Bihar, to the attacks of numerous landlords under the system of subdivision of estates. The effect of the lessee system in raising rents has been felt, but not to so great an exent as in Muzaffarpur, chiefly on account of the absence of competition for land. The village system is also in greater force in the estates than in Muzaffarpur, and the raiyats stand by each other in resisting changes of rents. On the other hand, the proprietors appear in past years to have acted reasonably, and to have fostered good relations with their tenants, and the name of Raja Lilanund Singh, father of the present Raja of Banaili, is held in great esteem by the raiyats of the estate."

14. In paragraph 85 of his Report Mr. Collin compares past and settled rentals in a statistical table which may be quoted with the remarks which he adds in explanation:—

Comparison of past and settled rentals

Name of district.	Name of pargana.	Percentage of—		Percentage of—	
		Increase of area	Decrease of area	Increase of rent.	Decrease of rent
1	2	3	4	5	6
Bhagalpur	Daphar ...	21	.....	16	.....
	Harawat ...	4 5	.....	...	.....
	Khubkhand ...	23 9	.....	2·04	.....
	Utterkhand ...	29	.....	7 3	.....
	Nirsingpur ...	10	.....	.....	·3
	Chai ...	17	.....	2 8	.. ...
Monghyr	Farkya ...	2·4	.....	.. ...	4 5
Purnea	Haveli ...	.....	11	.. ...	2 3
	Sahpur ...	6 5	.....	.....	11
	Dhumampur ...	.....	10	.....	16
	Kadwa ...	6·1	.....	1 2	.....
	Tirakhundah ...	20	.....	.....	2 7
	Sujanagar ...	.....	4·7	·3	.....
	Tajpur ...	25	.....	.....	4
	Dehat ...	30	.....	.....	3 8
Darbhanga	Bhaor ...	14	... ..	.....	5
	Fakrabad ...	.....	.....	.....	... ..
Malda	Akbarabad ...	.....	.....	10 7	.. ...
	Bhatiya ...	42	.....	17	.. ...
	Kotwali ...	... ..	.....	.....	2 8
	Mahanagar ...	2	. ...	8 09	.....
	Sujanagar ...	.....	7	.....	19 3
Total ...	.....	8	.....	·11	.....

"From this statement it will be seen that though the areas of holdings have increased by 8, the net increase of rental has only been ·11 per cent. I have in a previous paragraph (paragraph 66) explained that, where there has been a decrease, it is chiefly due to the exclusion of disputed rents. There is a further reason for the decrease in the fact that, in the landlords' rent-rolls, remissions of rents have not been noted when a raiyat has abandoned his holding, while at the same time, if the lands have been resettled with raiyats, the holding has been shown twice, *i.e.*, the abandoned holding is retained and the new holding is entered in the rent-roll."

15. These raiyati holdings are peculiar to the Bhagalpur district, and are prevalent for lands subject to inundation, and where cultivation is precarious along the banks of rivers or on sandy high lands of poor quality. Under the *hulhasili* system a raiyat takes up certain lands for which he pays 4 annas per bigha for the first year, and 12 annas per bigha for the second year, and the full rate (which varies from Re 1-12 to Re 1-4 in different villages) for the third year. Rent, however, is not paid for the whole holding, but only for such lands as are cultivated and sown with a crop. After three years the lands, if they require a rest, are abandoned and new lands taken up. The *jaidadi* tenure differs from the *hulhasili* only in the fact that in the former case the raiyat only pays rent for the land on which a crop is found at harvest time. If the crop of any field is totally lost, the raiyat pays rent for only 2 cottahs or one-tenth per bigha. If the crop has not been injured, the raiyat pays rent on nine-tenths of the area.

Hulhasili and Jaidadi tenures.

16. Mr. Collin gives an interesting account of the cultivation of the mulberry crop, which is grown in parganas Akbarabad, Bhatiya, and Kotwali in the Malda district.

Mulberry crop.

The following table showing the percentage of lands cultivated with this crop is extracted:—

	Total cultivated area in acres.	Percentage of land cultivated with mulberry.
Akbarabad ...	... 7,697	25 per cent.
Bhatiya ...	... 424	39·3 ,,
Kotwali ...	... 892	22·4 ,,

It is stated that, if the season is favourable, half a maund of cocoons will be reared from a bigha of mulberry land at each breeding season, or "bund." The cocoons sell at Rs. 30 to Rs. 35 per maund, so that in a good season the total outturn amounts to Rs. 64 per bigha of 2,500 square yards, the cost of cultivation being Rs. 18 per bigha. The rent is a small item in the cost, being only 10 annas per bigha. The rearing of cocoons is, however, a risky operation, and the "bunds" often fail, especially those of July and September. The best bunds are in December and March. In good seasons the mulberry plant sells at from Re. 1 to Rs. 2 per maund, each bigha producing 10 maunds. Mr. Collin estimates that, taking the average of years, the profits of mulberry cultivation cannot be less than Rs. 25 per bigha of 2,500 square yards, which is equivalent to Rs. 48 per acre.

Maintenance of the records.

17. The enquiry made by Mr. Finucane in February last disclosed that no real attempt was being made to maintain the records and correct the maps. The Manager of the Srinagar estate was absent at Allahabad, but the Manager of the Banaili estate informed him that he was endeavouring to keep up a mutation register, in which it was found that only a small number of mutations relating to transfers by sale had been registered, transfers by succession not being registered at all. Mr. Finucane suggested that copies of the khasra and khatian relating to each village should be given to the patwari, who should be called upon to report the mutations annually in a form devised by him; that an amin should verify the patwari's statements by local enquiry; and that alterations found necessary should be made in the khatians in the tahsil office, or that supplementary khatians should be prepared, under the sub-manager's orders. This and the recording of mutations by sale reported by the purchasers may help to maintain something like a correct record of existing facts, and the Board of Revenue have been requested to submit a report in April 1895, showing what use has been made by the Manager of Mr. Finucane's suggestions.

18. His Honour desires to acknowledge the care and ability with which Mr. Collin conducted the operations entrusted to him. Credit is also due to Babu Barhamdeo Narain for the work done by him under Mr. Collin, and subsequently in connection with the correction of errors in the records.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that a copy be forwarded to the Board of Revenue for information and guidance.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 3rd November, 1894.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
	BENGAL.		
	BURDWAN DIVN.		
1	Burdwan Nov. 3, '94	0·47	Weather—cloudy and rainy. Prospects of *aman* and sugarcane good. *Rabi* crop is likely to be injured by unseasonable rain. Prices of common rice:—
	Kalna ...	1·30	
	Katwa ...	0·03	
	Raniganj ...	0·02	
			Srs.
			Burdwan ... ... 11½ to 18 }
			Kalna ... ... 10 to 14 }
			Katwa ... ... 15½ } per rupee.
			Raniganj ... ... 15 }
2	Birbhum „ 3, '94	0·15	Weather—cloudy and unsettled. Paddy still thriving, and *aus* is being reaped.
	Rampur Hát ...	0·65	It is raining today (3rd), and the rain is doing harm to the *aus*. Sugarcane good in Rampur Hát, but not in Sadar. Cattle doing well.
3	Bankura „ 3, '94	0·82	Weather—fine at first, but stormy latterly. Prospects of winter rice very good. Coarse rice sells at—
			Srs.
			Bankura ... ... 20 }
			Vishnupur ... ... 17½ } per rupee.
4	Midnapore „ 3, '94	1·94	The cold weather seemed to have set in, but there has been heavy rain for the last two days, but no wind. Prospects of *aman dhan* good so far as is at present known. The recent rain has not done material damage. Prices of common rice:—
			Srs.
			Sadar ... ... 14 }
			Contai ... ... 20 }
			Tamluk ... ... 13½ } per rupee.
			Ghatal ... ... 14½ }
5	Hooghly „ 3, '94	4·30	Cold-weather conditions appeared to be established, but since thursday (1st November) wind has been southerly and south-easterly with very heavy rain. All crops have been doing well, but most of them will suffer to some extent, the *rabi* crop particularly, from this heavy rain. Prices of common rice:—
			Srs.
			Sadar ... ... 11 }
			Serampore ... ... 11½ to 12½ } per rupee.
			Jahanabad ... ... 14 }
6	Howrah „ 3, '94	2·50	Weather—cloudy with rain. Prospects of paddy and sugarcane favourable.
	Ulubaria ...	0·10	Prices continue normal. Common rice sells at—
			Srs.
			Howrah ... ... 10 }
			Ulubaria ... ... 11 to 13½ } per rupee.
			Fodder and water-supply sufficient.
	PRESIDENCY DIVN.		
7	24-Parganas „ 3, '94	2·99	Weather—rainy and cloudy in the latter part of the week. Prospects of *aman* crop continue generally favourable. Lands are being prepared for *rabi* crops. Cattle-disease reported from Basirhat. Fodder and water sufficient.
8	Nadia „ 3, '94	2·99	Weather—excessively damp and cloudy. The heavy rain of the last two days
	Kushtia ...	0·55	is not good for the crops, and if it continues damage will be done. Com-
	Meherpur ...	Nil	mon rice averages 13 seers per rupee.
	Chuadanga ...	0·06	
	Ranaghat ...	Nil	
9	Murshidabad „ 3, '94	0·52	Weather—cloudy and rainy. Sowing of indigo and *kalai* nearly finished. The rain has partially damaged the *kalai* plants. Supply of fodder not yet sufficient at Jangipur. Common rice sells at 13 seers per rupee.
10	Jessore „ 3, '94	2·17	Weather—cool and rainy in the latter part of the week. Sowing of winter
	Jhenida ...	Nil	crops retarded by the rain. Prospect of *aman* good. Fodder and water suffi-
	Magura ...	0·05	cient. Prices of common rice:—

	Bangaon ...	0·14	Jessore ... ... 11 to 13 0 }
			Jhenida ... ... 15 0 }
			Magura ... ... 15 8 } per rupee.
			Narail ... ... 14 14 }
			Bangaon ... ... 12 to 16 0 }
11	Khulna „ 3, '94	2·59	Weather—fine and cool for five days: rainy and foul for the last two days.
	Bagerhat ...	0·40	Cultivation of *rabi* continues. Prospects of *aman* have hitherto been
	Satkhira ...	Nil	favourable. The heavy rain of the last two days has properly done good, unless the wind has been too strong. Common rice sells from 11 to 14 seers per rupee. Fodder and water sufficient. No cattle-disease reported.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
RAJSHAHI DIVN.			
12	Rajshahi Nov. 3, '94	0·88	Weather—rainy and unseasonable. The jute and *aus* have given full crops on the whole. The winter rice is flourishing, there having been ample rain. No more rain is wanted, though it is raining heavily now. The *rabi* cultivation will be seriously injured; and lands will have to be resown again. There is no cattle-disease reported. Fodder and drinking water ample. Rice is selling from 11 to 14 seers per rupee.
	Nator ...	0·85	
	Naugaon ...	Nil	
13	Dinajpur „ 3, '94	Nil	Weather—cool and cloudy. *Aman* progressing; cultivation of *rabi* crops going on. Fodder and drinking water sufficient. Rice selling at 12 seers per rupee.
	Thakurgaon ...	Nil	
14	Jalpaiguri „ 3, '94	Nil	Weather—cold; clouds, however, still come up daily. Winter rice crop doing well, and sowing of *rabi* crops is being proceeded with satisfactorily. Price of common rice ranges from 10 to 12 seers per rupee.
15	Darjeeling „ 3, '94	0·06	Weather—cloudy in the early part of the week, bright and cool towards the close. *In the Hills*:—*Aghani dhan*, *bara marua* and *kalai* progressing favourably. Potatoes and *phaphar* in blossom. *In the Terai*:—Paddy ripening. Mustard and potatoes are being sown. Prices of coarse rice:—
	Siliguri ...	0·27	
			Srs.
			Hills ... ... 8 to 10 } per rupee.
			Terai ... ... 10 to 12 }
16	Rangpur „ 3, '94	Nil	Weather—cloudy with slight showers here and there; tolerably cool at night. *Aman* crop doing well. Land is being prepared for tobacco and other cold-weather crops. Some harm has been done by the late heavy showers. Common rice 9 to 10 seers per rupee.
	Gaibanda ...	1·95	
	Karigram ...	2·45	
	Nilphamari ...	0·18	
17	Bogra „ 3, '94	0·20	Weather—rainy and cloudy. Prospects of *aman* favourable, but the continuance of rain that is now falling may affect the outturn. Price of common rice stationary (12 seers to the rupee). Fodder and water sufficient.
	Sherpur ...	Nil	
	Naukhila ...	0·11	
18	Pabna „ 3, '94	1·67	Weather—cool and rainy. Prospects of standing crops good. Sowing of *rabi* continues. Common rice selling at 12 seers per rupee. Fodder and water-supply sufficient.
DACCA DIVN.			
19	Dacca 3, '94	2·83	Cold weather set in, but last three days heavy rain again. Harvesting of *aman* paddy commenced. Prospects good. Ploughing for sowing *rabi* crops going on in some places. Fodder plentiful. Common rice selling from 10 to 16 seers per rupee. No cattle-disease.
20	Mymensingh „ 3, '94	1·81	Weather—cloudy and cool. The river is again rising. Prospects of standing crops good. Common rice sells at 12½ seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.
21	Faridpur „ 3, '94	3·28	Weather—very unsettled with wind and rain; cold. Prospects of crops fair. Reaping of *aman* crop has begun. Winter crops are being sown. Rice 11½ to 16 seers per rupee.
	Goalundo ...	3·15	
	Madaripur ...	0·97	
22	Backergunge „ 3, '94	0·91	Weather rainy and cloudy with occasional winds Prospects of crops good, but the rain and winds may affect the *aman* in places. Price of common rice varies from 9 to 13 seers per rupee. Fodder and water sufficient.
CHITTAGONG DIVN.			
23	Tippera 3, '94	0·25	Weather—seasonable. Prospects of crops excellent. Price of rice falling:—
			Highest—
			Srs. c.
			Kotwali 13 5
			Lowest—
			Chowdagram 23 0
24	Noakhali 3, '94	1·63	Weather—cloudy and rainy. State and prospects of *aman* good. Lands are being prepared for *rabi* crops. No cattle-disease. Fodder and water plentiful. Price of rice per rupee:—
			Aus. *Aman.*
			Srs. Srs.
			Sadar ... ... 18 12 } per rupee.
			Fenny ... ... 20 13 }
25	Chittagong 3, '94	0·07	Weather—hot and cloudy at times. Early *aman* ripening and is being harvested in places. Prospects fair. Water and fodder sufficient. Prices steady.

No.	District and date of return.	Rainfall at Sadar Station in Inches.	Character of the weather and state and prospects of the crops.
	BIHAR.		
	PATNA DIVISION.		
26	Patna Nov. 3, '94	0·04	Cold weather setting in; occasionally cloudy. Prospects of rice continue good. Owing to the late rain *rabi* sowings are very backward. Prices continue normal. Common rice selling at—
	Barh ...	Nil	
	Bihar ...	Nil	
	Dinapur ...	0·5	
			Srs.
			Sadar ... ... 16 }
			Barh ... ... 12½ } per rupee.
			Bihar ... ... 15½ }
			Dinapur ... ... Not reported }
27	Gaya „ 3, '94	Nil	Weather—cloudy towards the end of the week. The late heavy rainfall has damaged *aghani* paddy and retarded the progress of the sowing of *rabi*. The sowing of poppy seeds and the pressing of sugarcane are in progress. Prices of common rice about normal in the Sadar and Jahanabad subdivisions, but a little below the normal in the Nawada and Aurangabad subdivisions. Fodder and water-supply ample.
	Nawada ...	Nil	
	Jahanabad ...	Nil	
	Aurangabad ...	Nil	
28	Shahabad „ 3, '94	0·04	Weather—fine early in week, but has now clouded over again. The prospects of the paddy crop are good, but the rain of the last two weeks has been prejudicial and has retarded the *rabi* sowings which are in progress.
	Buxar ...	0·05	
	Sasaram ...	Nil	
	Bhabua ...	2·32	
29	Saran „ 3, '94	Nil	Weather—seasonable. *Rabi* sowing has commenced. Winter paddy doing well. Fodder and water abundant. Prices of common rice:—
	Chapra ...	Nil	
	Siwan ...	Nil	
	Gopalganj ...	2·80	
			Srs. c.
			Chapra ... ... 15 0 }
			Siwan ... ... 14 13 } per rupee.
			Gopalganj ... ... 15 0 }
30	Champaran „ 3, '94	Nil	Weather—cloudy. Rice crop in good condition. *Rabi* sowings in progress. Sowing of poppy has commenced on a small scale. Common rice selling at 18 seers a rupee. Fodder and water sufficient.
31	Muzaffarpur „ 3, '94	Nil	Weather—clear, but cloudy since last evening. Prospects of rice crop continue favourable. *Rabi* being sown. No cattle-disease. Fodder and water abundant. Common rice selling at 13½ seers and new gúdar (*aus*) 17 seers per rupee.
32	Darbhanga „ 3, '94	Nil	Weather—getting cool. Prospects of *aghani* rice continue favourable. *Rabi* sowings commenced and will do well if weather continues fair. Fodder for cattle plentiful. Common rice selling at 14 seers per rupee.
	BHAGALPUR DIVISION.		
33	Monghyr „ 3, '94	Nil	Weather—cool and cloudy. *Rabi* sowings progressing. Prospect of paddy and chilly good. Sugarcane is being harvested. Fodder and water sufficient. Prices of common rice:—
	Begusarai ...	Nil	
	Jamui ...	0·80	
			Srs. c.
			Sadar ... ... 11 to 16 0 }
			Begusarai ... ... 12 0 } per rupee.
			Jamui ... ... 15 12 }
34	Bhagalpur „ 3, '94	Nil	Weather—fine early in the week, close and cloudy later. Some rain has fallen today (the 3rd). *Aghani* rice has been somewhat injured by rain and *rabi* sowings have been retarded. The extent of sowing of autumn indigo and mustard cannot therefore be reported this week; but much less than the usual area will be sown with mustard. Prices rather higher. Price of common rice 13½ to 21 seers per rupee. Fodder and water sufficient.
	Banka ...	1·68	
	Madhipura ..	Nil	
	Supaul ...	Nil	
35	Purnea „ 3, '94	Nil	Weather—cloudy, cool at night. Rice doing well in ear. No cattle-disease. Rivers continue to fall. Average price of rice 16 seers per rupee.
	Kishanganj ...	Nil	
	Araria ...	0·17	

	No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHAR—*concld.*				
Bhagalpur Divs.—*concld.*	36	Malda Nov. 3, '94	0·85	Weather—cloudy with rain during the latter part of the week; wet for the time of year. Prospects of winter paddy and *kalai* continue favourable, but if this state of weather continues, these crops will suffer. Lands are being prepared for *rabi* crops. Common rice selling from 12 to 18½ seers per rupee. Fodder and water sufficient.
		Chanchal ...	0·09	
		Shibganj ..	0·05	
		Gazole ...	0·16	
	37	Santhal Parganas „ 3, '94	0·23	Weather—is too damp for present agricultural operations. Rice crop is excellent.
		Deoghur ...	0·16	
		Godda ...	Nil	
		Jamtara ...	1·83	
		Pakour ..	0·32	
		Rajmahal ...	Nil	
ORISSA.				
Orissa Divs.	38	Cuttack „ 3, '94	0·83	Weather—cloudy. *Laghu sarad* maturing and in some places being cut. *Garu sarad* in ear. Prospects good except in a small portion of the flooded tract. *Rabi* crops doing well. Condition of cattle good. Fodder sufficient. Common rice sells at— Srs. c. Srs. c. Sadar ... ... 14 7 to 16 7; Jajpur ... ... 11 13 to 15 12; Kendrapara ... ... 11 13 to 17 1; Banki ... ... 14 7 — per rupee.
	39	Balasore „ 3, '94	3·08	Weather—unsettled with heavy rain. Harvesting of early *sarad* is going on. Late *sarad* is doing well. Rice is selling at— Srs. Balasore ... ... 18; Bhadrak ... ... 18; Dhamnagar ... ... 14; Chandbali ... ... 18 — per rupee. Fodder and water for cattle sufficient.
	40	Puri „ 1, '94	0·39	Weather—cloudy with drizzling rain. *Sarad* rice is in ear. *Laghu* rice is being reaped. Ploughing for the *dalua* rice has begun. State of miscellaneous crops good. Rice sells from 13 to 21 seers a rupee.
		Khurda —	0·83	
		Banpur ...	0·12	
CHOTA NAGPUR. *South-West Frontier Agency.*				
Chota Nagpur Divs.	41	Hazaribagh Nov. 3, '94	0·10	Weather—fine for the greater part of the week; disturbed latterly. Sowing of *rabi* crops in progress. Harvesting of paddy has commenced in places, and a 16-anna crop is expected everywhere. All other crops continue to do well. Common rice selling from 12 to 18 seers per rupee. Fodder plentiful.
		Giridi ..	0 24	
	42	Lohardaga „ 3, '94	0·13	Weather—cloudy. Sowing of potatoes continues. Prospect of winter paddy continues good. Common rice selling at 16 seers per rupee. Fodder and water sufficient.
	43	Palamau „ 1, '94	0·09	The weather seemed to have cleared up, but clouds have gathered again, and the cold weather is not yet established. Harvesting of winter rice has commenced in one outpost. Any further fall of rain at present would be harmful both to the winter paddy and the *rabi*. Rice selling from 14 to 25 seers per rupee.
	44	Manbhum „ 3, '94	0·67	Rain yesterday and today (2nd—3rd November). The present rain will injure the *amon dhan* to some extent. Price of common rice 12 to 20 seers per rupee.
		Gobindpur ..	2·15	
	45	Singhbhum „ 3, '94	0·51	Weather—cloudy with drizzling rain. Prospects of crops good. Paddy outturn expected to be 14 to 16 annas. Rice selling at 16 to 20 seers per rupee.

* Mean of 6 days.

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the
The *humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10,
means of the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in ques
stated on in the district sending in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

for the week ending Saturday, the 3rd of November 1894.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. OF WEEK. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	RAINFALL. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th October 1894. Mean for district.	Normal mean.	Variation.	District.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the 6th November* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 3RD OF NOVEMBER 1894.

At the close of the previous week ordinary north-east monsoon conditions appeared to be setting in over Bengal. Light westerly, north-westerly and northerly winds were blowing over the whole province, skies were only lightly to moderately clouded, and rainfall had practically ceased, except for a few local showers in the extreme south of the province. Temperature was low and generally below the normal, and the humidity had decreased and had become fairly low, while pressure was increasing, though it was still in slight defect.

On the 28th of October, or the first day of the present week, a brisk fall of temperature had occurred, and large defects were reported at the northern stations, though excess amounts were registered in the south of the province. Pressure was increasing rapidly, and a steady northerly wind current was reported over the province, and it was again rainless except over Orissa and South-West Bengal. On the 29th conditions were unchanged in Bengal, temperature again fell and was below the normal, skies were almost cloudless, and rainfall was entirely absent, except for one or two local showers in Orissa. In the Bay, however, the first indications of an important change occurred, as pressure fell to the south of Burma and the north-easterly winds blowing at Diamond Island began to strengthen rather rapidly. Indeed it is probable that a barometric depression or storm was forming on this day close to the Andamans or over the Andaman Sea, or it may be even that a depression was crossing into the Andaman Sea from the Gulf of Siam, as was the case three years ago at precisely this season. On the 30th weather continued practically unchanged in Bengal, where temperature was falling, and the whole province was practically rainless. On the other hand the depression in the Bay had developed into a storm, and pressure had fallen moderately at Diamond Island, where wind velocity had increased up to 38 miles an hour at 8 A.M. of that day. On this day the storm centre was probably to the west of the Andamans, and it had probably already commenced a westerly or west-north-westerly movement. On the 31st of October again fine and almost cloudless weather with falling temperature and a practical absence of rain obtained in Bengal. In the Bay the storm had moved in a west-north-westerly direction with moderate rapidity, and its centre was probably almost in the middle of the Bay and in about Latitude 14° N. Judging by the indications at the coast stations, it was now a severe storm, for though the centre was a long distance from the Burma coast, and at perhaps about 450 miles from Diamond Island, the wind velocity at that station for the 24 hours from 8 A.M. of the 30th to the 31st had averaged the large amount of 32 miles an hour. On 1st November the influence of the storm was beginning to extend to Bengal; cloud proportion and humidity were increasing rapidly; showers were also beginning to fall in the south-eastern districts; winds had become part of a large cyclonic circulation and were easterly and north-easterly, and strong winds were commencing at the head of the Bay, while pressure was beginning to fall rapidly in Orissa. Temperature had also begun to increase rapidly as it always does when disturbed weather commences. In the Bay the storm had again advanced, and its centre was apparently in about Latitude 15° or 16° N. and Longitude 84° or 85° E. It had therefore advanced in a north-westerly direction instead of in a west-north-westerly direction as on the previous day. It also, as judged by the coast observation, was still a powerful storm, as at Diamond Island, which must have been about 650 miles from the centre of the storm, the high average wind velocity of 32 miles an hour was still registered. The storm had thus moved in a more northerly direction than on the previous day, and it appeared as if it might recurve without crossing the west coast of the Bay, and this supposition was strengthened by the fact that from 8 A.M. of the 1st to 8 P.M. on the same day the storm made very little forward progress. It usually happens that, when storms are recurving, their rate of advance becomes very slow, and hence it appeared probable that the storm would subsequently move in a northerly and north-north-easterly direction towards the head of the Bay. From 8 P.M. of the 1st, however, the storm again advanced in a north-westerly direction, and it crossed the coast to the south of Coconada and between that station and Masulipatam about 6 A.M. of the 2nd, and at 8 A.M. its centre was near Rajahmundry. In its passage inland it gave much less violent winds than were to be expected from the most definite indications of strength which had been given in the outside area of the storm, and even on the 2nd, when the storm had crossed the Madras Coast, the wind velocity in Burma at Diamond Island averaged the large amount of 26 miles an hour. Hence it was certainly a very large storm, though it does not appear to have concentrated mainly towards its centre as most October and November storms do, and so far there is no evidence of the zone of hurricane winds which usually exists in such storms. On the 2nd the whole of the southern half of Bengal had become largely influenced by the storm, and strong winds forming part of the large cyclonic circulation were blowing at the head of the Bay, and also at some of the inland stations, and indeed the winds over the whole province, were affected by the storm. Skies had become almost overcast, and rain had also recommenced and was general in all divisions except Bihar and parts of Assam. On the 3rd the storm had again moved away in a north-westerly direction and was rapidly filling up. In Bengal, however, winds continued to form part

the cyclonic circulation, and fairly general rain was still being received over a large part of the province, except in Bihar and Assam.

Pressure.—Owing to the formation and advance of the storm in the Bay, pressure has been below the normal in all districts, and the defects have been largest in the south-western districts. Thus the mean pressure for the week has been in defect by about 0·06″ at such stations as False Point, Cuttack, and Balasore, while in the north and north-east of the province of Bengal the defect has equalled only about 0·01″ to 0·02″.

In Assam the defect has been even smaller, and for the week the average pressure has been below the normal by 0·007″ only.

Temperature.—For the first half of the week temperature was below the normal, while in the second half decided excess temperatures were registered. Hence for the week the mean average temperature has not varied much from the normal, and for the whole of Bengal a defect of only 0·3° has been registered. Orissa, which was the division nearest the storm and disturbed weather in the Bay, has indeed shown an excess of 1·3° for the week, while on the other hand a corresponding defect has been registered in Bihar.

In Assam a defect of 0·4° has been registered in the mean temperature.

Rainfall.—Over the greater part of the province rainfall was practically absent until the last two days, when fairly general and in many cases heavy rain was received. In Orissa, on the other hand, rain was received more frequently, and most stations received showers on the first two or three days and the last two or three days of the week. The large average falls of between two and three inches have been received in Orissa and South-West Bengal, while a fall of about an inch and a quarter has been recorded in East Bengal. Over the remainder of the province the falls have averaged from about a quarter to half an inch. The falls have hence been largely in excess in South-West Bengal and Orissa, in moderate excess in North and East Bengal, and about normal in Chota Nagpur and Bihar. The number of rainy days has been in large excess in all divisions, and they have usually been twice or three times as numerous as in ordinary years.

Comparing the actual with the normal falls for the period, and expressing the actual falls as percentage amounts, the falls during the week have equalled the following:—South-West Bengal 700 per cent., North Bengal 320 per cent., East Bengal 174 per cent., Bihar 95 per cent., Orissa 287 per cent, and Chota Nagpur 122 per cent. Taking the various divisions to have an equal value in the calculation, the rainfall of the week may be said to have been equal to 283 per cent. of the normal.

In Assam during the week Silchar has received 0·39 inch of rain, Dhubri no rain at all, and Sibsagar 0·05 inch.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 3rd of November 1894:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th October 1894.

The total fall from 1st January to 3rd November 1894	48·42
The average fall of the corresponding period for 24 years, Surveyor-General's Office	64·93

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning lr. lightning reflection; ≏, dew.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

ADMISSION OF NATIVES OF INDIA TO THE OPIUM DEPARTMENT.

Notification—No. 4990-O, dated 13th November, 1894.

THE Lieutenant-Governor having decided that the native of India of unmixed descent to be admitted to the Opium Department, in accordance with the arrangement by which each fourth appointment to that Department is reserved for such natives, and the next appointment is to be made on his authority, shall be selected by the results of a competitive examination, and not by nomination without examination, it is hereby declared that a competitive examination of native candidates for the Opium Department will be held in March, 1895, at the same time and in the same subjects as the examination prescribed for candidates for the Executive Branch of the Provincial Civil Service and the Subordinate Civil Service. At this examination only such native candidates as have been nominated by His Honour will be permitted to present themselves.

2. Applications for nomination, accompanied by the necessary certificates, must be sent on or before the 1st January next to the Under-Secretary to the Government of Bengal in the Revenue Department. The applications will be submitted to the Lieutenant-Governor, and applicants who may be granted nominations to appear at the examination will receive an intimation to that effect, and will be required to pay a fee of Rs. 20 (payable to the Under-Secretary aforesaid).

3. Each candidate will be required to furnish (*a*) a certificate that he has passed the B.A. Examination of the Calcutta University, or that he has received an education not below the standard of the B.A. Examination; (*b*) a satisfactory certificate of his respectability and good moral character, countersigned by the Magistrate of the district in which the candidate resides, or by the Commissioner of Police or the Chief Presidency Magistrate, if the candidate be a resident of Calcutta; (*c*) a certificate of sound health and good physique and ability to bear fatigue and exposure from the Civil Surgeon of the district in which the candidate resides, or Resident Surgeon or Resident Physician of the Calcutta Medical College Hospital. The fee for medical examination will be Rs. 4; (*d*) a certificate signed by a Magistrate of a district, or in his absence from head-quarters, by the Joint-Magistrate in charge, or the Commissioner or Deputy Commissioner of Police, Calcutta, that he is able to ride and is of active habits; (*e*) a copy of his horoscope, or, in its absence, sufficient evidence as to age.

No person whose age will exceed 25 years on the date of examination will be nominated as a candidate for the Opium Department.

4. The examination will be held in Calcutta, and the date and place of examination will be notified to such candidates as are allowed to present themselves at it.

5. The candidate who obtains the highest aggregate of marks will be admitted to the Opium Department, and will be appointed after the three successful European and Eurasian candidates at the examination to be held in February 1895. Candidates nominated for the Opium Department may at the same time compete for the Executive Branch of the Provincial Service and the Subordinate Civil Service, if they are qualified to do so under the rules for the time being in force for the Examination for the Executive Branch of the Provincial Service and the Subordinate Civil Service, and their failure to be admitted into the Opium Department will not debar them from being admitted into the Executive Branch of the Provincial Service or the Subordinate Civil Service if they are successful at the examination for the latter. In the case of those who desire to compete at both examinations, duplicates of the certificates furnished under Rule 3 (above) will be accepted in the Appointment Department, provided that they meet the requirements of the rules issued by that Department, to which reference should be made.

6 The candidate thus appointed to the Opium Department will be considered a probationer for the first two years of his service. His confirmation in the Department will depend on his passing the Departmental Examination prescribed for officers employed in the Opium Department, on the periodical reports submitted by the Opium Agents showing the industry and intelligence with which he discharges his duties, and on his aptitude for service in the Department as displayed during the period of probation. He will be liable to be removed if he fails to pass all examinations within this period, or if his conduct is unsatisfactory, and he is reported to be unfit for confirmation.

CALCUTTA,
The 13th November 1894.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

FINANCIAL DEPARTMENT.

NOTIFICATION—No. 5840S.R.

GRANT OF LEAVE TO MUNSIF.—*No.* 5324*A.*—*The 10th November* 1894.—Babu Gopal Chandra Bose, Munsif of Mymensingh, is allowed leave for one month, under article 309 of the Civil Service Regulations, with effect from the 7th November 1894, or from any subsequent date on which he may avail himself of it.

No. 4231*J.*—*The 12th November* 1894.—The Lieutenant-Governor accepts the resignation tendered by Babu Hem Gopal Goswami and Maulvi Syed Abdul Majid of their appointments as Honorary Magistrates of the Rampur Hát Independent Bench in the district of Birbhum.

No. 4247*J.*—*The 13th November* 1894.—The Lieutenant-Governor accepts the resignation tendered by Babu Ram Uttum Ghose Chowdhry and Munshi Kaimuddin Ahamed Joardar of their appointments as Honorary Magistrates of the Jhenida Independent Bench in the district of Jessore.

No. 4257*J.*—*The 13th November* 1894.—Babu Purno Chandra Roy Chowdhry is appointed to be an Honorary Magistrate of the Municipal Bench at Taki in the district of the 24-Parganas, and is vested with the powers of a Magistrate of the third class.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

The 12th November 1894.

ESTABLISHMENT.

No. 335.—*Notification.*—Mr. W. B. Gwyther, Executive Engineer, 2nd grade, is, on return from furlough, re-appointed Under-Secretary to this Government in the Roads and Buildings Branch.

RAILWAY.

The 13th November 1894.

No. 337.—*Notification.*—This Department declaration (No. 304, dated 14th November 1893) under section 6 of Act X of 1870, relative to the acquisition of land required by the Assam-Bengal Railway in the Tippera district, for a temporary storeyard in the village of Muradnagar, which was published at page 948, Part I of the *Calcutta Gazette* of the 15th idem, is hereby cancelled.

No. 338.—*Notification.*—Whereas it appears to the Lieutenant-Governor of Bengal that land in the Monghyr, Bhagalpur and Purnea districts is likely to be needed for a public purpose, viz., for a railway from Khagaria to Katihar Junction on the Assam-Bihar Section of the Eastern Bengal State Railway, notice is hereby given to all whom it may concern, that in exercise of the power conferred by section 4 of the Land Acquisition Act I of 1894, the Lieutenant-Governor has authorized the Bengal and North-Western Railway Engineers for the time being engaged on this undertaking to enter upon and survey lands and do all other acts required for the proper execution of their work as provided for or specified in the said section.

The general route taken for the railway will probably be from Khagaria *viâ* Gogri, Madhoava, Toolsipur and Sowra Ghat to Katihar.

LOCAL COMMUNICATIONS.

The 13th November 1894.

No. 339.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for straightening a bend on the 3rd mile of the Bhowaniganj road, in the village of Aojbalia, pargana Bhulua, zilla Noakhali, it is hereby declared that for the above purpose a piece of land measuring, more or less, 14 cottahs and 7 chitaks of standard measurement, bounded on the north and south by the land of Noab Ali Chaukidar, and on the east and west by Bhowaniganj road, is required within the aforesaid village of Aojbalia.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

No. 340.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for straightening a bend on the 9th mile of the Bhowaniganj road, in the village of Chur Matua, pargana Bhulua, zilla Noakhali, it is hereby declared that for the above purpose a piece of land measuring, more or less, 7 cottahs and 5 chitaks of standard measurement, bounded on the north and south by the land of Fuzlur Rohman, and on the east and west by the Bhowaniganj road, is required within the aforesaid village of Chur Matua.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

RAILWAY.

The 13th November 1894.

No. 341.—*Addendum.*—In this Department declaration No. 327, dated the 6th November 1894, published at pages 1128-29, Part I of the *Calcutta Gazette* of the 7th idem, after the words "*in the villages mentioned below*" insert "*in the district of Monghyr.*"

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 9th November 1894.

No. 331.—*Notification.*—Mr. D. B. Horn, Executive Engineer, 1st grade, is, on return from furlough, appointed to be Executive Engineer of the Circular and Eastern Canals Division.

The 10th November 1894.

No. 332.—*Notification.*—In exercise of the powers conferred on him by section 5, Part I of Act III of 1876, the Hon'ble the Lieutenant-Governor of Bengal is pleased to authorise Babu Gopal Ballab Mittra, Sub-Deputy Collector, while in charge of the Revenue Division, Orissa Canals, to discharge all the duties of, and exercise all the powers conferred on, the Deputy Revenue Superintendent under the Water-rate Rules for the Orissa Canals, published in Notification No. 105, dated the 20th July 1880.

No. 333.—*Notification.*—In exercise of the powers conferred on him by section 5, Part I of Act III of 1876, the Hon'ble the Lieutenant-Governor of Bengal is pleased to vest Babu Gopal Ballab Mittra, Sub-Deputy Collector, while in charge of the Revenue Division, Orissa Canals, with the powers of a Canal officer under sections 82 to 85 (inclusive) of Part VII of Act III of 1876, and with the powers of a Collector under section 95 of the same Act.

The 12th November 1894.

No. 334.—*Notification.*—Mr. A. J. Hughes, Superintending Engineer, 1st class, is appointed to be Superintending Engineer of the Orissa Circle.

C. W. ODLING,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT,—BENGAL.

The 13th November 1894.

No. 336.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following amended rule in supersession of the rule now in force in the revised water-rate rules for the Sone Canals :—

Present Rule.	*Proposed Rule.*
56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due, less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.	56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

C. W. ODLING,
Secretary to the Government of Bengal.

[Second Publication]

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

The 6th November 1894.

No. 330.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B. C) of 1876, the Hon'ble the Lieutenant-Governor proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa canals. These rules and rates will supersede those now in force.

C. W. ODLING,
Secy. to the Govt. of Bengal

1. The Divisional Canal Officer is responsible for maintaining the canal in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Collector is responsible, except so far as is otherwise expressly provided, for the assessment and collection of water-rates accruing to Government from the canal.

3 Water shall not be distributed otherwise than on the application of a lessee or to a person in whose favour a provisional license under rule 15 has been issued. Such Application may be made verbally or in writing to any subordinate in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Collector or one of his subordinates verbally, he shall be directed to address himself to an irrigation officer or subordinate. If he makes such an application in writing, his petition shall be forwarded to the Sub-divisional Canal Officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The Divisional Canal Officer shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determine that the whole block shall be irrigable from one outlet or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Divisional and Sub-divisional Canal Officers. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than seven years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 13, for definite parts of a block, under the following conditions:—

I.—Ordinarily the whole irrigable area of any village, so far as situated within the block, must be included in the lease.

II.—When a village is divided by drainage channels into distinct blocks, each block shall be recognized as a separate village for the purpose of this and all other rules under the Irrigation Act.

III.—All leases within one block shall be granted, so that they shall expire on the same date.

IV.—No permit shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which in the opinion of the Subdivisional Canal Officer will deliver water without waste across the unleased area.

8. The rates to be charged for water supplied on a long term lease between the 16th of June and the 30th November, whether by flow or lift, to lessees on application shall be—

I.—For a term of seven years—Re. 1-8 per *man* for each season.

II.—For water supplied on a provisional license for which a permit for a term of years is not subsequently issued, Rs. 3 per *man*.

III.—Provided that the leases, whether new or renewals, required for shorter terms than seven years in order to develop the system of blocks as explained above, Rule 7-III, shall be charged Re. 1-8 per *man* only.

IV.—*Beali* lands included in a long lease are not exempted from assessment, but no charge will be made for water supplied to them in the *rabi* season. No special arrangements to supply water will, however, be made.

V.—Lowlying lands forming part of the rice cultivated area of a village which do not ordinarily benefit by canal water, though requiring irrigation in years of drought, will be charged at one-third of the usual rate, *i.e.*, at eight annas per *man* for each season. Lands which never under any circumstances require water will be altogether excluded from the lease.

9. The rates for water supplied otherwise than on a lease for a term of years are those detailed in schedule I.

10. For the unauthorized use of canal water a rate of Rs. 5 per *man* or such less rate as may be sanctioned by the Divisional Canal Officer, shall be charged.

11. Application for water-leases under section 74 of the Act shall be presented to the Subdivisional Canal Officer of the division in which the applicant's land lies.

12. Every application for a permit for a term of years shall be in the form Appendix I to these rules, provided that a provisional license may be granted, where water is urgently required, on an application in the form Appendix II. Application for a season lease shall be in the form Appendix III.

13. A separate application must be presented for each village, but *tehalalanda* or other lands lying within the village boundary at the time of survey may be included.

14. Before a permit for a term of years is granted, the written consent of the Divisional Canal Officer shall be obtained, but permits for one year only and provisional licenses may be issued with the written assent of the Subdivisional Canal Officer. Subject to the above conditions permits may be issued by *zilladars* under the orders of the Deputy Collector. A copy of the permit shall on the day of issue be forwarded to the Deputy Collector for transmission to the Divisional Canal Officer.

Existing leases may, with the written consent of the Divisional Canal Officer, be extended for not more three years, without enquiry or re-measurement, payments being made in accordance with the existing assessment, modified if necessary in accordance with rules 3, 4, and 5.

15. When a water-lease is granted, a permit shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act. Pending the completion of a lease, the zilladar may, with the written consent of the Subdivisional Canal Officer, issue a provisional license for the supply of water to an area covered by an application.

16. The Subdivisional Canal Officer is authorized to supply water for seed beds in a long term lease before the 20th June, if a supply of water is available in the canal.

17. When it comes to the knowledge of the Subdivisional Canal Officer, that canal water has been taken without authority, he shall hold a local investigation and transmit the record thereof to the Divisional Canal Officer. Separate proceedings shall be taken in the case of each village irrigated without authority.

18. On receipt of the record mentioned in Rule 17, and after hearing any objection which may be raised, the Divisional Canal Officer shall determine whether water-rates can be legally charged, and if so, he shall proceed to assess, at the rate provided in rule 10, the land irrigated without authority.

19. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and signature of the Deputy Collector in such form as shall from time to time be sanctioned by the Lieutenant Governor. Persons charged under rule 10 or 18 shall be served, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 91 of the Act, if they desire to do so.

20. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer, with the concurrence of the Collector, to direct that the lease shall be cancelled with effect from the 1st of June next following.

21. The rates for water supplied from June to November shall in each season fall due and shall be paid on the 1st February following, but the Subdivisional Canal Officer may require one-half of the rates due on applications filed after the 1st of September to be paid in advance, and may refuse to issue a permit for more than one year. The rates for water supplied at other times shall be paid on the dates mentioned in schedule I.

22. Water-rates imposed under rule 10 or 18 shall fall due as soon as the assessment is made, and shall be realized at once.

23. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Deputy Collector to—

I.—Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially so ordered, unless half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any five years lease if on the 1st of June of any year water-rates to the extent of half the demand for one year are in arrears.

24. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Deputy Collector for—

I.—Errors in the assessment of rates,

and by the Divisional Canal Officer for—

II.—Injury to the crop on a leased area caused by deficient supply of water, provided a written application for remission has been made 15 days at least before the crop is cut.

25. The Divisional Canal Officer may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

26. The Divisional Canal Officer may commute rates charged under rules 10 and 18 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question

27. Remissions on other grounds than the above require the sanction of Government.

28. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

29. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

30. The chowkidar of any village in which lands are leased for a term of years shall be entitled to a remission of water-rates included in his *jaghir* provided he gives efficient and willing assistance to the canal officers in respect to the following matters—

I.—In the preparation of applications for leases.

II.—In the measurements of irrigated lands.

III.—In giving the names of the occupiers of the various fields.

IV.—In receiving demand statements and informing the cultivators of the demands against them.

V.—In receiving *tappas* from the silladars and distributing them.

VI.—In being present when complaints are investigated by Canal Officers and giving information regarding the matters under investigation.

VII.—In reporting to the silladars any mutations in holdings of persons who have signed a lease for a term of years.

31. Tanks may be filled with canal water without charge wherever water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage, or is liable to overflow from the accumulation of water from natural causes

IV.—No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of the above rules.

32. No person shall without the permission in writing of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass on or across any of the works, banks or channels of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

33. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

34. Except as provided in the Act and in these rules no appeal shall lie from any order passed by a Canal Officer; but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers

35. In appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 19, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings in the case.

SCHEDULE I.

Rates to be charged for water supplied from the Orissa Canals on leases otherwise than on a lease for a term of years.

		Rate, flow or lift, per *man*. Rs. A. P.
I.	For water supplied for the irrigation of rice between the 16th of June and the 30th November ...	3 0 0
II.	For water supplied for the irrigation of *dalua* rice ...	1 8 0
III.	For water supplied for the irrigation of cotton, tobacco, *huldi*, ginger, wheat, vegetables, indigo, and garden produce	1 8 0
IV.	For water supplied for the irrigation of linseed, oil-seed, and all pulses	1 0 0
V.	For water supplied for the irrigation of sugarcane ...	5 0 0
VI.	The charge for filling tanks or for water used for manufacturing purposes is Re. 1 per 10,000 cubic feet of water supplied, and the same charge will be made if water is taken into a tank without authority or if used in an unauthorized manner.	

NOTE I.—Fractions of a goont will in all cases be charged as a *goont*.

NOTE II.—Water-rates due under item I shall be paid on or before the 1st of February, under items II and IV on or before the 1st of June, under items III and IV on or before the 1st of April, and under item VI one moiety before the water is supplied, and the other moiety within 15 days of the water being supplied.

APPENDIX I.

Application for a long term lease. Rate per man Re. 1-8, *Dhooya lands per man As.* 8. *Water to be supplied each year from the 16th June to the 30th November only, fractions of a goont to be charged as a goont.*

WE the undermentioned cultivators of mauza , pargana , submit this application for the supply of water from the distributary of the canal for a term of years, commencing on the 16th June 18 , and ending on the 30th November 18 . We agree to pay water-rates as may be determined by the Canal Officer at the rates mentioned above on all rice lands which may, on enquiry, be found to be irrigable in mauza The amount thus assessed will be paid to the Deputy Collector, according to demand statements which may be issued in our names, on or before the 1st of February each year. We appoint , of mauza , pargana collect and pay the water-rate assessed on us. We agree to be bound by all rules which are passed by the Lieutenant-Governor of Bengal under the Irrigation Act, and to keep in proper order the ridges on our lands, so that no water may pass into unleased areas.

APPENDIX II.

Application for granting water prior to issue of permit.

WE, the principal cultivators of mauza pargana , on our own behalf and that of the other cultivators of the mauza, hereby certify that we have presented an application for the execution of a seven-year lease of all the irrigable land in mauza in area about *mans*.

To enable us to obtain water before the regular permit is issued, we severally and jointly bind ourselves to pay water rates for the whole area which on measurement shall be found to included in the block. The water rate will be Re. 1-8 per *man*, but in the event of a seven-year lease not being concluded, Rs. 3 per *man* will be charged and paid by us on or before the 1st February next.

In token of our obligation in this agreement we have annexed our signatures below

Dated 18

APPENDIX III.

Application for a season lease, kharif, rabi or sugarcane.

1. We, whose names are attached, cultivators of mauza , pargana , apply for water to be supplied from the distributary of the canal, for the irrigation of the areas named below.

2. The approximate areas to be irrigated by each cultivator is stated in the schedule following, but each of us agree to pay water-rates at the rate of Rs.———per *mán* on the area found to be in his occupation by measurement, with the proviso that only areas actually irrigated will be charged, fractions of a *goont* being charged as a *goont*.

3. We agree to prevent water being wasted or used in an unauthorized manner, and to abide by all the rules passed by the Lieutenant-Governor of Bengal under the Irrigation Act.

4. We agree to pay the water-rates due on this application on the———of———

Name of cultivator.	Description of crop.	Area more or less to be irrigated on máns and goonts.	Signature of cultivator.	Area found on measurement.		
				Máns.	Goonts.	Biswas.

D. COMINS, *Surgeon-Major,*
For Inspector-General of Jails, Bengal.

HIGH COURT NOTICES.

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CIVIL.

Rule No. 7 dated the 27th October 1894.

1. After the *3rd* clause of sub-rule (5) of Rule I at page 379, Chapter VII of the General Rules and Circular Orders (Civil), insert the following:—

4th.—Any person at present enrolled and practising as a Mukhtar in the High Court, Appellate Side, may practise, that is, act as a Mukhtar in the Civil Courts subordinate to the High Court, but not in the Criminal Courts, provided that his functions, powers and duties in such Courts shall be restricted to those enumerated in Rule 5A. at page 391, *infra*.

2. After Rule 5 at page 391, *ibid*, insert the following:—

5A. [*Rules as to the functions, etc., of Mukhtars of the High Court practising in Civil Courts subordinate to the High Court, section* 11, *Act XVIII of* 1879—*Rule No. 7 of October* 1894.]

(1) The following are the functions, powers and duties of Mukhtars of the High Court practising in Civil Courts subordinate to the High Court, subject to the instructions of their client:—

To communicate with his client.	
To instruct Advocates, Vakils, Pleaders, or Attorneys during the trial of the client's case.	
To make such applications as can be made to an Officer of the Court, but not to the Court itself, provided that he shall not be entitled to apply to inspect records.	
To pay money into, or deposit money in, Court, and, where specially empowered by his *mukhtarnama*, to receive and give receipts for payment of money out of Court.	(*Sections* 160, 162, 257, 306, 307, 339, 376, 379 *(and generally)* 549 *of the Code of Civil Procedure.*)
To deposit security when required under section 549 of the Code of Civil Procedure.	
To apply for copies of any paper from the record of any case and receive them after paying fees.	
To identify persons before the Court Officers.	
To communicate with the Court Officers for information regarding any case.	

(2) The instructions contained in Rule 5, clause (3), page 390, *supra.*, shall also apply to Mukhtars of the High Court practising in Civil Courts subordinate to the High Court.

Published in the *Calcutta Gazette* of the 26th September 1894, Part I, pages 1011 and 1012, and in the *Assam Gazette* of the 29th *idem*, Part III, pages 934 and 935.

Sheriff's Office, the 19th September 1894.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1894 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the 5th day of December next, at 11 o'clock in the forenoon, and so on from day to day, until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

E. TRELAWNY, *Sheriff.*

COMMR'S. OFFICE, PRESY. DIV., CALCUTTA, *the 5th November* 1894.

EDUCATION DEPARTMENT, BENGAL.

Calcutta University Notice.

HIS EXCELLENCY the Chancellor has decided to allow the Masters or holders of higher degrees in some Faculty and Bachelors of Arts *who graduated before the year* 1867, to fill up three vacancies in the Senate by election. Candidates for election must be Masters or holders of higher degrees in some Faculty or holders of the degree of Bachelor of Arts who took that degree before the year 1867.

The election will take place at the Senate House, College Square, on Tuesday, the 1st January 1895.

Every candidate for election must be nominated by a graduate holding one of the above-named degrees, and no graduate will be allowed to nominate more than one candidate. The written nominations of candidates must reach the office of the Registrar not later than the 9th December.

On and after the 16th December, voting papers containing the names of the candidates nominated will be supplied on application by the Registrar. These papers must be filled up in the presence of the Registrar at the Senate House on the 1st January 1895, between the hours of 10 A.M. and 5 P.M., but graduates who are not able to appear in person before the Registrar may fill up the papers in the presence of a Magistrate, by whom the papers will be countersigned. All such voting papers must reach the Registrar not later than 3 P.M. on Tuesday, the 1st January 1895, after which no voting paper will be accepted. Graduates who are not personally known to the officer in whose presence the voting papers are filled up, must bring with them their diplomas, or other satisfactory proof of identity.

SENATE HOUSE;
The 10th November 1894.

W. GRIFFITHS,
Registrar.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

A.—The following changes in the Rules and Regulations of the Calcutta University have been adopted by the Senate and approved by His Excellency the Governor-General in Council :—

(*i*) The following are the revised rules for the recognition of schools :—

Rules for the recognition of schools.

1. Before any school is allowed to send up candidates to the Entrance Examination, it must be recognised by the Syndicate as a High School. Applications for the recognition of schools must be addressed to the Syndicate through the Registrar.

2. In the case of a Government school, application must be made by the Inspector of Schools, or other chief educational authority of the division in which the school is situated.

In the case of any other school, application must be made by the chief controlling authority of the school.

3. The application must contain—

(*a*) The constitution of the managing body, and names of its members.

(*b*) The number, names and qualifications of the teachers whom it is proposed to appoint.

(*c*) The scale of fees to be charged.

4. The Syndicate may call for any further information, including information as to the situation and sanitary condition of the school, and suitability of the rooms used as class-rooms, and may, if considered necessary, require the managers to furnish satisfactory guarantees that the school will be maintained on the proposed scale for five years.

5. It shall be in the power of the Syndicate to refuse to recognise any school unless it is certified by a Government Inspector of Schools as having been in existence since the 1st of July next preceding the examination, and as qualified to teach up to the Entrance standard.

6. The Syndicate may refuse to recognise any school that appears to be from any cause injurious to the interests of sound education and discipline, and may cease to recognise any school that shows year after year bad results.

The above rules come into force at once.

(*ii*).—In the first foot-note in page 86 of the University Calendar for 1894 (Appendix A), the words "It is in the power of the Syndicate to refuse to recognise any school unless it is certified by a Government Inspector of Schools as having been in existence since the 1st of July next preceding the examination, and as qualified to teach up to the Entrance Standard. The Syndicate may also refuse to recognise any school that shows year after year bad results, or which appears to the Syndicate to be from any cause injurious to the interests of sound education and discipline;" and the first foot-note in page 101 of the same calendar have been omitted.

The above omissions come into effect at once.

(*iii*).—In the Regulations for the Examination for Honours in Law (page 49, Calendar for 1894), for paragraphs 6 and 7 the following has been substituted :—

"6. Candidates for Honours in Law shall be examined in the following subjects :—

1.	Jurisprudence.	
2.	Principles of Legislation.	
3.	International Law, Public and Private.	
4.	Roman Law.	
5.	Hindu Law.	
6.	Muhammadan Law.	
7.	The Land Law of Bengal.	
8.	The Law of Limitation and Prescription.	As administered in British India.
9.	The Law relating to the Transfer of Immoveable Property.	
10.	The Law of Succession to the Property of Deceased Persons.	
11.	The Law of Trusts including the Law relating to Endowments.	
12.	The Law of Contracts and Torts.	

7. Eight papers shall be set at the examination, and shall be distributed among the subjects as follows :—

1. Subjects 1 and 2.	5. Subjects 7 and 8.
2. Subjects 3 and 4.	6. Subject 9.
3. Subject 5.	7. Subjects 10 and 11.
4. Subject 6.	8. Subject 12.

There shall be a *viva voce* examination of each candidate if the Examiners think fit."

The above change will come into force at the examination in 1896.

(*iv*).—For paragraph 8 of the M. A. Regulations (Calendar for 1894, p. 44), the following has been substituted :—

"Candidates in Mathematics shall be allowed to select alternatively one of the following groups of subjects :—

(A). Pure Mathematics as principal subject with Mixed Mathematics as subsidiary subject.

(B). Mixed Mathematics as principal subject with Pure Mathematics as subsidiary subject.

Candidates who select group (A) shall be examined in the following subjects:—

1. Algebra.
2. Trigonometry, Plane and Spherical.
3. Theory of Equations.
4. Analytical Plane Geometry, including the Higher Plane Curves.
5. Analytical Solid Geometry.
6. Differential Calculus
7. Integral Calculus, including the elements of the Calculus of Variations.
8. Differential Equations.
9. Analytical Statics.
10. Dynamics of a Particle.
11. Hydrostatics and Elementary Hydrokinetics.
12. Newton's Principia, Sections I, II, III.
13. Astronomy.

Candidates who select group (B) shall be examined in the following subjects:—

1. Analytical Plane Geometry.
2. Analytical Solid Geometry.
3. Differential Calculus.
4. Integral Calculus, including the elements of the Calculus of Variations.
5. Analytical Statics.
6. Dynamics of a Particle.
7. Rigid Dynamics.
8. Hydro-mechanics, including the elements of the Theory of Sound.
9. Astronomy.
10. Newton's Principia, Sections I, II, III, IX, XI.

Candidates shall be required to possess a knowledge of so much of the Theory of Equations, Differential Equations, Spherical Trigonometry and Geometrical Optics as is necessary to understand the subjects in group (B)."

The above change will come into force at the examination in 1896.

(*v*).—In paragraph 7 of the B. A. Regulations, under the heading "B. II. Mathematics" (Calendar for 1894, p. 36) the words "Descriptive Astronomy" have been added.

The above change will come into force at the Examination in 1897.

(*vi*).—The following foot-note referring specially to the 66 per cent. rule has been added to the second sentence of the second paragraph and to the proviso as to attendance in the fourth sentence of the fourth paragraph of the F. A. Regulations, and to the second sentence of the second paragraph, and to the proviso as to attendance in the fourth sentence of the fifth paragraph of the B. A. Regulations (Calendar for 1894, pp. 29, 30, 33 and 34):—

'The Syndicate have power to make exceptions to this rule.'

The above change comes into force at once.

B.—The following books and Acts are recommended for the examination for Honours in Law, 1896:—

1.—*Jurisprudence.*

Austin	...	... Jurisprudence.
Maine	...	... Village Communities; Early History of Institutions; Early Law and Custom.

2.—*Principles of Legislation.*

Bentham	...	... Theory of Legislation.

3.—*International Law, Public and Private.*

Hall	...	... International Law.
Foote	...	... Private International Jurisprudence.

4.—*Roman Law.*

Justinian	...	... Institutes (translated by Sandars).

5.—*Hindu Law.*

Manu	...	... Institutes.	
Yajnavalkya	..	... Institutes.	
Vijnaneswara	..	... Mitakshara.	The portions relating to inheritance and partition.
Vachaspati Misra		... Vivadachintamani.	
Nilkantha	...	.. Vyavahara Mayukha	
Debananda Bhatta		... Smriti Chandrika.	
Jimuta Vahana	...	... Dayabhaga.	
Nanda Pandita	...	... Dattaka Mimansa.	
Kuvera	...	... Dattaka Chandrika.	
Mayne	...	... Hindu Law and Usage.	

6.—*Mahomedan Law.*

Serajudin	...	... Al Sirajiya.
Baillie	...	... Digest of Mahomedan Law (Sunni and Shia).
Ameer Ali	...	... Mahomedan Law, vols. 1 and 2.

7.—*The Law relating to the Transfer of Immoveable Property.*

Dart...	...	... Law of Vendors and Purchasers.

The Transfer of Property Act.

8.—*The Land-Law of Bengal.*

Field	...	... Introduction to the Regulations of the Bengal Code; Landholding, Chapters 18—23, 25, 27—30.

The Bengal Tenancy Act.

9.—*The Law of Limitation and Prescription.*

Gale	...	... Law of Easements.

The Limitation Act.

10.—*The Law of Succession to the Property of Deceased Persons.*

Theobald	...	... Law of Wills.

The Indian Succession Act.
The Hindu Wills Act.
The Probate Act.

11.—*The Law of Trusts, including the Law relating to Endowments.*

Lewin	...	... Law of Trusts.
Agnew	...	... Law of Trusts (Tagore Law Lectures, 1881).

12.—*The Law of Contracts and Torts.*

Pollock	...	... Principles of Contract; Law of Torts.
Fry ...	...	... Specific Performance.

The Contract Act.
The Negotiable Instruments Act.
The Specific Relief Act.

N.B.—Candidates shall be expected to possess a knowledge of leading cases, English and Indian, bearing on the subjects of examination.

C.—The following text-books have been prescribed for candidates in Mathematics for the M. A. examination in 1896 who take up group (A) :—

Chrystal	...	... Algebra, Part II, Chapters XXIII—XXVIII, XXXII, XXXV.
Hobson	...	... Plane Trigonometry.
Casey	...	... Spherical Trigonometry.
Burnside and Panton		... Theory of Equations (3rd Edition).
Salmon	...	... Conic Sections.
Salmon	...	... Higher Plane Curves, Chapters I—V, omitting Section V.
Salmon	...	... Geometry of Three Dimensions, the Course selected by Dr. Salmon for Junior Readers.
Williamson	...	... Differential Calculus (8th Edition).
Williamson	...	... Integral Calculus (6th Edition).
Johnson	...	... Differential Equations.
Todhunter	...	... Analytical Statics, Ed. Everett.
Williamson and Tarleton		... Dynamics (2nd Edition), Chapters I—VIII.
Minchin	...	... Hydrostatics and Elementary Hydrokinetics, omitting Chapter VIII.
Newton	...	... Principia, Sections I, II, III.
Godfray	...	... Astronomy.

D.—The following text-books have been prescribed for candidates in Mathematics for the M.A. examination in 1896, who take up group (B) :—

Salmon	...	... Conic Sections, Chaps. I—XIII.
Smith	...	... Solid Geometry, omitting Chaps. VII and IX.
Williamson	...	... Differential Calculus (8th Edition).
Williamson	...	... Integral Calculus (6th Edition), omitting Chap. XII.
Minchin	...	... Statics (4th Edition), omitting Chap. XIV.
Williamson and Tarleton		... Dynamics (2nd Edition), omitting Chap. XIV.
Besant	...	... Hydro-mechanics, Part I (Hydro-statics).
Basset	...	... Elementary Treatise on Hydro-dynamics and Sound.
Godfray	...	... Astronomy.
Newton	...	... Principia, Sections, I, II, III, IX, XI.

E.—The following text-book has been added to the text-books in Mathematics prescribed for the B.A. Examination, 1897 :—

Lockyer	...	... Elementary Lessons in Astronomy, omitting Arts. 38-46, 48-59, 123, 352-356, 372, 373, 388-395, 427-431, 456-486, 496-535, 551, 567-598, 619-667, and the Appendix.

W. GRIFFITHS,
Registrar.

SENATE HOUSE,
The 10th November 1894.

Calcutta University Notice.

BABU SARADA CHURN MITRA, M.A., B.L., Tagore Law Professor for 1894-95, will commence his Lectures on the Land Law of Bengal at the Presidency College, on Saturday, the 24th November, at 3 P.M.

The Lectures will be continued on Saturdays, subject to possible alterations on particular occasions, of which due notice will be given.

SENATE HOUSE; *The 10th November* 1894.

W. GRIFFITHS, *Registrar.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1991B.

NOTICE is hereby given that the Twelfth Sale of Opium, the Provision of 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 3rd December 1894, at 11 A.M., and will comprise 3,105 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory	1,510
Ditto ditto at the Ghazipur Factory	1,595
Total ...	3,105

2nd.—The general conditions of the sale now advertized will be the same as usual. They may be ascertained by reference to the Notification issued on the 25th November 1893 and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th December 1894 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 1-30 P.M. of Saturday, the 8th December 1894, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 18th December 1894.

By order of the Board of Revenue, L.P.,
N. K. BOSE, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 30th October* 1894.

THE following revised notification should be substituted for the notification of the same date published at page 1021, Part I, of the *Calcutta Gazette* of the 26th September 1894.

N. K. BOSE, *Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 30th October* 1894.

NOTIFICATION.

The 25th September 1894.—In supersession of the rules made under the provisions of section 75 of the Sea Customs Act, VIII of 1878, and published under notification of the 2nd March 1887, at page 149, Part I of the *Calcutta Gazette* of the 9th idem, the following rules are notified under the said section. The fee to be charged under rule 6 has been sanctioned by the Lieutenant-Governor—

Passing of passenger's baggage.

1. Baggage includes all packages imported by a passenger for his own use or that of his family, which are not part of the cargo and are not manifested.

Baggage is not exempt from duty except under the circumstances mentioned below.

2. Baggage is exempt from duty only when it consists of articles free from duty or of *bond fide* wearing apparel and other articles of personal use, the property of the person whose baggage is being passed, or of any members of his family such as are in actual use at time of importation, or have been actually in use previously. It is in the discretion of the proper officer of Customs to determine, subject to the above rules, whether any goods shall be treated as baggage exempt from duty, or as goods liable to duty.

3. In Calcutta baggage officers will examine on board only such free baggage, not contained in soldered or nailed-down cases, as the passenger offers for examination; all other baggage will be sent to the baggage shed at the jetties in the case of vessels lying at the jetties; at the close of the day on which the vessel arrives, baggage landed from her will be sent to the Custom House. In the case of other vessels, baggage will be sent direct to the Custom House if unexamined.

4. It is optional with the proper officer of Customs to allow the cases of persons about to proceed up-country immediately to be passed without being opened. This discretion will never be exercised except on personal application of the owner of the baggage, or his or her representative: a detailed statement of contents and value, signed by the owner, must always accompany the application.

5. The Preventive officer should report at once whenever he detains any dutiable articles in order that a peon may be deputed to convey them to the Custom House.

6. A landing fee of eight annas per pack go will be charged on goods sent into the Custom House.

7. Preventive officers will, as far as practicable, see baggage put over the ship's side immediately after examination.

8. Preventive officers posted to passenger vessels are directed to land, with as little delay as possible, all baggage intended for the Custom House or import shed.

9. Preventive officers are not authorised to pass passengers' baggage after it has been placed in the jetty shed.

10. Officers are authorised to pass from on board all firearms in reasonable quantities and other dutiable goods belonging to passengers from a British Indian port, upon signature of the following declaration, reporting the number and nature of the articles so passed:—

"I hereby declare that my baggage includes no firearms or other dutiable articles belonging to a passenger from a foreign port, that is, from a port other than a British Indian port."

Name_____

Address_____

The above order does not apply to ammunition, which Preventive officers are not authorised to pass.

11. They are further authorized to pass from on board ship, reporting having done so, (1) uniform and accoutrements belonging to a public servant for his personal use, (2) arms forming part of the equipment of an officer entitled to wear diplomatic, military or police uniform, &c., upon signature of the following declaration:—

"I hereby declare I am a officer serving in India."

12. Passengers' baggage need not be detained owing to arms and ammunition or other dutiable articles being found in their boxes, unless they have in any way attempted to conceal them: in such cases the articles should not be passed.

13. Shipping bills are not required for the shipment of *bonâ fide* passengers' baggage.

14. Preventive officers should examine baggage brought for shipment to China, the Straits, Mauritius and Ceylon, and should report for orders any case in which they have good reasons to suppose that baggage for other ports contain dutiable or contraband articles.

15. Passengers are allowed to embark and disembark at Diamond Harbour.

(*a*) It will be the duty of the Preventive officer in charge of the station to see that neither opium nor ganja is taken on board of outward-bound vessels.

(*b*) Passengers landing at Diamond Harbour may be allowed to take their open baggage containing free articles only. Passengers desirous of leaving inward-bound vessels with the intention of embarking on board outward-bound ones will not be permitted to take with them any other than personal baggage, which must be examined in the usual way.

(*c*) No nailed-down packages, arms, ammunition, spirits or dutiable articles of any kind will be allowed to be transhipped. Any articles transhipped in defiance of this order will be seized and detained.

By order of the Board of Revenue, L.P.,
N. K. BOSE, *Offg. Secretary.*

(729—1)

The Bengal Coal Company, "Limited."

PROCEEDINGS of the Extraordinary General Meeting of the Shareholders of the Bengal Coal Company, "Limited," held in terms of the Articles of Association of the Company, and in pursuance of advertisement, at the Registered Office of the Company, No. 10-1, Old Court House Street, Calcutta, at noon, on Friday, the 9th November 1894.

PRESENT:

F. E. Patteson, Esq.,	Chairman.
A. S. Gladstone, Esq.	
W. J. M. McCaw, Esq.	
S. Bailey Wells, Esq.	
P. B. Baker, Esq.	By their Attorney,
R. D. D. Massey, Esq.	G. Ward, Esq.
E. L. Hamilton, Esq.	By his Attorney, F. E. Patteson, Esq.
J. N. Bullen, Esq.	By his Attorney, W. J. M. McCaw, Esq.
The Marquis of Lansdowne, K.C.	By their Attorney, A. S. Gladstone, Esq.
Rev. H. O. Moore	
Sir F. Pollock	
H. Berners, Esq.	By their Attorney, D. Cruickshank, Esq.
Ditto (Trust Estate.)	
R. V. Doyne, Esq.	
Mrs. E. C. Fagan	
Captain P. U. W. Vigors.	

Represented by Proxy:—

Colonel J. C. Brooke.	Dr. W. R. Rice.
A. B. Miller, Esq.	Genl. Sir C. J. S. Gough.
Sir Stuart Hogg.	J. D. Maxwell, Esq.
Samuel Gowan Esq.	Mrs. E. Dicken.
Mrs. E. L. Forbes Smith.	„ C. M. Spottiswoode.
	The Countess of Lovelace.
Mrs. L. K. Froom.	R. K. Williams, Esq.

The advertisement under which the Meeting was held having been read, the following Resolution was proposed and carried unanimously:—

Proposed by F. E. Patteson, Esq.,
Seconded by W. J. M. McCaw, Esq.—

That in view of the fact that a number of the English Shareholders have called for further information regarding the reasons which have induced the Directors to draw up the Resolutions which have been circulated to the Shareholders, it is hereby resolved that this meeting be adjourned for six months to allow the Directors to furnish English Shareholders with the information called for.

With a vote of thanks to the Chair the Meeting separated.

(733—1) F. E. PATTESON, Chairman.

The Indian Terai Tea Company, "Limited."

NOTICE is hereby given that an Extraordinary General Meeting of the Indian Terai Tea Company, "Limited," will be held at the Registered Office of the Company, No. 4, Mangoe Lane, in the town of Calcutta, on Saturday, the 24th day of November 1894, at 10 o'clock, A.M., for the purpose of considering and, if deemed expedient, passing the following extraordinary resolution, that is to say:—"That it has been proved to the satisfaction of this Meeting that the Company cannot, by reason of its liabilities, continue its business, and that it is advisable to wind up the same, and accordingly that the Company be wound up voluntarily."

Should the resolution be passed, a further resolution will be proposed at the same Meeting for the appointment of a liquidator or liquidators for the purposes of such winding up and fixing his or their remuneration.

WILLIAMSON MAGOR & Co., Managing Agents.
The 10th November 1894. (732—2)

In the matter of Carl Robert Appenzeller, an Insolvent.

NOTICE is hereby given that on Saturday, the 24th November instant, an application will be made by the insolvent abovenamed to the Court for the Relief of Insolvent Debtors at Calcutta for an order that his petition of insolvency may be dismissed, and the vesting order made in the above matter on and bearing date the 23rd July 1894 be set aside.

WATKINS & Co., Insolvent's Attorneys.
Dated this 10th day of November 1894.
(731—2)

In the Court of the District Judge of Bhagalpur.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 219.

[First Publication.]

BAY OF BENGAL—BURMA COAST.

Wreckage on Oyster island.

Caution.—The Port Officer, Rangoon, has given notice, dated the 25th October last, that the Master of the R. I. M. S. *Minto* reports that on his last visit to Oyster island a piece of wreckage, which apparently had formed a portion of a steamer's fore-and-aft bridge, was laying on the island. The wreckage in question is made of 4" pine, is about 3 to 4 feet broad and 10 to 12 feet long, and had two iron stanchions fitted to it on one side only. The underneath part is painted white and the upper side holystoned. Mariners are accordingly cautioned.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

Published for general information.

G. C. MACONCHY,

NOTICE TO MARINERS—No. 220.

[First Publication.]

AUSTRALIA—MORETON BAY.

Amended limits of the Pilot vessels' cruising ground.

THE Port Master, brisbane, has given notice (No. 18 of 1894), with reference to Notice to Mariners No. 18, issued on the 27th October 1892, that the outer limits of the Pilot vessels' cruising ground at the Northern Entrance to Moreton bay, as therein defined, have been extended to the northward and eastward.

The cruising ground is therefore now defined as follows:—Inside an imaginary line drawn from Cape Cliff N by E. ¾ E. (Mount Tempest in line with Cape Cliff) seven and three-quarter miles; thence to the Fairway buoy at the entrance to the North Channel; thence along the eastern edge of the East and Venus Banks to the outer entrance to Freeman channel; thence to cape Moreton.

[First Publication.]

AUSTRALIA—Cape Moreton, North point, and Moreton island.

Exhibition of additional lights.

The Port Master, Brisbane, has given notice (No. 19 of 1894) that on and after 15th October, the following lights will be exhibited to assist in marking the fairway between cape Moreton and Smith Rock:—

North Point Hummock.—A small light in a square light-room painted white on the summit of the hummock, showing a sector of white light to the eastward between the bearings of S. 54° W. and S. 82° W., visible about seven miles.

Secondary Light, Cape Moreton,—Bearing N. 18° E., and distant 180 yards from the main light. This light in line with the main light indicates the direction of Smith Rock.

Directions.—Vessels passing between Smith Rock and Moreton island must cross the line of lights at cape Moreton whilst in the sector of white light shown from North Point Hummock.

Charts affected—Nos. 1029, 1068, and 1670A; and Australia Directory, volume 2.

JAPAN—Korea strait—Tsu sima.

(1) *Fixed white light on Mitsu Misou sima.*

The British Admiralty has given notice (No. 556 of 1894) that a light is exhibited from a tower recently erected on Mitsu (Misou) sima, off the northern extreme of Tsu sima, Korea strait:—

Mitsu sima light is *fixed white*, elevated 52 feet above high water, and visible in clear weather from a distance of 8 miles, between the bearings N.E. $\frac{7}{8}$ E. (N. 55° E.) and N.W. $\frac{1}{4}$ N. (N. 42° W.).

The light-house is a square wood tower, 18 feet high, painted black.

Approximate position on Admiralty Chart No. 358, lat. 34° 43′ 20″ N., long. 129° 24′ 45″ E.

KIUSIU—WEST COAST.

2. *Fixed white and red light on Shirase (Shiro se).*

Also, that a light is exhibited from a tower on Shirase (Shiro se), west coast of Kiusiu:—

Shirase (Shiro se) light is *fixed*, shows *white* between the bearings E. $\frac{3}{8}$ N. (N. 86° E.), through South, to N.W. $\frac{3}{4}$ W. (N. 54° W), and *red* to the southward over the shoals Ganashe and Nakashe. It is elevated 45 feet above high water, and visible in clear weather from a distance of 6 miles.

The light-house is a square wood tower, 11 feet high, painted white.

Approximate position on Admiralty Chart No. 359, lat. 33° 5′ 30″ N., long. 129° 37′ 30″ E.

3. *Fixed white and red light on Odate (Oötate).*

Also, that a light is exhibited from a tower on Odate (Oötate).

Odate (Oötate) light is *fixed white*, with two *red* sectors showing respectively between the bearings S.E. $\frac{1}{8}$ S. (S. 43° E.) and S.S.E. $\frac{3}{8}$ E. (S. 27° E.), and between N.W. $\frac{3}{4}$ W. (N. 53° W.) and N.N.W. $\frac{1}{4}$ W. (N. 28° W.). It is elevated 200 feet above the sea, and visible in clear weather from a distance of 6 miles.

The light-house is a square wood tower 22 feet high, painted white.

Approximate position on Admiralty Chart No. 140, lat. 33° 1′ 20″ N., long. 129° 26′ 10″ E.

CHINA.

Hongkong—Pescadores islands—Yung river approaches, &c.

THE following information received from the British Admiralty (No. 530 of 1894) is republished :—

(1) *Hongkong—Shoal in Stonecutter's anchorage.*

The British steamship *Trocas* grounded on a patch of rock having 3 fathoms over it, situated 3 cables N. by E. (N. 11° E.) from the eastern extreme of Stonecutter's island Hongkong harbour.

A conical white buoy has been temporarily moored in 4½ fathoms close southward of the patch.

Approximate position, lat. 22° 19′ 40″ N., long. 114° 8′ 55″ E.

(2) *Pescadores islands—Caution when approaching.*

Also, that all vessels, whether ships of war or otherwise, approaching the Pescadores islands, should fly their national flags during the day, or sound the whistle and exibit lights at night. Signals made from the shore must be answered in order to prevent errors.

(3) *Yung river approaches—Temporary discontinuance of lights, beacons, and buoys.*

Also, that the lights respectively on Tse le (Square island) and Tiger island have been temporarily discontinued.

The beacons on Blonde rock and Tiger's tail, also the buoys on Nemesis rock, Siau yu spit, and Sesostris rock have been temporarily removed.

Torpedoes have been laid down at the entrance to Yung river, and vessels should not enter without a torpedo pilot, nor anchor inside Tiger island. It is dangerous to approach Chinhai forts at night.

(4) *Approaches to Liau Ho and Newchwang.*

Also, that vessels should not enter Newchwang by night, and must show flags or lights when approaching the port.

JAPAN—YATSUSHIRO SEA—OGASAWARA (BONIN ISLANDS).

(1) *Sunken reef in Zozo no-seto.*

THE British Admiralty has given notice (No. 536 of 1894) that a sunken rock lies in Zozo no-seto, in Yatsushiro sea.

This rock, having a depth of about 6 feet over it at low water, lies approximately in lat. 32° 34′ 40″ N., long. 130° 28′ 55″ E.

(2) *Sunken reef in Matsuzaki-Wan, Hachiman seto.*

Also, that a rock with 2 fathoms over it at low water lies approximately in lat. 32° 13′ 45″ N., long. 130° 4′ 40″ E.

OGASAWARA (BONIN ISLANDS).

(3) *Sunken reefs off Futami Kau (Port Lloyd), and leading mark into the harbour.*

Also, that the undermentioned rocks lie off Minami jima, Ogasawara (Bonin islands) :—

A rock with 5 fathoms over it lies approximately in lat. 27° 3′ N., long. 142° 8′ 50″ E.; and another rock with 6 feet over it lies about 4 cables E.N.E. from the above.

A triangular white beacon stands 3½ cables East of Kaname iwa (Castle rock), which, kept in line with a white patch on Kaname iwa, leads into port Lloyd.

JAPAN—Gulf of Tokyo or Yedo.

1. *Light and buoys marking area obstructed by torpedoes.*

With reference to Notice to Mariners No. 202, dated the 27th October last, issued by this office, the British Admiralty has given further notice (No. 543 of 1894) that the undermentioned light and buoys are placed to mark the area obstructed by torpedoes in Tokyo gulf:—

Hashirimidzu (Hasiri mizu) point light is *fixed red*, showing over an arc of 5°, or between the bearings S. 12° E. and S. 17° E., elevated 91 feet above the sea, and visible in clear weather from a distance of 6 miles.

The lighthouse is a square framework 15 feet high and painted white.

Approximate position on Admiralty chart No. 2657, lat. 35° 15′ 55″ N., long. 139° 43′ 10″ E.

A conical buoy, with black and white horizontal stripes, and surmounted by a globe, is moored in 28 fathoms, 1½ miles N. 12° W. from Hashirimidzu light.

A conical buoy painted red, and surmounted by a globe, is moored in 28 fathoms, 5 miles, N. 12° W., from Hashirimidzu light.

The area obstructed is westward of a line drawn from the above light and the red buoy, and southward of a line drawn from the red buoy to Fillmore point.

2. *Light-buoy altered in position.*

Also, that the light-buoy in Uraga channel has been moved 9½ cables S. 14° W., and now lies in 37 fathoms, 4½ cables N. 33° E., from Hashirimidzu light above mentioned.

3. *Regulations.*

Vessels are not permitted to enter or leave the gulf of Tokyo without the conduct of a Pilot vessel having on board an officer of the Imperial Japanese Navy, and no vessel will be permitted to enter or leave between sunset and sunrise.

Vessels arriving from distant places will be informed of these regulations by the Pilot vessel referred to.

WORKING OF THE BENGAL JUTE WAREHOUSE AND FIRE BRIGADE ACT I OF 1893, IN THE COSSIPORE-CHITPUR AND MANIKTOLA MUNICIPALITIES DURING THE YEAR 1893-94.

THE following reports are published for general information, in accordance with the provisions of section 41 of the Licensed Warehouse and Fire Brigade Act of 1893.

J. A. BOURDILLON,

Offg. Secy. to the Govt. of Bengal.

No. 96M., dated Calcutta, the 24th September 1894.

From—H. C. WILLIAMS, Esq., Offg Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Municipal Department.

WITH reference to Government letter No. 3312M. of the 15th August last, I have the honour to submit herewith copies of the reports on the working of the Bengal Jute Warehouse and Fire Brigade Act I of 1893, in the Cossipore-Chitpur and Maniktola Municipalities in the district of the 24-Parganas during the year 1893-94, as received from the Magistrate of the 24-Parganas.

No. 794, dated Talla, the 4th September 1894.

From—Rai Gopal Chandra Mookerjee, Bahadur, c.e., Chairman of the Cossipore-Chitpur Municipality,

To—The Magistrate of the 24-Parganas, Alipore.

With reference to your memorandum No. 731M. of the 22nd ultimo, forwarding a copy of Bengal Government letter No. 3312M. of the 15th idem, calling for early submission of the report on the working of the Bengal Jute Warehouse and Fire Brigade Act in the Cossipore-Chitpur Municipality for the year 1893-94, I have the honour to submit the following report.

The management of the Fire Brigade in Calcutta and the suburbs is in the hands of the Commissioner of Police, Calcutta, and that officer has already submitted his report to the Government of Bengal.

2. As regards the working of licensed warehouses, I beg to state that under Act I of 1893, which passed through the Bengal Council on the 1st April 1893, and received the assent of the Governor-General on the 17th June 1893, and was published in the *Calcutta Gazette* on the 28th June, and under orders of the Government of Bengal No. 300T.M. of the 26th June 1893, license fees for the 1st quarter for all warehouses described in clause (8), section 1 of the Act, were required to be collected according to Act IV of 1883, and of the other three quarters according to Act I of 1893. But it was found, however, that there were several technical objections to the levying of fees under the new Act, and on representations being made to the Bengal Government through the Commissioner of Police, Calcutta (*vide* my letter No. 709 of the 25th August 1893), a short amending Act was passed in the Bengal Legislative Council towards the close of the year under report, by which the Commissioners were authorized to levy fees on warehouses for the last three quarters according to the provisions of the old Act IV of 1883. The operation of Bengal Act I of 1893 was therefore postponed to the 1st April 1894.

3. On the 14th July 1893, the Commissioners received intimation from the Commissioner of Police, Calcutta, of the appointment of Mr. G. E. Marklew as Inspector of Warehouses, under section 8, clause 1 of Act I of 1893, and the pay of the Jute Inspector attached to the Cossipore-Chitpur was therefore stopped from July 1893.

4. Under the old Act the Commissioners received 20 per cent. of the collection towards the cost of inspection and assessment of warehouses. This arrangement having been altered by Act I of 1893, the Commissioner of Police was written to on the subject in reply to his letter No. 9689 of the 14th December 1893, and the Government of Bengal, in their letter No. 3987M. of the 16th December 1893, requested the Commissioner of Police to make provision for the cost of assessing and collecting the rates of warehouses in his budget, and the latter made provision for Rs. 250 under the head for the Cossipore-Chitpur Commissioners for the last three quarters, which amount has been sanctioned by the Government.

5 Act I of 1893 became law on the 17th June 1893, and as under the old Act IV, 1883, the annual fee imposed in respect of a warehouse had to be collected in advance and in one instalment, the persons who took out licenses between the 1st April 1893 and 30th June following, paid the fees under the old scale of 10 per cent. on the assessed value of the warehouses, and thus the Commissioners were able to collect sum more than sufficient to meet the first demand of the Commissioner of Police in reference to his first budget estimate.

6. In accordance with Government order No. 29T M. of the 30th August 1893, the Commissioner of Police estimated Rs 14,589 as the share due by the Commissioners of Cossipore-Chitpur for the maintenance of the Fire Brigade, and this amount was paid to the Commissioner of Police in the way shewn in the statement under head "Disbursement," in paragraph 9.

7. During the year under review licenses were granted to 72 jute presses and warehouses, and the amount of license fees realized therefrom was Rs. 28,442-4-3, thus:—

		Rs.	A.	P.
12	Jute presshouses	20,218	5	0
50	„ warehouses	7,800	4	0
2	Cotton warehouses	126	0	0
1	Warehouse for storing rags	15	3	3
7	Roperies	282	8	0
	Total ..	28,442	4	3

The license fees of three warehouses still remained to be paid when the year came to a close.

8. The accompanying statement gives a complete list of the jute-presses, warehouses, roperies, &c., to which licenses were granted during the year 1893-94.

9 The following statement shows the receipts and disbursements of the jute license fees during the year under review :—

Receipts.	Amount.	Disbursements.	Amount.
1	2	3	4
	Rs. A. P.		Rs. A. P.
License fee for the 1st quarter of 1893-94 according to Act VI of 1883.	8,415 12 3	Paid to the Commissioner of Police for the maintenance of fire-brigade for the year 1893-94, as per Commissioner of Police's budget estimate and Government of Bengal's order No. 29T.—M. of the 30th August 1893.	14,589 0 0
Ditto for the remaining three quarters of 1893-94 according to Act I of 1893.	11,856 10 3		
Ditto realized in excess from the persons who paid the full amount of license fees under the old scale according to Act IV of 1883, and took out licenses between 1st April and 30th June 1893.	8,169 13 9	Paid to the municipal fund 20 per cent. of the amount of license fees realized for the 1st quarter of 1893-94, according to Act IV of 1883.	1,683 2 6
		Balance at the hands of the Commissioners on the 31st March 1894.	12,170 1 9
Total ...	28,442 4 3	Total ...	28,442 4 3

10. The Manager of the Union Pressing Company, Limited, was prosecuted for not having paid the full amount of license fee according to Government orders, and for having carried on his work without obtaining a license. He was prosecuted in the Sealdah Deputy Magistrate's Court, and subsequently paid the full amount of the fee, and a license was granted to him. Twelve owners or occupiers of jute warehouses and roperies were also prosecuted for not taking out licenses, and for infringing some of the rules laid down in Act I of 1893, and they were fined by the Deputy Magistrate of Sealdah.

RAM DAS ROY CHOWDHURI,

Secretary, Cossipore-Chitpur Municipality.

Report on the working of the Bengal Jute Warehouse and Fire Brigade Act I of 1893 *in the Maniktola Municipality.*

DURING the year under review there were nine jute warehouse against eight of the preceding year, and 13 warehouses dealing with more than 50 maunds of firewood, hay and packing cases assessable under the new Act, and by subsequent Government Notification No. 2853M., dated the 14th August 1893. Agreeably to the provisions of the Act, license fees for three quarters of the year were levied upon the assessed value of holdings under the Fire Brigade Act, the fees for the 1st quarter having been recovered under Act IV of 1883 in the case of jute warehouses and under section 261 of the Municipal Act in the case of other warehouses, the Commissioners in meeting resolved that the owners of jute warehouses should pay at 6 per cent. and other warehouses at 10 per cent. on the annual value of holdings in which they carry on their business, and that three quarters' fees were realized at those rates; but some of the owners of jute warehouses paid at 10 per cent. before the new Act came into force, and proportionate refund had to be made in such cases. The loss to the Commissioners on account of partial repeal of section 261 of the Municipal Act is estimated at

Rs. 240, being the difference of the fees which would have been leviable according to the scale of fees prescribed under section 261, which is based upon the principles of measurement under that section, and is found to be somewhat higher than the rate on the assessed value now levied under the new Act.

There was a further loss to the Municipality to the extent of 20 per cent. on the realization on jute warehouses on account of repeal of Act IV of 1883, which entitled the Commissioners (section 16 of the Act) to appropriate 20 per cent. of the fees and penalties received and levied under that Act to its general fund. Under the Jute Warehouse Act it is no longer necessary or incumbent on the Municipality to provide for the inspection of those warehouses, as a separate Inspector has been appointed directly under the Commissioner of Police. But the Commissioners have to provide for the assessment and collection of fees.

2. A sum of Rs. 966-8-3 was received during the year as license fees from jute and other warehouses against Rs. 585-14 received only from jute warehouses of the preceding year, and the Municipal Commissioners contributed Rs. 1,088-9-7 for the maintenance of Fire Brigade Fund, which included Rs. 520-9-7 for the contribution of the previous year, and an excess payment of Rs. 478, as shewn in the budget estimate of the Commissioner of Police for the year 1894-95.

3. The Municipal Commissioners accepted the revised budget estimate of the cost of the Fire Brigade for the year 1893-94 of their own share, *i.e.*, Rs. 468, which was forwarded by the Commissioner of Police on the 3rd February 1894.

4. The jute godowns within the limits of this municipality are all pucka brick-built houses, but the firewood depôts were on open grounds on the sides of the Circular Canal. It is said that the jute business was not very prosperous, and only two to three lakhs of maunds of jute were imported into the warehouses. The jute and firewood are brought generally by country boats from the eastern districts through the Circular Canal, and are landed in its sides. Large quantities of jute are also brought into the godown by the Eastern Bengal State Railway.

5. No fire took place anywhere within the municipality requiring the help of the Fire Brigade during the year.

ABINASH CHUNDER BOSE, *Vice-Chairman.*

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 10th November, 1894.

20	Mymensingh „ 10, '94	3·05	Weather—cold and rainy. The river is falling. Prospect of *aman* crop good. Common rice sells at 12½ seers per rupee. No cattle-disease. Fodder and water available.
21	Faridpur „ 10, '94 Goalundo ... Madaripur ...	5·19 7·87 3·86	Weather—seasonable. Prospect of *aman* crop fair. *Dighe* and *Arvani* paddy being harvested. Sowing of winter crops has begun. Price of common rice ranges from 14 to 16 seers per rupee. Condition of cattle good. Fodder available.
22	Backergunge „ 10, '94	2·63	Weather—seasonable. State and prospects of crops good though slightly damaged by rain in places. Price of common rice varies from 9 to 13 seers per rupee. Fodder and water sufficient.
CHITTAGONG DIVN.			
23	Tippera „ 10, '94	1·11	Weather—cool. The late rain has done much good to the standing crops. Prospects excellent. The price of rice is falling— Srs. c. Highest— Kotwali ... ... 13 5 Lowest— Chowdagram .. .. 22 12 per rupee.
24	Noakhali '94	1·56	Weather—seasonable. State and prospects of *aman* good. *Rabi* crops are being sown. No cattle-disease. Fodder and water available. Price of rice:— *Aus* *Aman.* Srs. Srs. Sadar ... ... 18 12 Fenny ... ... 18 13 per rupee.
25	Chittagong „ 10, '94	1·56	Weather—seasonable. Early *aman* ripening and is being harvested in places. Lands are being ploughed for old-weather crops. Prospects fair. Prices steady. Water and fodder sufficient.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
	BIHAR.		
	PATNA DIVISION.		
26	Patna, Nov. 10, '94	1·06	Weather—generally clear and cool. Prospects of rice continue excellent. Sowing of *rabi* and poppy has commenced on high lands, but the country is still very wet, and the spring crops will be very late. Prices of common rice:—
	Bihar ...	0·23	
	Dinapur ...	2·88	
	Barh ..	0·45	
			Srs.
			Sadar ... ... 16 }
			Bihar ... ... 15½ }
			Dinapur ... ... 11 to 14½ } per rupee.
			Barh ... ... 12½ }
27	Gaya „ 10, '94	2·88	Weather—stormy and rainy up to 5th November; clear and cool since. Paddy prospects tolerably good, though injured by the rain. *Rabi* sowings recommenced. Prices about normal. Prices of common rice:—
	Nawada ...	0·71	
	Jahanabad ...	1·45	
	Aurangabad ...	1·49	
			Srs.
			Sadar ... ... 13½ }
			Jahanabad ... ... 14½ }
			Aurangabad ... ... 15 } per rupee.
			Nawada ... ... 17 }
			Fodder and water-supply ample.
28	Shahabad „ 10, '94	1·61	Weather—fine and seasonable. The recent rain has injured the rice crop to some extent, and has damaged the prospect of the *rabi* crop by retarding sowings. The wheat especially will suffer.
	Buxar ...	5·26	
	Sasaram ...	1·19	
	Bhabua ...	2·88	
29	Saran „ 10, '94	2·75	Weather—cloudy with showers of rain in the beginning of the week; fine since last three days. *Aghani* paddy doing well. The recent rain has much retarded the *rabi* sowings and damaged the crops already sown. Fodder and water plentiful. Prices of common rice:—
	Siwan ...	1·14	
	Gopalganj ...	1·52	
			Srs. c.
			Chapra ... ... 15 8 }
			Siwan ... ... 15 0 } per rupee.
			Gopalganj ... ... 15 6 }
30	Champaran „ 10, '94	2·01	Weather—rainy in the beginning of the week, but clear towards the end. Nights are getting cool. *Aghani* paddy in flower. Prospects continue generally good. *Rabi* sowing has again commenced. Poppy cultivation retarded in places owing to excessive moisture. Early sowings germinating and the plants are doing well. Common rice selling at 18 seers per rupee. Fodder and water sufficient for cattle.
31	Muzaffarpur „ 10, '94	1·87	Weather—cloudy for the first two or three days, but now clear with west wind. *Rabi* sowings have been again taken up on high lands. Low lands are still too moist owing to excessive rain. Paddy crop is doing well. Poppy-seeds are again being sown as the lands become drier. Fodder and water ample. Common rice selling at 13½ seers per rupee.
	Hajipur ...	1·35	
	Sitamarhi ...	1·04	
32	Darbhanga „ 10, '94	0·77	Weather—rainy and cloudy in the early part of the week. The rainfall of the week has somewhat injured the *aghani* rice in blossom and also retarded the progress of *rabi* sowing. Poppy sowing commenced in places. Fodder for cattle sufficient. Prices stationary.
	BHAGALPUR DIVISION.		
33	Monghyr „ 10, '94	0·15	Weather—cold and cloudy. *Rabi* being sown. Prospects of paddy and chilly continue good. Sugarcane is being harvested. Fodder and water sufficient. Prices of common rice:—
	Begusarai ...	0·69	
	Jamui ...	0·46	
			Srs.
			Sadar ... ... 11 to 16 }
			Begusarai ... ... 12 } per rupee.
			Jamui ... ... 15½ }
34	Bhagalpur „ 10, '94	0·53	The cold weather has set in with the usual characteristics. The prospects of the rice crop are excellent. *Rabi* sowing is in active progress. Some damage has been done to the mustard by the rainfall; but on the whole the outlook leaves little to be desired. Common rice 13 seers 14 chitaks per rupee.
	Banka ...	Nil	
	Madhipura ...	0·22	
	Supaul ...	Nil	
35	Purnea „ 10, '94	0·08	Weather—cool. Prospects of winter rice excellent. Mustard and tobacco sowings begun. No cattle-disease. Fodder and water plentiful. Average price of rice 16 seers per rupee.
	Kishanganj ...	Nil	
	Araria ...	Nil	

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHAR—*concld.*			
Bhagalpur Divs.—*concld.* 36	Malda Nov. 10, '94 Chanchal ... Shibganj ..	0·16 0·04 3·48	Mornings and nights cool. High wind prevails in a mild form. Sky has cleared up. The break in the rains was of unusual good to all agricultual operations. Prospect of winter rice continues favourable: it is coming into maturity. *Kalai* pulse thriving. *Rabi* crops are being sown. Ordinary rice selling from 12 to 18½ seers a rupee. Fodder and water ample.
37	Sonthal Parganas „ 10, '94 Deoghur ... Godda ... Jamtara ... Pakour .. Rajmahal ...	1·73 1·04 4·84 1·98 5·20 0·43	Cold weather has commenced. Rain has done slight damage to paddy and retarded sowing of *rabi* crops, but prospects are on the whole good. Rice cheaper than at this time last year.
ORISSA.			
Orissa Divs. 38	Cuttack „ 10, '94	2·17	Weather—rainy; sky clear since 8th. *Laghu sarad* is ripening and being harvested. *Garu sarad* in ear. *Rabi* crops in progress. The rainfall in Kendrapara during the week was 6·26 inches, which appears to have damaged both *rabi* and *sarad* crops to a certain extent. Condition of cattle good. Fodder sufficient. Common rice sells at— Sadar ... ... Srs. 10 c. 8 to Srs. 16 c. 7; Jajpur ... ... 13 2 to 15 12; Kendrapara ... ... 12 8 to 18 0; Banki ... ... 17 1 — per rupee.
39	Balasore „ 10, '94	3·11	Weather—bright; cold in the morning and evening. Harvesting of early *sarad* going on. Late *sarad* doing well. The sowing of winter crops has been delayed owing to the rain of the preceding week. Rice is selling at— Srs. Balasore ... ... 18; Bhadrak ... ... 18; Dhamnagar ... ... 14; Chandbali ... ... 18 — per rupee. Fodder and water for cattle sufficient.
40	Puri „ 8, '94 Khurda ..	2·22 2·91	Weather—cloudy with occasional showers of rain. *Sarad* rice is in ear *Laghu* rice is being reaped. State of miscellaneous crops good. Ploughing for *dalua* rice has begun. Rice sells from 11 to 17½ seers per rupee.
CHOTA NAGPUR.			
South-West Frontier Agency.			
Chota Nagpur Divs. 41	Hazaribagh Nov. 10, '94 Giridi ..	Nil Not reported.	Weather—bright and cool. Prospects of crops generally good. *Rabi* sowings backward. Common rice selling from 12 to 18 seers per rupee.
42	Lohardaga „ 10, '94	0·56	Weather—seasonable. Sowing of potatoes continues. Reaping of winter paddy commenced. Common rice selling at 16 seers per rupee. Fodder and water sufficient.
43	Palamau „ 8, '94	0·48	Weather—first part of the week cloudy, now seasonable. The winter has set in. Rain was general all over the district except at Bisrampur. Paddy is being harvested. The recent rain has done mischief to a slight extent. No cattle-disease. Price of rice varies from 14 seers at Garhowa to 20 seers per rupee at Mahuadad.
44	Manbhum „ 10, '94 Gobindpur ...	Nil Nil	Weather—seasonable. Reaping of winter rice has begun. Prospects good. Price of common rice 12 to 20 seers per rupee.
45	Singhbhum „ 10, '94	0·09	Weather—bright and cold. Crops are doing well. Paddy being harvested with full outturn. Rice selling at 18 to 20 seers per rupee.

Statistical Department,
The 10th November, 1894

C. E. Buckland,
Secy. to the Govt. of Bengal.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of October 1894.

	Inches.	Date.	Hour.
The mean pressure of the month	29 811		
The average pressure of October from 24 years' registers ...	29·832		
The highest pressure in the month	29·972	19th	10
The lowest pressure in the month	29·520	2nd	16
The range of pressure	0·452		
	Hours.		
The total number of hours of bright sunshine during the month	194·3		
The maximum possible number of hours of sunshine ...	359·1		
	⊖		
The mean temperature of the month	80·2		
The average temperature of October from 24 years' registers	81·5		
The highest temperature in the month	88·4	7th	
The lowest temperature in the month	65·9	31st	
The range of temperature during the month	22·5		
The mean daily range of temperature	10·4		
The greatest range of temperature in one day	15·1	31st	
	Per cent.		
The mean humidity of the month	87		
The average humidity of October from 24 years' registers ...	79		
	Inches.		
The mean vapour tension of the month	0·900		
The average vapour tension of October from 9 years' registers	0·854		
The mean cloud proportion of the month	4·48		
The average cloud proportion of October from 17 years' registers	4·03		
	Inches.		
The total rainfall of the month	4·41		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	3·53?		
The average fall of October from 48 years' registers ...	5·61		
The greatest fall in 24 hours	1·14	9th	
	Days.		
The number of rainy days in the month	18		
The average number of rainy days in October from 24 years' registers	10		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	145·0		
The mean difference of sun and air temperatures	59·3		
The greatest sun temperature	155·3	12th	
The greatest excess of sun over air temperature	68·7	12th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	72·4		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	3·0		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	5·4	31st	
	Miles.		
The mean movement of the wind per day	50·6		
The greatest movement of the wind in one day	153·0	25th	
The greatest movement of the wind in one hour	18·0	25th	11 to noon.

The number of hours with winds from each of the 8 points—
N. 52, N.E. 21, E. 34, S.E. 100, S. 152, S.W. 123, W. 62, N.W. 22, Calm 178.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·8 lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

* Mean of 6 days.

Explanations.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the stations. The *humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The means of the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question state on an the district sending in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

for the week ending Saturday, the 10th of November 1894.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the* 13*th November* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 10TH OF NOVEMBER 1894.

DURING the previous week a cyclonic storm had formed in the Bay and had advanced across the Madras coast on the morning of Friday, the 2nd instant, between Coconada and Masulipatam. It was a large storm, and the cyclonic circulation of winds in connection with it had swept over the whole of Bengal, and hence had given moist south-easterly and easterly winds and very disturbed weather. Hence on the 3rd, or the last day of the previous week, rainfall had been practically general over the province. This disturbed weather continued on the 4th. Moderately strong and very moist easterly winds were blowing over the whole province, temperature was rising and was unusally high, the sky was almost overcast, and humidity was also excessive, while the changes of pressure were unimportant. On the 5th, however, conditions began to change, and westerly winds appeared in the south-western districts, and hence began to slowly drive back the moist easterly winds which had been previously blowing. Pressure also began to rise slowly to moderately, and temperature had again risen and had become in excess by from 3° to 4°. With the commencement of westerly winds the sky began to clear in Orissa and Chota Nagpur, where rainfall was also light, though it was still fairly general over the remainder of the province, except in North Bengal. On the 6th again the westerly winds had extended and prevailed over the western half of the province, while irregular winds were blowing elsewhere. Pressure had also risen moderately over the west of the province, though it was falling over the eastern half, while temperature, humidity, and cloud proportion commenced to decrease in Bihar and at the western stations generally. The rainfall on this day also was confined practically to Assam, East Bengal, and Bihar. On the 7th, the dry north-westerly and westerly winds had swept over the whole province, and hence fine settled weather was setting in. Pressure was, however, still below the normal, while temperature, humidity, and cloud proportion were rapidly decreasing, the decrease being largest at the western stations. Rainfall had again been received in East Bengal and Assam, but the remainder of the province was practically rainless. On the 8th a brisk increase of pressure occurred, and pressure became in excess in all districts. A further brisk fall of temperature occurred, humidity and cloud proportion also decreased, and no rainfall was reported, except for a few showers in Assam and Orissa. On the 9th the same changes again occurred, and the fall of temperature was very pronounced, and at such stations as Chaibassa the fall in the mean temperature equalled 10° from the 8th to the 9th instant, and exceeded 5° at many other stations, and hence the mean temperature of the province on the 9th was in considerable defect, the variation ranging up to from 4° to 6° in the south-west of the province. The sky also became practically cloudless, and humidity again decreased, and the air became unusually dry over the western half of the province. Pressure had also became in excess by amounts ranging up to a tenth of an inch at False Point, and the whole province was rainless. Similar conditions again obtained on the 10th. Thus during the second half of the week fine settled weather rapidly set in over the province, and the cold weather conditions became established.

Pressure.—The variations of the pressure from the normal for the week have not been large, for during the first half defective pressures were registered, while pressure was in excess at the end of the week. These variations have hence neutralized one another to a great extent, and the mean pressure for the province has been generally in excess by about 0·01″. In Bihar and at some of the stations in North Bengal, pressure has been in slight defect, but elsewhere it has been in excess, the largest variations having been registered in the south-east of the province.

In Assam the mean average pressure has been in excess by 0·011″.

Temperature.—The variations of temperature during the week have been large, and temperature was considerably in excess in the early part of the week, and equally largely in defect in the latter part. Again, therefore, the variation from the normal has been small, and for the whole province, the mean temperature for the week has been in excess by 0·6°.

In Assam the mean temperature has been in excess by 0·7°.

Rainfall was unusually heavy for the season in the early part of the week, but in the second half the province has been rainless. East Bengal has received an average fall of 2·40 inches and South-West Bengal, Bihar and Orissa falls between one and two inches, while in North Bengal and Chota Nagpur the falls have been from about half to one inch. These falls vary from about four times the normal amount in Orissa and Chota Nagpur to from ten to eighteen times the normal in East and South-West Bengal and Bihar. The number of rainy days during the week has also been very much larger than usual.

Comparing the actual with the normal falls for the period, and expressing the actual falls as percentage amounts, the falls during the week have equalled the following :—South-West Bengal 1,223 per cent., North Bengal 720 per cent., East Bengal 1,000 per cent., Bihar 1,800 per cent., Orissa 351 per cent., and Chota Nagpur 460 per cent. Taking the various divisions to have an equal value in the calculation, the rainfall of the week may be said to have been equal to 926 per cent. of the normal.

In Assam, during the week Silchar has received 7·07 inches of rain, Dhubri 0·02 inch and Sibsagar 0·74 inch.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 10th of November 1894:—

Meteorological Divisions	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th October 1894.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

The total fall from 1st January to 10th November 1894	48·58
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·30

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers; ⌓, dew.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT.

NOTIFICATION—No. 3903.

The 20th November 1894.—The following Notification of the Government of India in the Home Department, No. 296, dated the 26th October 1894, is published for general information.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

No. 296, dated Simla, the 26th October 1894.

NOTIFICATION—By the Government of India, Home Department.

IN continuation of the Notification of the Government of India in the Home Department, No. 1173, dated the 19th July 1888, the Governor-General in Council is pleased to publish the following rules under section 36(*a*) of the Births, Deaths and Marriages Registration Act, No. VI of 1886:—

1. The following fees shall be payable under section 85 of the said Act, namely:—

	Fees. Rs.	A.	P.
For inspection of the descriptive list of registers or records delivered to the Registrar-General by Commissioners appointed under Chapter V of the said Act	1	0	0
For each copy of an entry in any register or record described in the above-mentioned descriptive lists	1	0	0.

Provided that soldiers and non-commissioned officers of Her Majesty's Regular forces and all seamen shall be exempted from the payment of the foregoing fees, when the same are payable to a Registrar-General or a Government servant who is not a Minister of Religion.

2. When fees payable under the foregoing rule are received by a Registrar-General or any person being a Government servant and not a Minister of Religion, having the custody of any such registers or records as aforesaid, they shall be entered in a register and otherwise treated as if they were fees realized under the rules published under the Notification No. 1173, dated 19th July 1888, above referred to. When such fees are received by any other person, they may be retained by such person.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

DECLARATION—No. 4315J.

The 16th November 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Satkania Munsif's Court, in the village of Dhemsha, thana Satkania, zilla Chittagong, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5 bighas 1 cottah 2 chitaks of standard measurement, bounded on the north, west and south by roads and on the east by the Chhaukhola of Jafar Ali and Jan Ali, the homesteads of Muhammad Nasim, Moti Bibi, and Safara Bibi, and the arable land of Makbul Ali, is required within the aforesaid village of Dhemsha, thana Satkania, district Chittagong.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

RAILWAY.

The 20th November 1894.

No. 344.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a siding for the Adjai Coal Company at chain 223 of the Toposi Extension, East Indian Railway, in the village of Nundi, pargana Shergurh, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bighas 17 cottahs and 14 chitaks of standard measurement (corresponding to 1 acre 1 rood and 6·11 poles), bounded on the north by the lands of Shib Narain Chakrabutty and the Burdwan Raj estate; on the south by the lands of Pratab Chandra Chatterji, Mahesh Chandra Laik, and the Burdwan Raj estate; on the east by the Toposi Extension, East Indian Railway; and on the west by the lands of Shib Narain Chakrabutty, Kristadhan Laik, and Bejoy Gobinda Laik, is required within the aforesaid village of Nundi.

Mines of coal, iron-stone, slate or other minerals lying under the land or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894 and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

No. 345.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for block hut at mile 374 3fur. in the village of Newada, pargana Arrah, zilla Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 17 cottahs and 10·62 chitaks of standard measurement, equivalent to 1 bigha 10 cottahs 10 dhurs of local measurement, bounded on the north by the fields of Ramdahin Rai, Mirza Rai and Mr. Charles Fox, south by railway line, east by the fields of Ramdahin Rai and Nanda Kumkar, west by the field of Mr. Charles Fox, is required within the aforesaid village of Nawada.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 17th November 1894.

No. 342.—*Notification.*—Mr. W. A. Inglis, Executive Engineer, 1st grade, is, on return from furlough, attached to the South-Western Circle, and placed on special duty to report on the Goomtee Embankment.

C. W. ODLING,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT,—BENGAL.

[Second Publication.]

The 13th November 1894.

No. 336.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following amended rule in supersession of the rule now in force in the revised water-rate rules for the Sone Canals :—

Present Rule.	*Proposed Rule.*
56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due, less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.	56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

C. W ODLING,
Secretary to the Government of Bengal.

Third Publication.

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

The 6th November 1894.

No. 330.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B. C) of 1876, the Hon'ble the Lieutenant-Governor proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa canals. These rules and rates will supersede those now in force.

C. W. ODLING,
Secy. to the Govt. of Bengal.

1. The Divisional Canal Officer is responsible for maintaining the canal in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Collector is responsible, except so far as is otherwise expressly provided, for the assessment and collection of water-rates accruing to Government from the canal.

3 Water shall not be distributed otherwise than on the application of a lessee or to a person in whose favour a provisional license under rule 15 has been issued. Such Application may be made verbally or in writing to any subordinate in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Collector or one of his subordinates verbally, he shall be directed to address himself to an irrigation officer or subordinate. If he makes such an application in writing, his petition shall be forwarded to the Sub-divisional Canal Officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The Divisional Canal Officer shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determine that the whole block shall be irrigable from one outlet or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Divisional and Sub-divisional Canal Officers. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than seven years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 13, for definite parts of a block, under the following conditions:—

I.—Ordinarily the whole irrigable area of any village, so far as situated within the block, must be included in the lease.

II.—When a village is divided by drainage channels into distinct blocks, each block shall be recognized as a separate village for the purpose of this and all other rules under the Irrigation Act.

III.—All leases within one block shall be granted, so that they shall expire on the same date.

IV.—No permit shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which in the opinion of the Subdivisional Canal Officer will deliver water without waste across the unleased area.

8. The rates to be charged for water supplied on a long term lease between the 16th of June and the 30th November, whether by flow or lift, to lessees on application shall be—

I.—For a term of seven years—Re. 1-8 per *man* for each season.

II.—For water supplied on a provisional license for which a permit for a term of years is not subsequently issued, Rs. 3 per *man*.

III.—Provided that the leases, whether new or renewals, required for shorter terms than seven years in order to develop the system of blocks as explained above, Rule 7-III, shall be charged Re. 1-8 per *man* only.

IV.—*Beali* lands included in a long lease are not exempted from assessment, but no charge will be made for water supplied to them in the *rabi* season. No special arrangements to supply water will, however, be made.

V.—Lowlying lands forming part of the rice cultivated area of a village which do not ordinarily benefit by canal water, though requiring irrigation in years of drought, will be charged at one-third of the usual rate, *i.e.*, at eight annas per *man* for each season. Lands which never under any circumstances require water will be altogether excluded from the lease

9. The rates for water supplied otherwise than on a lease for a term of years are those detailed in schedule I.

10. For the unauthorized use of canal water a rate of Rs. 5 per *man* or such less rate as may be sanctioned by the Divisional Canal Officer, shall be charged.

11. Application for water-leases under section 74 of the Act shall be presented to the Subdivisional Canal Officer of the division in which the applicant s land lies.

12. Every application for a permit for a term of years shall be in the form Appendix I to these rules, provided that a provisional license may be granted, where water is urgently required, on an application in the form Appendix II. Application for a season lease shall be in the form Appendix III.

13. A separate application must be presented for each village, but *tehsilalaida* or other lands lying within the village boundary at the time of survey may be included.

14. Before a permit for a term of years is granted, the written consent of the Divisional Canal Officer shall be obtained, but permits for one year only and provisional licenses may be issued with the written assent of the Subdivisional Canal Officer. Subject to the above conditions permits may be issued by *zilladars* under the orders of the Deputy Collector. A copy of the permit shall on the day of issue be forwarded to the Deputy Collector for transmission to the Divisional Canal Officer.

Existing leases may, with the written consent of the Divisional Canal Officer, be extended for not more three years, without enquiry or re-measurement, payments being made in accordance with the existing assessment, modified if necessary in accordance with rules 8, 4, and 5.

15. When a water-lease is granted, a permit shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act. Pending the completion of a lease, the zilladar may, with the written consent of the Subdivisional Canal Officer, issue a provisional license for the supply of water to an area covered by an application

16. The Subdivisional Canal Officer is authorized to supply water for seed beds in a long term lease before the 20th June, if a supply of water is available in the canal

17. When it comes to the knowledge of the Subdivisional Canal Officer, that canal water has been taken without authority, he shall hold a local investigation and transmit the record thereof to the Divisional Canal Officer. Separate proceedings shall be taken in the case of each village irrigated without authority.

18. On receipt of the record mentioned in Rule 17, and after hearing any objection which may be raised, the Divisional Canal Officer shall determine whether water-rates can be legally charged, and if so, he shall proceed to assess, at the rate provided in rule 10, the land irrigated without authority.

19. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and signature of the Deputy Collector in such form as shall from time to time be sanctioned by the Lieutenant-Governor. Persons charged under rule 10 or 18 shall be served, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 91 of the Act, if they desire to do so.

20. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer, with the concurrence of the Collector, to direct that the lease shall be cancelled with effect from the 1st of June next following.

21. The rates for water supplied from June to November shall in each season fall due and shall be paid on the 1st February following, but the Subdivisional Canal Officer may require one-half of the rates due on applications filed after the 1st of September to be paid in advance, and may refuse to issue a permit for more than one year. The rates for water supplied at other times shall be paid on the dates mentioned in schedule I.

22. Water-rates imposed under rule 10 or 18 shall fall due as soon as the assessment is made, and shall be realized at once.

23. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Deputy Collector to—

I.—Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially so ordered, unless half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any five years lease if on the 1st of June of any year water-rates to the extent of half the demand for one year are in arrears.

24. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Deputy Collector for—

I.—Errors in the assessment of rates,

and by the Divisional Canal Officer for—

II.—Injury to the crop on a leased area caused by deficient supply of water, provided a written application for remission has been made 15 days at least before the crop is cut.

25. The Divisional Canal Officer may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

26. The Divisional Canal Officer may commute rates charged under rules 10 and 18 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question.

27. Remissions on other grounds than the above require the sanction of Government.

28. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

29. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

30. The chowkidar of any village in which lands are leased for a term of years shall be entitled to a remission of water-rates included in his *jaghir* provided he gives efficient and willing assistance to the canal officers in respect to the following matters—

I.—In the preparation of applications for leases.

II.—In the measurements of irrigated lands.

III.—In giving the names of the occupiers of the various fields.

IV.—In receiving demand statements and informing the cultivators of the demands against them.

V.—In receiving *tappas* from the silladars and distributing them.

VI.—In being present when complaints are investigated by Canal Officers and giving information regarding the matters under investigation.

VII.—In reporting to the silladars any mutations in holdings of persons who have signed a lease for a term of years

31. Tanks may be filled with canal water without charge wherever water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle.

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage, or is liable to overflow from the accumulation of water from natural causes

IV.—No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of the above rules.

32. No person shall without the permission in writing of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass on or across any of the works, banks or channels of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

33. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

34. Except as provided in the Act and in these rules no appeal shall lie from any order passed by a Canal Officer; but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers

35. In appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 19, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings in the case.

SCHEDULE I.

Rates to be charged for water supplied from the Orissa Canals on leases otherwise than on a lease for a term of years.

		Rate, flow or lift, per *man*. Rs. A. P.
I.	For water supplied for the irrigation of rice between the 16th of June and the 30th November ...	3 0 0
II.	For water supplied for the irrigation of *dalwa* rice ...	1 8 0
III.	For water supplied for the irrigation of cotton, tobacco, *huldi*, ginger, wheat, vegetables, indigo, and garden produce	1 8 0
IV.	For water supplied for the irrigation of linseed, oil-seed, and all pulses	1 0 0
V.	For water supplied for the irrigation of sugarcane ...	5 0 0
VI.	The charge for filling tanks or for water used for manufacturing purposes is Re. 1 per 10,000 cubic feet of water supplied, and the same charge will be made if water is taken into a tank without authority or if used in an unauthorized manner.	

NOTE I.—Fractions of a goont will in all cases be charged as a *goont*.

NOTE II.—Water-rates due under item I shall be paid on or before the 1st of February, under items II and IV on or before the 1st of June, under items III and IV on or before the 1st of April, and under item VI one moiety before the water is supplied, and the other moiety within 15 days of the water being supplied.

APPENDIX I.

Application for a long term lease. Rate per man Re. 1-8, *Dhooya lands per man As.* 8. *Water to be supplied each year from the* 16*th June to the* 30*th November only, fractions of a goont to be charged as a goont.*

WE the undermentioned cultivators of mauza , pargana , submit this application for the supply of water from the distributary of the canal for a term of years, commencing on the 16th of June 18 , and ending on the 30th November 18 . We agree to pay water-rates as may be determined by the Canal Officer at the rates mentioned above on all rice lands which may, on enquiry, be found to be irrigable in mauza The amount thus assessed will be paid to the Deputy Collector, according to demand statements which may be issued in our names, on or before the 1st of February each year. We appoint , of mauza , pargana , to collect and pay the water-rate assessed on us. We agree to be bound by all rules which are passed by the Lieutenant-Governor of Bengal under the Irrigation Act, and to keep in proper order the ridges on our lands, so that no water may pass into unleased areas.

APPENDIX II.

Application for granting water prior to issue of permit.

WE, the principal cultivators of mauza pargana , on our own behalf and that of the other cultivators of the mauza, hereby certify that we have presented an application for the execution of a seven-year lease of all the irrigable land in mauza in area about *mans*.

To enable us to obtain water before the regular permit is issued, we severally and jointly bind ourselves to pay water rates for the whole area which on measurement shall be found to included in the block. The water-rate will be Re. 1-8 per *man*, but in the event of a seven-year lease not being concluded, Rs. 3 per *man* will be charged and paid by us on or before the 1st February next.

In token of our obligation in this agreement we have annexed our signatures below

Dated 18

APPENDIX III.

Application for a season lease, kharif, rabi or sugarcane.

1. WE, whose names are attached, cultivators of mauza , pargana , apply for water to be supplied from the distributary of the canal, for the irrigation of the areas named below.

2. The approximate areas to be irrigated by each cultivator is stated in the schedule following, but each of us agree to pay water-rates at the rate of Rs.———per *mán* on the area found to be in his occupation by measurement, with the proviso that only areas actually irrigated will be charged, fractions of a *goont* being charged as a *goont*.

3. We agree to prevent water being wasted or used in an unauthorized manner, and to abide by all the rules passed by the Lieutenant-Governor of Bengal under the Irrigation Act.

4. We agree to pay the water-rates due on this application on the———of———

NOTIFICATION.

No. 5409*M.*—*The* 15*th November* 1894.—It is hereby notified that, under section 27 of the Bengal Municipal Act III of 1884 as amended by Act IV of 1894, the Lieutenant-Governor is pleased to appoint Babu Sriram Chandra Bose to be a Commissioner of the Balasore Municipality, *vice* Babu Banka Behary Singha, resigned.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5416*M.*—*The* 17*th November* 1894.—In exercise of the power conferred on the Local Government by section 53, clause 3 of the Calcutta Hackney Carriage Act II of 1891, the Lieutenant-Governor is pleased to confirm the following bye-laws which have been framed by the Commissioners of the Gaya Municipality under clause 1 of the said section:—

BYE-LAWS UNDER THE HACKNEY CARRIAGE ACT.

(*A*).—*First class.*

1. First-class hackney carriage licenses shall be granted only for comfortable, roomy, clean, easy-running vehicles of a description superior in all respects to second-class carriages. They may be of any approved pattern, such as broughams, landaus, phætons, office-jaunts, &c. Each carriage must have a thoroughly good pair of lamps.

2. No carriage drawn by a pair of horses shall be licensed in the first class unless both animals are fit for their work and at least 14-2 hands high, and none drawn by a single horse unless the animal is fit for its work and at least 15 hands high.

(*B*).—*Second class.*

1. No carriage shall receive a second-class license unless it be in a thoroughly fit and proper condition.

2. If it be of the kind known as "palki-gharry" or "brownberry," it shall conform to the following dimensions:—

	Inches.
Breadth of carriage inside	36
Depth of seat	18
Width of well of carriage between cushions	24
Height of roof from seat cushions	40

3. The springs and the axles must be of thoroughly sound manufacture, all the iron work strongly put together, and the carriage must have a good pair of lamps.

4. No carriage drawn by a pair of horses shall be licensed in the second class unless both animals are fit for their work and at least 13 hands high, and when drawn by a single horse, that the animal is fit for its work and at least 14 hands high.

(*C*).—*Third class.*

1. No carriage shall receive a third class license unless it be in a clean and safe condition, have sufficient room inside to seat four persons, and have stout axles, springs and wheels and a good pair of lamps.

2. When drawn by a pair of ponies, each pony must be in a fit condition and at least 12 hands high. When drawn by a single pony, the animal must be fit and at least 13-2 hands high.

(*D*).—*General.*

1. No animal shall be deemed fit for its work unless it is so in respect of height, bone, muscle and condition, and equal to the work of drawing the carriage.

2. Harness must be of good description and strong. No chain or rope traces unless they be covered with leather, and no string fastenings will be allowed.

3. Under section 16 of the Act, carriages of all three classes shall each have a plate affixed in some conspicuous part of the outside of the carriage, specifying the class, the number of such carriage in the register, and the number of persons it is licensed to carry. The plate or carriage itself must bear also the owner's name. The number must also be painted on the lamps.

4. It shall be the duty of the registering officer upon receiving proper information or complaint in writing that any horse or vehicle licensed under the Hackney Carriage Act is unfit for use, to send for the same, and if after due enquiry he be satisfied of such unfitness, he shall by written order suspend the working of such horse or vehicle for a period not exceeding one month, after which period he shall again examine the horse or vehicle, and if they be still in an unfit condition, the suspension shall be continued for a further period of one month, and if then still found unfit, the license shall be withdrawn. During the period of suspension the license and plate shall be given up.

It shall be obligatory on the owner to produce within 24 hours any horse or vehicles so sent for.

5. Every person applying for a driver's license must be acquainted with the principal places and streets in and around the town of Gaya and have a thorough knowledge of the rates and fares in the schedule.

6. No driver shall be licensed unless he be acquainted with the rule of the road and be in all respects a fit person for such employment.

7. Every driver and syce, when acting as such, shall be properly clad.

8. The owner shall be responsible that every first and second-class carriage, when plying, or when on hire, shall have at least one syce and a coachman.

9. Every driver shall see that no hay, straw, or fodder for his animal is carried in the front portion of his carriage, and that it be not so placed at the back of the carriage, as to prevent a full view of the registered number of the plate.

10. Every driver when giving up service, leaving the town, or when under suspension, shall deposit his license and ticket at the Registry Office, to be returned to him on resuming work.

11. Every place where any hackney carriage or horse is kept shall be open to the inspection of the officers of the department at any hour of the day.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5423*M.*—*The* 17*th November* 1894.—It is hereby notified that, under section 27 of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, the Lieutenant-Governor is pleased to appoint Babu Benoy Krishna Bose to be a Commissioner of the South Suburban Municipality, in the district of the 24-Parganas, *vice* Babu Bejoy Madhub Mukerjee.

Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5430*M.*—*The* 19*th November* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Netrakona Municpality for a public purpose, viz., for a burial ground for Muhammadans within that Municipality, in the village of Chakpara, pargana Mymensingh, zilla Mymensingh, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigha and 15 cottahs of standard measurement, is required. The land is bounded on the North by the Barhatta road and Shamsher Khan's land; on the East by the houses of Kamal, Chandi, and Dengu Muchi; on the South by Shamsher Khan's land; and on the West by Shamsher Khan's waste and low lands.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

R. CARSTAIRS,
Deputy Commissioner, Sonthal Parganas.

Extract from the Annual Report of the District Road Account of the Sonthal Parganas for the year 1892-93, *by the Commissioner of the Bhágalpur Division and Sonthal Parganas.*

* * * * * * * *

2. It (the Sonthal Parganas) is not a cess district, and therefore has no District Board.

3. *Receipts.*—The year opened with an unexpended balance from the previous year of Rs. 36,321. The income of the year, including advances recovered and deposits received, amounted to Rs. 86,053. The total income of the year, including the balance of 1891-92, was Rs. 1,22,374.

4. The income under the head "Miscellaneous receipts" was Rs. 5,415, against Rs. 13,830 in the previous year. The decrease is owing to the fact that in the year 1891-92 the grant made by the Maharaja of Darbhanga for the improvement of the Sivaganga tank at Deoghur was Rs. 13,551 only, against Rs. 4,160 in the year under report.

5. The income under the head "Grant from Government" increased from Rs. 54,576 in the year 1891-92 to Rs. 57,580 in the year under report. This is owing to grants received for repairs to and maintenance of Government buildings.

* * * * * * * *

8. *Expenditure.*—The expenditure of the year, including advances and refunds of the security deposits, amounted to Rs. 1,00,295, against Rs. 71,814 during the previous year. The following table shows the expenditure incurred on account of public works as compared with the figures of the previous year :—

Year.	Original works.	Repairs.	Establishment.	Tools and plant.	Total.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
1891-92 ...	16,927	29,777	7,368	499	54,571
1892-93 ...	27,932	42,115	7,242	651	77,940

9. The percentage of the cost of establishment on the total expenditure on public works exclusive of advances is 9·2, against 13·5 of the previous year.

10. The principal original works carried out during the year are given below :—

From the District Road Fund.

(1) The construction of a masonry bridge over the Jibanpur nala on the Bhágalpur and Suri Road.

(2) The construction of a bridge our the Haripur nala at the 28th mile of the Dumka and Rampur Hát Road.

From the Government Estates Improvement Fund.

(3) Contstrucion of masonry culverts on the road from Rajmahal to Protabpur.

From the Siva Ganga Drainage Fund.

(4) Improvement of the Siva Ganga tank at Deoghur.

* * * * This work appears to have been completed during the year under report at the total cost of Rs. 17,276.

* * * * * * * *

11. All the roads entered in the printed schedule were repaired during the year. There were about 770 miles of road in the district, of which 183 were metalled and 587 unmetalled. The average cost of maintaining the metalled and unmetalled roads was about Rs. 70 and Rs. 20 per mile respectively.

The aggregate length of 3 village roads in the district is 17½ miles, and the cost of their maintenance during the year was Rs. 355, or Rs. 20 per mile.

12. *Buildings.*—The total Government grant for the maintenance of the Imperial and Provincial buildings in the Sonthal Parganas is Rs. 6,245, and the expenditure incurred during the year is Rs. 5,206.

13. *Arboriculture.*—Very few trees were planted during the year, but avenues already in existence were taken care of.

* * * * * * * *

LAND SALE NOTICES.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Faridpur will be put up for sale at the Collector's office of that district on 28th December 1894, for arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

C. A. G. LILLINGSTON,
for Conservator of Forests, Bengal.
Darjeeling, the 5th November 1894.

R. Scott Thomson & Co., Limited.

THE Sixty-third Half-yearly Ordinary General Meeting of Shareholders will be held at the Registered Office of the Company, 15, Government Place, on Monday the 26th instant, at noon, for the purpose of declaring an *ad-interim* dividend for the half-year which ended on the 30th September last.

By order of the Directors,
(725—3) ROBERT J. CAMERY, Secy. & Accts

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 „ 2-4 „
Under 7 feet „ 2 „

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Barhamghat Division.

Barhamghat, the 1st April 1886.

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16, or, post free, Rs. 16-12.
½ „ „ „ 8, „ „ „ „ 8-8.
¼ „ „ „ 4, „ „ „ „ 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloiks Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs.* 2, *ans.* 8; per eight-ounce tin, *Rs.* 5; per pound tin, *Rs.* 10. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs.* 3; per eight-ounce tin. *Rs.* 6; per pound tin, *Rs.* 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 *oz.* tin, eight annas per 8*oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

Notification.

IT is hereby notified that under section 46 of the Local Self-Government Act III (B.C.) of 1885, the District Board of Bankura have, at a Special Meeting held on the 22nd October 1894, determined to levy the road cess in the district for the ensuing Financial year 1895-96 at the maximum rate of half anna or 6 pies in the rupee on the annual value of lands, &c.

ROBERT CORNISH, Chairman.

BABU DEBENDRANATH CHAUDHURI, B.L., intends for enrolment as a vakeel of the High Court. (726—4)

India Rubber, Aconite, Chiretta and Manjista or Manjit.

TENDERS are invited before the 1st December 1894, for the purchase of the above from the forests of the Darjeeling Division in the Darjeeling district.

Tender forms and further information on application to the Deputy Conservator of Forests, Darjeeling Division, Darjeeling.

Notice.

SEALED tenders for the conveyance of import, export and other stores and for labour and the hire of boats as per Schedules A and B for two periods—one of twelve months, from 16th December 1894 to 31st December 1895, and another of three years, from 16th December 1894 to 31st December 1897—will be received by the Agent for Government Consignments, Calcutta, up to 12 noon, Wednesday, the 21st November current.

Tenders should be superscribed "Tender for contract, 1895" or "Tender for contract, 1895-6-7," as the case may be, and must be prepared on forms to be obtained from the undersigned. No tender will be received except on the prescribed form, and no additions or alterations must be made on the tender forms.

Each tender must be accompanied by a Bank of Bengal or Treasury Receipt for Rs. 700 as earnest-money, the earnest-money to be forfeited in the event of the tenderer withdrawing from the tender. No tender will be received without a deposit of this earnest-money

Tenders will be opened at 12 noon on Wednesday, the 21st November current, at his office No. 5, Strand, in the presence of such tenderers as may attend, by the undersigned, who does not bind himself to accept the owest or any tender.

M. H. CROZIER, Agent for Govt. Consignments.
The 8th November 1894.

(743—1)

Wanted

A MEDICAL OFFICR for the Board's Charitable Dispensary at Amragori, in thana Amta, on a salary of Rs. 35 per month including house and all other allowances.

None need apply who are not qualified under Rule 10 of the management of hospitals and dispensaries under the supervision of the Government of Bengal. The applications with copies of testimonials will be received by the undersigned up to 30th November 1894.

E. W. COLLIN, Chairman of the District Board, Howrah.
District Board's Office, Howrah, the 16th November 1894. (742—2)

Wanted

A SUB-INSPECTOR OF SCHOOLS on a salary of Rs. 40 rising to Rs. 50 a month and the usual travelling allowances.

2. The candidate must have passed the B.A. examination or he must have passed the F.A. examination, and have served successfully as a teacher in a subordinate capacity in a high school or as Head-master of a middle English school for not less than three years. His success as a teacher must be certified by an Inspector of Schools.

3. He must produce a certificate signed by two well-known respectable persons that they are well acquainted with him and believe him to be of good moral character. The certificate must be countersigned by the Magistrate of the district in which the candidate resides, or in Calcutta by the Commissioner of Police or a Presidency Magistrate.

4. He must produce a certificate showing that, on the latest date fixed for the receipt of applications, his age will not exceed 30 years. This certificate must be supported by a horoscope or, failing this, by other sufficient evidence.

5. He must produce a certificate signed by the Civil Surgeon of a district that he is of good health and sound physique.

Applications will be received by the Vice-Chairman of the Rajshahi District Board up to the 10th December 1894.

The appointment will be on probation for six months.

BRAJA GOPAL BAGCHI, Vice-Chairman.

(739—1)

The Commissioners for the Port of Calcutta.

NOTIFICATION.

THE following scale of charges for towing vessels in the Port of Calcutta, framed by the Commissioners under section 105, Act III of 1890, and approved by the Local Government in letter No. 2506 Marine, dated 13th November 1894, is published for general information, in accordance with the provisions of section 107 of Act III (B.C.) of 1890:—

Towing a vessel in ballast by the *Hetty* and one steam-hopper, or by two steam hoppers—

	Rs.
Budge-Budge to Calcutta or Garden Reach moorings	200
Budge-Budge to dry dock above bridge	250
Dry dock above bridge to Calcutta or Garden Reach moorings or *vice versâ*	150
For moving a vessel from one mooring to another below bridge, or between a mooring below bridge and the entrance of the Kidderpore Docks...	100
For a small vessel for which the *Hetty* alone would be sufficient. Two-thirds of any of the above charges ..	
For a vessel for which one steam hopper would be sufficient, half of any of the above charges.	
Half of any of the above charges when one tug belonging to the Port Commissioners is assisted by one not their property.	
Hire of *Hetty* for a day or part of a day	250
Hire of a steam hopper for a day or part of a day	150
Towing through the bridge only dhoonies between 100 and 150 tons	25
Do. do. between 150 and 200 tons	32

By order of the Commissioners,

R. A. DONNITHORNE, Secretary.

The 20th November 1894. (740—1)

F. COLLIS-SANDES,

Offg. Administrator-General of Bengal

Calcutta, the 19th November 1894. (748—1

Indian Terai Tea Company, "Limited."

SHAREHOLDERS' MEETING.

AT an Extraordinary General Meeting of the Shareholders of the Indian Terai Tea Company, "Limited," held at the Registered Office of the Company, No. 4, Mangoe Lane, Calcutta, on Saturday, the 29th day of September 1894, at 10-45 o'clock A.M.

PRESENT:

J. Tweedie, Esq., C.S.
A. G. Watson, Esq.
Hon'ble H. Beverley, C.S. — By his proxy, A. G. Watson, Esq.
R. B. Magor, Esq., Geo. G. Anderson, Esq. — By their Attorney, A. G. Watson, Esq.
H. Bell, Esq. — By his proxy, J. Tweedie, Esq., C.S.

J. Tweedie, Esq., C.S., in the Chair.

The notice convening the Meeting having been read, the following two Resolutions were proposed and carried unanimously:—

1*st*.—"That it has been proved to the satisfaction of this Meeting, that the Company cannot, by reason of its liabilities, continue its business, and that it is advisable to wind up the same, and accordingly that the Company be wound up voluntarily."

2*nd*.—"That Arthur Samuel Lovelock of Calcutta, Chartered Accountant, be and hereby is appointed Liquidator for the purposes of such winding up, and that all the powers given to Liquidators by the Indian Company's Act, 1882, may be exercised by the said Arthur Samuel Lovelock, and that his remuneration be fixed at Rs. 400 (rupees four hundred)."

With a vote of thanks to the chair the Meeting separated.

(746—1) J. TWEEDIE, Chairman.

In the Court of the District Judge of Hooghly.

In the matter of Shaikh Muktear, an insolvent.

NOTICE is hereby given that on the 3rd day of November 1894, Shaikh Muktear, son of late Shaikh Banku, of Mahishdengi, thana Dhaniakhali, in the district of Hooghly, was declared by this Court to be an insolvent under section 351, Civil Procedure Code.

The 7th December is fixed for framing the schedule of debts and creditors, when persons having claims against the estate are to appear and prove them in this Court.

A. AHMAD, Officiating District Judge.

Hooghly District Judge's Court, the 13th November 1894. (747—1)

In the matter of Carl Robert Appenzeller, an Insolvent.

NOTICE is hereby given that on Saturday, the 24th November instant, an application will be made by the insolvent abovenamed to the Court for the Relief of Insolvent Debtors at Calcutta for an order that his petition of insolvency may be dismissed, and the vesting order made in the above matter on and bearing date the 23rd July 1894 be set aside.

WATKINS & Co., Insolvent's Attorneys.

Dated this 10th day of November 1894.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 225.

[First Publication.]

BAY OF BENGAL—ORISSA COAST.

False Point harbour—Universal system of buoyage.

WITH reference to Notice to Mariners No. 19, dated 4th February 1893, issued by this office, the Port Officer, False Point, has given further notice that the following alterations have been made in the position of buoys marking the *Port hand* of the harbour, entering from seaward :—

Reddie Head sand spit inner buoy has been shifted 250 feet N. E. by N., and now lies moored in 24 feet water reduced.

Reddie Head flat buoy has been shifted 1,100 feet N. by W., and now lies moored in 13 feet water reduced.

The Port hand upper end of Harbour buoy has been shifted 1,200 feet north, and now lies moored in 11 feet 6 inches of water reduced.

The bearings are magnetic.

The buoys on the *Starboard hand* of the harbour will have to be shifted also, of which due notice will be given.

AUSTRALIA, SOUTH COAST—GIPPS LAND.

Gipps Land lakes entrance—Signal lights on east pier.

THE British Admiralty has given notice (No. 564 of 1894) that on 5th September 1894, the undermentioned signal lights would be shown from the extremity of the platform on east pier entrance to Gipps Land lakes:—

A *white* light will indicate that the entrance is safely navigable.

A *red* light will indicate that the entrance is dangerous.

Approximate position, lat. 37° 53′ 35″ S., long. 147° 58′ 30″ E.

NOTICE TO MARINERS—No. 228.

[First Publication.]

JAPAN—(1) GULF OF TOKIO—(2) KOREA STRAIT—(3) KIUSIU, WEST COAST.

Gulf of Tokio—Alterations in lights.

THE British Admiralty has given notice (No. 569 of 1894) that on 10th September 1894, the sector of *red* light, hitherto shown from Kannon saki lighthouse over Futsu saki, and visible between the bearings of S. 5° E. and S. 22° W., would be discontinued.

Approximate position, lat. 35° 15′ 20″ N., long. 139° 44′ 10″ E.

Also, that a light would be exhibited from the west side of Fort No. 2 in course of construction at the west extreme of Futsu saki.

Fort No. 2 light is a *fixed white* light, elevated 45 feet above the sea, and visible from a distance of six miles in clear weather. It is shown from a staff, painted white and 35 feet high.

Approximate position on Chart No. 2657, lat. 35° 18′ 40″ N., long. 139° 43′ 55″ E.

(2) *Korea strait—Tsu sima—red and white light on Ko saki.*

Also that, on 5th September 1894, a light was exhibited from a lighthouse recently erected on Ko saki (Koo saki), south point of Tsu sima:—

Ko saki light is a *fixed* light, showing *white* from N. 85° W., through north and east, to S. 83° E.; and *red* from S. 83° E. to S. 63° E. (over the reefs off Tsuzu (Mame) saki). It is elevated 192 feet above the sea, and visible in clear weather from a distance of 15 miles.

The lighthouse, 22 feet high, is a rectangular wooden tower, painted white.

Approximate position on Chart No. 358, lat. 34° 5′ 30″ N., long. 129° 12″ E.

(3) *Kiusiu, west coast—Amended arc of red light at Shirase lighthouse.*

Also, with reference to Notice to Mariners No. 556 (2) of 1894:—

That Shirase (Shiro se) light shows *red* between the bearings of N. 63° W., through north, to N. 77° E.; and *white* in other directions; and not as stated in Notice to Mariners No. 556 (2) of 1894.

Approximate position on Chart No. 359, lat. 33° 5′ 30″ N., long. 129° 37′ 30″ E.

BAY OF BENGAL—BURMA COAST.

Wreckage on Oyster island.

Caution.—The Port Officer, Rangoon, has given notice, dated the 25th October last, that the Master of the R. I. M. S. *Minto* reports that on his last visit to Oyster island a piece of wreckage, which apparently had formed a portion of a steamer's fore-and-aft bridge, was laying on the island. The wreckage in question is made of 4″ pine, is about 3 to 4 feet broad and 10 to 12 feet long, and had two iron stanchions fitted to it on one side only. The underneath part is painted white and the upper side holystoned. Mariners are accordingly cautioned.

AUSTRALIA—MORETON BAY.

Amended limits of the Pilot vessels' cruising ground.

THE Port Master, Brisbane, has given notice (No. 18 of 1894), with reference to Notice to Mariners No. 18, issued on the 27th October 1892, that the outer limits of the Pilot vessels' cruising ground at the Northern Entrance to Moreton bay, as therein defined, have been extended to the northward and eastward.

The cruising ground is therefore now defined as follows:—Inside an imaginary line drawn from Cape Cliff N by E. ¾ E. (Mount Tempest in line with Cape Cliff) seven and three-quarter miles; thence to the Fairway buoy at the entrance to the North Channel; thence along the eastern edge of the East and Venus Banks to the outer entrance to Freeman channel; thence to cape Moreton.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

[Second Publication.]

AUSTRALIA—CAPE MORETON, NORTH POINT, AND MORETON ISLAND.

Exhibition of additional lights.

THE Port Master, Brisbane. has given notice (No. 19 of 1894) that on and after 15th October, the following lights will be exhibited to assist in marking the fairway between cape Moreton and Smith Rock:—

North Point Hummock.—A small light in a square light-room painted white on the summit of the hummock, showing a sector of white light to the eastward between the bearings of S. 54° W. and S. 82° W., visible about seven miles.

Secondary Light, Cape Moreton,—Bearing N. 18° E., and distant 180 yards from the main light. This light in line with the main light indicates the direction of Smith Rock.

Directions.—Vessels passing between Smith Rock and Moreton island must cross the line of lights at cape Moreton whilst in the sector of white light shown from North Point Hummock.

Charts affected—Nos. 1029, 1068, and 1670A; and Australia Directory, volume 2.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

NOTICE TO MARINERS—No. 223.

[Second Publication.]

JAPAN—KOREA STRAIT—TSU SIMA.

(1) *Fixed white light on Mitsu Misou sima.*

THE British Admiralty has given notice (No. 556 of 1894) that a light is exhibited from a tower recently erected on Mitsu (Misou) sima, off the northern extreme of Tsu sima, Korea strait:—

Mitsu sima light is *fixed white*, elevated 52 feet above high water, and visible in clear weather from a distance of 8 miles, between the bearings N.E. ¼ E. (N. 55° E.) and N.W. ¼ N. (N. 42° W.).

The light-house is a square wood tower, 18 feet high, painted blak.

Approximate position on Admiralty Chart No. 358, lat. 34° 43′ 20″ N., long. 129° 24′ 45″ E.

KIUSIU—WEST COAST.

2. *Fixed white and red light on Shirase (Shiro se).*

Also, that a light is exhibited from a tower on Shirase (Shiro se), west coast of Kiusiu:—

Shirase (Shiro se) light is *fixed*, shows *white* between the bearings E. ¾ N. (N. 86° E.), through South, to N.W. ¾ W. (N. 54° W.), and *red* to the southward over the shoals Ganashe and Naknshe. It is elevated 45 feet above high water, and visible in clear weather from a distance of 6 miles.

The light-house is a square wood tower, 11 feet high, painted white.

Approximate position on Admiralty Chart No. 359, lat. 33° 5′ 30″ N., long. 129° 37′ 30″ E.

3. *Fixed white and red light on Odate (Ootate).*

Also, that a light is exhibited from a tower on Odate (Ootate).

Odate (Ootate) light is *fixed white*, with two *red* sectors showing respectively between the bearings S.E. ⅛ S. (S. 43° E.) and S.S.E. ⅝ E. (S. 27° E.), and between N.W. ¾ W. (N. 53° W.) and N.N.W. ¼ W. (N. 28° W.). It is elevated 200 feet above the sea, and visible in clear weather from a distance of 6 miles.

The light-house is a square wood tower 22 feet high, painted white.

Approximate position on Admiralty Chart No. 140, lat. 33° 1′ 20″ N., long. 129° 26′ 10″ E.

(*Variation 4° Westerly in* 1894.)

JAPAN—GULF OF TOKIO OR YEDO.

Portion of the gulf obstructed by torpedoes.

THE British Admiralty has given notice (No. 518 of 1894) that the undermentioned area in the gulf of Tokio would be obstructed by torpedoes:—

The area is comprised westward of an imaginary line drawn from Hasiri mizu point (Rubicon point) to Honmoku (Treaty point) buoy, and southward of a line joining Oshiba saki (Fillmore point) with Hitomi-yama.

This area will be marked by two buoys on the line joining Honmoku buoy and Hasiri mizu point, and a *red* light on the point.

Vessels must pass eastward of the above-mentioned area, giving it a wide berth.

Approximate position of Rubicon point, lat. 35° 16′ N., long. 139° 43′ E.

CHINA.

Hongkong—Pescadores islands—Yung river approaches, &c.

The following information received from the British Admiralty (No. 530 of 1894) is republished :—

(1) *Hongkong—Shoal in Stonecutter's anchorage.*

The British steamship *Trocas* grounded on a patch of rock having 3 fathoms over it, situated 3 cables N. by E. (N. 11° E.) from the eastern extreme of Stonecutter's island Hongkong harbour.

A conical white buoy has been temporarily moored in 4½ fathoms close southward of the patch.

Approximate position, lat. 22° 19′ 40″ N., long. 114° 8′ 55″ E.

(2) *Pescadores islands—Caution when approaching.*

Also, that all vessels, whether ships of war or otherwise, approaching the Pescadores islands, should fly their national flags during the day, or sound the whistle and exibit lights at night. Signals made from the shore must be answered in order to prevent errors.

(3) *Yung river approaches—Temporary discontinuance of lights, beacons, and buoys.*

Also, that the lights respectively on Tse le (Square island) and Tiger island have been temporarily discontinued.

The beacons on Blonde rock and Tiger's tail, also the buoys on Nemesis rock, Siau yu spit, and Sesostris rock have been temporarily removed.

Torpedoes have been laid down at the entrance to Yung river, and vessels should not enter without a torpedo pilot, nor anchor inside Tiger island. It is dangerous to approach Chinhai forts at night.

(4) *Approaches to Liau Ho and Newchwang.*

Also, that vessels should not enter Newchwang by night, and must show flags or lights when approaching the port.

JAPAN—Yatsushiro sea—Ogasawara (Bonin islands).

(1) *Sunken reef in Zozo no-seto.*

The British Admiralty has given notice (No. 536 of 1894) that a sunken rock lies in Zozo no-seto, in Yatsushiro sea.

This rock, having a depth of about 6 feet over it at low water, lies approximately in lat. 32° 34′ 40″ N., long. 130° 28′ 55″ E.

(2) *Sunken reef in Matsuzaki-Wan, Hachiman seto.*

Also, that a rock with 2 fathoms over it at low water lies approximately in lat. 32° 13 45″ N., long. 130° 4′ 40″ E.

OGASAWARA (BONIN ISLANDS).

(3) *Sunken reefs off Futami Kau (Port Lloyd), and leading mark into the harbour.*

Also, that the undermentioned rocks lie off Minami jima, Ogasawara (Bonin islands):—

A rock with 5 fathoms over it lies approximately in lat. 27° 3′ N., long. 142° 8′ 50″ E.; and another rock with 6 feet over it lies about 4 cables E.N.E. from the above.

A triangular white beacon stands 3½ cables East of Kaname iwa (Castle rock), which, kept in line with a white patch on Kaname iwa, leads into port Lloyd.

JAPAN—Gulf of Tokyo or Yedo.

1. *Light and buoys marking area obstructed by torpedoes.*

With reference to Notice to Mariners No. 202, dated the 27th October last, issued by this office, the British Admiralty has given further notice (No. 543 of 1894) that the undermentioned light and buoys are placed to mark the area obstructed by torpedoes in Tokyo gulf :—

Hashirimidzu (Hasiri mizu) point light is *fixed red*, showing over an arc of 5°, or between the bearings S. 12° E. and S. 17° E., elevated 91 feet above the sea, and visible in clear weather from a distance of 6 miles.

The lighthouse is a square framework 15 feet high and painted white.

Approximate position on Admiralty chart No. 2657, lat. 35° 15′ 55″ N., long. 139° 43′ 10″ E.

A conical buoy, with black and white horizontal stripes, and surmounted by a globe, is moored in 28 fathoms, 1½ miles N. 12° W. from Hashirimidzu light.

A conical buoy painted red, and surmounted by a globe, is moored in 28 fathoms, 5 miles, N. 12° W., from Hashirimidzu light.

The area obstructed is westward of a line drawn from the above light and the red buoy, and southward of a line drawn from the red buoy to Fillmore point.

2. *Light-buoy altered in position.*

Also, that the light-buoy in Uraga channel has been moved 9½ cables S. 14° W., and now lies in 37 fathoms, 4½ cables N. 33° E., from Hashirimidzu light above mentioned.

3. *Regulations.*

Vessels are not permitted to enter or leave the gulf of Tokyo without the conduct of a Pilot vessel having on board an officer of the Imperial Japanese Navy, and no vessel will be permitted to enter or leave between sunset and sunrise.

Vessels arriving from distant places will be informed of these regulations by the Pilot vessel referred to.

GENTLEMEN,

WE have the honour to report that the Cash and Store Accounts maintained in your office for the year ending 31st March 1894 have been audited under our supervision and by our direction, and to certify that they have been found correct.

We append Statements (1) of Receipts and Expenditure during the year under audit, and (2) of Assets and Liabilities on the 31st March 1894, as obtained from your books.

We have also to invite your attention to some apparent irregularities of procedure, as detailed in the accompanying note, and to suggest that they should be avoided in future.

We have the honour to be,

GENTLEMEN,

Your most obedient Servants,

G. E. MANISTY,
Offg. Accountant-General, Bengal.

Note on the accounts of the Commissioners for making improvements in the Port of Calcutta, for the year 1893-94.

In examining twelve establishment bills selected at random, the following irregularities were noticed. In Part VI, cash voucher No. 230 of January 1894, the pay of—

	Rs.	A.	P.
Jharoo Tindal	11	9	9
Issup Duftry	8	0	0
	19	9	9

has been debited against estimate No. 30-4, Tramway Contingencies.

This is not only erroneous classification, but a contravention of section 75 of the Calcutta Port Act, which requires distinct provision for salaries in the estimates.

Again, in the same bill the pay of two tindals have been included, viz.,—

	Rs.	A.	P.
Noorkur Tindal	11	9	9
Mader Bux	11	9	9
	23	3	6

but debited against Part VIII, Kidderpore Dock extra establishment for further expansion, without any such provision being made either under estimate No. 38 of the regular budget or in Appendix G, the supplementary budget for the Kidderpore Docks, dated 21st August 1893.

2. The same difficulty was experienced in examining the establishment bills this year as last, owing to the suggestion in paragraph 12 of the audit note of last year not having been acted on by your office.

3. The comparison between your budget estimates and the actuals for the year 1893-94 is as follows :—

Part I.—Jetties.

Expenditure.	Estimate.	Actual.	Excess of actual over estimate.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of salaries—Control ...	26,369	26,917	548
Working expenses	1,57,112	1,60,234	3,122
			3,670

The excess of Rs. 3,670 was, however, more than met from savings under other heads.

4. *Part II.—Inland Vessels' Wharves.*

Expenditure.	Estimate.	Actual.	Excess of actual over estimate.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of salaries—Control ...	13,184	13,458	274
Repairs	37 800	38,582	782
Sibpore Chur Lands ...	5,700	8,409	2,709
Renewal and improvements ..	.....	8,000	8,000
Gross excess	.....	.....	11,765

This gross excess of Rs. 11,765 was only partly met from savings under other heads to the extent of Rs. 7,011, leaving a nett excess of Rs. 4,754, as follows:—

	Rs.
Total expenditure, actual	3,90,564
Ditto, estimated...	3,85,810
Nett excess of expenditure over the budget estimate ...	4,754

Out of the Rs. 7,011 savings under other heads, Rs. 6,300 is due to savings under the following heads:—

	Estimate.	Actual.	Excess.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of dredger expenses ...	17,690	15,353	2,337
Salaries	57,732	55,182	2,550
Working expenses	8,440	7,027	1,413
			6,300

5. *Part III.—Strand Bank Lands.*

	Estimate.	Actual.	Excess of actual over estimate.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of salaries—Control ...	6,592	6,729	137
Municipal taxes	16,637	16,937	300
Insurance	41	88	47
			484

This excess of Rs. 484 was, however, more than met from savings under other heads.

6. *Part IV.—Harbour Masters' Department.*

Expenditure.	Estimate.	Actual.	Excess of actual over estimate.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of salaries—Control ...	26,368	26,917	549
Salaries and working expenses *Hetty.*	4,320	7,819	3,499
Depreciation on block ...	34,890	55,110	20,220
Salaries	1,82,536	1,82,902	366
Pensions	15,500	16,798	1,298
Renewal and improvements ...	.....	21,000	21,000
Gross excess ...	.....	.....	46,932

This gross excess of Rs 46,932 was only partly met from savings under other heads to the extent of Rs. 25,413, leaving a nett excess of Rs. 21,519, as follows :—

	Rs.
Total expenditure—	
Actual	5,34,871
Estimated	5,13,352
Nett excess of expenditure over the budget estimate ...	21,519

Out of the total of Rs 25,413 (savings under other heads), Rs. 25,148 is due to reduced expenditure under the following heads :—

	Estimate.	Actual.	Excess.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of working expenses and repairs to dredgers.	17,690	15,353	2,337
Proportion of municipal taxes and repairs to officers' quarters.	3,336	2,468	868
River Police establishment ...	41,586	27,139	14,447
Repairs to boats, vessels, &c. ...	34 800	31,242	3,558
Working expenses	35,044	32,084	2,960
Establishment for licensing boats	11,484	10,506	978
Estimates in excess of the amounts actually spent.	.....	.....	25,148

7. *Part VI.—Tramway.*

Expenditure.	Estimate.	Actual.	Excess.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of salaries —Control ...	6,592	6,729	137
Working expenses	74,743	82,527	7,784
Gross excess ...	.....	.....	7,921

This gross excess of Rs. 7,921 was only partly met from savings under other heads to the extent of Rs. 1,249, leaving a nett excess of Rs. 6,672, as follows :—

	Rs.
Total expenditure—	
Actual	2.42,354
Estimated	2,35,682
Nett excess of expenditure over the budget estimate ...	6,672

8. *Part VII.—Port approaches.*

Expenditure.	Estimate.	Actual.	Excess.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of salaries—Control ...	13,184	13,458	274
Repairs	67,800	1,02,902	35,102
Working expenses	99,350	1,17,700	18,350
Depreciation	50.000	50,467	467
Gross excess ...	.....	.....	54,193

This gross excess of Rs. 54,193 was only partly met from savings under other heads to the extent of Rs. 2,786, leaving a nett excess of Rs. 51,407, as follows:—

Total expenditure—	Rs.
Actual	5,36,059
Estimated	4,84,652
Nett excess of expenditure over the budget estimate ...	51,407

9. *Part VIII.—Kidderpore—Dock Revenue.*

Expenditure.	Estimate.	Actual.	Excess.
1	2	3	4
	Rs.	Rs.	Rs.
Proportion of salaries—Control...	26,369	26,917	548
Salaries of establishments ...	47,985	52,299	4,314
Salaries of special toll ...	20,556	21,037	481
Working expenses	2,83,610	3,18,863	35,253
Deposit of special toll ...	.....	3,373	3,373
Gross excess ...	.....	.....	43,969

This gross excess of Rs. 43,969 was only partly met from savings under other heads to the extent of Rs. 6,343, leaving a nett excess of Rs. 37,626, as follows:—

Total Expenditure—

	Rs.
Actual	16,07,502
Estimated	15,69,876
Nett excess of expenditure over the budget estimate ...	37,626

No supplementary estimates allotting funds to cover the above-noted excesses appear to have been submitted to Government for sanction. In this connection we would invite your special attention to the provisions of sections 69 to 74 regarding the preparation of original and supplementary estimates, and report to Government when expenditure exceeding any budget estimate by more than Rs. 5,000 is made in cases of pressing emergency, and would point out that it is incumbent on the Commissioners to strictly follow these directions.

G. E. Manisty,

Offg. Accountant-General, Bengal.

J. E. Robertson,

Examiner of Local Accounts.

Note.—Excess expenditure subsequently sanctioned by Government under section 72 of Act III of 1890.

Published under the provisions of section 76 of Act III of 1890.

By order of the Commissioners,

R. A. Donnithorne,

Secretary.

AUDITORS' REPORT ON HOOGHLY BRIDGE ACCOUNTS FOR THE YEAR ENDING 31ST MARCH 1894.

No. $\frac{\text{L. A.}}{254}$.

FROM

THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS OF THE HOWRAH BRIDGE,

To

THE COMMISSIONERS OF THE HOWRAH BRIDGE, CALCUTTA.

Dated Calcutta, the 3rd September 1894.

GENTLEMEN,

WE have the honour to report that the accounts of the Howrah Bridge for the year ending 31st March 1894 have been audited under our supervision and by our direction, and to certify that they have been found correct.

We append statements of (1) Income and Expenditure during the year under audit, and (2) Assets and Liabilities on the 31st March 1894, as obtained from your books.

A note is added comparing the receipts and expenditure with the estimates for the year.

We have the honour to be,

GENTLEMEN,

Your most obedient servants,

G. E. MANISTY,
Offg. Accountant-General, Bengal.

J. A. ROBERTSON,
Examiner of Local Accounts.

The 2nd August 1894.

Note on the accounts of the Howrah Bridge for the year 1893-94.

THE comparison between the budget estimates and the actual receipts and expenditure is as follows :—

Receipts.

PARTICULARS.	Estimate for 1893-94.	Actuals for 1893-94.	Increase.	Decrease.
1	2	3	4	5
	Rs.	Rs. A. P.	Rs. A. P.	Rs.
Receipts from Railway traffic	1,23,000	1,24,633 9 0	1,633 9 0	.....
Earnings of Howrah Bridge steamer *Helvetia* ...	50	64 0 0	14 0 0	.....
Proportion of earnings of steam-tug *Hetty* ...	9,000	5 625 0 0	.....	3,375
Interest on Government securities for Reserve Fund.	24,000	24,404 0 0	404 0 0	.....
Salaries	Nil	490 9 10	490 9 10	.....
Interest on Government securities for Pontoon Reserve Fund.	Nil	2,000 0 0	2,000 0 0	.....
	.....	.....	4,542 2 10	3,375

	Rs. A. P.
Increase	4,542 2 10
Decrease	3,375 0 0
Nett Increase ...	1,167 2 10

thus showing a nett increase of actuals over estimates of Rs. 1,167-2-10.

Expenditure.

PARTICULARS.	Estimate of 1893-94.	Actuals for 1893-94.	Increase.	Decrease.
1	2	3	4	5
	Rs.	Rs. A P.	Rs. A. P.	Rs. A. P.
Proportion of control establishments ...	13,184	13 458 13 7	274 13 7	.....
Proportion of interest and sinking fund on Trust loan	10,856	10,855 12 0	.....	0 4 0
Proportion of municipal taxes and repairs to officers' quarters	1,334	987 4 11	.....	346 11 1
Proportion of municipal taxes, Dockyard ...	6,427	6,272 15 2	.....	154 0 10
Proportion of establishment of steam-tug *Hetty*	12,960	5,072 12 5	.....	7,887 3 7
Salaries of establishment	32,489	31,418 8 10	.....	1,070 7 2
Working expenses	17,808	21,556 0 2	3,748 0 2	.....
Repairs	38,200	38,735 14 4	535 14 4	.....
Establishment of ferry steamer *Buckland* ...	18,368	15,357 14 3	.....	3,010 1 9
Renewals	1,200	Nil	.....	1,200 0 0
Municipal taxes on quarters for Howrah Bridge Police	478	164 3 6	.....	313 12 6
	.....	.....	4,558 13 1	13,982 8 11

	Rs. A. P.
Decrease	13,982 8 11
Increase	4,558 13 1
Net decrease ...	9,423 12 10

thus showing a net decrease of actuals under estimates of Rs. 9,423-12-10.

In last year's report it was pointed out that sections 21 and 23 of Act IX of 1871 prohibited the expenditure of money in excess of the estimates without obtaining the sanction of Government to a supplementary estimate. We would now draw your attention to the fact that a similar procedure appears to be necessary when the provision is exceeded

under any of the heads shown in the form of budget prescribed by the Lieutenant-Governor under section 19, even though there may be saving on the total of the budget estimates.

In auditing the establishment bills it was noticed that stamped receipts had not been taken from the payees in the following cases :—

Cash voucher No. 1670 of September 1893—

			Rs.
Pay of Deen Khan, serang	...	...	... 22
,, Munshi, stoker	...	...	... 30
,, Maithuzuddy, fireman	...	...	... 22

REPORT ON THE STATE OF THE SALT MARKET FOR THE SECOND QUARTER OF 1894-95.

No. 924B., dated Calcutta, the 12th November 1894.

From—N. K. BOSE, Esq., Offg. Secretary to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Financial Department.

SALT.

HON'BLE D. R. LYALL, C.S.I.

I AM directed to submit the following report on the state of the salt market for the second quarter of 1894-95, comprising the months of July, August and September 1894.

2. The quantity of salt of every description cleared during the quarter under report amounted to 27,54,188 maunds against 27,18,594 maunds in the previous quarter, and 24,44,590 maunds in the corresponding quarter of the previous year; and the net duty levied thereon was Rs. 63,79,206 against Rs. 64,42,704 in the previous quarter, and Rs. 57,21,769 in the corresponding quarter of the previous year. In all cases fractions are omitted.

3. The quantity of excise salt removed from the golas in Orissa during the quarter under review and the quantity which remained in store at the close of the quarter are shown in table I:—

TABLE I.

1	2
	Puri.
	Mds. s.
Balance at close of the last quarter	1,61,396 0
Manufactured or added during the quarter ...	54,628 0
Total ...	2,16,024 0
Sales during the quarter	12,023 0
Wastage	3,300 0
Total ...	15,323 0
Balance at close of the quarter	2,00,701 0

There was no salt in golas in the other two districts.

4. The total sale of excise salt during the quarter under review amounted to 12,023 maunds against 4,586 maunds in the previous quarter, and 15,456 maunds in the corresponding quarter of the previous year. The total amount of excise salt on which duty was paid during the quarter was 12,023 maunds.

5. The subjoined table shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter under review compared with the figures of the corresponding quarters of the previous two years:—

TABLE II.

	Mds.	Mds.	Mds.	Mds.	Mds.
Sulkea Government golas	6,42,206	7,94,078	9,86,216	14,74,417	29,92,134
Chittagong ditto	36,893	91,185	1,53,832	74,381	1,18,723
Total ...	6,79,099	8,85,263	11,40,048	15,48,798	31,10,857

The principal feature of the quarter is the large increase of salt in bond in Calcutta, the total having more than doubled during the period under review.

7. The despatches of salt from Calcutta by water and the three railways passing the several salt-pass stations into the interior of the country both east and west of the river Hooghly, as well as the despatches by steamers and flats during the quarter under review and the corresponding quarters of the previous two years, are shown in the table below:—

TABLE IV.

PERIOD.	BY WATER.					BY RAIL.			BY STEAMERS AND FLATS.	
	Vid Balikhal.	Vid Sankrail.	Vid Govt. Khally.	Vid Kidderpore.	Vid Ballisghata.	Vid Ruthtollah Ghat.	By the East Indian Railway.	By the Eastern Bengal and South-Eastern Railways or vid Chilpur.	Quantity despatched to the interior (excluding Orissa).	Quantity despatched to Orissa.

8. The quantity of salt despatched by the East Indian Railway to stations beyond Buxar during the quarter under review amounted to 2,248 maunds 20 seers as noted in the margin, against 1,873 maunds 30 seers in the previous quarter and 1,438 maunds in the corresponding quarter of the previous year.

	Mds.	s.
July	749	20
August	874	30
September ...	1,124	10
Total ...	2,248	20

9. The quantity of saltpetre-salt removed from the refineries on payment of duty amounted to 6,238 maunds against 8,258 maunds in the previous quarter, and 4,311 maunds in the corresponding quarter of the previous year.

10. The shipments of Liverpool salt for the port of Calcutta according to published market reports were as follows:—

	Tons.
July	18,110
August	21,070
September	6,750
	45,930

It is reported that 7,050 tons of Hamburg salt were shipped for Calcutta during the quarter under review.

11. Table V shows the average wholesale price per 100 maunds of Liverpool and other descriptions of salt during each fortnight of the quarter:—

TABLE V.
